REMARKS BY THE SPEAKER

Speaker Cochran addressed the House as follows:

The familiar crack of the gavel has sounded the beginning of the second session of the Sixty-sixth General Assembly. As Speaker I welcome you back.

The opening of this session brings special significance because this year, 1976, is our nation's 200th birthday. The celebration of the bicentennial year should be one of the very proudest times for a nation and its people. No country in history has had more reason to be proud of its beginnings than our own. I think we signified that this morning with the flag ceremony.

Nowhere in the world have individuals more freedom and opportunity than we do in the United States. We give thanks to our forefathers for their strength and foresight that allows us these qualities.

This year also marks the 130th anniversary for the State of Iowa. The people of Iowa can look with pride on our legislature and its accomplishments. If our forefathers could be with us today I am sure they would be proud of our state. Five years ago Iowa received an award for having the best legislature of the smaller states and the sixth best

in the nation among all fifty states. Last year the lawmakers of Iowa received the award for the legislative body having made the most improvement.

In the session just past you worked long and hard to prove that these awards were well justified, not only for past performance, but for the present and for the building of the future.

But we cannot rest on our laurels. Facing us are challenges that few legislative bodies have had to face before. Of highest priority is the property tax issue. This is real, it is serious and it demands a solution both in the immediate as well as the long term. Everyone will be the loser if this becomes a partisan issue drowned in politics, or the rich are pitted against the poor or rural against urban.

A most delicate issue will be how we meet the needs of our people and still maintain a healthy budget. I pledge to you we will take care of our people while still being fiscally responsible. Iowa is in the enviable position of being one of a very few states in the nation with a surplus in their budget. We are not going to blow it, I promise you.

Many other priorities await our careful consideration. In preparation for these issues much research and study has been done by interim study committees to supply this body with good sound bill proposals in order to pass good legislation and make this session more efficient.

Preparation of a good seedbed in farming is essential in the harvesting of a good crop. So it is with the production of good legislation. The appropriations committee has prepared the seedbed for us to move ahead with haste and efficiency. But we always sow our seed wisely remembering that "as we sow, so shall we reap".

When we began our session last year many of you were freshman legislators, new to politics and the process of enacting State laws. This year you return as seasoned veterans, sound because of months of experience and research and confident that you can meet the challenge. You will, no doubt, take an even more active part in the law making process this year. Much will be expected of you, not only by your fellow legislators, but also by the people of this state. I know you will handle your position and the responsibility it holds to the people of Iowa well.

There are those who felt a country such as America which was based on a Democary could not survive for even a few years, yet now we welcome our 200th birthday this year, older, wiser, but stronger than many of our critics thought we could ever hope to be. Iowa is part of this Democracy, and we, as State Representatives, share the responsibility as well as the success when we enact good legislation. Let us begin this bicentennial session with the true spirit of the American people that no job is too large for us to undertake. We will demonstrate that we can dream the impossible dream and then carry it out.

REMARKS BY THE MINORITY LEADER

Millen of Van Buren addressed the House as follows:

MR. SPEAKER, LADIES AND GENTLEMEN OF THE HOUSE:

My remarks this morning will be brief. In making these remarks, and to preface them, I wish to quote from a speech made in modern day legislative history:

"Today we assemble here to assume our legislative duties. . . . None of us are freshmen. We are seasoned veterans.

"That experience is going to prove to be . . . essential as we attempt to guide state government in these times of confusion, uncertainty of the future, and mistrust of public officials.

". . .

"I want to assure everyone that the . . . (minority) members of this . . . (House) recognize the monumental tasks that lie before us. We are here to represent the people . . . not just the rich, not just special interests, but all of the people.

". . . The problems must be solved.

"Therefore, I assure you the . . . (minority) members of this . . . (House) are here to help solve the people's problems. There will be no easy solutions. We must approach our obligations with reason and compassion.

"We must keep in mind also that this is a political election year. But a game of politics will not measure up. Some in this Assembly will no doubt attempt to sidetrack us with political rhetoric as we face the issues. We must go about our business as true statesmen.

". . .

"With these solemn thoughts in mind, the members of the minority party are here . . . to extend their hands of cooperation, whenever possible, to legislate wisely for the people.

". . ."

Those comments were made by the Iowa House minority leader just two years ago at the opening of the second session of the Sixty-fifth General Assembly; I agree wholeheartedly with them and hope that this type of cooperation will again be extended by the Democrats now that the Republicans are in the minority because we are most certainly willing to cooperate in every responsible way we can.

Not only state government—but all government—is in a state of confusion and until many problems are resolved, especially the tax issue, this confusion will prevail—most assuredly there is an air of uncertainty of the future where taxes are concerned.

I also agree with his remarks when he stated: "At no time in the history of our state has the challenge been so great to the members of this honorable body. It certainly is a time when we need dedicated and capable members as well as leadership."

However, I feel it is my sad duty to point out that leadership during this past interim has been lacking if the productivity of study committees is any indication. It is my hope that the Democratic leadership will now prevail upon the years of knowledge that are encompassed within the Republican party and work with us to solve the problems that are facing us—not only as legislators—but also as citizens of the State of Iowa.

The Republican caucus is ready, willing and able to give the citizens of Iowa the benefit of its expertise in any area possible, and to do it hand in hand with the Democrats for responsive and responsible legislation.

None of we Republicans are looking for personal glory or want "political rhetoric" in this election year—our first resolve is to make this session as short and as productive as possible.

Mr. Speaker, to paraphrase one of the statements you made during your

closing remarks last session: we have returned to our homes and our constituency—we have listened to the people whose problems and concerns are the ones that really count—and I give each of you my personal promise that at no time will the Republicans of the House impede the progress of this legislature as long as these assessments are adhered to and responsible positions are put forth.

However, we will not sit back idly and let the people of the State of Iowa receive irresponsible legislation without letting the majority party and the citizens of Iowa know that we are against such action. We in the minority party of the House may be small in number, but when actions are taken that are not for the good of the entire state—we will be heard.

With that in mind, I again pledge the Republican party's cooperation, support and a desire for a short and productive session.

REMARKS BY THE MAJORITY LEADER

Fitzgerald of Webster addressed the House as follows:

MR. SPEAKER, LADIES AND GENTLEMEN OF THE HOUSE:

First of all I'd like to welcome all of you back to the second session of the Sixty-sixth General Assembly.

The attitude of each legislator will be extremely important during this session. Some will say that this year partianship will prevail; that the lovefest from last year is finished. That need not be the case. Some will say that since this is an election year everyone should look out for themselves and that selfishness should prevail. Again, that need not be the case. Some will chide legislative policy decisions on fiscal management and the meeting of human needs as mere attempts to better their own policies. Again, this shortsighted thinking need not be the case.

The best re-election politics for individual legislators is to work as hard as possible toward the solution of the problems before us—not merely one's selfish interest, but the good of the state as a whole. Less rhetoric and more substance should be the watchword for this election year session. Problem solving should be the key, but short run solutions should not guarantee long term problems.

The questions before us are not partisan questions to be settled in a selfish manner merely for our own re-election efforts. Rather they are questions that require the cooperative energies, hearts and minds of each of us working toward a common goal.

That common goal should be the rational attempt to meet the needs of Iowans that need our help. It should be an attempt to insure that the financial cost of government is not overly burdensome and that this burden is distributed in a fair and equitable manner.

I'm asking each and everyone of you here to give a little extra this year. Most people don't truly realize the time, effort and energy that legislators put in to make a successful legislative effort. In spite of that, I'm going to ask right now that each and every one of you give even more than you did last year. Not only of your energy but also of your attempts to cooperate with one another regardless of what devisive efforts there may be put before us. I think with that in mind, we'll have a much more effective legislative session, and each of us, in the end, will have a better chance for re-election with that overriding goal. Thank you very much.

ANNOUNCEMENT BY THE CHIEF CLERK

The following communication was received from Serge R. Garrison, director of the Legislative Service Bureau:

Many legislators requested bill drafts to be prepared prior to the convening of the legislative session. The Legislative Service Bureau will be notifying all legislators whose bills are completed of such fact within the next day or two. It will take a day or two to clear the completed bills from the Bureau offices. If at all possible, legislators are requested to delay inquiries as to the status of bills for a day or two in order that completed bill drafts can be cleared from the offices of the Legislative Service Bureau and to prevent confusion which might result from so many inquiries at one time. Once the completed bills are cleared from the Legislative Service Bureau, it will be much easier to handle inquiries as to the status of other requests. Requests for additional bill drafts will be handled at any time.

Mr. President, Mr. Speaker, Mr. Chief Justice, Senators and Representatives, State Officials, Distinguished Guests, Ladies and Gentlemen:

Nineteen seventy-five was a year when cynicism became fashionable.

Yet, at the beginning of 1976, polls show that over two-thirds of the American people are optimistic about the future.

This is the year of our Nation's 200th birthday—a time for us to reflect and maybe even be a little nostalgic. It is a time for us to realize what our role is in this amazing and fantastic experience called American democracy—a democracy which binds together fifty sovereign states.

My role today is to talk to you about one of those states—the State of IOWA. Specifically, I will discuss with you the condition of the state and offer recommendations as you move into the Second Session of the Sixty-sixth General Assembly.

* * * * *

What kind of place is this state which we call home? Maybe it is even a bit better than what we think. Perhaps a stranger can best open our eyes to the good which is here and far more prevalent, than the bad about which we hear so much.

Listen to what a newcomer said in simple eloquence about our homeland. "The Iowa people are marvelous," he said. "Their kindness is without limit. They are always ready to help . . . in any way they can; and do it with great enjoyment. This warmness in the heart we get from the Iowa population makes us forget months of distress."

The speaker was Cam Uynh, the leader of the Tai Dam refugees who resettled in Iowa last fall.

Cam Uynh paid us a compliment and he and his people brought us a gift —a gift of perspective.

Picture if you will these people who were buffeted from country to country in war-torn Southeast Asia, hungering for freedom and clinging fiercely to the ideals of hard work, liberty and loyalty to family; an agrarian people whose dreams are linked to the soil; a people from the other side of the globe—who now are dropped into the heartland of our country—an almost totally different world.

They can see a country disturbed by its economy, by a low confidence in its institutions, a society of cynicism—but also a country beginning, with pride, to celebrate its 200th year of independence.

Our Tai Dam Friends may be more at home here in Iowa than you might think—for here is where they will see some similarities. Our citizens might be taller and more affluent, but *our* people, too, have the love of freedom and a belief in the value of work, a loyalty to family and a respect for the land.

These are traditional characteristics of Iowans—even in the unsettled times of 1976.

Though Cam Uynh and his people could not have known it, the very way they began their adventure into our state is indicative of the thoughtful processes which have led to so many successes in Iowa government.

Iowans—government officials, headed by Colleen Shearer, and private citizens—worked together planning for the arrival of the Tai Dam refugees lining up sponsors and jobs before the new settlers ever arrived. This experience is one more small victory—a heartening illustration of cooperative individual Iowans who, when working on a worthwhile task, can achieve it.

Iowa is a celebration of small victories at a time when other places seem disheartened by defeat.

We have gained confidence by successes with government programs that produce at a time when so many do not. And we are seeing the great advantage of approaching tough problems with reason, understanding and ingenuity instead of with rhetoric and knee-jerk proposals.

* * * * *

We are not free of problems; neither are we content to accept either inaction or overaction as an answer.

We have found that government need not always be in a position of confrontation. We have seen Iowa government stimulate the private sector.

An example is our newly created Rail Assistance Program responsible for the 523 miles of branch line that have been rebuilt or are presently under construction.

Our recent venture into coal research is now producing coal and holds promise of the revival of an industry and the expansion of Iowa's energy capability.

So I want to visit with you about more than merely the condition of the state. We will consider the dollars and cents of the state budget and the yield of our harvest and the mix of our taxes. But I want us also to consider a broader condition. I would call it the "condition" of our condition.

* * * * *

As we face this country's third century and the 130th year of our state's existence, we will do well to recognize that a bright and happy future for our people will not develop without work and the work ethic. People need to work, people need to try, people need to achieve.

How are our people doing? Iowans went through a lot in 1975; an example is agriculture. That segment of our economy suffered blizzard, drought, collapse of a major meat packing company, and up and down prices.

Nonetheless, during the past few months, Iowa cattlemen have put far more cattle on feed than they did the year before. And one thing for sure, when spring comes, the miracle of a new crop will begin on every farm in this state. And there is exciting new promise for the future with the announcement today by Iowa State University of a breakthrough which could well boost soybean yields by ten or twenty bushels an acre.

You can count on other Iowans to pursue their vocations with the same resiliency, determination and innovative spirit.

And these qualities are major factors in the healthy condition of this state. This helps explain why Iowa unemployment is below the national average and why our state government is not suffering the disastrous deficits so common elsewhere.

Iowa can continue to stand like a lighthouse in a storm if we wisely manage our financial resources.

This requires an awareness that government cannot do everything for everyone—nor should it.

* * * * *

Another awareness, that of the importance of the environment, has helped us to avoid much of the poisonous pollution suffered in other areas of the country.

And now we need to nurture yet another kind of environment—the environment in which free enterprise thrives—for that also can be fragile.

We know that just as people need space to live, fresh air to breathe and clean water to drink, so do they need jobs to sustain them and their families.

Our interrelationship with a national economy has been painfully evident in the past year with the loss of 19,000 manufacturing jobs. The loss of jobs is not so abnormal, but the lack of expansions and new starts of industry in our state this last year is abnormal.

One of the biggest factors has been our inability to obtain supplies of natural gas for companies that would like to have come to Iowa, but instead settled in gas-producing states.

Another reason, obviously, was the pinch of a sagging economy. In any event, it is absolutely imperative that those of us in government do our part to encourage a healthy climate for business and industry that can provide jobs, payrolls and community support.

We cannot afford to lose our tax structure that allows us to be competitive with states offering a variety of incentives for new industry. It is also in the best interest of our Iowans, our Iowa communities and the economy of this state to avoid creating an aura of uncertainty and fear of unnecessary adverse legislation that would injure our competitive position.

We are recognizing that our state is part of the world trade market. It behooves us to aggressively seek foreign trade and foreign dollars. This is the time to expand our foreign markets and not be left sitting on the curb watching other states pass us by.

It is to Iowa's advantage to open a foreign office.

* * * * *

There is another special uneasiness that draws our attention today. That is the concern over the effect of rising real estate assessments. This we can do something about . . . with much the same studied approach we have used on comparable problems in the past.

—We developed a school financing plan that shifted from the property tax increased costs of our local schools.

—We abolished the sales tax on food and drugs.

—We removed most welfare costs borne by property.

—We eliminated the personal property tax on household goods.

—We are now phasing out taxes on other personal property.

—We provided property tax relief for the elderly.

In Iowa, the state does not collect any property tax. The state, however, is required by law to equalize assessments among all counties. Equalization is absolutely essential.

When our Director of Revenue issued orders for equalization in 1975, it became apparent that Iowa land and property had become substantially more valuable.

Increased valuations per se do not, for the most part, raise taxes. And even though a number of good local public officials have pledged to hold the limit on spending, there exists the fear that budgets will increase by taking advantage of the higher assessments.

Without being unduly restrictive, the steps that I introduce to you now are designed to allay the fears and anxieties of our citizens—and to provide solid property tax relief.

First, we provide for increased state aid for local schools in the amount of $48 million for direct property tax relief. Without this provision, because of equalization, $37 million would have shifted to property taxes. You should know that we are also relieving property taxes of an additional $11 million. At this time, we are of the opinion that this injection of additional state funds can best be accomplished by moving from 74 percent to 80 percent the state's participation in local school financing.

Second, we establish a special task force of citizens who are knowledgeable and interested in the future of our governments. This task force would explore the nature of government units, what level of government should provide services, who should pay for those services, how to value classes of property for equal assessment, budget limitations, revenue sharing and the economics and effectiveness of delivery of services.

Third, while this study is being conducted, I propose we put a cap on property taxes. In this measure we assure local units of government they will have access to growth, according to a formula such as used in school financing. Local government could seek extra financing or additional taxation through an appeals procedure for unique and unusual circumstances.

Fourth, we give $17 million additional municipal assistance for state revenue sharing, sewers and for the appeals procedure.

And, fifth, we grant funds to support the Department of Revenue in efforts to determine correct assessments of industrial property.

* * * * *

As important as they are, property taxes will not be the exclusive focus of your deliberations in 1976.

There are other priorities as well which demand attention if we are to have a genuinely productive session. These issues are as complex as transportation funding and corrections, as fundamental as education, as necessary as salaries and capitals, as unpredictable as changing human needs.

Today I submit to you a number of recommendations which address these concerns. While I wish it were possible to discuss in detail my suggestions, obviously time doesn't permit. Rather, you will receive today, in addition to the printed text of my remarks, a digest of the Governor's recommendations and a brief analysis of adjustments to our biennial budget.

My staff, our executive departments and I personally offer our assistance and cooperation as you consider and act on these items in an orderly and timely fashion.

* * * * *

People can always find much to criticize, but I found it interesting what James Russell Wiggins, former editor of the *Washington Post,* had to say about this. He said: "Those who criticize government today, like those who criticized 200 years ago, have, as a part of their armament, the popular illusion of a golden past from which there was a fall. . . ."

Then he observed that "the very evidently defective Today must [also] suffer by comparison with an ideal Tomorrow that exists only in the imagination of naive people who are deluded by the notion that man is perfectible, not just improvable."

The fact that we are improvable can be the key to how we approach this new legislative session.

Our people do not look to you for wild and radical changes, or expect absolute perfection—but they will respond appreciatively to improvement.

As you go about your business of writing laws, remember that you help the process of government best with laws that are designed to provide flexibility in changing times and that deal squarely with the problems they seek to attack. And you should avoid legislative overkill which so often throws government into confrontation with the very people it is trying to protect.

Above all, search for equities. Ours is a society of push and shove—of give and take. We look to our lawmakers for fairness and for action to prevent one side or another from having unfair advantage.

People are cynical; they are critical. And there are reasons for both. Yet it is not our nature to want to be this way.

We want to believe in our ability to shape events; we want to be able to trust each other and our government.

Within these walls and within your authority, collectively and individually, you have the power to set the example.

Thank you.

GOVERNOR'S RECOMMENDATIONS

Recommendations submitted to the Sixty-sixth General Assembly, 1976 Session, in accordance with Article IV, Section 12 of the Constitution of the State of Iowa:

Property Tax Relief—School Aid

The inordinate increase in property valuations experienced in 1975 will result in additional property tax for school financing unless the school funding formula is adjusted. We, therefore, should move to the full 80 percent foundation level which will provide $48 million in property tax relief. The assessment factor in determining maximum allowable growth should then be removed.

We also need to provide for a triggering device in the school foundation plan. If future unusual property tax assessment increases occur, the state foundation level should automatically increase to prevent a return to a heavier reliance on property taxes in school financing.

Industrial Assessments

Questions have been raised concerning the fairness of the valuation and equalization process for industrial property. To resolve these concerns, it is essential that funds be provided the Department of Revenue to beef-up the capabilities of state and local appraisers of industrial property and to improve appraisal procedures.

Elderly Property Tax Relief

We can extend the property tax credit program to additional deserving elderly by raising income eligibility limits and by upgrading the reimbursement schedule.

Limits on Local Spending

To reassure property taxpayers without imposing undue restrictions on local units of government, we are proposing that a two-year cap be placed on property taxes. Reasonable growth should be allowed in accordance with the present rates permitted under the school foundation plan. This is consistent with the spending patterns of local governments during the past five years.

To provide for unique and unusual demands in local government spending, a budget review committee should be created.

Local Governmental Services and Funding Sources Task Force

Very valuable and special service can be performed by an ad hoc public task force that would address itself to local government services and funding sources. This task force would research and analyze:

—the nature of local government services

—which level of government should provide what services

—who should pay for these services

—how should different types and kinds of property be valued and equalized for assessment purposes

—what, if any, budget limitations should be imposed

—which, if any, local services should be financed by state aid

—the economics and effectiveness of the delivery of services to people

—the merits of local option taxation

—the budgeting procedures and mechanisms of local governments

Abandoned Railroad Right-of-Way

The land on which railroads have their lines built is in reality dedicated to the use of the public. Where lines are abandoned by the railroads, the land should first be offered for continued public use before being transferred to private ownership.

Adoption Revision

The revision of the adoption code needs to be completed. As a word of caution, the traumatic experience resulting from unnecessary interim foster care placement should be avoided.

Anti-Trust

The Uniform State Anti-Trust Act will answer the need for reasonable public protection without unduly restricting responsible trade and business transactions.

Barbering/Cosmetology

To provide for adequate protection of public health and welfare, reconsideration should be given to the issue of licensing and regulation of the barbering and cosmetology professions. Unnecessary restriction of these professions, however, will have to be avoided.

Capital Improvements

You delayed in appropriating for needed capital improvements last year. These projects are just as valid today as twelve months ago except they will now cost more. With our surplus, this is also an appropriate time to undertake the Lindquist Center at the University of Iowa.

Area Schools

An additional capital need that should be financed is the investment for the one unfunded area vocational-technical school.

The role and emphasis of our area schools in providing vocational-technical and liberal arts instruction should be redefined.

