HOUSE CONCURRENT RESOLUTION 114

By Committee on Energy

Whereas, the 1975 interim ad hoc committee on radiation safety recommended the creation of a comprehensive state radiation program including provisions for the statutory division of radiation safety and source monitoring responsibilities among various state agencies; and

Whereas, the report included the specific recommendation that radiation producing machinery used in the healing arts be registered or inspected by the state; and

Whereas, the Iowa civil rights commission was established in 1965 to eliminate discrimination and provide equal opportunity for all residents of this state; and

SPECIAL RECOGNITION

Wells of Linn rose on a point of personal privilege and offered the following remarks:

It has come to my attention that a member of the legislative news corps has this year reached a significant milestone in his career.

Mr. Frank Nye, of the Cedar Rapids Gazette, is now in his fortieth year of legislative coverage—his long career being launched in 1936 with an assignment to cover a three-day special session called by Governor Herring relating to employment security—with forty years behind him—it appears Frank's employment is secure.

It is our honor to be able to share with Frank the satisfaction he surely must feel for forty years of distinctive service through his excellent coverage of the Legislature.

Although some of us have "eaten our hats", I would guess that very few have eaten a newspaper—therefore, we invite all of you to experience a first—newspaper will be served for your enjoyment at my desk.

And—again to Frank—we are counting on continuing "good news."

HOUSE CONCURRENT RESOLUTION 116
By Brandt

Whereas, there are many Iowans who have skills and talents to offer the state who are barred from state employment because their circumstances do not permit them to accept a full-time job; and

Whereas, one remedy for this situation which other states are employing and which the United States Congress is presently considering is flexibly scheduled job opportunities including part-time, gliding and tandem positions; and

Whereas, statistics indicate that flexible scheduling does work and that the system provides advantages to the employer in terms of productivity and morale and to potential employees, who are primarily women, elderly, handicapped and students in need of employment; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the heads of all state agencies are requested to make reasonable efforts to offer employment within their respective agencies on a flexible hours basis, which employment shall not impede normal agency operations and shall:

1. Provide vacation time and sick leave to flexitime employees according to the number of hours worked; and

2. Provide for participation by flexitime employees in other employee benefit programs including retirement, group insurance, workmen's compensation and unemployment compensation with the state's share prorated to reflect the employee's part-time status; and

3. Protect the employment and employment rights of

Page 2

any employee or prospective employee; and

Be It Further Resolved, That the governor of the state of Iowa is requested to direct the heads of all state agencies to investigate and develop a plan as soon as is feasible for offering a reasonable number of positions within their respective agencies on a flexible hours basis, which plan shall consider the guidelines for flexibly scheduled employment contained in this resolution and shall include an assessment of the problems created by flexible scheduling in terms of employee fringe benefits and agency operations; and

Be It Further Resolved, That the governor or a designee is requested to report to the general assembly concerning the content and progress of state agency plans and efforts to offer flexibly scheduled job opportunities.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 117

By Scheelhaase, Hinkhouse, Husak and Spradling

Whereas, the American farmer, through consistent and diligent effort, has increased the productivity of American agriculture; and

Whereas, the products of the American farm are a significant factor in providing food to the population of the world; and

Whereas, farmers face the continuous problem of soil erosion; and

Whereas, farmers are now facing the withholding or reduction of federal soil conservation funds; and

Whereas, the loss or reduction of federal soil conservation funds can only result in erosion of rich farm soil, decrease in yields from farmland, hardship for American farmers, and eventual repercussions throughout the entire American economy; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That we respectfully urge the President of the United States, officials of the administration, and the Congress of the United States, in their respective roles, to resist the withholding or reduction of federal soil conservation funds. We further urge that such proposals in the future be given the closest scrutiny in light of their potential adverse effects upon American farmers, American consumers, and the economy in general; and

Be It Further Resolved, That copies of this resolution be forwarded to the President of the United States, all members of the Iowa Congressional delegation, the President of the United States Senate, the Speaker of the United States House of Representatives, and the Secretary of the United States Department of Agriculture.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 118

Whereas, Mr. Chuck Yagla won his second consecutive individual national wrestling championship; and

Whereas, Mr. Brad Smith and Mr. Chris Campbell each won individual national wrestling championships; and

Whereas, the Iowa State University Cyclone wrestling team was runner-up to the University of Iowa Hawkeye wrestling team in the national championship tournament; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the week of March 22nd through March 28th be designated Iowa Wrestling Week to honor Coach Gary Kurdelmeier and his National Champion Iowa Hawkeyes and Coach Harold Nichols and his Iowa State Cyclones.

Extensions of an order may be granted, but only upon application for an extension made in accordance with subsection one (1) of this section and the court making the findings required by subsection three (3) of this section. The period of extension shall be no longer than the court deems necessary to achieve the purposes for which it was granted and in no event longer than thirty days. Every order and extension thereof shall contain a provision that the authorization to intercept shall be executed as soon as practicable, shall be conducted in such a way as to minimize the interception of communications not otherwise subject to interception under this division, and shall terminate upon attainment of the authorized objective, or in any event in thirty days.

6. Whenever an order authorizing interception is entered pursuant