Code Modernization

A Republican Task Force has identified obsolete sections of the Iowa Code. It reports that all or part of thirty-one chapters can be eliminated. In addition, a periodic bipartisan review process of the Code should be established.

Criminal Code

The Senate has waded through the intricacies of criminal code revision and the task now needs to be completed.

Employment Security Commission Reorganization

The forty-year-old structure of administering our employment security operations can be improved by replacing the three-member commission with a single director.

Foreign Office

Iowa is a part of the world trade market. To take advantage of our potential and compete with other aggressive states, a foreign office should be opened to secure foreign investments for the creation of jobs in Iowa and to promote the sale of Iowa products.

Intermediate Care Facilities for the Mentally Retarded

The first session of the Sixty-sixth General Assembly urged the licensing of Glenwood and Woodward Hospitals as intermediate care facilities for the mentally retarded. This will involve participation in the Title XIX program. Federal funds are providing for educational improvements, but there is need for a $4.5 million appropriation for FY 1977, representing half the cost of improved housing. These funds ultimately will be reimbursed to the state.

Land Use

Land, an extraordinarily important resource in the State of Iowa, must be protected against shortsighted exploitation and despoliation; at the same time, recognition must be given to the individual landowners' rights. The progress made in the House is deserving of Senate action.

Legislators on Boards and Commissions

An attorney general's opinion has pointed out the constitutional prohibition against legislators serving on executive boards and commissions. While a bill on this issue passed each house, no final resolution resulted. The confusion as to quorums clouds the decisions of affected governmental boards and commissions; this matter needs attention.

Liquor Outlets

Instead of building and maintaining liquor outlets in sparsely populated areas, our citizens could be treated more equally by permitting limited private outlets under strong state supervision.

Medicaid

There has been a substantial increase in eligible recipients for medical assistance. Costs for hospital and supplemental care have skyrocketed. We refuse to turn our backs on those who must have health care, so we have provided $12 million for FY 1976 and $9.6 million for FY 1977 to cover these increases. At the same time, we feel it is incumbent upon the Social Services Department to develop certain reductions and limitations in the medicaid program. This is being done.

Mobile Home Tie-Down

To prevent deaths, injuries, and millions of dollars in property losses, mobile home tie-downs should be required.

No-Fault—First Party Insurance Coverage

The states that have adopted threshold, no-fault insurance programs now find from experience that not only have victims' rights to recover from wrongdoers been curtailed, but higher-than-ever liability premiums have resulted. Therefore, I would again ask that a reasonable level of first-party coverage with no threshold, similar to the Delaware or Oregon approach, be adopted.

Open Spaces—Tax Relief

Unlike developed stated-owned lands that bring increased economic benefits to an area, Open Spaces land is held in reserve and remains relatively undeveloped. Last year's bill was unacceptable. However, to offset the reduced property tax base in Open Spaces areas, I recommend state replacement of the loss.

Park User Fee

It is still advisable to provide a modest fee for the use of our major parks; the fees collected would be used for the maintenance and enhancement of these recreational areas.

Rail Assistance Program

Because a small state appropriation has inspired a spirit of innovative cooperation between shippers and railroads, our rail assistance program has earned the support of our people as well as nationwide acclaim. We ask funding for it.

Regents

We believe that our public universities can absorb some additional students without additional appropriations. However, the increase in enrollment exceeds what anyone projected and therefore, we have made arrangements for additional funding for the more than 4,300 new full-time students.

Loss of federal funds related to instruction at our state universities must be offset by additional state moneys. Funds should be appropriated for losses experienced in both years of the biennium.

Orthopedically handicapped Iowans should not be denied educational opportunities at our public universities. To prevent this, I recommend we provide financing to begin to remove the architectural barriers in student-used buildings at all Regents' universities.

Salaries

We have provided funds for all the merit step increases, a realignment of the pay steps, and a minimum 4.7 percent cost-of-living increase for state employees.

Social Services Institutions and Corrections

Our Social Services institutions have experienced rapid increases in food, utility, and medicine costs during this past year. Adjustments are needed in both fiscal year appropriations to cover these inescapable increases.

A more difficult problem has arisen with the unforeseen increase of 358 inmates at Fort Madison and Anamosa since December, 1974. We must face the need for additional security facility space.

Because of the loss of LEAA funds, additional state financing is also needed in community-based corrections for existing programs. If community corrections are to relieve some of the pressure from our penal institutions, this support must be provided.

Clarification of Drunken Driving Laws

Drunk drivers kill and maim. The required proof for OMVUI convictions should be modified to clarify the current presumptive evidence rule if it is proved the accused is intoxicated and driving a motor vehicle.

Tax Moratorium on Home Improvements

Rather than penalizing those who make improvements to their residential property by immediately increasing their property taxes, a five-year moratorium on the additional property taxes resulting from such home improvements should be allowed.

Transportation Aid

With the exceptionally high rate of inflation of highway construction and maintenance costs, and with the drop in revenue because of slower speeds and cars with better gas mileage, highway funding is becoming increasingly inadequate. You cannot indefinitely delay providing additional revenue from user fees to support our transportation system. As you know, I favor a tax as a percentage of the price of fuel so that the revenues could more nearly meet the needs. I also ask you to appropriate $14.7 million of general fund monies remaining from my initial budget recommendations to be used where the needs are the greatest.

Tuition Grant

Our Tuition Grant program has provided a choice in education and maintained academic vitality in higher education. We can build upon the success of this program by creating a standing limited appropriation which will allow the grants to be awarded in a timely fashion.

Unemployment Trust Fund

In 1975, the unemployment trust fund was reduced from $123 million to $63 million. When more accurate revenue forecasts become available early next month, it will have to be determined what additional funding will be required to maintain an adequate balance in this trust fund.

Uniform Bidding Regulations

Uniform bidding regulations for Iowa's units of local government should be required. Provisions should be made for both informal and formal bidding procedures.

Volunteer Committee Funding

State government frequently needs to call upon the skills and talents of people outside government. Volunteer citizens have contributed substantially to intelligent solutions of problems in our state. Most recent examples include the Task Force on Housing, the Economic Advisory Council, the Task Force on Early Childhood Development, and the National Guard Blue Ribbon Committee. It is essential that this kind of service be available when necessary as an alternative to increased bureaucracy. A small appropriation is requested for only the expenses of ad hoc committees such as the Local Governmental Services and Funding Sources Task Force proposed in this message, councils for early childhood development and for Spanish-speaking people, and the study on the consolidation of alcoholism and drug abuse programs.

Washington, D. C., Office

While we can be pleased we are not as dependent as some upon federal aid, it behooves us to secure our share of federal funds which can truly benefit us in Iowa. Establishing a state office in Washington, D. C., as done by twenty-one other states, will assist us in this effort and help protect us from federal encroachment.

Workmen's Compensation

You have initiated work in further updating our workmen's compensation law. The coverage, protection, and procedural items included in the pending revision need to be enacted to provide a modernized system of providing benefits to injured workers.

Youth Opportunity

An important component of the Governor's Youth Coordinator's Office is our successful Youth Conservation Corps. This valuable work experience program on non-federal public land should be expanded next year to involve more youth in job experience and also to provide assistance in conserving and preserving Iowa's recreational and wildlife areas.

Governor Robert D. Ray was escorted from the House chamber by the committee previously appointed.

Fitzgerald of Webster moved that the joint convention be now dissolved.

The motion prevailed.

The House reconvened, Speaker Cochran in the chair.

HOUSE CONCURRENT RESOLUTION 102

By Brunow, Menke, Anderson, Fitzgerald and Millen

Whereas, the Code of Iowa requires many state departments and agencies to file reports with or submit reports to the general assembly or to members of the general assembly; and

Whereas, pursuant to such direction state departments and agencies often prepare reports for each member of the general assembly which are then forwarded to such members; and

Whereas, the printing and dissemination of such reports result in a substantial printing cost to the state of Iowa and such reports are often submitted to members of the general assembly when there is inadequate time to read or research such reports; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That state departments and agencies which are required, and those agencies which desire, to submit reports to the general assembly and members of the general assembly submit not more than five copies of such reports to the secretary of the senate and the chief clerk of the house unless such officers shall notify the agency or department that an additional specified number of such reports shall be filed with the appropriate house for use of members of the general assembly; and

Be It Further Resolved, That the chief clerk of the house and the secretary of the senate shall develop an administrative procedure for determining which members of their respective houses desire designated reports and shall make such reports available to such

members on an individualized basis, and in addition the chief clerk of the house and the secretary of the senate shall have on file not more than five current state department and agency reports for the

use of members of the house or senate who request them.

IOWA DEPARTMENT OF TRANSPORTATION ADMINISTRATIVE RULES

IN THE MATTER OF SPECIAL RULES GOVERNING THE LENGTH OF A COMBINATION OF THREE VEHICLES	)))))	REPORT OF THE DEPARTMENT OF TRANSPORTATION

To the 1976 Regular Session of the Sixty-sixth General Assembly of the State of Iowa:

Section 1. Pursuant to the authority of section 307.10 of the Code and in accordance with the special rulemaking provisions of that section, the Iowa Transportation Commission in public session January 13, 1976 adopted the following motion:

That the Iowa DOT, pursuant to the authority granted to it under S.F. 1141, establish the legal length limit of a combination of three vehicles coupled together, one of which is a motor vehicle, inclusive of front and rear bumpers, to be sixty-five feet. No single semitrailer or trailer included in such combination shall have an overall length, inclusive of rear bumper, in excess of thirty feet. Said combination of three vehicles in excess of sixty feet but not in excess of sixty-five feet may be operated on 4 lane highways or on highways other than 4 lane when the points of origin and destination are within five miles of a 4 lane highway. Said 4 lane highway restriction shall not affect those Iowa border cities which shall have by ordinance allowed internal movement of said sixty-five foot combination vehicles.

In addition to these exceptions said sixty-five foot three vehicle combinations shall be allowed on all Iowa 24' highway segments as now exist or may exist in the future and such other segments less than 24' which may provide continuity to the transportation system or provide reasonable route continuity and/or access to communities of 5,000 or greater population. Said exception to 24' highways shall be subject to Iowa DOT Commission approval and shall not exceed 125 miles in total.

Said motion shall also include an appropriate fee schedule which shall be adopted by the Iowa DOT Commission prior to the effective date of usage as established by S. F. 1141.

The equalization of 65 ft. double bottoms shall be effective the day the General Assembly sends the enrolled bills outlawing studded tires and implementing functional classification to the Governor.

COMMUNICATION FROM THE CHIEF JUSTICE OF THE SUPREME COURT

The following reports were filed by the Honorable C. Edwin Moore, Chief Justice of the Supreme Court of Iowa:

IN THE MATTER OF THE RULES OF CIVIL PROCEDURE	)))	REPORT OF THE SUPREME COURT

TO THE 1976 REGULAR SESSION OF THE SIXTY-SIXTH GENERAL ASSEMBLY OF THE STATE OF IOWA:

Pursant to sections 684.18 and 684.19, Code 1975, the Supreme Court of Iowa has prescribed and hereby reports to the General Assembly changes in the existing Rules of Civil Procedure as follows:

Rule 33. CROSS-PETITIONS.

That Rule 33 be stricken and the following substituted:

"33. CROSS-CLAIM AGAINST CO-PARTY. A pleading may state as a cross-claim any claim by one party against a co-party arising out of the transaction or occurrence that is the subject matter either of the original action or a counter-claim therein or relating to any property that is the subject matter of the original action. Such cross-claim may include a claim that the party against whom it is asserted is or may be liable to the cross-claimant for all or part of a claim asserted in the action against the cross-claimant."

Rule 65. GENERAL APPEARANCE.

That Rule 65 be stricken and the following substituted:

"65. APPEARANCES. An attorney making an appearance shall, either by filing written appearance or by signature to the first pleading or motion filed by the attorney, clearly indicate the attorney or attorneys in charge of the case and shall not sign in the name of a firm only."

Rule 66. SPECIAL APPEARANCE.

That Rule 66 be stricken and the following substituted:

"66. SPECIAL APPEARANCE. A defendant may appear specially for the sole purpose of attacking the jurisdiction of the court, but only before taking any part in a hearing or trial of the case, personally or by attorney, or filing a motion, written appearance, or pleading. The special appearance shall be in writing, filed with the clerk and shall state the grounds thereof. If the special appearance is erroneously overruled, defendant may plead to the merits or proceed to trial without waiving such error."

Rule 69. PLEADINGS DEFINED.

That Rule 69 be stricken and the following substituted:

"69. GENERAL RULES OF PLEADING.

(a) Claims for Relief. A pleading which sets forth a claim for relief, whether an original claim, counterclaim, cross-claim or third party claim, shall contain (1) a short and plain statement of any matter needed to justify venue or jurisdiction, (2) a short and plain statement of the claim showing that the pleader is entitled to relief, and (3) a demand for judgment for the relief to which he deems himself entitled. Relief in the alternative or of several different types may be demanded.

(b) Pleading to be Concise and Direct; Consistency. (1) Each averment of a pleading shall be simple, concise, and direct. No technical forms of pleadings or motions are required. (2) A party may set forth two or more statements of a claim or defense alternately or hypothetically, either in one count or defense or in separate counts or defenses. When two or more statements are made in the alternative and one of them if made independently would be sufficient, the pleading is not made insufficient by the insufficiency of one or more of the alternative statements. A party may also state as many separate claims or defenses as he has regardless of consistency and whether based on legal or equitable grounds. 'Pleadings' as used in these rules do not include motions."

Rule 70. PETITION.

That Rule 70 be stricken and the following substituted:

"70. PETITION. The petition shall state whether it is at law or in equity."

Rule 74. CROSS-PETITION—JUDGMENT.

That Rule 74 be stricken and the following substituted:

"74. CROSS-CLAIM, CROSS-PETITION—JUDGMENT. Any cross-claim under Rule 33 or cross-petition under Rule 34, and the answer and reply to it, shall be governed by these rules. Where judgment in the original case can be entered without prejudice to the rights in issue under a cross-petition, cross-claim or counterclaim, it shall not be delayed thereby."

Rule 79. NUMBERED DIVISIONS AND PARAGRAPHS.

That Rule 79 be stricken and the following substituted:

"79. PARAGRAPHS; SEPARATE STATEMENTS. All averments of claim or defense shall be made in numbered paragraphs, the contents of each of which shall be limited as far as practicable to a statement of a single set of circumstances; and a paragraph may be referred to by number in all succeeding pleadings. Each claim founded upon a separate transaction or occurrence and each defense other than denials shall be stated in a separate count or defense whenever a separation facilitates the clear presentation of the matters set forth."

Rule 85(a). MOTIONS.

That Rule 85(a) be stricken and the following substituted:

"85(a). MOTIONS. Motions attacking a pleading must be served before responding to a pleading or, if no responsive pleading is required by these rules, upon motion made by a party within 20 days after the service of the pleading on such party."

Rule 85(b). PLEADING.

That Rule 85(b) be stricken and the following substituted:

"85(b). PLEADING. Answer to a petition must be served on or before the appearance date prescribed in accordance with Rule 53. A party served with a pleading stating a cross-claim against the party shall serve an answer thereto within 20 days after the service of the pleading upon the party. The plaintiff shall serve a reply to a counterclaim in the answer within 20 days after service of the answer, or if a reply is ordered by the court, within 20 days after service of the order, unless the order otherwise directs."

Rule 85(c). REPLY.

That Rule 85(c) be stricken and the following substituted:

"85(c). TIME AFTER FILING MOTIONS. The service of a motion permitted under these rules alters these periods of time as follows, unless a different time is fixed by order of the court:

(1) If the court denies the motion or postpones its disposition until the trial on the merits, the responsive pleading shall be served within ten days after notice of the court's action;

(2) If the court grants a motion for a more specific statement, the responsive pleading shall be served within ten days after the service of the more specific statement; provided, however, unless the parties stipulate in writing otherwise, the filing of a motion for additional time shall delay the responsive pleading for a period of ten days after the service of the motion unless within such time the court orders otherwise."

Rule 85(d). ANSWER OR REPLY TO AMENDMENTS.

That Rule 85(d) be stricken and the following substituted:

"85(d). RESPONSE TO AMENDMENTS. A party shall plead in

response to an amended pleading within the time remaining for response to the original pleading or within ten days after service of the amended pleading, whichever period may be the longer, unless the court otherwise orders."

Rule 88. AMENDMENTS.

That Rule 88 be stricken and the following substituted:

"88. AMENDMENTS. A party may amend a pleading once as a matter of course at any time before a responsive pleading is served or, if the pleading is one to which no responsive pleading is required and the action has not been placed upon the trial calendar, the party may so amend it at any time within 20 days after it is served. Otherwise, a party may amend a pleading only by leave of court or by written consent of the adverse party; and leave shall be freely given when justice so requires."

Rule 89. MAKING AND CONSTRUING AMENDMENTS.

That the second sentence of Rule 89 be stricken and the following substituted:

"Whenever the claim or defense asserted in the amended pleading arose out of the conduct, transaction, or occurrence set forth or attempted to be set forth in the original pleading, the amendment relates back to the date of the original pleading. An amendment changing the party against whom a claim is asserted relates back if the foregoing provision is satisfied and, within the period provided by law for commencing the action against him, the party to be brought in by amendment (1) has received such notice of the institution of the action that he will not be prejudiced in maintaining his defense on the merits, and (2) knew or should have known that, but for a mistake concerning the identity of the proper party, the action would have been brought against him."

Rule 90. SUPPLEMENTAL PLEADING.

That Rule 90 be stricken and the following substituted:

"90. SUPPLEMENTAL PLEADINGS. By leave of court, upon reasonable notice and upon such terms as are just, or by written consent of the adverse party, a party may serve and file a supplemental pleading setting forth transactions or occurrences or events which have happened since the date of the pleading sought to be supplemented. Leave may be granted even though the original pleading is defective in its statement of a claim for relief or defense. No responsive pleading to the supplemental pleading is required unless the court, upon its own motion or the motion of a party, so orders, specifying the time therefor."

Rule 124.1 STIPULATIONS REGARDING DISCOVERY PROCEDURE.

That the phrase "may be made only with the approval of the court" be stricken from the last portion of Rule 124.1 and the following substituted:

1) Step 1 ..... During the first legislative session
2) Step 2 ..... After one legislative session's experience
3) Step 3 ..... After two legislative sessions' experience
4) Step 4 ..... After four legislative sessions' experience
5) Step 5 ..... After six legislative sessions' experience
6) Step 6 ..... After eight legislative sessions' experience
7) Step 7 ..... After ten legislative sessions' experience

Be It Further Resolved, **That the entrance salary for**

temporary officers and employees shall be at Step 1 in the grade of the position held. Such officer or employee may be hired above the entrance step if possessing outstanding and

Page 8

unusual experience for the position, provided the entrance is not beyond step 3. Such officer or employee who is hired above the entrance step shall be mobile above that step in the same period of time as other officers or employees in that same step. An officer or employee who is moved to then another position from any temporary or permanent position may be considered for partial or full credit for their experience in the former position in determining the step in the new grade.

Temporary employees, other than secretaries to senators or clerks to representatives, who are employed during the interim, may, for the purposes of mobility within pay steps through step 6, be given credit at the conclusion of an interim period for a session's experience if at least one hundred days are actually worked during the interim. Days worked during the interim may be cumulated from interim to interim as long as such employee continues to work each intervening session.

Be It Further Resolved, **That secretaries to senators and clerks to representatives shall all be placed in grade 12. That grade in the salary schedule shall be the "1" step for the secretaries. Step 2 and succeeding numbered steps shall be the next and succeeding higher steps. Secretaries and clerks shall be eligible for an unlimited number of steps at the discretion of the chief clerk of the house and the secretary of the senate and subject to approval of the house committee on administration or the senate committee on rules and administration, as the case may be, based on the following:**

1. One additional step for each of the first and second legislative sessions completed.

2. One additional step beyond those provided for in **subparagraph one, for each of the fourth, sixth, eighth,**

Page 9

and tenth legislative sessions completed.

3. One additional step upon the passage of an eighty (80) word-per-minute stenographic examination.

4. One additional step if a secretary or clerk to a ranking majority or minority member of a committee, unless steps are granted as provided in subparagraph five (5) or six (6) of this paragraph.

5. Two additional steps if a secretary or clerk to a committee, or appropriations subcommittee or assistant floor leader and one additional step for each such position held beyond the first position.

6. Three additional steps for a secretary to a senator or clerk to a representative who is a

majority or minority floor leader, speaker pro tempore or president pro tempore.

Be It Further Resolved, That employees who work on a part-time basis shall be compensated at the scheduled hourly rate for their pay grade and step. While assisting interim committees they shall be compensated at the scheduled hourly rate for grade 16 at whatever step they would otherwise be entitled to, unless the grade at which they are during the session is less than 16, in which case they shall be compensated at that low grade and appropriate step.

Be It Further Resolved, That permanent officers and employees of the general assembly shall be eligible for mobility within pay steps—at the discretion of the chief clerk of the house and the secretary of the senate, and subject to the approval of the house committee on administration or the senate committee on rules and administration, as the case may be—in accord with the following schedule:

1) Step 1 ..... Starting step
2) Step 2 ..... After six calendar months of actual employment
3) Step 3 ..... After one calendar year of actual employment
4) Step 4 ..... After two calendar years of actual employment
5) Step 5 ..... After three calendar years of actual employment
6) Step 6 ..... After four calendar years of actual employment
7) Step 7 ..... After six calendar years of actual employment
8) Step 8 ..... After eight calendar years of actual employment

Be It Further Resolved, That the entrance salary for permanent officers and employees of the general assembly shall be at step 1 in the grade of the position held. Such officer or employee may be hired above the entrance step if possessing outstanding and unusual experience for the position, provided that the entrance is not beyond step 3. Such officer or employee who is hired above the entrance step shall be mobile above that step in the same period of time as other officers or employees in that same step. An officer or employee who is moved to another position from any permanent or temporary position may be considered for partial or full credit for their experience in the former position in determining the step in the new grade.

Be It Further Resolved, That a pay increase for permanent officers and employees of one step within the pay grade for the position may be made for exceptionally meritorious service in addition to step increases provided for in this resolution, upon recommendation of the secretary of the senate or chief clerk of the house and the approval of the senate committee on rules and administration or the house committee on administration. Exceptionally meritorious service pay increases shall be governed by the following:

a. The employee must have served in the position for at least twelve months;

b. Written justification, setting forth in detail the nature of the exceptionally meritorious service rendered, must be submitted to the senate rules and administration committee or house administration committee and approved in advance of granting the pay increase;

c. No more than one exceptionally meritorious service pay increase may be granted in any twelve-month period.

Be It Further Resolved, That the senate rules and administration committee and the house administration committee shall both hire officers and employees for their respective bodies and fill any vacancies which may occur, to be effective at such time as they shall set. The committee shall report the names of those it has hired for the positions specified in this resolution or the filling

Page 12

of any vacancies on the next legislative day or, if such action is during the interim, on the first day the senate or house shall convene. Any action by the senate or house to amend or disapprove a report or a portion of a report shall be effective the day after the action.

The chief clerk of the house shall submit to the house committee on administration and the secretary of the senate shall submit to the senate committee on rules and administration the list of the names, or amendments thereto, of officers and employees designated permanent and those designated temporary and recommended pay step for each officer and employee. Such list shall include recommendations for the pay step for those officers or employees hired above the entrance step, or moved from one staff position to another, or with prior experience as a clerk or secretary. Each respective committee shall approve or amend the list of permanent and temporary recommended pay steps and publish said list in the journal. The secretary of the senate and the chief clerk of the house shall set the period of employment of temporary employees under such direction as the senate rules and administration committee and the house administration committee may provide.

Be It Further Resolved, That permanent employees of the general assembly shall receive vacation allowances, sick leave, health and accident insurance, life insurance, and disability income insurance as are provided for full-time

Page 13

permanent state employees. The computations shall be maintained by the finance clerks in each house and coordinated with the state comptroller.

Be It Further Resolved, That the chairman of the rules and administration committee of the senate and the chairman of the administration committee in the house each appoint three (3) members to a joint subcommittee on administration to study possible alternative methods of providing compensation for the officers and employees of the house and senate. This committee shall be instructed to report its

findings to the members of the legislative council on or before November 1, 1976. The joint subcommittee is authorized to meet three times in the interim and such additional times as may be authorized by the legislative council.

Be It Further Resolved, That the compensation of chaplains officiating at the opening of the daily sessions of the house of representatives and the senate of the sixty-sixth general assembly be fixed at ten (10) dollars for each house of the general assembly, and that mileage for chaplains be fixed at the rate of fifteen (15) cents per mile to and from the State Capitol.

Be It Further Resolved, That the provisions of this Act, are to be applied retroactively to January 12, 1976.

Page 14

Be It Further Resolved, That House Concurrent Resolution Five (5) is superseded by this Resolution.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 105
By Employment of the Unemployed Study Committee

Whereas, there are many Iowans who have skills and talents to offer the state who are barred from state employment because their circumstances do not permit them to accept a full-time job; and

Whereas, one remedy for this situation is flexibly scheduled job opportunities including part-time, gliding and tandem positions with fringe benefits offered on a sliding scale; and

Whereas, statistics indicate that flexible scheduling does work and that the system provides advantages to the employer in terms of productivity and morale and to potential employees, who are primarily women, elderly, handicapped and students in need of employment; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the heads of all state agencies are requested to make reasonable efforts to offer employment within their respective agencies on a flexible hours basis, which employment shall provide sliding scale fringe benefits to flexitime employees and shall not impede normal agency oper-

ations.
Be It Further Resolved, That the governor of the state of Iowa is requested to direct the heads of all state agencies to investigate and develop a plan as soon as is feasible for offering a reasonable number of positions within their respective agencies on a flexible hours basis, which plan shall address the problems created by flexible scheduling for employee fringe benefits and agency operations; and

Page 2

Be It Further Resolved, That the governor or his designee is requested to report to the general assembly concerning the content and progress of state agency plans and efforts to offer flexibly scheduled job opportunities.

EXPLANATION OF VOTE

I am voting against House File 1059 for the reason that it is inconsistent with the legislation proposed to this General Assembly to consolidate county funds and limit expenditures. If legislation is passed in either of these areas, this bill should be reviewed to make certain that this General Assembly does not adopt inconsistent provisions into law.

MR. SPEAKER: Your committee on judiciary and law enforcement to whom was referred **Senate File 524**, a bill for an act relating to business corporations, begs leave to report it has had the same under consideration and has instructed me to report the same back to the House with the recommendation that the same **be amended as follows, and when so amended the bill do pass:**

H—5129

Amend Senate File 524, as amended and passed by the Senate, as follows:

1. Page 2, by inserting after line 8 the following:

"Sec. ..... Section four hundred ninety-six A point thirty-four (496A.34), unnumbered paragraph one (1), Code 1975, is amended by striking the paragraph and inserting in lieu thereof the following:

All corporate powers shall be exercised by or under the authority of, and the business and affairs of a corporation shall be managed under the direction of, a board of directors consisting of one or more members, except as may be otherwise provided in this chapter or in the articles of incorporation. If any such provision is made in the articles of incorporation, the powers and duties conferred or imposed upon the board of directors by this chapter shall be exercised or performed to such extent and by such person or persons as shall be provided in the articles of incorporation. Directors need not be residents of this state or shareholders of the corporation unless the articles of incorporation or bylaws so require. The articles of incorporation or bylaws may prescribe other qualifications for directors. The board of directors shall have authority

to fix the compensation of directors unless otherwise provided in the articles of incorporation.

A director shall perform the duties of a director, including the duties as a member of any committee of the board upon which such director may serve, in good faith, in a manner such director reasonably believes to be in the best interests of the corporation, and with such care as an ordinarily prudent person in a like position would use under similar circumstances. In performing such duties, a director shall be entitled to rely on information, opinions, reports or statements, including financial statements and other financial data, in each case prepared or presented by: (1) One or more officers or employees of the corporation whom the director reasonably believes to be reliable and competent in the matters presented; (2) Counsel, public accountants or other persons as to matters which the director reasonably believes to be within such person's professional or expert competence; or, (3) A committee of the board upon which such director does not serve, duly designated in accordance with the provision of the articles of incorporation or the bylaws, as to matters within its designated authority, which committee the director reasonably believes to merit confidence. However such director shall not be

Page 2

considered to be acting in good faith if such director has knowledge concerning the matter in question that would cause such reliance to be unwarranted. A person who so performs such duties shall not have liability by reason of being or having been a director of the corporation.

A director of a corporation who is present at a meeting of its board of directors at which action on any corporate matter is taken shall be presumed to have assented to the action taken, unless the dissent of such director is entered in the minutes of the meeting, such director files a written dissent to such action with the secretary of the meeting before the meeting's adjournment, or such director forwards such dissent by registered or certified mail to the secretary of the corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to a director who voted in favor of such action."

2. Page 3, by inserting after line 2 the following:

"Sec. ..... Section four hundred ninety-six A point thirty-nine (496A.39), Code 1975, is amended to read as follows:

496A.39 EXECUTIVE COMMITTEE. If the articles of incorporation or the bylaws so provide, the board of directors, by resolution adopted by a majority of the full board of directors, may designate from

among its members an executive committee and one or more other committees each of which, to the extent provided in such resolution or in the articles of incorporation or the bylaws of the corporation, shall have and may exercise all the authority of the board of directors, [but] *except that* no such committee shall have the authority [of the board of directors in reference to amending the articles of incorporation, adopting a plan of merger or consolidation, recommending to the shareholders the sale, lease, exchange or other disposition of all or substantially all the property and assets of the corporation otherwise than in the usual and regular course of its business, recommending to the shareholders a voluntary dissolution of the corporation or a revocation thereof, or amending the bylaws of the corporation. The designation of any such committee and the delegation thereto of authority shall not operate to relieve the board of directors, or any member thereof, of any responsibility imposed by law] *to: (1) declare dividends or distributions; (2) approve or recommend to shareholders actions or proposals required by this chapter to be approved by shareholders; (3) designate*

Page 3

candidates for the office of director, for purposes of proxy solicitation or otherwise, or fill vacancies on the board of directors or any committee thereof; (4) amend the bylaws; (5) approve a plan of merger not requiring shareholder approval; (6) reduce surplus; (7) authorize or approve the reacquisition of shares unless pursuant to a general formula or method specified by the board of directors; or, (8) authorize or approve the issuance or sale of, or any contract to issue or sell, shares or designate the terms of a series of a class of shares. However, the board of directors, having acted regarding general authorization for the issuance or sale of shares, or any contract for issuance or sale, and, in the case of a series, the designation for issuance or sale, may, pursuant to a general formula or method specified by the board by resolution or by adoption of a stock option or other plan, authorize a committee to fix the terms of any contract for the sale of the shares and to fix the terms upon which such shares may be issued or sold, including, without limitation, the price, the dividend rate, provisions for redemption, sinking fund, conversion, voting or preferential rights, and provisions for other features of a class of shares, or a series of a class of shares, with full power in such committee to adopt any final resolution setting forth all the terms and to authorize the statement of the terms of a series for filing with the secretary of state under this chapter.

Neither the designation of any such committee,

the delegation to it of authority, nor action by such committee pursuant to such authority shall alone constitute compliance by any member of the board of directors, not a member of the committee in question, with such director's responsibility to act in good faith, in a matter such director reasonably believes to be in the best interests of the corporation, and with such care as an ordinarily prudent person in a like position would use under similar circumstances."

3. Page 3, by inserting after line 19 the following:

"Sec. ..... Section four hundred ninety-six A point forty-four (496.44), Code 1975, is amended to read as follows:

496A.44 LIABILITY OF DIRECTORS AND OFFICERS IN CERTAIN CASES. In addition to any other liabilities imposed by law upon directors and officers of a corporation, *a director shall be liable in the following circumstances, unless the director complies with the standard provided in this chapter for*

Page 4

performance of the duties of directors:

1. [Directors of a corporation] *A director* who [vote] *votes* for or [assent] *assents* to the declaration of any dividend or other distribution of the assets of a corporation to its shareholders [in willful or negligent violation of] *contrary to* the provisions of this chapter or [of] *to* any restrictions contained in the articles of incorporation, shall be [jointly and severally] liable to the corporation *jointly and severally with all other directors so voting or assenting* for the amount of such dividend which is paid or the value of such assets which are distributed in excess of the amount of such dividend or distribution which could have been paid or distributed without a violation of the provisions of this chapter or of the restrictions in the articles of incorporation.

2. [Directors of a corporation] *A director* who [vote] *votes* for or [assent] *assents* to the purchase of [its] *the corporation's* own shares [in willful or negligent violation of] *contrary to* the provisions of this chapter or [of] *to* any restrictions contained in the articles of incorporation, shall be [jointly and severally] liable to the corporation *jointly and severally with all other directors so voting or assenting* for the amount of consideration paid for such shares which is in excess of the maximum amount which could have been paid therefor without a violation of the provisions of this chapter or of the restrictions in the articles of incorporation.

3. [The directors of a corporation] *A director* who [vote] *votes* for or [assent] *assents* to any distribution of assets of a corporation to its shareholders during

the liquidation of the corporation without the payment and discharge of, or making adequate provision for, all unknown debts, obligations, and liabilities of the corporation shall be [jointly and severally] liable to the corporation *jointly and severally with all other directors so voting or assenting* for the value of such assets which are distributed, to the extent that such debts, obligations and liabilities of the corporation are not thereafter paid and discharged.

[A director of a corporation who is present at a meeting of its board of directors at which action on any corporate matter is taken shall be presumed to have assented to the action taken unless his dissent shall be entered in the minutes of the meeting or unless he shall file his written dissent to such action with the person acting as the secretary of the meeting before the adjournment thereof or shall

Page 5

forward such dissent by registered or certified mail to the secretary of the corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to a director who voted in favor of such action.

A director shall not be liable under subsections 1, 2, or 3 of this section if the director relied and acted in good faith upon financial statements of the corporation, represented to the director to be correct by the president or the officer of such corporation having charge of its books of account, or stated in a written report by an independent public or certified public accountant or firm of such accountants fairly to reflect the financial condition of such corporation, nor shall the director be so liable if in good faith in determining the amount available for any such dividend or distribution the director considered the assets to be of their book value.] If an officer willfully or negligently submits an incorrect financial statement to a director or directors, and board of directors action, contrary to the provisions of this chapter or of any restrictions in the articles of incorporation, is taken in reliance thereon, the officer shall be liable to the same extent as if the officer were a director voting for or assenting to such action. No [director or] officer shall be deemed to be negligent within the meaning of this section if the [director or] officer exercised that diligence, care and skill which an ordinarily prudent person *in a like position* would [exercise] *use* under similar circumstances.

Any director against whom a claim shall be asserted under or pursuant to this section for the payment of a dividend or other distribution of assets of a corporation and who shall be held liable thereon, shall be entitled to contribution from the shareholders

who accepted or received any such dividend or assets, knowing such dividend or distribution to have been made in violation of the provisions of this chapter or of any restrictions in the articles of incorporation, in proportion to the amounts received by them respectively, and to contribution from any other director found to be similarly liable.

Any action seeking to impose liability under this section, other than liability for contribution, shall be commenced only within five years of the action complained of and not thereafter."

CONSIDERATION OF BILLS

REGULAR CALENDAR

Senate File 387, a bill for an act relating to liability for the performance of or refusal to perform abortions, with report of committee recommending passage, was taken up for consideration.

Gentleman of Polk offered the following amendment H—3977 filed by her:

H—3977

Amend Senate File 387 as amended and passed by the Senate as follows:

1. By striking everything after the enacting clause and inserting in lieu thereof the following:

"Section 1. *NEW SECTION.* PERSON NOT REQUIRED TO PERFORM OR ASSIST IN AN ABORTION. Any person who may lawfully perform or assist in an abortion and who states in writing his or her moral or religious objections to abortion shall not be required to participate in an abortion. A person shall not discriminate against any individual in any way, including but not limited to employment, promotion, advancement, transfer, licensing, education, training or the granting of hospital privileges or staff appointments, because of a person's participation in or refusal to participate in recommending, performing or assisting in an abortion procedure.

For the purposes of this Act "abortion" means a medical procedure which has as its sole and primary purpose the termination of a human pregnancy, but does not include a medical procedure to remove a dead fetus or produce a live birth nor does it include medical care which has as its purpose the treatment of a serious pathological or psychological condition.

Sec. 2. *NEW SECTION.* LIABILITY FOR REFUSING TO PERFORM AN ABORTION. A hospital, which is not controlled, maintained and supported by a public authority, shall not be required to permit the performance of an abortion, as defined in section one (1) of this Act. The refusal to permit such procedures shall not be grounds for civil liability to any person nor a basis for a disciplinary or other recriminatory action against the hospital."

Schroeder of Pottawattamie asked and received unanimous consent to withdraw amendment H—4153, to amendment H—3977, filed by him on June 10, 1975, and found on pages 2318 and 2319 of the House Journal.

H—5118

Amend amendment H—3977 to Senate File 387, as amended and passed by the Senate by striking all of lines 5 through 33 and inserting in lieu thereof the following:

H—5118A

Section 1. *NEW SECTION.* LIABILITY OF PERSONS

REFUSING TO PERFORM ABORTIONS. An individual who may lawfully perform, assist, or participate in medical procedures which will result in an abortion shall not be required against his religious beliefs or moral convictions to perform, assist, or participate in a direct manner in such procedures except in an emergency when medically necessary to save the life of the mother. A person shall not discriminate against another individual in any way, including but not limited to employment, promotion, advancement, transfer, licensing, education, training, or granting of hospital privileges or staff appointments, because of the individual's participation or refusal to participate in the recommendation, performance, or assistance in the performance of medical procedures which will result in an abortion, except in an emergency when medically necessary to save the life of the mother. For the purposes of this Act, "abortion" means the termination of human pregnancy with an intention other than to produce a live birth or to remove a dead fetus.

Sec. 2. *NEW SECTION.* LIABILITY OF HOSPITALS REFUSING TO PERFORM ABORTIONS. A hospital shall not be required to permit the performance of an abortion, except in an emergency when medically necessary to save the life of the mother. The refusal to permit such procedures shall not be grounds for civil liability to any person nor a basis for any disciplinary or other recriminatory action against the hospital. The provisions of this section shall not apply to any hospital which is supported, maintained, and controlled by public authority.

H—5118B

Sec. 3. *NEW SECTION.* INQUIRY CONCERNING PARTICIPATION IN ABORTIONS. Nothing in this Act shall prohibit any hospital which permits the performance of abortions from inquiring whether an employee, prospective employee, person with staff privileges, or prospective person with staff privileges would advance a religious belief or moral conviction for refusal to participate in an abortion or has participated in the past in medical procedures which have resulted in abortions before such a person is hired for service in or assigned to that part of a hospital where abortion patients are cared for or abortion procedures are conducted.

HOUSE CONCURRENT RESOLUTION 107

By Committee on Agriculture

Whereas, the American farmer, through consistent and diligent effort, has increased the productivity of American agriculture; and

Whereas, the products of the American farm are a significant factor in providing food to the population of the world; and

Whereas, farmers are now facing restrictions on their right to engage in free trade in the international market place; and

Whereas, the situation now developing gives a clear confrontation of the principles of free trade opposed to government regulations; and

Whereas, involving agricultural products as tools of diplomacy in international relations can only result in hardships for American farmers with eventual repercussions throughout the entire American economy; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That we respectfully urge the President of the United States, officials of the administration, and the Congress of the United States, in their role in the conduct of foreign relations, refrain from treaties, agreements, or other instruments which impose artificial limitations upon the conduct of free trade in agricultural products. We further urge that such instruments in effect, or proposed in the future, be given the closest scrutiny in light of their potential adverse effects upon American farmers, and that the continuation of the policy of unwarranted intervention in the free market place be abandoned; and

Page 2

Be It Further Resolved, That copies of this resolution be forwarded to the President of the United States, all members of the Iowa Congressional delegation, the President of the United States Senate, and the Speaker of the United States House of Representatives.

Laid over under Rule 25.

Whereas, the health and vigor of this nation and the representative form of government have been enhanced by members of the black race as well as other races; and

Whereas, it is only fitting in this bicentennial year to recognize and bring forth the achievements, contributions, enhancements, and development of the black race as well as other races; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the State of Iowa and the appropriate authorities of all private, parochial, and public schools observe February as Black History Month with emphasis on brotherhood and encourage in their selection

of educational materials continued attention to and consideration of the accomplishments and contributions of black people as well as other minority groups throughout history, and that the endeavors and goals set in the decades past be the challenge of the next one hundred years.

H—5197

Amend House File 200 as follows:

1. By striking all after the enacting clause and inserting in lieu thereof the following:

"Section 1. Section one hundred fifty-five point three (155.3), Code 1975, is amended by adding the following new subsections:

NEW SUBSECTION. "Demonstrated bioavailability" is a term used to refer to the rate and extent of absorption of a drug or drug ingredient from a

specified dosage form, as reflected by the time-concentration curve of the drug or drug ingredient in the systemic circulation.

NEW SUBSECTION. "Manufacturer" means a person who prepares, compounds, processes or fabricates any prescription drug.

NEW SUBSECTION. "Packer" or "distributor" means a person who repackages or otherwise changes the container, wrapper or labeling of any prescription drug in furtherance of the distribution of the drug, but does not include a retailer who repackages a prescription drug at the time of sale to its ultimate consumer.

NEW SUBSECTION. "Brand name" or "trade name" means the registered trademark name given to a drug product or ingredient by its manufacturer, labeler or distributor.

NEW SUBSECTION. "Generic name" means the official title of a drug or drug ingredient published in an official compendium as defined in section two hundred three A point two (203A.2), subsection six (6), of the Code.

NEW SUBSECTION. The "finished dosage form" of a prescription drug is that form of the drug which is or is intended to be dispensed or administered to the patient, and which requires no further manufacturing or processing other than packaging, reconstituting and labeling.

Sec. 2. Section one hundred fifty-five point thirteen (155.13), subsection six (6), Code 1975, is amended to read as follows:

6. Substitution of a drug[,] *or* substance[, or brand] other than the drug[,] *or* substance [or brand] ordered in the prescription of a physician, dentist, podiatrist or veterinarian licensed by law.

Sec. 3. Chapter one hundred fifty-five (155), Code 1975, is amended by adding the following new section:

NEW SECTION. NONEQUIVALENT DRUG OR DRUG PRODUCT LIST. The board shall be responsible for designating drugs or drug products which, because of the lack

Page 2

of demonstrated bioavailability, would pose a substantial threat to the health, safety, and welfare of the people of Iowa if such drugs or drug products were subject to dispensing under the provisions of section four (4) of this Act. Within one hundred eighty days after the effective date of this Act, the board shall cause to be issued a list of those drugs or drug products which have been demonstrated as being nonequivalent and are not interchangeable as determined by the federal food and drug administration. The board shall mail a copy of the

nonequivalent drug or drug product list to each pharmacy registered with it and each physician, dentist, podiatrist and veterinarian licensed to practice in this state. Thereafter, the board shall from time to time make additions to or deletions from the nonequivalent drug or drug product list as determined by the federal food and drug administration. **Notification of such additions or deletions shall** be made promptly to each pharmacist registered with the board and each physician, dentist, podiatrist and veterinarian licensed to practice in this state.

Sec. 4. Chapter one hundred fifty-five (155), Code 1975, is amended by adding the following new section:

NEW SECTION. PRODUCT SELECTION BY PHARMACIST—RESTRICTIONS.

1. If a physician, dentist, podiatrist or veterinarian prescribes, either in writing or orally, a drug by its brand or trade name and does not specifically state that only that designated brand or trade name drug product is to be dispensed, and if the pharmacy to which the prescription is presented or communicated has in stock one or more other drug products with the same generic name and demonstrated bioavailability as the one prescribed, the pharmacist may exercise his or her professional judgment in the economic interest of the person purchasing the prescription by selecting a drug product generically **equivalent to but of equal or lesser cost than the** one prescribed for dispensing and sale to the person.

2. The pharmacist shall not dispense a generically equivalent drug product under this section if:

a. The prescriber indicates that no drug product selection shall be made; or

b. The person prescribing the prescription indicates that only the specific drug product prescribed is **to be dispensed; or**

c. The drug product to be dispensed is listed in the nonequivalent drug product list.

"Packer" or "distributor" means a person who repackages or otherwise changes the container, wrapper or labeling of any prescription drug in furtherance of the distribution of the drug or cosmetic, but does not include a retailer who repackages a drug or cosmetic at the time of sale to its ultimate consumer.

(203A.10), subsection two (2), Code 1975, is amended to read as follows:

1. The label sets forth:

JOINT CONVENTION

LINCOLN'S BIRTHDAY OBSERVANCE

In accordance with House Concurrent Resolution 6 duly adopted, the joint convention was called to order, President Neu presiding.

President Neu declared a quorum present and the joint convention duly organized.

Senator Andersen of Woodbury moved that a committee of six, consisting of three members from the Senate and three members from the House, be appointed to escort Senator Glenn to the rostrum to deliver an address in observance of Lincoln's birthday.

The motion prevailed and the President appointed as such committee Senators Andersen of Woodbury, Curtis of Cherokee and Redmond of Linn, on the part of the Senate, and Representatives Doyle of Woodbury, Husak of Tama and Drake of Muscatine, on the part of the House.

The committee waited upon Senator Glenn and escorted him to the Speaker's station.

President Neu introduced Senator Gene W. Glenn of Wapello County who addressed the joint convention as follows:

MR. PRESIDENT, MR. SPEAKER, DISTINGUISHED MEMBERS OF THE GENERAL ASSEMBLY, LADIES AND GENTLEMEN:

How appropriate that we honor the legacy of Lincoln during our Bicentennial Year. Who, more than this revered American, gave the sustenance of lasting cohesion to a people and a Nation fragmented by conflicting practices and principles?

"A house divided against itself cannot stand.

I believe that this government cannot endure permanently half slave and half free."

Thus did Abraham Lincoln eloquently cut to the heart of the fledgling democracy's dilemma. The institution of slavery, which subordinated black men and women to the status of chattels, could not be reconciled with the Constitution's nobler standards; nor could conscience longer condone such callous debasement of the human condition.

In the week before his issuance of the Emancipation Proclamation, a troubled Lincoln shared his concerns with Congressman John Covode. "I have studied that matter well; my mind is made up. . . . It must be done. I am driven to it."

Longfellow wrote that New Year's Day of 1863: "A great day. The President's Proclamation for Emancipation of Slaves in the rebel states, goes into effect. A beautiful day, full of sunshine, ending in a tranquil moonlight night. May it be symbolical."

Less beautiful did the edict appear in the insurrection areas. Property valued on the tax books at nearly $3 billion was confiscated by the stroke of Lincoln's pen. Could a more contentious consequence be conceived?

The moral issue merged with the political objective. In a letter dated August 22, 1862, Lincoln had set forth his paramount resolve:

> "I would save the Union. I would save it the shortest way under the Constitution. The sooner the national authority can be restored; the nearer the Union will be 'the Union as it was'. If there be those who would not save the Union unless they could at the same time save slavery, I do not agree with them. If there be those who would not save the Union unless they could at the same time destroy slavery, *I* do not agree with them. My paramount object in this struggle is to save the Union, and is not either to save or to destroy slavery."

Lest misunderstanding arise as to apparent ambivalence on the abolitionist question, he closed the letter in this manner:

> "I have here stated my purpose according to my view of official duty; and I intend no modification of my oft-expressed personal wish that all men everywhere could be free."

Destiny's selection could hardly have been more random and less calculating. Life on the frontier was hardy, existence spartan. When Thomas Lincoln bought his second farm of 348½ acres on the South Fork of Nolin Creek, 18 miles southeast of Elizabethtown in Kentucky—for which he paid Isaac Bush $200 in cash and took on a small obligation due a former titleholder—creature comforts were scanty. In 1808 Tom Lincoln erected a cabin of logs on his land about two and a half miles from Hodgenville; the floor was dirt and a stick-clay chimney carried the fire smoke away.

With the aid of "the granny woman", Aunt Peggy Walters, a male child was born to Nancy Hanks and Thomas Lincoln, February 12, 1809. When asked what she was going to name him, Nancy responded: "Abraham, after his grandfather." She would die at the age of 34, leaving behind the nine-year-old Abe and twelve-year-old Sarah. Their lonesome days did not long endure; Thomas soon remarried, with his new wife bringing three children of her own into the one-room cabin. Modesty became sublimated to necessity, as eating, sleeping, washing and dressing took place in close proximity.

The young Lincoln's sparse education held no promise of future literary distinction; nor did the young gaunt giant glimpse his role in history. As he penned in his school sum book sheets:

> "Abraham Lincoln is my name
> And with my pen I wrote the same
> I wrote in both hast and speed
> And left it here for fools to read
> Abraham Lincoln his hand and pen
> He will be good but god knows when."

The theme of humility—near purposelessness—is recurrent through adolescence and young manhood. Paul Horgan captures it well in his

"Citizen of New Salem". "(Lincoln) assured those with whom he came in contact that he was a piece of floating driftwood; that after a winter of deep snow, he had come down the river with the freshet; borne along by the swelling waters, and aimlessly floating about he had accidentally lodged at New Salem . . ." His self-description was that of "a strange, friendless, uneducated, penniless boy, working on a flat boat—at ten dollars a month."

Self-doubt notwithstanding, following a stint in the military service during the Black Hawk War of 1832, the youthful Lincoln stood as a candidate for the Illinois Legislature from New Salem. Tall, gawky and rough looking, appearing much like the proverbial bumpkin, his competent speech-making gained him a surprising number of supporters and he fell but slightly short of success in a district where he had lived just over a year. Becoming a storekeeper to sustain himself, Lincoln commenced the study of law on the side. Mentor Graham, his schoolmaster, noted that "he was so studious he somewhat impaired his health and constitution"; other friends feared he "might bring on a mental derangement". But Lincoln persisted and his teacher proudly observed of the grown-up student: "I have taught in my life from four to six thousand pupils as a schoolmaster and no one has ever surpassed him in rapidly, quickly and well acquiring the rudiments and rules of English grammar."

The rude prairie frontier life demanded physical toughness; Lincoln's fame as a wrestler, jumper and runner rapidly grew. Rowan Herndon described him as "by fare the stoutest man that I ever took hold of," after he had seen him lift between 1,000 and 1,300 pounds of rock laid in a box. When he felled trees in the forest, observers thought his ax must be wielded by three men.

When his store failed, Lincoln secured appointment as postmaster and thereafter public surveyor. Again, Lincoln stood for the Legislature and on August 4, 1834, he was elected an Assemblyman of the Ninth General Assembly of the Illinois Legislature recording the highest vote cast for any candidate. Reelected in 1836, he debated and voted upon such familiar matters as the establishment of circuit courts, the powers of justices of the peace, questions of taxation, banking, incorporation of insurance companies, public roads, bridges, and education. During this term he acquired the reputation among his peers as "the smartest parliamentarian and cunningest 'log-roller'". In a joint statement with Assemblyman Dan Stone, his fellow townsman, Lincoln noted that "the institution of slavery is founded on both injustice and bad policy." His mind having been nurtured in the classics, his friendships broadened in the friendly environs of New Salem, his political skills and instincts honed in the Illinois Assembly; Lincoln now gained admittance to the practice of law and moved to Springfield where the Congress, the White House, and a rendezvous with history awaited him.

In his First Inaugural Address, delivered in 1861, Abraham Lincoln confronted the herculean task of maintaining the Union:

> "The Union is much older than the Constitution. It was formed, in fact, by the Articles of Association in 1774. It was matured and continued by the Declaration of Independence in 1776. It was further matured, and the faith of all the then thirteen States expressly plighted and engaged that it should be perpetual, by the Articles of Confederation in 1778. And, finally in 1787, one of the declared objects for

ordaining and establishing the Constitution was 'to form a more perfect Union'. . . .

I therefore consider that, in view of the Constitution and the laws, the Union is unbroken; and to the extent of my ability I shall take care, as the Constitution itself expressly enjoins upon me, that the laws of the Union be faithfully executed in all of the States."

Lincoln alluded to the necessity of majority rule in governing:

"From questions of this class spring all our constitutional controversies, and we divide upon them into majorities and minorities. If the minority will not acquiesce, the majority must or the Government must cease. There is no other alternative; for continuing the Government is acquiescence on one side or the other."

He extended the hand of friendship:

"We are not enemies, but friends. We must not be enemies. Though passion may have strained, it must not break our bonds of affection."

Lincoln's eloquent plea availed not and a bloodbath ensued between North and South that exacted the lives of some 620,000 Americans. With the end of the War in sight, Lincoln used the occasion of his Second Inaugural Address to heal the awful breach that had been opened:

"With malice toward none; with charity for all; with firmness in the right, as God gives us to see the right, let us strive on to finish the work we are in; to bind up the nation's wounds; to care for him who shall have borne the battle, and for his widow, and his orphan—to do all which may achieve and cherish a just and lasting peace among ourselves, and with all nations."

The assassin's bullet that snuffed out this titan's life failed to deflect a people from the reconciliation he espoused. In the one hundred and ten years since that tragic event, the Nation's wounds have long since been healed and the cause of equal justice for all—though at times halting, sometimes strident—advanced beyond frontiers scarcely dreamed in Lincoln's day.

He would have delighted in this internal uplifting of the human condition; he would have marvelled at the scientific and economic progress attained; he would have wept at the colossal struggles America has endured abroad to remain free.

In this our Bicentennial Year, when we acknowledge the immeasurable contribution rendered by this honored American, may we rededicate ourselves to his magnificent injunction: "To do all which may achieve and cherish a just and lasting peace among ourselves and with all nations."

Fitzgerald of Webster moved that the joint convention be now dissolved.

The motion prevailed.

The House reconvened, Speaker Cochran in the chair.

On motion by Fitzgerald of Webster, the House was recessed until 3:30 p.m.

AFTERNOON SESSION

The House reconvened, Speaker Cochran in the chair.

Sec. 13. *NEW SECTION.* As used in this Act unless the context otherwise requires:

1. "Person" means an individual, firm, partnership, corporation, joint venture or other association of persons.

2. "Hotel, motel or tourist court" means any structure or building, under one management, which contains rooms furnished for the accommodation or

lodging of guests, with or without meals, which is kept, used, maintained, advertised or held out to the public as a place where sleeping accommodations are provided for compensation to transient guests or permanent guests, and which has more than eight bedrooms furnished for the accommodation of such guests.

3. "Transient guest" means a person who occupies a room or sleeping accommodations in a hotel, motel or tourist court for not more than twenty-eight consecutive days.

4. "Business" means the enterprise of renting sleeping accommodations or rooms in a hotel, motel or tourist court.

Sec. 14. *NEW SECTION.*

1. Any county or city is authorized to levy a transient guest tax at a rate not to exceed five percent of the gross rental receipts derived from the rental to transient guests of sleeping accommodations and rooms costing in excess of three dollars per day in a hotel, motel or tourist court. The tax rate, not to exceed five percent of such gross receipts, shall be determined by the governing body of the county or city and be specified in the resolution authorizing the tax. The levy shall be in addition to the tax imposed under section four hundred forty-two point forty-three (442.43) of the Code.

2. The taxes levied under this section shall be paid by the transient guest or person paying on behalf of the transient guest to the business and it is the duty of every business to collect the full amount of the tax, or an amount as nearly equal thereto as possible. Each business collecting taxes levied under

this section is responsible for paying over the taxes collected to the director in the manner prescribed by section fifteen (15) of this Act, and the director shall administer and enforce the collection of the taxes.

3. If a countywide tax is imposed, cities within the county shall not impose the same tax in addition, or if the county imposes a tax in a year subsequent to the imposition of the same tax by a city in that county, the city tax shall be suspended for the period during which the countywide tax is imposed.

Sec. 15. *NEW SECTION.*

1. A tax levied and collected under section fourteen (14) of this Act shall be due and payable quarterly, on or before the last day of the month immediately succeeding the last month of the quarter in which it is collected in the manner of state gross receipts taxes. Each business shall make a true report to the department, on a form prescribed by

the director, providing information as may be necessary to determine the amounts to which the tax shall apply for the applicable quarter, which report shall be submitted with the quarterly tax payment of the business. Records of gross rental receipts subject to a tax imposed under this Act shall be kept separate and apart from the records of other gross receipts of a business in order to facilitate the examination of books and records as provided in this section.

2. The director or his authorized representative has the right at all reasonable times during business hours to make examination and inspection of the books and records of a business as may be necessary to determine the accuracy of the reports required under this section.

3. "Sec. ..... LOCAL REFERENDUM TO EXCEED ALLOWABLE GROWTH GUIDELINE.

1. If the governing body of a political subdivision wishes to exceed the allowable growth guideline established by this Act, the governing body shall direct the county commissioner of elections to publish notice of and conduct a special election within twenty days after the date of publication. The notice shall be published as provided in section forty-nine point fifty-three (49.53) of the Code and shall include a comparison of the dollar amount and percentage of allowable growth established by this Act and the dollar amount and percentage of allowable growth requested for the proposed limited budget of the political subdivision. HOUSE CONCURRENT RESOLUTION 109
By Junker and Rinas

Whereas, monitoring or electronic surveillance of telephone conversations by government, business, or private citizens is an invasion of privacy and morally wrong unless done with a court order in connection with a crime or subversive act against our government; and

Whereas, the current legal authority for employers to monitor employees is included in the Omnibus Crime Control and Safe Streets Act of 1968; and

Whereas, only two states provide some type of safeguard against employers use of wiretapping or monitoring of employees; and

Whereas, many companies employ monitoring, as a disciplinary tool under the guise of quality control; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is authorized to appoint a bipartisan interim study

committee composed of both houses of the general assembly to study problems of invasion of privacy resulting from monitoring and wiretapping and to report its finding with proposed legislation designed to severely circumscribe all forms of monitoring and wiretapping to the legislative council and the general assembly.

Laid over under Rule 25.

1. "Disabled condition" means the condition of being unconscious, semiconscious, incoherent, or otherwise incapacitated to communicate.

2. "Disabled person" means a person in a disabled condition.

3. "Emergency symbol" means the caduceus inscribed within a six-barred cross used by the American medical association to denote emergency information.

4. "Identifying device" means an identifying bracelet, necklace, metal tag, or similar device bearing the emergency symbol and the information needed in an emergency.

Sec. 3. *NEW SECTION.* IDENTIFYING DEVICES.

1. A person who suffers from epilepsy, diabetes, a cardiac condition, or any other type of illness that causes temporary blackouts, semiconscious periods, or complete unconsciousness, or who suffers from a condition requiring specific medication or medical treatment, is allergic to certain medications or items used in medical treatment, wears contact lenses, or is unable to communicate coherently or effectively in the English language, is authorized and encouraged to wear an identifying device.

The reasonable search of the disabled person shall be conducted as soon as proper police procedures and proper emergency medical treatment will permit, but in all cases shall be performed prior to the person being placed in a detention facility.

2. A cause of action against a peace officer shall not arise from the peace officer making a reasonable search of the disabled person to locate an identifying device or identifying card, even though the person is not wearing an identifying device or carrying an identifying card.

3. A peace officer who determines or has reason to believe that a disabled person is suffering from an illness causing the condition shall promptly notify the person's physician, if practicable. If the officer is unable to ascertain the physician's identity or to communicate with the person, the officer shall make a reasonable effort to cause the disabled person

to be transported immediately to a medical practitioner or to a facility where medical treatment is available. If the officer believes it unduly dangerous to move the disabeld person, the officer shall make a reasonable effort to obtain the assistance of a medical practitioner.

4. A search for an identifying device or an identifying card under this section is not a search incident to a lawful arrest and any item seized shall not be admissible in evidence in any criminal prosecution.

If the search under this section is made in conjunction with a search incident to a lawful arrest the admissibility of evidence seized shall not be affected.

Sec. 5. *NEW SECTION.* PENALTY. A person who with intent to deceive provides, wears, uses, or possesses a false identifying device or identification card or any person who violates a duty provided in section four (4) of this Act is guilty of a misdemeanor and upon conviction may be punished by a fine of not more than one hundred dollars or by imprisonment in the county jail for not more than thirty days."

CONSIDERATION OF BILLS

REGULAR CALENDAR

Senate File 524, a bill for an act relating to business corporations, with report of committee recommending amendment and passage, was taken up for consideration.

Oakley of Clinton offered the following amendment H—5129 filed by the committee on judiciary and law enforcement:

H—5129

Amend Senate File 524, as amended and passed by the Senate, as follows:

1. Page 2, by inserting after line 8 the following:

"Sec. ..... Section four hundred ninety-six A point thirty-four (496A.34), unnumbered paragraph one (1), Code 1975, is amended by striking the paragraph and inserting in lieu thereof the following:

All corporate powers shall be exercised by or under the authority of, and the business and affairs of a corporation shall be managed under the direction of a board of directors consisting of one or more members, except as may be otherwise provided in this chapter or in the articles of incorporation. If any such provision is made in the articles of incorporation, the powers and duties conferred or imposed upon the board of directors by this chapter shall be exercised or performed to such extent and by such person or persons as shall be provided in the articles of incorporation. Directors need not be residents of this state or shareholders of the corporation unless the articles of incorporation or bylaws so require. The articles of incorporation or bylaws may prescribe other qualifications for directors. The board of directors shall have authority to fix the compensation of directors unless otherwise provided in the articles of incorporation.

A director shall perform the duties of a director, including the duties as a member of any committee of the board upon which such director may serve, in good faith, in a manner such director reasonably believes to be in the best interests of the corporation, and with such care as an ordinarily prudent person in a like position would use under similar circumstances. In performing such duties, a director shall be entitled to rely on information, opinions, reports or statements, including financial statements and other financial data, in each case prepared or presented by: (1) One or more officers or employees of the corporation whom the director reasonably believes to be reliable and competent in the matters presented; (2) Counsel, public accountants or other persons as to matters which the director reasonably believes to be within such person's professional or expert competence; or, (3) A committee of the board upon which such director does not serve, duly designated in accordance with the provision of the articles of incorporation or the bylaws, as to matters within its designated authority, which committee the director reasonably believes to merit confidence. However such director shall not be

Page 2

considered to be acting in good faith if such director has knowledge concerning the matter in question that would cause such reliance to be unwarranted. A person who so performs such duties shall not have liability by reason of being or having been a director of the

corporation.

A director of a corporation who is present at a meeting of its board of directors at which action on any corporate matter is taken shall be presumed to have assented to the action taken, unless the dissent of such director is entered in the minutes of the meeting, such director files a written dissent to such action with the secretary of the meeting before the meeting's adjournment, or such director forwards such dissent by registered or certified mail to the secretary of the corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to a director who voted in favor of such action."

2. Page 3, by inserting after line 2 the following:

"Sec. ..... Section four hundred ninety-six A point thirty-nine (496A.39), Code 1975, is amended to read as follows:

496A.39 EXECUTIVE COMMITTEE. If the articles of incorporation or the bylaws so provide, the board of directors, by resolution adopted by a majority of the full board of directors, may designate from among its members an executive committee and one or more other committees each of which, to the extent provided in such resolution or in the articles of incorporation or the bylaws of the corporation, shall have and may exercise all the authority of the board of directors, [but] *except that* no such committee shall have the authority [of the board of directors in reference to amending the articles of incorporation, adopting a plan of merger or consolidation, recommending to the shareholders the sale, lease, exchange or other disposition of all or substantially all the property and assets of the corporation otherwise than in the usual and regular course of its business, recommending to the shareholders a voluntary dissolution of the corporation or a revocation thereof, or amending the bylaws of the corporation. The designation of any such committee and the delegation thereto of authority shall not operate to relieve the board of directors, or any member thereof, of any responsibility imposed by law] *to: (1) declare dividends or distributions; (2) approve or recommend to shareholders actions or proposals required by this chapter to be approved by shareholders; (3) designate*

candidates for the office of director, for purposes of proxy solicitation or otherwise, or fill vacancies on the board of directors or any committee thereof; (4) amend the bylaws; (5) approve a plan of merger not requiring shareholder approval; (6) reduce surplus; (7) authorize or approve the reacquisition of shares unless pursuant to a general formula or method specified by the board of directors; or, (8) authorize

or approve the issuance or sale of, or any contract to issue or sell, shares or designate the terms of a series of a class of shares. However, the board of directors, having acted regarding general authorization for the issuance or sale of shares, or any contract for issuance or sale, and, in the case of a series, the designation for issuance or sale, may, pursuant to a general formula or method specified by the board by resolution or by adoption of a stock option or other plan, authorize a committee to fix the terms of any contract for the sale of the shares and to fix the terms upon which such shares may be issued or sold, including, without limitation, the price, the dividend rate, provisions for redemption, sinking fund, conversion, voting or preferential rights, and provisions for other features of a class of shares, or a series of a class of shares, with full power in such committee to adopt any final resolution setting forth all the terms and to authorize the statement of the terms of a series for filing with the secretary of state under this chapter.

Neither the designation of any such committee, the delegation to it of authority, nor action by such committee pursuant to such authority shall alone constitute compliance by any member of the board of directors, not a member of the committee in question, with such director's responsibility to act in good faith, in a manner such director reasonably believes to be in the best interests of the corporation, and with such care as an ordinarily prudent person in a like position would use under similar circumstances."

3. Page 3, by inserting after line 19 the following:

"Sec. ..... Section four hundred ninety-six A point forty-four (496.44), Code 1975, is amended to read as follows:

1. [Directors of a corporation] *A director* who [vote] *votes* for or [assent] *assents* to the declaration of any dividend or other distribution of the assets of a corporation to its shareholders [in willful or negligent violation of] *contrary to* the provisions of this chapter or [of] *to* any restrictions contained in the articles of incorporation, shall be [jointly and severally] liable to the corporation *jointly and severally with all other directors so voting or assenting* for the amount of such dividend which is

paid or the value of such assets which are distributed in excess of the amount of such dividend or distribution which could have been paid or distributed without a violation of the provisions of this chapter or of the restrictions in the articles of incorporation.

2. [Directors of a corporation] *A director* who [vote] *votes* for or [assent] *assents* to the purchase of [its] *the corporation's* own shares [in willful or negligent violation of] *contrary to* the provisions of this chapter or [of] *to* any restrictions contained in the articles of incorporation, shall be [jointly and severally] liable to the corporation *jointly and severally with all other directors so voting or assenting* for the amount of consideration paid for such shares which is in excess of the maximum amount which could have been paid therefor without a violation of the provisions of this chapter or of the restrictions in the articles of incorporation.

3. [The directors of a corporation] *A director* who [vote] *votes* for or [assent] *assents* to any distribution of assets of a corporation to its shareholders during the liquidation of the corporation without the payment and discharge of, or making adequate provision for, all unknown debts, obligations, and liabilities of the corporation shall be [jointly and severally] liable to the corporation *jointly and severally with all other directors so voting or assenting* for the value of such assets which are distributed, to the extent that such debts, obligations and liabilities of the corporation are not thereafter paid and discharged.

[A director of a corporation who is present at a meeting of its board of directors at which action on any corporate matter is taken shall be presumed to have assented to the action taken unless his dissent shall be entered in the minutes of the meeting or unless he shall file his written dissent to such action with the person acting as the secretary of the meeting before the adjournment thereof or shall

Page 5

forward such dissent by registered or certified mail to the secretary of the corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to a director who voted in favor of such action.

A director shall not be liable under subsections 1, 2, or 3 of this section if the director relied and acted in good faith upon financial statements of the corporation, represented to the director to be correct by the president or the officer of such corporation having charge of its books of account, or stated in a written report by an independent public or certified public accountant or firm of such accountants fairly to reflect the financial condition of such corporation nor shall the director be so

liable if in good faith in determining the amount available for any such dividend or distribution the director considered the assets to be of their book value.] If an officer willfully or negligently submits an incorrect financial statement to a director or directors, and board of directors action, contrary to the provisions of this chapter or of any restrictions in the articles of incorporation, is taken in reliance thereon, the officer shall be liable to the same extent as if the officer were a director voting for or assenting to such action. No [director or] officer shall be deemed to be negligent within the meaning of this section if the [director or] officer exercised that diligence, care and skill which an ordinarily prudent person *in a like position* would [exercise] *use* under similar circumstances.

Any director against whom a claim shall be asserted under or pursuant to this section for the payment of a dividend or other distribution of assets of a corporation and who shall be held liable thereon, shall be entitled to contribution from the shareholders who accepted or received any such dividend or assets, knowing such dividend or distribution to have been made in violation of the provisions of this chapter or of any restrictions in the articles of incorporation, in proportion to the amounts received by them respectively, and to contribution from any other director found to be similarly liable.

Any action seeking to impose liability under this section, other than liability for contribution, shall be commenced only within five years of the action complained of and not thereafter."

H—5307

Amend House File 199, by striking everything after the enacting clause, and inserting in lieu thereof the following:

"Section 1. Section two hundred eleven point one (211.1), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

211.1 DEFINITIONS. As used in this chapter, unless the context otherwise requires:

1. "Broker" means a compensated agent employed to negotiate sales of livestock.

2. "Consignment" means the transfer of possession of livestock to the care and custody of a livestock agency for the purpose of sale.

3. "Livestock" means cattle, horses, swine, sheep and poultry, but excluding any of those types of animals when bound for slaughter. "Livestock" does not include any other type of animal or fowl.

4. "Livestock history" means the information described in section three (3) of this Act.

5. "Livestock agency" means a person regularly engaged in livestock transactions and includes sales-yards, sales barns, auction markets, stockyards, order buyers, commission agents, and livestock dealers. A livestock agency is a merchant. A central public market is not a livestock agency or merchant.

6. "Merchant" means merchant as defined in section five hundred fifty-four point two thousand one hundred four (554.2104) of the Code.

7. "Owner" means a person having title to livestock which are the subject of a transaction.

8. "Person" means person as defined in section four point one (4.1) of the Code.

9. "Qualified livestock transaction" means as provided in section two (2) of this Act.

10. "Transaction" means either the sale of livestock, the brokering of livestock, or the consignment of livestock.

11. "Central public market" means a person who owns and operates a place, establishment, or facility **which is registered as a stockyard, but who is not** registered as a commission agent or dealer, under **the United States Packers and Stockyards Act of 1921,** as amended, Title VII, sections one hundred eighty-one (181) through two hundred thirty-one (231), United States Code.

Sec. 2. Section two hundred eleven point two (211.2), Code 1975, is amended by striking the section **and inserting in lieu thereof the following:**

211.2 EXEMPTION OF TRANSACTIONS FROM IMPLIED WARRANTIES. A transaction which complies with section

four (4) of this Act, as appropriate, is a qualified livestock transaction. Livestock which are the subject of a qualified livestock transaction shall be exempt from the implied warranties of section five hundred fifty-four point two thousand three hundred fourteen (554.2314) and five hundred fifty-four point two thousand three hundred fifteen (554.2315) of the Code with respect to that transaction, notwithstanding section five hundred fifty-four point two thousand three hundred sixteen (554.2316) of the Code. However, the exemption created by this section shall not be deemed to impair or modify any actual exclusion or modification of warranties as permitted by section five hundred fifty-four point two thousand three hundred sixteen (554.2316) of the Code.

Sec. 3. Section two hundred eleven point three (211.3), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

211.3 LIVESTOCK HISTORY.

1. When a written livestock history is to be used in a transaction, it shall be prepared on forms approved by, or prescribed and furnished by the department of agriculture. The form shall be signed by the owner of the livestock or his or her authorized agent, and shall state the names, mailing addresses, and residence or business locations of the present owner and all previous owners of the livestock within the thirty days preceding the date of the transaction.

2. If the identities of all previous owners within the preceding thirty days cannot be determined due to transactions which occurred outside the state of Iowa, the form shall so indicate and shall provide

full information concerning the out-of-state transaction resulting in the transportation of the livestock into Iowa.

3. If the livestock history is not available to the owner or a livestock agency due to the refusal of an owner to provide it, the owner or a livestock agency may prepare a livestock history which shall so indicate and which shall provide full information concerning its receipt of the livestock which are the subject of the transaction.

4. Except as provided in subsections two (2) and three (3) of this section, if the identities of all previous owners within the preceding thirty days are not determined or cannot be determined for any other reason, then the livestock shall not qualify for exemption under this Act.

5. The form shall require a description of the livestock including their number, breed and sex, and

Page 3

brands, tags, or other markings, if any.

6. The livestock history shall constitute an express warranty by the owner, or, by the livestock agency acting under the provisions of subsection three (3) of this section, as to the livestock which are the subject of the transaction.

7. If the livestock history is not the same for all livestock included in the transaction, a livestock history must be separately prepared and disclosed for all livestock included in the transaction.

8. Owners, and livestock agencies acting under the provisions of subsection three (3) of this section, shall retain one copy of each livestock history they prepare for at least two years after the date of the transactions to which it refers.

Sec. 4. Chapter two hundred eleven (211), Code 1975, is amended by adding the following new section:

NEW SECTION. 211.4 COMPLIANCE.

1. When selling livestock an owner who is not a livestock agency is deemed to have participated in a qualified livestock transaction if, prior to making the contract of sale, that owner does any of the following:

a. Delivers to the buyer a copy of the livestock history subscribed by that owner; or

b. Otherwise discloses the information required by the livestock history form; or

c. If the owner consigns the livestock to a livestock agency, the owner delivers a written livestock history to the livestock agency.

2. A livestock agency who participates in a transaction as the owner of the livestock, and who prepares a written livestock history as owner in accordance with section three (3) of this Act, and who discloses the history as provided for in subsection

three (3) of this section, is deemed to have participated in a qualified livestock transaction.

3. A livestock agency either selling livestock on consignment or brokering the sale of livestock is deemed to have participated in a qualified livestock transaction if it makes the livestock history form available at the place of business of the livestock agency for prospective buyers to see upon request prior to the making of a sale, and if it verbally announces immediately prior to the taking of bids or the receiving of other offers the name of the owner of the livestock and the number of owners previous thereto as reflected in the livestock history. The duty of the livestock agency in complying with this subsection shall be limited to accurately disclosing

the livestock history as received by the livestock agency. The fact that a buyer did not hear the announcement shall not defeat the exemption claimed with respect to that buyer. If a livestock agency acting as a consignee or broker receives a written livestock history, the livestock agency shall retain the written history for two years from the date of receipt, regardless of whether or not the livestock agency participates in a qualified livestock transaction.

Sec. 5. Chapter two hundred eleven (211), Code 1975, is amended by adding the following new sections:

NEW SECTION. 211.5 EXEMPTION IS A DEFENSE.

In any action or proceeding, the implied warranty exemption which is created by section two (2) of this Act shall be a defense, and the burden of pleading the defense and of proving compliance with section four (4) of this Act shall be on the person or livestock agency asserting the defense. Proof of a material error in or material omission from information supplied shall defeat a claim of exemption, except as otherwise provided in subsection three (3) of section four (4) of this Act with respect to a livestock agency.

NEW SECTION. 211.6 NONCOMPLIANCE NOT EVIDENCE.

The election by any owner or by any livestock agency not to provide livestock history or not to make any verbal declaration of the history of livestock ownership in a transaction shall not be admissible as evidence in any action brought by the buyer in that transaction if offered by that buyer as proof of, or as fact tending to prove, any allegation or claim other than fraud or misrepresentation asserted by the buyer in that action.

NEW SECTION. 211.7 FALSE STATEMENT—PENALTY.

Any person who knowingly furnishes, completes or states false livestock history commits a misdemeanor, punishable by a fine not exceeding one hundred dollars or by imprisonment in the county jail for not more

than thirty days.

NEW SECTION. 211.8 VETERINARY INSPECTION.

1. INSPECTIONS. A livestock agency or central public market operating under a permit issued by the department of agriculture shall cause to be provided veterinary inspections by a qualified veterinary inspector who has been approved by the secretary of agriculture. The veterinary inspector shall visually inspect all livestock marketed and shall issue certificates as to the apparent health of livestock so inspected. The veterinary inspector

Page 5

shall have other duties as determined by the secretary of agriculture.

2. CERTIFICATES. A livestock agency or central public market shall cause to be delivered with all livestock sold a verified veterinarian's certificate, on a form prescribed by the secretary of agriculture, which certifies that the health inspection of each animal sold was made during the twenty-four hour period immediately preceding the sale.

3. PENALTIES. A livestock agency or central public market which fails to comply with a duty imposed by this section commits a misdemeanor, and upon conviction may be sentenced to a fine not to exceed five hundred dollars, or to imprisonment in the county jail for a term not to exceed one year, or to both the fine and imprisonment.

4. INSPECTION FEES. The state department of agriculture shall collect a veterinary inspection fee agreed upon by the livestock agency or central public market and a qualified veterinary inspector, recommended by the livestock agency or central public market and approved by the secretary of agriculture plus a cost of administration not to exceed two dollars per month per livestock agency or central public market, on all livestock marketed through said livestock agency or central public market required to hold permits issued by the department of agriculture. Such fees, when collected, shall be placed by the secretary of agriculture in an "inspection fee revolving fund" under his or her jurisdiction. The department shall pay fees to each approved veterinary inspector for inspection services in accordance with agreements between such veterinarian and the livestock agency or central public market where inspections are accomplished, reduced by the allowable amounts for administration. Such fees shall be adjusted from time to time so that the amount collected will not exceed the costs of veterinary inspections and the administration thereof. The provisions of this section shall also apply to all livestock agencies or central public markets receiving livestock moved into this

state for sale through said livestock agency or central public market, except meat processing establishments or central public markets where full-time federal inspections are required and such requirement is complied with. Livestock agencies or central public markets not handling livestock shipped into this state for resale shall be exempt from the provisions of this section, as well as livestock meeting federal and state requirements for interstate shipment as

Page 6

to health at the time of entry into Iowa.

NEW SECTION. 211.9 BONDING CERTAIN LIVESTOCK AGENCIES. The secretary of agriculture may require reasonable bonds from every livestock agency operating in this state which is not presently bonded under the provisions of the United States Packers and Stockyards Act of 1921, as amended, Title VII, sections one hundred eighty-one (181) through two hundred thirty-one (231), United States Code, under such rules as he or she may prescribe to secure the performance of their obligations, and whenever the secretary after hearing under the Iowa Administrative Procedure Act finds any such agency is insolvent or has violated any provisions of this chapter he or she may suspend operations of the livestock agency forthwith for a reasonable specified period.

Sec. 6. Section five hundred fifty-four point two thousand three hundred fourteen (554.2314), Code 1975, is amended by adding the following new subsection:

NEW SUBSECTION. This section does not apply to livestock which are the subject of a qualified livestock transaction as provided in section two hundred eleven point two (211.2) of the Code.

Sec. 7. Section five hundred fifty-four point two thousand three hundred fifteen (554.2315), Code 1975, is amended by adding the following new unnumbered paragraph:

NEW UNNUMBERED PARAGRAPH. This section does not apply to livestock which are the subject of a qualified livestock transaction as provided in section two hundred eleven point two (211.2) of the Code.

Sec. 8. Not later than September 30, 1976, the secretary of agriculture shall approve, or prescribe and distribute the forms to be used pursuant to this chapter. The distribution initially may be restricted to livestock agencies, veterinarians, and other outlets which in the discretion of the secretary will provide the widest practical dissemination and availability."

Amend House File 1279 as follows:

1. Page 40, by inserting after line 20 the following:

"Sec. 59. RATE FILINGS BY INSURERS.

1. The commissioner of insurance shall adopt, pursuant to chapter seventeen A (17A) of the Code, rules necessary to implement the provisions of this Act.

2. Notwithstanding any other provision of law, all insurers issuing insurance coverage under this Act shall comply with the following provisions:

a. Within sixty days after July 1, 1976, each insurer shall file its proposed manual, rules, rates and rating plans with the commissioner for approval. Combined rates for the tort liability and reparations benefits coverage required after the effective date of sections one (1) through twenty (20) and section thirty-three (33) of this Act shall not exceed ninety percent of the combined tort liability coverage rates of such insurer in effect on July 1, 1976, or of the combined tort liability rates of such insurer approved by the commissioner and in effect at the time of the filing of the new rates required herein. There shall be no exception to the requirements of this provision, unless the commissioner shall find that the use of the rates required herein by any insurer will result in rates which are inadequate under section five hundred fifteen A point three (515A.3) of the Code. Notwithstanding the provisions of chapter five hundred fifteen A (515A) of the Code, no rate for the insurance required by this Act shall be increased prior to January 1, 1978, unless the insurer proposing such rate increase shall show that the rates required herein are inadequate under section five hundred fifteen A point three (515A.3) of the Code.

b. Within sixty days from the date of filing by such insurer, the commissioner may approve or

disapprove the filing. If no action is taken by the commissioner within sixty days, the filing shall be deemed approved.

c. If the commissioner approves the filing or the filing otherwise becomes effective, the manual, rules, rates and rating plans shall take effect upon the effective date of sections one (1) through twenty (20) of this Act. If the department disapproves the filing, the insurer shall revert to a rate level for required coverage which shall not exceed ninety percent of the combined premiums for tort liability coverage in effect for that insurer at the time such proposed new rates were filed.

Page 2

d. Upon complying with this subsection, any insurer appealing an order of disapproval may use the rates set forth in the disapproved filing during the pendency of the appeal, so long as such rates do not exceed its approved rates for tort liability coverage at the time of its rate filing required herein. As a condition to the use of such disapproved rates, the insurer must enter into a legally binding agreement with the commissioner to secure the repayment to the insurer's policyholders of the difference between the insurer's proposed rate and that rate which would be lower, by not less than ten percent, than the combined premiums for tort liability coverage at the time such proposed new rates were filed. In addition to the repayment of the difference in premium, the insurer shall agree to pay to the insured the legal rate of interest on any money refunded.

e. Any motor vehicle liability policy in force on January 1, 1977 and thereafter, shall reflect by endorsement any reduction in rates for the required coverage under this Act as filed by the insurer and such reduction shall be computed on a pro rata basis for the remaining term of said policy. Such endorsement may be issued at the renewal date of the policy or the termination of the policy. Any return premium shall be credited to the renewal policy or if the policy is terminated the return premium shall be refunded to the insured.

f. For the purposes of the implementation of this Act, rating organizations as defined in chapter five hundred fifteen A (515A) of the Code shall be permitted until January 1, 1978, to develop and furnish rates and forms to their members or subscribers. Provided, however, that members and subscribers of rating organizations shall not participate in the decisions or deliberations of such organizations in the development of such rates under this Act."

2. The pharmacist shall not dispense a generically equivalent drug product under this section if:

a. The prescriber indicates that no drug product selection shall be made; or

b. The person presenting the prescription indicates that only the specific drug product prescribed is to be dispensed; or

NEW SECTION. APPOINTMENT OF HEARING OFFICERS. The commission shall designate qualified persons to serve as hearing officers who are experienced in the educational system of this state when a hearing is requested under the provisions of section four (4) of this Act. The hearing shall be held pursuant to the provisions of chapter seventeen A (17A) of the Code relating to contested cases. The full costs of the hearing shall be shared equally by the parties. A person who is employed as a teacher or administrator by a school district shall not be eligible to serve as a hearing officer.

Sec. 4. Chapter two hundred seventy-nine (279), Code 1975, is amended by adding the following new sections:

NEW SECTION. CONTINUING CONTRACT FOR ADMINISTRATORS. Contracts with administrators shall be in writing and shall contain all of the following:

1. The term of employment.
2. The length of time during the school year services are to be performed.
3. The compensation per week of five consecutive days or month of four consecutive weeks.
4. A statement that the contract is invalid if the administrator is under contract with another board of directors in this state covering the same period of time, until such contract shall have been released or terminated by its provisions.
5. Such other matters as may be agreed upon.

The contract shall be signed by the president and the administrator and shall be filed with the secretary of the board before the administrator enters upon performance of the contract. A contract shall not be tendered by an employing board to an administrator under its jurisdiction prior to March first. A contract shall not be required to be signed by the administrator and returned to the board in less than twenty-one days after being tendered.

For purposes of this section and the following section, the term "administrator" includes school superintendents, assistant superintendents, educational directors, principals, assistant principals, and other school supervisors as determined under the provisions

of section twenty point four (20.4) of the Code.

NEW SECTION. CONTRACT WITH ADMINISTRATORS—

AUTOMATIC CONTINUATION OR TERMINATION. An administrator's contract shall remain in force and effect for the period stated in the contract. The contract shall be automatically continued in force and effect for one year beyond the end of its term, except as modified or terminated by mutual agreement of the board of directors and the administrator, or until terminated as hereinafter provided.

An administrator may file his or her written resignation with the secretary of the board on or before May first of each year.

Administrators employed in a school district for less than two consecutive years are probationary administrators. If a board determines that it should terminate a probationary administrator's contract, the board shall notify the administrator not later than March thirty-first that the contract will not be renewed beyond the current year. The notice shall be in writing by letter, personally delivered, or mailed by certified mail. The notification shall be complete when received by the administrator. Within ten days after receiving the notice, the administrator may request a private conference with the board to discuss the reasons for termination. The board's decision to terminate a probationary administrator's contract shall be final unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the administrator.

The board may, by majority vote of the membership of the board, cause the contract of an administrator to be terminated. If the board determines that it should consider the termination of an administrator's contract who has been employed in the school district for two consecutive years or more, the following procedure shall apply:

On or before March thirty-first, the administrator shall be notified in writing by a letter personally delivered or mailed by certified mail that the board has voted to consider termination of the contract. The notification shall be complete when received by the administrator.

The notice shall state the specific reasons to be used by the board for considering termination. Such reasons shall be: Incompetency, inattention to duty, unsatisfactory performance, insubordination, physical or mental disability or sickness which interferes with performance of duty as shown by

competent medical evidence and following a one-year leave of absence, or any other good cause.

Within five days after receipt of the written notice that the board has voted to consider termination of the contract, the administrator may request in

writing to the secretary of the board that the notification be forwarded to the professional teaching practices commission along with a request that the professional teaching practices commission appoint a hearing officer, who shall hold a hearing, make a findings of fact, and a recommendation to the board. The hearing shall be held no sooner than ten days and not later than twenty days following the administrator's request.

The hearing officer appointed by the professional teaching practices commissions shall notify the secretary of the board and the administrator in writing concerning the date, time, and location of the hearing. The board may be represented by a local representative, if any, and the administrator shall appear and may be represented by counsel or by representative, if any. The hearing shall be conducted pursuant to rules promulgated by the professional teaching practices commission under chapter seventeen A (17A) of the Code. Evidence presented at the hearing shall be limited to the specific reasons stated in the notice to consider termination. A transcript or recording shall be made of the proceedings at the hearing. No school board member or administrator shall be liable for any damage to any administrator or board member if any statement made at the hearing is determined to be erroneous as long as the statement was made in good faith.

The hearing officer shall, within ten days following the date of the hearing, make a decision as to whether or not the administrator should be dismissed, and shall give a copy of the decision to the administrator and the school board. The recommendations of the hearing officer shall become the final decision of the board unless within ten days after the filing of the decision the administrator files a written notice of appeal with the board, or the board on its own motion determines to review the decision.

If the administrator appeals to the board, or if the board determines on its own motion to review the recommendation of the hearing officer, a private hearing shall be held before the board within five days after the petition for review, or motion for review, has been made. The board may hear the case de novo or upon the record as submitted before the

Page 4

hearing officer. The secretary of the board shall give the administrator written notice of the time, place, and date of the hearing. The board shall meet within five days after the hearing to determine the question of continuance or discontinuance of the contract. The board shall take action by a roll call vote, entered in the minutes of the board, and the action of the board shall be final unless appealed

to the district court by the administrator.

The secretary of the board shall mail notice of the board's action to the administrator by certified mail, which notice shall be mailed within twenty-four hours following the board's decision.

The administrator may within thirty days after notification by the board of discontinuance of the contract appeal to the district court of the county in which the administrative office of the school district is located.

The court may affirm the board action. The court shall reserve, modify, or grant any other appropriate relief from the board action, equitable or legal, and including declaratory relief, if substantial rights of the administrator have been prejudiced because the board action is defined by any of the following:

1. In violation of constitutional or statutory provisions.
2. In excess of the statutory authority of the board.
3. In violation of board policy or rule.
4. Made upon unlawful procedure.
5. Affected by other error of law.
6. Is unsupported by substantial evidence in the record made before the board when that record is reviewed as a whole.
7. Unreasonable, arbitrary, or capricious, or characterized by an abuse of discretion or clearly unwarranted exercise of discretion.

An administrator may be discharged for cause under the provisions of section two hundred seventy-nine point twenty-four (279.24) of the Code in the same manner as teachers are discharged."

2. Amend the title, line 2, by inserting after the word "teachers' " the words "and administrators' ".

Any such licensee or permittee, or his executor, administrator, or any person duly appointed by the court to take charge of and administer the property or assets of the licensee or permittee for the benefit of his creditors, may voluntarily surrender such license or permit to the department and when so surrendered the department shall notify the local authority, and the department [and] *or* such local authority, [or the local authority by itself in the case of a retail beer permit] *or both,* shall refund to the person so surrendering the license or permit a proportionate amount of [the] *any* fee [paid] *received by the department or that local authority* for such license or permit as follows: If surrendered during the first three months of the period for which said license or permit was issued the refund shall be three-fourths of the amount of the fee; if surrendered

No refund shall be made, however, for any special liquor permit, nor for a liquor control license, *or wine* or beer permit surrendered more than nine months after issuance. *For purposes of this paragraph, any portion of license or permit fees deposited in the county mental health and institutions fund shall not be deemed received either by the department or by a local authority.* No refund shall be made to any licensee or permittee, upon the surrender of his license or permit, if there is at the time of said surrender a complaint filed with the department or local authority, charging [him] *the person* with a violation of the provisions of this chapter. If upon hearing on any such complaint the license or permit is not revoked or suspended, then the licensee or permittee shall be eligible, upon surrender of [his] *the* license or permit, to receive a refund as herein provided[.]*:* But if [his] *the* license or permit is revoked or suspended upon such hearing [he] *the licensee or permittee* shall not be eligible for the refund of any portion of [his] *the* license or permit fee.

Sec. ..... Section one hundred twenty-three point one hundred thirty-five (123.135), Code 1975, is amended by adding the following new subsection:

NEW SUBSECTION.

a. Any manufacturer, vintner, bottler, importer, or vendor of wine or any agent thereof desiring to ship, sell, or have wine brought into this state for sale at wholesale by a class "A" permittee shall first make application for and shall be issued a vintner's certificate of compliance by the director for such purpose. Such certificate of compliance shall expire at the end of one year from the date of issuance and shall be renewed for a like period upon application to the director unless otherwise revoked for cause. Each application for a certificate of compliance or renewal thereof shall be accompanied by a fee of one hundred dollars payable to the department. Each holder of a certificate of compliance shall furnish such information and in such form as the director may require. Any vintner, or wine bottler whose plant is located in Iowa and who otherwise holds a class "A" wine permit to sell wine at wholesale shall be exempt from the fee, but not of the terms and conditions, as in this section provided.

b. At the time of applying for a certificate of compliance, each applicant shall file with the department a list of all class "A" wine permittees with whom it intends to do business and shall designate the geographic area in which its products are to be distributed by such permittees. Certificate holders shall have the authority to appoint more than one class "A" wine permittee to service the same geographic territory. The listing of class "A" permittees and geographic area as filed with the department may be amended from time to time by the holder of a certificate of compliance.

Page 25

c. All class "A" permit holders shall sell only those brands of wine which are manufactured, bottled, fermented, shipped, or imported by a person holding a current certificate of compliance. Any employee or agent working for or representing the holder of a certificate of compliance within this state shall register his name and address with the department, which names and addresses shall be filed with the department's copy of the certificate of compliance issued excepting that this provision shall not require the listing of those persons who are employed on the premises of a bottling plant, or winery where wine is manufactured, fermented or bottled in Iowa or to the listing of those persons who are thereafter engaged

in the transporting of such wine.

d. It shall be unlawful for any holder of a certificate of compliance or his agent, or any class "A" wine permit holder or his agent, to grant to any retail wine permit holder, or any retail liquor licensee, directly or indirectly, any rebates, free goods, or discounts on wine.

e. It shall be unlawful for any holder of a certificate of compliance or his agent who is engaged in the business of selling wine to class "A" wine permittees to discriminate in price, allowance, rebate, refund, commission, discount or service between such class "A" wine permittees authorized to sell wine at wholesale. The term "discriminate" shall mean the granting of more favorable prices, allowances, rebates, refunds, commissions, discounts or services to one class "A" wine permit holder than to another.

Notwithstanding the terms, provisions or conditions of any agreement between the holder of a certificate of compliance and a class "A" wine permit holder for the sale and distribution of wine, such agreement or contract shall be for a period of no less than that period covered by the permit of the designated class "A" wine permittee and such agreement or contract shall not be amended or cancelled during such period unless notification is given in writing by such certificate holder to an affected class "A" wine permit holder ninety days prior to such contemplated change in contract or an amendment of assigned geographic territory.

f. No signs or other matter advertising any brand of wine shall be erected or placed upon the outside of any premises which are occupied by a licensee or permittee authorized to sell wine at retail.

g. Except as hereinafter provided, no retail permittee authorized to sell wine shall sell such

Page 26

wine for off-premise consumption for less than cost adjusted to the nearest cent. Cost, for the purposes of this section, shall be determined by the director with the approval of a majority of the members of the Iowa beer and liquor control council and shall be determined by establishing a minimum percentage markup for sales of wine at retail whether in case lot or less. To determine "cost", a minimum percentage markup shall be applied to the wholesale price of wine sold by class "A" wine permittees to permittees authorized to sell wine at retail.

With prior approval and as prescribed by the director, and upon application to and on forms provided by the department, the director may authorize retail wine permittees and liquor control licensees to sell wine for off-premise consumption below cost for the following reasons:

(1) Discontinuance of business.

(2) Discontinuance of a brand or package size of wine that has been in inventory on the retail premises for a period of at least nine months. Any brand or package size of wine discontinued shall not be repurchased at wholesale by the discontinuing retailer for a period of twelve months.

(3) For such other reason of hardship as might be specified by the applicant and as allowed and approved by the director.

h. Notwithstanding any other penalties provided by this chapter, any holder of a certificate of compliance relating to wine, class "A", "B" or "C" wine permittee or retail liquor licensee who shall violate any of the provisions of this section shall be subject to a fine not to exceed one thousand dollars or be subject to suspension of the certificate of compliance, license or permit for a period not to exceed one year or be subject to both such fine and suspension.

Sec. ..... Chapter one hundred twenty-three (123), Code 1975, is amended by adding the following new section:

2. One-third of the revenue derived from the wine

tax shall be distributed in accordance with subsection seven (7) of section one hundred twenty-three point fifty-three (123.53) of this chapter; provided, however, that the total amount so distributed shall not exceed an amount equal to the funds distributed pursuant to such subsection during the fiscal year ending June 30, 1972, as adjusted by the percent change in the gross sales of the state liquor stores in each year thereafter.

3. The revenue derived from the wine tax remaining in the beer and liquor control fund after the distributions pursuant to subsections one (1) and two (2) of this section shall be transferred by the state comptroller to the general fund of the state.

All of the provisions of this chapter relating to the administration of the wine tax shall apply to this section.

Upon the initial issuance of a [liquor control] license or [retail beer] permit, the fact that the local authority determines that no [liquor control] license or [retail beer] permit shall be issued shall not be held to be arbitrary, capricious, or without reasonable cause. There shall be no limit upon the number of liquor control licenses or retail beer permits which may be approved for issuance by local authorities.

4. APPEAL TO HEARING BOARD. Any applicant for a [liquor control] license or [beer] permit may appeal to the department hearing board, established pursuant to section 123.15, from the director's disapproval of an application for a license or permit. Such simplified form shall require the licensee or permittee to verify under oath that the information contained in the original application remains current, and that no reason exists for the department's refusal to renew the license or permit as originally issued.

Such application, accompanied by the required fee and bond, shall be filed in the same manner as is provided for filing the initial application.

However, the director may in his discretion allow the executor or administrator of a permittee or licensee to operate the business of the decedent for a reasonable time not to exceed the expiration date of the permit or license. Every permit or license shall be issued in the name of the applicant and no person holding a permit or license shall allow any other person to use same.

Any such licensee or permittee, or his executor, administrator, or any person duly appointed by the court to take charge of and administer the property or assets of the licensee or permittee for the benefit of his creditors, may voluntarily surrender such license or permit to the department and when so surrendered the department shall notify the local authority, and the department and such local authority, or the local authority by itself in the case of a retail beer permit, shall refund to the person so surrendering the license or permit a proportionate amount of the fee paid for such license or permit as follows: If surrendered during the first three months of the period for which said license or permit was issued the refund shall be three-fourths of the amount of the fee; if surrendered more than three months but not more than six months after issuance the refund shall be one-half of the amount of the fee; if surrendered more than six months but not more than nine months after issuance the refund shall be one-fourth of the amount of the fee. 1. Insurance carriers issuing motor vehicle liability policies in this state shall adopt, implement and maintain an assigned claims plan. The plan shall provide for the payment of reparations benefits to persons who are injured in an accident in this state and who are entitled to such benefits, if the person liable to pay benefits:

person receives from another source in compensation for expenses or losses for which such benefits are otherwise payable.

3. The plan shall contain rules for its implementation and shall be approved, before adoption, by the commissioner of insurance, who shall adopt, implement and maintain such a plan if the carriers do not. The plan shall provide for allocating and assessing costs to insurers and self-insurers on an equitable basis. Benefits paid by the insurer to which a claim is assigned shall be reimbursed to the insurer by the plan, plus costs incurred in investigating, processing, and handling the claim including reasonable attorney's fees, and less any sums received or recovered from another source.

4. An assessment of a portion of the total benefits and costs of the assigned claims plan shall be allocated against each insurer writing motor vehicle liability policies in this state in the same proportion that the reparations benefits premium volume written in this state by that insurer bears to the total reparations benefits premium volume written in this state by all insurers. Subject to the approval of the commissioner of insurance, insurers may include the expense for satisfying those assessments in determining the rates to be charged for the reparations benefiits portion of coverage afforded to insureds. Any additional premium charged for the purpose of offsetting the insurer's liability with respect to the assigned claims plan shall be separately disclosed

Page 7

to the insured.

As a condition of certification as a self-insurer under this Act, a self-insurer shall be required to conrtibute to the assigned claims plan an amount based upon the premium savings to the self-insurer resulting from its not purchasing reparations benefits coverage otherwise required by this Act, and equal to a portion of the total benefits and costs if the assigned claims plan in the same proportion that such premium savings bears to the total reparations benefits premium volume written in this state by all insurers.

Sec. 12. *NEW SECTION.* EFFECT OF FAILURE TO REPORT ACCIDENTS. The director shall suspend the license or any nonresident's operating privilege of any person who willfully fails, refuses, or neglects to make reports of a traffic accident as required by the laws of this state.

Sec. 13. *NEW SECTION.* SUSPENSION OF LICENSES AND REGISTRATIONS—EXCEPTIONS. The director, immediately after receipt of a report of a motor vehicle accident in this state which has resulted in bodily injury or death, or in damage to the property of any one person in excess of two hundred fifty dollars

shall suspend, on notice mailed not less than ten days prior to the effective date of the suspension, the license of each operator and all registrations of each owner of a motor vehicle in any manner involved in the accident, and if such operator is a nonresident the privilege of operating a motor vehicle in this state, and if such owner is a nonresident the privilege of the use within this state of any motor vehicle owned by him; provided, however, that this section shall not apply:

1. To the operator or owner of a motor vehicle registered in this state if such owner had in effect at the time of such accident a motor vehicle liability policy with respect to the motor vehicle owned by him;

2. To the owner of a motor vehicle registered in this state if such owner is at the time of the accident qualified as a self-insurer under section forty (40) of this Act, or to any such operator operating such motor vehicle for such self-insurer;

3. To the operator or owner of a motor vehicle registered elsewhere than in this state if the owner had in effect at the time of such accident a motor vehicle liability policy in respect to which the insurer, if not authorized to do business in this state, has filed a statement pursuant to section thirty (30) of this Act, or if, in the judgment of

Page 8

the director, the liability of such operator or owner for reparations benefits and damages resulting from such accident is covered by any other form of liability insurance policy or bond;

4. To such operator or owner of a motor vehicle registered elsewhere than in this state if either or both shall deposit security in a sum which shall be sufficient in the judgment of the director to satisfy any judgment or judgments for reparations benefits and damages or both resulting from such accident as may be recovered against such operator or owner.

Upon receipt of a report of a motor vehicle accident and information that an automobile liability policy or surety bond meeting the requirements of this Act was in effect at the time of this accident covering liability for damages resulting from such accident, the director shall forward by regular mail to the insurance carrier or surety carrier which issued such policy or bond a copy of such information concerning insurance or bond coverage, and it shall be presumed that such policy or bond was in effect and provided coverage to both the operator and owner of the motor vehicle involved in such accident unless the insurance carrier or surety carrier shall notify the director otherwise within fifteen days from the mailing

of such information to such carrier; provided, however, that in the event the director shall later ascertain that erroneous information has been given him or her in respect to the insurance or bond coverage of the operator or owner of a motor vehicle involved in such accident, the director shall take such action as he or she is otherwise authorized to take under this Act.

Sec. 14. *NEW SECTION.* POLICY OR BOND AS SECURITY. No policy or bond shall be effective under section thirteen (13) of this Act unless issued by an insurance company or surety company authorized to do business in this state, except that if such motor vehicle was not registered in this state, or was a motor vehicle which was registered elsewhere than in this state at the effective date of the policy or bond, or the most recent renewal thereof, such policy or bond shall not be effective under section thirteen (13) of this Act unless the surety company, or insurance company not having filed a statement pursuant to section thirty (30) of this Act, shall execute, if not authorized to do business in this state, a power of attorney authorizing the director to accept service on its behalf of notice or process in any action upon

Page 9

such policy or bond arising out of such accident; provided, however, every such policy or bond is subject, if the accident has resulted in liability for reparations benefits, to a limit, exclusive of interest and costs, of not less than ten thousand dollars because of liability for such benefits to any one person and, subject to said limit for one person, to a limit of not less than twenty thousand dollars because of liability for such benefits to two or more persons in any one accident; and provided further than every such policy or bond is subject, if the accident has resulted in bodily injury or death for which there is or may be liability in tort, to a limit, exclusive of interest and costs, of not less than twenty-five thousand dollars because of bodily injury to or death of any one person in any one accident and, subject to said limit for one person, to a limit of not less than fifty thousand dollars because of bodily injury to or death of two or more persons in any one accident, and if the accident has resulted in injury to or destruction of property, to a limit of not less than ten thousand dollars because of injury to or destruction of property of others in any one accident.

Sec. 15. *NEW SECTION.* RESTORATION OF LICENSES AND REGISTRATIONS.

1. The license of each operator and all registrations of each owner in this state of a non-insured motor vehicle, suspended as provided in section

thirteen (13) of this Act, shall not be renewed, nor shall any such license or registration be issued to such person, until six months shall have elapsed following the effective date of such suspension, and:

a. Until such operator or owner or both shall deposit, or there shall be deposited on their behalf, security in a sum which shall be sufficient in the judgment of the director to satisfy any judgment or judgments for reparations benefits and damages in tort resulting from such accident as may be recovered against such operator or owner; or

b. Until evidence satisfactory to the director has been filed with him or her of a final adjudication of nonliability, or of a release from liability, or of the execution of a warrant for confession of judgment, payable when and in such installments as the parties have agreed to, or of a duly acknowledged written agreement providing for the payment of an agreed amount in installments, with respect to all claims for reparations benefits or damages resulting from the accident; provided, however, that no

Page 10

release, warrant for confession of judgment, or written agreement in respect to reparations benefits shall be of any force or effect unless effected in compliance with section ten (10) of this Act; and further provided that in the event of any default in the payment of any installments under confession of judgment, then, upon notice of that default, the director shall forthwith suspend the license and registration of the person defaulting which shall not be restored unless and until the entire amount provided for in the confession of judgment has been paid; and further provided that in the event of any default in the payment of any installment under any written agreement, then, upon notice of that default, the director shall forthwith suspend the license and registration of the person defaulting which shall not be restored unless and until:

(1) The person deposits security as required under paragraph a of this subsection in such amount as the director may determine; or

(2) Two years have elapsed following the date when such security was deposited and during such period no action upon such agreement has been instituted in a court in this state.

2. A nonresident's privilege of operating a motor vehicle within this state, and a nonresident owner's privilege of the use within this state of any motor vehicle owned by him or her, suspended as provided in section thirteen (13) of this Act, shall not be renewed until six months have elapsed following the effective date of such suspension, and until such operator or owner or both:

a. Shall deposit security in accord with paragraph a of subsection one (1) of this section, or

b. Shall have effectuated release or settlement in accord with paragraph b of subsection one (1) of this section and section ten (10) of this Act.

Sec. 16. *NEW SECTION.* FORM AND AMOUNT OF SECURITY.

1. The security required under section fifteen (15) of this Act shall be in such form and in such amount as the director may require but in no case in excess of the limits specified in section twenty-nine (29) of this Act in reference to the acceptable limits of a motor vehicle liability policy. The person depositing security shall specify in writing the person or persons on whose behalf the deposit is made and, at any time while such deposit is in the custody of the director or treasurer of state, the person depositing it may, in writing, amend the

Page 11

specification of the person or persons on whose behalf the deposit is made to include an additional person or persons; provided, however, that a single deposit of security shall be applicable only on behalf of persons required to furnish security because of the same accident.

2. The director may reduce the amount of security ordered in any case within six months after the date of the accident if, in his or her judgment, the amount ordered is excessive. In case the security originally ordered has been deposited the excess deposited over the reduced amount ordered shall be returned to the depositor or his or her personal representative forthwith, notwithstanding the provisions of section seventeen (17) of this Act.

Sec. 17. *NEW SECTION.* CUSTODY, DISPOSITION, AND RETURN OF SECURITY. Security deposited in compliance with the requirements of section fifteen (15) of this Act shall be placed by the director in the custody of the treasurer of state and shall be applicable only to the payment of a judgment or judgments rendered in an action at law against the person or persons on whose behalf the deposit was made, for reparations benefits and damages arising out of the accident. The deposit or any balance thereof shall be returned to the depositor or his or her personal representative when evidence satisfactory to the director has been filed with him or her that there has been a release from liability, or a final adjudication of nonliability, or a warrant for confession of judgment, or a duly acknowledged agreement, in accordance with sections ten (10) and fifteen (15) of this Act, or whenever, after expiration of two years from the date of the accident, the director shall be given reasonable evidence that no such action is pending in any court

and no judgment rendered is still unpaid.

Sec. 18. *NEW SECTION.* PLEADING AND PROOF. Any person eligible for reparations benefits is precluded from pleading or introducing into evidence in an action for damages against a tort-feasor those damages for which reparations benefits are available, without regard to whether such benefits are actually recoverable.

Sec. 19. *NEW SECTION.* LIMITATION ON ACTIONS FOR BENEFITS. An action for reparations benefits may be commenced not later than two years after the injured person suffers the loss and either knows, or in the exercise of reasonable diligence should have known, that the loss was caused by the accident.

Sec. 20. *NEW SECTION.* COURTS TO REPORT NONPAYMENT OF JUDGMENTS.

1. Whenever any person fails within sixty days to satisfy any judgment, it shall be the duty of the clerk of the district court to forward to the director immediately after the expiration of said sixty days, a certified copy of such judgment.

2. If the defendant named in any certified copy of a judgment reported to the director is a nonresident, the director shall transmit a certified copy of the judgment to the official in charge of the issuance of licenses and registration certificates of the state of which the defendant is a resident.

Sec. 21. *NEW SECTION.* SUSPENSION FOR NONPAYMENT OF JUDGMENTS—EXCEPTIONS.

1. The director upon receipt of a certified copy or a judgment, shall forthwith suspend the license and registration and any nonresident's operating privilege of any person against whom such judgment was rendered, except as otherwise provided in this section and in section twenty-four (24) of this Act.

2. If the judgment creditor consents in writing, in such form as the director may prescribe, that the judgment debtor be allowed license and registration or nonresident's operating privilege, the same may be allowed by the director, in his discretion, for six months from the date of such consent and thereafter until such consent is revoked in writing, notwithstanding default in the payment of such judgment, or of any installments thereof prescribed in section twenty-four (24) of this Act; provided the judgment debtor furnishes proof of financial responsibility.

3. Any person whose license, registration, or nonresident's operating privilege has been suspended or is about to be suspended or shall become subject to suspension under the provisions of sections twenty (20) through twenty-four (24) of this Act, may be

relieved from the effect of a judgment as prescribed in those sections by filing with the director an affidavit stating that at the time of the accident upon which the judgment has been rendered the affiant was insured, that the insurer is liable to pay the judgment, and the reason, if known, why the insurer has not paid the judgment. Such a person shall also file the original policy of insurance or a certified copy thereof, if available, and such other documents as the director may require to show that the reparations benefits, loss, injury, or damage for which such judgment was rendered, was covered by such policy of insurance. If the director is satisfied

Page 13

from such papers that such insurer was authorized to issue such policy of insurance at the time and place of issuing such policy and that such insurer is liable to pay such judgment, at least to the extent and for the amounts required in this Act, the director shall not suspend such license or registration or nonresident's operating privilege, or if already suspended, shall reinstate them.

Sec. 22. *NEW SECTION.* SUSPENSION TO CONTINUE UNTIL JUDGMENTS PAID AND PROOF GIVEN. Such license, registration, and nonresident's operating privilege shall remain so suspended and shall not be renewed, nor shall any such license or registration be thereafter issued in the name of such person, including any such person not previously licensed, unless and until every such judgment is satisfied in full or to the extent hereinafter provided, and until the said person gives proof of financial responsibility, subject to the exemptions stated in sections twenty-one (21) and twenty-four (24) of this Act.

Sec. 23. *NEW SECTION.* PAYMENTS SUFFICIENT TO SATISFY JUDGMENTS.

1. Judgments herein referred to shall, for the purpose of this Act only, be deemed satisfied:

a. When ten thousand dollars has been credited upon any judgment or judgments rendered in excess of that amount because of liability for reparations benefits to one person as the result of any one accident; or

b. When, subject to such limit of ten thousand dollars because of liability to one person, the sum of twenty thousand dollars has been credited upon any judgment or judgments rendered in excess of that amount because of liability for reparations benefits to two or more persons as the result of any one accident, or

c. When twenty-five thousand dollars has been credited upon any judgment or judgments rendered in excess of that amount because of bodily injury to or death of one person as the result of any one

accident; or

d. When, subject to such limit of twenty-five thousand dollars because of bodily injury to or death of one person, the sum of fifty thousand dollars has been credited upon any judgment or judgments rendered in excess of that amount because of bodily injury to or death of two or more persons as the result of any one accident; or

e. When ten thousand dollars has been credited upon any judgment or judgments rendered in excess

Page 14

of that amount because of injury to or destruction of property of others as a result of any one accident;

2. Provided, however, payments made in settlement of any claims for reparations benefits or in tort because of bodily injury, death, or property damage arising from the accident shall be credited in reduction of the amounts provided for in this section.

Sec. 24. *NEW SECTION.* INSTALLMENT PAYMENTS OF JUDGMENTS—DEFAULT.

1. A judgment debtor upon due notice to the judgment creditor may apply to the court in which such judgment was rendered for the privilege of paying such judgment in installments and the court, in its discretion and without prejudice to any other legal remedies which the judgment creditor may have, may so order and fix the amounts and time of payment of the installments.

2. The director shall not suspend a license, registration, or nonresident's operating privilege, and shall restore any license, registration, or nonresident's operating privilege suspended following **nonpayment of a judgment, when the judgment debtor gives proof of financial responsibility and obtains such an order permitting the payment of such judgment in installments, and while the payment of any said installment is not in default.**

3. In the event the judgment debtor fails to pay any installment as specified by such order, then upon notice of such default, the director shall forthwith suspend the license, registration, or nonresident's operating privilege of the judgment debtor until such judgment is satisfied, as provided in this Act.

Sec. 25. *NEW SECTION.* PROOF REQUIRED UPON CERTAIN CONVICTIONS.

1. Whenever the director, under any law of this state, suspends or revokes the license of any person upon receiving record of a conviction or a forfeiture of bail, the director shall also suspend the registration for all motor vehicles registered in the name of such person, except that he shall not suspend such registration, unless otherwise required by law, if such person has previously given or shall immediately

give and thereafter maintain proof of financial responsibility with respect to all motor vehicles registered by such person.

2. Such license and registration shall remain suspended or revoked and shall not at any time thereafter be renewed nor shall any license be thereafter issued to such person, nor shall any motor vehicle

Page 15

be thereafter registered in the name of such person until permitted under the motor vehicle laws of this state and not then unless and until he shall give and thereafter maintain proof of financial responsibility.

3. If a person is not licensed, but by final order or judgment is convicted of or forfeits any bail or collateral deposited to secure an appearance for trial for any offense requiring the suspension or revocation of license, or for operating an unregistered motor vehicle upon the highways, no license shall be thereafter issued to such person and no motor vehicle shall continue to be registered or thereafter be registered in the name of such person until he shall give and thereafter maintain proof of financial responsibility.

4. Whenever the director suspends or revokes a nonresident's operating privilege by reason of a conviction or forfeiture of bail, such privilege shall remain so suspended or revoked unless such person shall have previously given or shall immediately give and thereafter maintain proof of financial responsibility.

Sec. 26. *NEW SECTION.* ALTERNATE METHODS OF GIVING PROOF. Proof of financial responsibility when required under this Act may be given by filing:

1. A certificate of insurance or certificate of self-insurance as provided in section twenty-seven (27), twenty-eight (28), or forty (40) of this Act; or

2. A bond as provided in section thirty-one (31) of this Act; or

3. A certificate of deposit of money or securities as provided in section thirty-two (32) of this Act;

Provided, however, that notwithstanding any other provision of this section, if the owner of a motor vehicle registered or subject to registration in this state gives proof of financial responsibility other than by filing a certificate of insurance or self-insurance, no license shall be issued to such owner and no motor vehicle shall continue to be registered or thereafter be registered in the name of such owner until he or she provides evidence satisfactory to the director of having currently in effect a motor

vehicle liability policy or qualification as a self-insurer.

Sec. 27. *NEW SECTION.* CERTIFICATE OF INSURANCE AS PROOF.

1. Proof of financial responsibility may be fur-

nished by filing with the director the written certificate of any insurance carrier authorized to do business in this state certifying that there is in effect a motor vehicle liability policy for the benefit of the person required to furnish proof of financial responsibility. Such certificate shall give the effective date of such motor vehicle liability policy, which date shall be the same as the effective date of the certificate, and shall designate by explicit description or by appropriate reference all motor vehicles covered thereby, unless the policy is issued to a person who is not the owner of a motor vehicle.

2. No motor vehicle shall be or continue to be registered in the name of any person required to file proof of financial responsibility unless such motor vehicle is so designated in such a certificate.

Sec. 28. *NEW SECTION.* CERTIFICATE FURNISHED BY NONRESIDENT AS PROOF.

1. The nonresident owner of a motor vehicle not registered in this state may give proof of financial responsibility by filing with the director a written certificate or certificates of an insurance carrier authorized to transact business in the state in which the motor vehicle, or motor vehicles, described in such certificate is registered, or if such nonresident does not own a motor vehicle, then in the state in which the insured resides, provided such certificate otherwise conforms with the provisions of this Act, and the director shall accept the same upon condition that said insurance carrier complies with the following provisions with respect to the policies so certified:

a. Said insurance carrier shall execute a power of attorney authorizing the director to accept service on its behalf of notice or process in any action arising out of a motor vehicle accident in this state.

b. Said insurance carrier shall agree in writing that such policies shall be deemed to conform with the laws of this state relating to the terms of motor vehicle liability policies issued herein.

2. If any insurance carrier not authorized to transact business in this state, which has qualified to furnish proof of financial responsibility, defaults in any said undertakings or agreements, the director shall not thereafter accept as proof any certificate of said carrier whether theretofore filed or thereafter tendered as proof, so long as such default continues.

Sec. 29. *NEW SECTION.* "MOTOR VEHICLE LIABILITY

POLICY" DEFINED.

1. A "motor vehicle liability policy" as said

Page 17

term is used in this Act shall mean an owner's or an operator's policy of liability insurance, certified as provided in section twenty-seven (27) or section twenty-eight (28) of this Act as proof of financial responsibility, and issued, except as otherwise provided in section twenty-seven (27) of this Act by an insurance carrier duly authorized to transact business in this state, to or for the benefit of the person named therein as insured.

2. Such owner's policy of liability insurance:

a. Shall designate by explicit description or by appropriate reference all motor vehicles with respect to which coverage is thereby granted; and

b. Shall insure the person named therein and any other person, as insured, using any such motor vehicle or motor vehicles with the express or implied permission of such named insured, against loss from the liability in tort for damages arising out of the owership, maintenance, or use of such motor vehicle or motor vehicles within the United States of America or Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such motor vehicle, as follows: twenty-five thousand dollars because of bodily injury to or death of one person in any one accident and, subject to said limit for one person, fifty thousand dollars because of bodily, injury to or death of two or more persons in any one accident, and ten thousand dollars because of injury to or destruction of property of others in any one accident.

c. Shall insure the person named therein against loss from the liability for reparations benefits, imposed by this Act, subject to limits exclusive of interest and costs, as follows: ten thousand dollars because of bodily injury to or death of one person in any one accident, including benefits for funeral services limited to one thousand five hundred dollars, and, subject to said limits for one person, twenty thousand dollars because of bodily injury or death of two or more persons in any one accident, including benefiits for funeral services limited to one thousand five hundred dollars for any one funeral.

3. Such operator's policy of liability insurance shall insure the person named as insured therein against loss from the liability imposed upon him by law for damages arising out of the use by him of any motor vehicle not owned by him, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner's policy of liability insurance.

Page 18

4. Such motor vehicle liability policy shall state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period, and the limits of liability, and shall contain an agreement to be endorsed that insurance is provided thereunder in accordance with the coverage defined in this chapter as respects bodily injury and death or property damage, or both, and reparations benefits, and is subject to all the provisions of this chapter.

5. Such motor vehicle liability policy need not insure any liability under any workmen's compensation law nor any liability on account of bodily injury to or death of any employee of the insured while engaged in the maintenance or repair or any such motor vehicle or any liability for damage to property owned by, rented to, in charge of, or transported by the insured.

6. Every motor vehicle liability policy shall be subject to the following provisions which need not be contained therein:

a. The liability of the insurance carrier with respect to the insurance required by this Act shall become absolute whenever injury or damage covered by said motor vehicle liability policy occurs; said policy may not be canceled or annulled as to such liability by any agreement between the insurance carrier and the insured after the occurrence of the injury or damage; no statement made by the insured or on his behalf and no violation of said policy shall defeat or void said policy.

b. The satisfaction by the insured of a judgment for such injury or damage or for reparations benefits shall not be a condition precedent to the right of duty of the insurance carrier to make payment on account of such injury or damage.

c. The insurance carrier shall have the right to settle any claim covered by the policy, and if such settlement is made in good faith, the amount thereof shall be deductible from the limits of liability specified in paragraph b of subsection two (2) of this section; provided, however, that settlements in respect to reparations benefits shall be effected only in accord with section ten (10) of this Act.

d. The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of the chapter shall constitute the entire contract between the parties.

7. Any policy which grants the coverage required

Page 19

for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to

the coverage specified for a motor vehicle liability policy and such excess or additional coverage shall not be subject to the provisions of this chapter. With respect to a new policy which grants such excess or additional coverage the term "motor vehicle liability policy" shall apply only to that part of the coverage which is required by this section.

8. Any motor vehicle liability policy may provide for deductibles, conditions and exclusions customary to the field of liability, casualty, and property insurance, and not inconsistent with the provisions of this Act; provided, however, that the owner of a vehicle may elect, but an insurer may not require, that the coverage described in paragraph c of subsection two (2) of this section, be written subject to deductibles, percentage reductions, excess provisions and similar reductions offered by insurers in accordance with filings made by such insurers with the commissioner of insurance, but only in respect to expenses incurred for which reparations benefits are payable to the owner of the vehicle or members of his household. The election must be in writing and signed by the owner of the vehicle.

9. The requirements for a motor vehicle liability policy may be fulfilled by the policies of one or more insurance carriers which policies together meet such requirements.

10. Any binder issued pending the issuance of a motor vehicle liability policy shall be deemed to fulfill the requirements for such a policy.

11. Nothing in this section shall be construed to prohibit the issuance of policies providing coverage more extensive than the minimum coverages required by this section, or to require the segregation of such minimum coverage from other coverages in the same policy.

Sec. 30. *NEW SECTION.* COVERAGE DEEMED INCLUDED. Every insurance company authorized to transact the business of motor vehicle liability insurance in this state shall file with the commissioner of insurance as a condition of its continued transaction of such business within this state a form approved by the commissioner affirming that its motor vehicle liability policies wherever issued shall be deemed to provide the coverages required by this Act when the vehicle is operated in this state. Any nonadmitted insurer may file such a form.

Sec. 31. *NEW SECTION.* BOND AS PROOF.

Page 20

1. Proof of financial responsibility may be evidenced by the bond of a surety company duly authorized to transact business within this state, or a bond with at least two individual sureties each owning real estate within this state, and together

having equities equal in value to at least twice the amount of the bond, which real estate shall be scheduled in the bond approved by a judge or clerk of a court of record, which said bond shall be conditioned for payment of the amounts specified in section fourteen (14) of this Act. Such bond shall be filed with the director and shall not be cancelable except after ten-days' written notice to the director. Such bond shall constitute a lien in favor of the state upon the real estate so scheduled of any surety, which lien shall exist in favor of any holder of a final judgment against the person who has filed such bond, for the payment of reparations benefits and damages, including damages for care and loss of services, because of bodily injury to or death of any person, or for damage because of injury to or destruction of property, including the loss of use thereof, resulting from the owership, maintenance, use, or operation of a motor vehicle after such bond was filed, upon the filing of notice to that effect by the director in the office of the proper clerk of court of the county where such real estate shall be located. Any individual surety so scheduling real estate security shall furnish satisfactory evidence of title thereto and the nature and extent of all encumbrances thereon and the value of the surety's interest therein, in such manner as the judge or clerk of the court of record approving the bond may require. The notice filed by the director shall, in addition to any other matters by him deemed to be pertinent, contain a legal description of the real estate so scheduled, the name of the holder of the record title, the amount for which it stands as security, and the name of the person in whose behalf proof is so being made. Upon the filing of such notice the clerk of the court of such county shall retain the same as part of the records of such court and enter upon the encumbrance book the date and hour of filing, the name of the surety, the name of the record titleholder, the description of the real estate, and the further notation that a lien is charged on such real estate pursuant to the notice filed hereunder. From and after the entry of the foregoing upon the encumbrance book all persons whomsoever shall be charged with notice thereof.

Page 21

2. If such a judgment, rendered against the principal on such bond shall not be satisfied within sixty days after it has become final, the judgment creditor may, for his or her own use and benefit and at his or her sole expense, bring an action or actions in the name of the state against the company or persons executing such bond, including an action or proceeding to foreclose any lien that may exist upon the real

estate of a person who has executed such bond. An action to foreclose any lien upon any real estate schedule by any surety under the provisions of this Act shall be by equitable proceeding in the same manner as is provided for the foreclosure of real estate mortgages.

Sec. 32. *NEW SECTION.* MONEY OR SECURITIES AS PROOF.

1. Proof of financial responsibility may be evidenced by the certificate of the treasurer of state that the person named therein has deposited with him or her sixty thousand dollars in cash, or securities such as may legally be purchased by a state bank or for trust funds of a market value of sixty thousand dollars. The treasurer of state shall not accept any such deposit and issue a certificate therefor and the director shall not accept such certificate unless accompanied by evidence that there are no unsatisfied judgments of any character against the depositor in the county where the depositor resides.

2. Such deposit shall be held by the treasurer of state to satisfy, in accordance with the provisions of this Act, any execution on a judgment issued against such person making the deposit for the payment of reparations benefits and damages, or both, including damages for care and loss of services, because of bodily injury to or death of any person, or for damages because of injury to or destruction of property, including the loss of use thereof, resulting from the ownership, maintenance, use or operation of a motor vehicle after such deposit was made. Money or securities so deposited shall not be subject to attachment or execution unless such attachment or execution shall arise out of a suit for the payment of reparations benefits or damages, or both, as aforesaid.

Sec. 33. *NEW SECTION.* OWNER MAY GIVE PROOF FOR OTHERS. Whenever any person required to give proof of financial responsibility hereunder is or later becomes an operator in the employ of any owner, or is or later becomes a member of the immediate family or household of the owner, the director shall accept

Page 22

proof given by such owner in lieu of proof by such other person to permit such other person to operate a motor vehicle for which the owner has given proof as herein provided or has qualified as a self-insurer under section forty (40) of this Act. The director shall designate the restrictions imposed by this section on the face of such person's license.

Sec. 34. *NEW SECTION.* SUBSTITUTION OF PROOF. The director shall consent to the cancellation of any bond or certificate of insurance or the director shall direct and the treasurer of state shall return

any money or securities to the person entitled thereto upon the substitution and acceptance of other adequate proof of financial responsibility pursuant to this Act; provided, however, that no certificate of insurance issued to the owner of a motor vehicle registered or subject to registration in this state may be canceled or other proof of financial responsibility be accepted in lieu thereof.

Sec. 35. *NEW SECTION.* OTHER PROOF MAY BE REQUIRED.

Whenever any proof of financial responsibility filed under the provisions of this Act no longer fulfills the purposes for which required, the director shall for the purpose of this Act, require other proof as required by this Act and shall suspend the license and registration or the nonresident's operating privilege pending the filing of such other proof.

Sec. 36. *NEW SECTION.* DURATION OF PROOF—WHEN PROOF MAY BE CANCELED OR RETURNED.

1. The director shall upon request consent to the immediate cancellation of any bond or certificate of insurance, or the director shall direct and the treasurer of state shall return to the person entitled thereto any money or securities deposited pursuant to this Act as proof of financial responsibility, or the director shall waive the requirement of filing proof in any of the following events:

a. At any time after three years from the date such proof was required when, during the three-year period preceding the request, the director has not received record of a conviction or a forfeiture of bail which would require or permit the suspension or revocation of the license, registration, or nonresident's operating privilege of the person by or for whom such proof was furnished; or

b. In the event of the death of the person on whose behalf such proof was filed or the permanent incapacity of such person to operate a motor vehicle; or

c. In the event the person who has given proof

Page 23

surrenders his or her license and registration to the director;

2. Provided, however, that the director shall not consent to the cancellation of any bond or the return of any money or securities in the event any action for the payment of reparations benefits or for damages, or both, upon a liability covered by such proof is then pending or any judgment upon any such liability is then unsatisfied, or in the event the person who has filed such bond or deposited such money or securities has within one year immediately preceding such request been involved as an operator or owner in any motor vehicle accident resulting in

liability for reparations benefits or in tort for injury or damage to the person or property of others. An affidavit of the applicant as to the nonexistence of such facts, or that he or she has been released from all of his liability, or has been finally adjudicated not to be liable, for such reparations benefits, injury or damage, shall be sufficient evidence thereof in the absence of evidence to the contrary in the records of the director.

3. Whenever any person whose proof has been canceled or returned under paragraph c of subsection one (1) of this section applies for a license or registration within a period of three years from the date proof was originally required, any such application shall be refused unless the applicant shall reestablish such proof for the remainder of such three-year period.

Sec. 37. *NEW SECTION.* TRANSFER OF REGISTRATION TO DEFEAT PURPOSES OF THIS ACT PROHIBITED. This Act shall not prevent the owner of a motor vehicle, the registration of which has been suspended hereunder, from effecting a bona fide sale of such motor vehicle to another person whose rights or privileges are not suspended under this Act nor prevent the registration of such motor vehicle by such transferee. This Act shall not in any wise affect the rights of any secured party or lessor of a motor vehicle registered in the name of another as owner who becomes subject to the provisions of this Act.

Sec. 38. *NEW SECTION.* SURRENDER OF LICENSE AND REGISTRATION. Any person whose license or registration shall have been suspended as herein provided, or whose policy of insurance or bond, when required under this Act, shall have been canceled or terminated, or who shall neglect to furnish other proof upon request of the director shall immediately return his or her license and registration to the director. If any

Page 24

person shall fail to return to the director the license or registration as provided herein, the director shall forthwith direct any peace officer to secure possession thereof and to return the same to the director.

Sec. 39. *NEW SECTION.* OTHER VIOLATIONS—PENALTIES.

1. Any person whose license or registration or nonresident's operating privilege has been suspended, denied or revoked under this Act or continues to remain suspended or revoked under this Act, and who, during such suspension, denial or revocation, or during such continuing suspension or continuing revocation, drives any motor vehicle upon any highway or knowingly permits any motor vehicle owned by such person to be operated by another upon any highway, except as permitted under this Act, shall be fined not more than five hundred dollars or imprisoned not

exceeding six months, or both.

2. Any person willfully failing to return license or registration as required in section thirty-seven (37) of this Act shall be fined not more than five hundred dollars or imprisoned not to exceed thirty days, or both.

3. Any person who shall forge or, without authority, sign any notice provided for under section thirty-seven (37) of this Act that a policy or bond is in effect, or any evidence of proof of financial responsibility, or who files or offers for filing any such notice or evidence of proof knowing or having reason to believe that it is forged or signed without authority, shall be fined not more than one thousand dollars or imprisoned not more than one year, or both.

4. Any person who shall violate any provision of this Act for which no penalty, civil or criminal, is otherwise provided shall be fined not more than five hundred dollars or imprisoned not more than ninety days, or both.

Sec. 40. *NEW SECTION.* SELF-INSURERS.

1. Any person in whose name more than twenty-five motor vehicles are registered may qualify as a self-insurer by obtaining a certificate of self-insurance issued by the director as provided in subsection two (2) of this section.

2. The director may, in his or her discretion, upon the application of such a person, issue a certificate of self-insurance when he or she is satisfied that such person is possessed and will continue to be possessed of ability to pay judgments obtained against such person for reparations benefits and damages in tort arising out of the ownership, maintenance, or use of any vehicle owned by such

Page 25

person.

3. Upon not less than five-days' notice and a hearing pursuant to such notice, the director may upon reasonable grounds cancel a certificate of self-insurance. Failure to pay any judgment for reparations benefits or damages in tort arising out of the ownership, maintenance, or use of any vehicle owned by such self-insurer within thirty days after such judgment shall have become final shall constitute a reasonable ground for the cancellation of a certificate of self-insurance.

Sec. 41. *NEW SECTION.* ACT NOT TO PREVENT OTHER PROCESS. Nothing in this Act shall be construed as preventing the plaintiff in any action at law from relying for relief upon the other processes provided by law.

Sec. 42. *NEW SECTION.* LIABILITY INSURANCE—STATEMENT. Whenever any dealer licensed under chapter three hundred twenty-two (322) of the Code sells a

motor vehicle at retail and the transaction does not include the sale of liability insurance coverage which will protect the purchaser under the Iowa Reparations Benefits and Financial Responsibility Act, the purchase order or invoice evidencing the transaction shall contain a statement in the following form:

"I understand that liability insurance coverage which would protect me under the Iowa Reparations Benefits and Financial Responsibility Act is not included in my purchase of the herein described motor vehicle. I have received a copy of this statement.

.....

(Purchaser's signature)"

The seller shall print or stamp said statement on the purchase order or invoice in distinctive color ink and with clearly visible letters. Said statement shall be signed by the purchaser in the space provided therein on or before the date of delivery of the motor vehicle described in the purchase order or invoice and a copy thereof shall be given to the purchaser by the seller.

No civil liability shall arise on account of the failure of any person to comply with the provisions of this section.

Any person violating any provisions of this section shall be deemed guilty of a misdemeanor and shall be punished by a fine not exceeding fifty dollars.

Sec. 43. *NEW SECTION.* DIRECTOR TO ADMINISTER ACT—APPEAL.

1. The director shall administer and enforce the provisions of this Act, except as provided, in

Page 26

subsection two (2) of this section, and may make rules necessary for its administration and shall provide for hearings upon request of persons aggrieved by orders or acts of the director.

Such hearings shall be held before the director or his or her duly authorized agent as early as practicable within not to exceed twenty days after receipt of such request in the county wherein the requesting person resides unless the director and such person agree that such hearing may be held in some other county. Upon such hearing the director or his or her duly authorized agent may administer oaths and may issue subpoenas for the attendance of witnesses and the production of relevant books and papers and may require an examination under oath of the person requesting such hearing.

2. The commissioner of insurance shall make rules for the submission of claims for reparations benefits, the arbitration of disputes over the reasonableness of such claims, failures to pay benefits when due, settlement, and such other rules as are necessary to administer the reparations benefits provisions

of this Act.

3. Any person aggrieved by an order or act of either the director or the commissioner of insurance, under the provisions of this Act may, within ten days after receipt of notice of such order or act, file a petition in the district court of the county of his or her residence for a trial de novo to determine whether such order is lawful and reasonable. The filing of such a petition shall not suspend the order or act of the person issuing the order or taking the action, unless a stay thereof shall be allowed by a judge of said court pending final determination of the matter. The court shall summarily hear the petition and may make any appropriate order or decree.

Sec. 44. *NEW SECTION.* DIRECTOR TO FURNISH OPERATING RECORD—FEES TO BE CHARGED AND DISPOSITION OF FEES. The director shall upon request furnish any person a certified abstract of the operating record of any person subject to the provisions of this Act, which abstract shall also fully designate the motor vehicles, if any, registered in the name of such person, and, if there shall be no record of any conviction of such person having violated any law relating to the operation of a motor vehicle or of any injury or damage caused by such person, the director shall so certify. A fee of two dollars shall be paid for each such abstract except by state, county, city, town or court officials. Such fees shall be

Page 27

used by the department for administering this Act. Such abstracts shall not be admissible as evidence in any action for damages or criminal proceedings arising out of a motor vehicle accident.

Sec. 45. *NEW SECTION.* OPTIONAL POLICY PROVISIONS.

1. The owner of a vehicle may elect to have the coverage required by section four (4) of this Act written subject to certain deductibles, waiting periods, sublimits, percentage reductions, excess provisions and similar reductions offered by insurers in accordance with filings made by such insurers with the department of insurance, applicable to expenses incurred as a result of injury to the owner of a vehicle or members of his or her household.

2. The owner of a motorcycle may elect to exclude from the coverage required by section four (4) of this Act expenses incurred as a result of injury to any person riding such vehicle while not on a highway and in any case of injury when no other vehicle was involved by actual collision or contact.

3. The elections permitted by subsections one (1) and two (2) of this section must be made in writing and must be signed by the owner of the motor vehicle. Insurers issuing such policies shall not require any such election.

Sec. 46. Chapter three hundred twenty-one A (321A), Code 1975, is amended by striking that chapter and inserting sections one (1) through forty-four (44) of this Act in lieu thereof."

in Iowa under state law or municipal ordinance, unless the defendant is charged by information or unless section 321.236, subsection 1, is applicable, *and which shall be used for charging all other violations of state law which are designated by section seven hundred fifty-three point fifteen (753.15) of the Code to be scheduled violations.* Each citation and complaint shall be serially numbered and shall be in quadruplicate, and the officer shall deliver the original and a copy to the court where the defendant is to appear, a copy to the defendant, and a copy to the law enforcement agency of the officer. The court shall forward the copy of the citation and complaint in accordance with section 321.207, *when applicable.* The citation and complaint shall contain, among other things, spaces for the parties' names and for the information required by [section] *sections* 321.485, subsection 2 *and seven hundred fifty-three point six (753.6) of the Code;* a place where the defendant may sign the promise to appear referred to in [section] *sections* 321.486 *and seven hundred fifty-three point seven (753.7) of the Code;* a list of the [minimum] *scheduled* fines prescribed by section 753.15, either separately or by groups; a brief explanation of sections 753.16 and 753.17; and a space where the defendant may sign an admission of the violation when such section 753.16 is applicable. Every citation and complaint shall require the defendant to appear before a court at a specified time and place. Notwithstanding section 321.485, subsection 2, the officer may arrest the defendant although a citation and complaint is used to charge the violation, if authorized by section 755.4.

2. Supplies of the uniform [traffic] citation and complaint for municipal corporations and county agencies shall be paid for out of the court expense fund of the county. Supplies of the uniform [traffic] citation and complaint for all other agencies shall be paid for out of the budget of the agency concerned.

3. The uniform citation and complaint shall contain a place for the verification of the officer issuing the citation. The complaint may be verified before the chief officer of the law enforcement agency or his designee, and the chief officer of each law enforcement agency of the state is authorized to designate specific individuals to administer oaths and certify verifications. Nothing in this section

shall be deemed to invalidate forms of uniform citation and complaint in existence prior to July 1, [1974] *1976*, and existing forms may be used until supplies are

Page 3

exhausted.

4. The department of public safety shall design and publish a compendium of scheduled violations and scheduled fines and costs, containing other information which the commissioner of public safety deems appropriate, and shall distribute copies to all courts and law enforcement officers and agencies of the state upon request. The cost of the publication shall be paid out of the budget of the department of public safety. Copies shall be made available to individuals upon request and a charge may be collected which does not exceed the cost of printing.

Sec. ..... Section seven hundred fifty-three point fourteen (753.14), Code 1975, is amended to read as follows:

753.14 [TRAFFIC] *SCHEDULED* VIOLATIONS OFFICES—FINE COLLECTION BOXES.

Sec. ..... Section seven hundred fifty-three point fifteen (753.15), Code 1975, as amended by Acts of the Sixty-sixth General Assembly, 1975 Session, chapter sixty-seven (67), section fifty-six (56), is amended by striking the section and inserting in lieu thereof the following:

753.15 SCHEDULED VIOLATIONS.

Sec. ..... *NEW SECTION.* REPRIEVE OR SUSPENSION. The only officers who shall have power to reprieve or suspend the execution of a judgment of death are the governor and, as provided in this chapter, the warden of the penitentiary, and the supreme court when an appeal is taken.

Sec. ..... *NEW SECTION.* INSANITY OR PREGNANCY. When the warden of the penitentiary has reasonable grounds to believe that a defendant in his or her

charge under sentence of death is insane or pregnant, he or she shall notify the commissioners of hospitalization of the county where the penitentiary is located, who shall be placed under oath by the warden to inquire into the facts as to the insanity or pregnancy of the defendant, and return a report of their findings.

Sec. ..... *NEW SECTION.* FINDINGS OF COMMISSIONERS. The commissioners, after being placed under oath, shall examine the defendant and hear any evidence that may be presented, and may examine the medical attendants at the penitentiary, to ascertain the facts, and make a report in writing, signed by a majority of the commissioners.

Sec. ..... *NEW SECTION.* EXECUTION SUSPENDED. If the report does not show the defendant to be insane or pregnant, the warden shall not suspend the execution; but if it does, he or she shall suspend the execution, and immediately transmit the report to the governor.

Sec. ..... *NEW SECTION.* EXECUTIVE WARRANT OF EXECUTION. When a judgment of death from any cause has not been executed on the day appointed by the court, the governor, by a warrant under the seal of the state, shall fix the day of execution, and the warrant shall be obeyed by the sheriff, and no one but the governor can then suspend its execution.

Sec. ..... *NEW SECTION.* TIME AND MANNER OF EXECUTION. A judgment of death must be executed by the sheriff of the county where the judgment was rendered, or his or her deputy, within the walls of the penitentiary where the defendant is confined, or within a yard or enclosure adjoining the penitentiary on the day fixed in the judgment, between sunrise and sunset; by passing an electric current, of sufficient intensity and duration to cause death, through the body of the convicted person.

Sec. ..... *NEW SECTION.* WITNESSES TO EXECUTION. The sheriff or his or her deputy must, at least three days before executing a judgment of death, notify the judge of the district court who tried the case, or, if he or she be not in office, another judge of such court, the county attorney and the clerk of the district court of the county in which the judgment was rendered, the sheriff of the county in which the offense was committed, and two physicians and twelve citizens of the state to be selected by him or her to be present as witneses at the execution. He or she must also, at the request of the defendant, permit one or more ministers of the gospel, named by him

Page 4

or her, and any of his or her relatives, to attend the execution. Minors and persons not authorized by this section shall not be present at the execution.

Sec. ..... *NEW SECTION.* CERTIFICATE OF EXECUTION. The sheriff or his or her deputy executing the judgment of death must prepare and sign a certificate, setting forth the time and place of the execution, and that judgment was executed upon the defendant according to the provisions of this chapter, and cause the certificate to be signed by the public officers, and at least twelve persons, who are not relatives of the defendant, who witnessed the execution.

Sec. ..... *NEW SECTION.* CERTIFICATE FILED AND PUBLISHED. The sheriff or his or her deputy executing the judgment must file the certificate in the office of the clerk of the district court of the county in which the judgment was rendered, and publish a copy of the certificate in one newspaper printed at the capital of the state, and in one in his or her county.

Sec. ..... *NEW SECTION.* STAY OF EXECUTION BY APPEAL. An appeal from a judgment of death shall stay the infliction of that punishment, but the defendant is to be retained in custody without bail.

Sec. ..... *NEW SECTION.* PROCEEDINGS ON APPEAL. When an appeal is taken from a judgment of death, the clerk of the district court in which it was rendered shall at once give the defendant or his or her attorney a certificate, under the seal of the court, certifying that fact, and the sheriff or other officer having the defendant in custody shall, upon the delivery to him or her of the certificate, suspend further proceedings on the judgment until final judgment on the appeal is certified to him or her by the clerk of the supreme court.

Sec. ..... *NEW SECTION.* PROCEEDINGS ON AFFIRMANCE--ISSUANCE OF WARRANT. When such judgment is affirmed, the supreme court shall deliver a copy of the judgment to the governor, and to the sheriff whose duty it is to execute the judgment, signed by the clerk of the supreme court and under seal of the court, and

the governor shall issue a warrant of execution under the seal of the state, and transmit it by messenger or mail to the sheriff whose duty it is to execute the judgment, directing him or her, on a day and at an hour, not earlier than the day fixed by the district court, to execute such judgment in the manner required by law.

Sec. ..... *NEW SECTION.* EXECUTION OF WARRANT. The sheriff shall execute such warrant in the manner provided in this chapter, and report the sheriff's

Page 5

doings to the governor and the district court whose judgment was appealed from, and make the publication of the sheriff's doings in the manner provided for in this chapter. If from any cause the judgment is not executed on the day named in the warrant, the governor may appoint another, and so on until it is done."

HOUSE CONCURRENT RESOLUTION 112

By Cochran, Monroe, Fitzgerald and Dunton

Whereas, state and local governments of all states are presently involved with determining budgets for present and future years; and

Whereas, the federal revenue sharing program has been of great aid to state and local governments; and

Whereas, the present federal revenue sharing program will expire and there are proposals before Congress to extend revenue sharing to state and local governments but the action of the federal Congress has been extremely slow in spite of efforts by representatives of state and local governments to impress upon the members of Congress the urgency in regard to extending revenue sharing; and

Whereas, many states and local governments are facing severe budgeting problems presently, which without revenue sharing in the immediate future will become more severe and may affect human resource programs of the states and local governments as well as other state and local programs; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the general assembly of the state of Iowa strongly urges the members of Congress to immediately address themselves to the revenue sharing proposals before Congress and approve a proposal in a timely manner in order that state and local governments can continue budgeting with complete knowledge in regard to the availability of funds and in order that many state and local programs will not be curtailed or eliminated; and

Be It Further Resolved, That copies of this resolution be forwarded to the chairpersons of the Ways and Means Committees of the United States House of Representatives and

the Senate, and the chairpersons of other appropriate Congressional committees, as well as to each member of the Iowa congressional delegation.

Laid over under Rule 25.

BILLS SIGNED BY THE GOVERNOR

A communication was received from the Governor announcing that on March 5, 1976, he approved and transmitted to the Secretary of State the following bills:

Senate File 443, an act relating to loans on residential property by state banks.

House File 774, an act relating to the contents of a certificate of marriage.

STATEMENT BY GOVERNOR ROBERT D. RAY ON HOUSE FILE 774

March 5, 1976

Present day Iowa marriage certificates contain a section that requests information on married persons' race, previous marriages, and educational level. House File 774 would prohibit marriage certificates from containing such information. Proponents of House File 774 have questioned the propriety of asking such questions and suggest that it is an unnecessary intrusion by government into the private lives of Iowans.

While recognizing this concern, opponents of House File 774 have urged me to veto this measure. They point out that this information is utilized solely for statistical purposes and is closed to public inspection. Information relative to married persons' race, previous marriages, and educational level can be used for valuable studies relating to family stability and family formation, interracial marriages, and population growth. Some minority groups strongly believe that such information can be invaluable to them in dispelling old myths, rumors, and prejudice.

I believe these two meritorious points of view can coexist.

Certainly wherever possible we should steer government away from interferring in our private lives. Therefore I have decided to sign House File 774 into law.

To leave it at that though would deny us a source of reliable statistics

that can combat discrimination. As a solution, the Health Department informs me that in lieu of the present marriage certificate requirements they can by rule request, on a voluntary basis only, the same type of information on a separate form. When a couple would appear before the Clerk of the District Court to apply for a marriage license, they would be notified that it was not necessary to answer such questions and be given the choice of responding or not responding to the inquiry.

By handling these supplemental questions on an optional basis, we can avoid an intrusion into personal lives where it is resented. At the same time we can still provide the Bureau of Vital Statistics with a data base for statistical inquiries into marriage which I am advised can be meaningful. The promulgation of such a rule by the Health Department is acceptable to the sponsors of House File 774 as well as opponents. The department will issue such a rule in the near future.

RULES OF THE STEERING COMMITTEE

The steering committee submitted the following rules:

1. Eight (8) members shall constitute a quorum.

2. All votes shall be taken by record roll call; however, the short form may be used if there is no objection.

3. Debates shall be limited to two (2) minutes for a member to present a bill and one (1) minute for other members to discuss.

4. Eight (8) affirmative votes shall be required to place a bill on the Steering Committee Calendar.

5. The Chairman may present committee bills and one other bill at each committee meeting without charge to himself. He may present a Noncontroversial Calendar to the committee for their approval. The Chairman may appoint a committee to draw up a list of noncontroversial bills.

6. The order of presenting bills to the committee shall be by priority. Such priority shall be established by drawing names from a box and establishing a list showing the order of names so drawn. If any member is absent or for any other reason declines an opportunity to present a bill when their turn on the priority list is up, shall forfeit their turn.

7. No vote on a bill shall be reconsidered at the same sitting of the committee.

8. Meetings shall be called by the Chairman or in the absence of the Chairman, the meeting may be called by the Ranking Member.

RULES PERTAINING TO NONCONTROVERSIAL BILLS

9. Bills may be arranged on the Noncontroversial Calendar in divisions according to the time allotted for debate thereon. Bills presented on one division shall be allotted five minutes and bills presented on the other division shall be allotted fifteen minutes for debate. If debate on such bill exceeds the time allotted for the division upon which it is presented, the bill will return to the Regular Calendar to the same position it held prior to its consideration by the Noncontroversial Committee.

10. Objections to consideration of bills placed on the Steering Committee Noncontroversial Calendar must be filed, in writing, by three (3) members of the House with the Chief Clerk of the House, within two (2) legislative days after such bill appears on the Noncontroversial Calendar.

11. Any bill eliminated by objection from consideration as a noncontroversial item made in accordance with Steering Committee Rule 10, will go back on the Regular Calendar to the same position it held prior to consideration by the Noncontroversial Committee.

Members of the Noncontroversial subcommittee are Avenson of Fayette and Schroeder of Pottawattamie.
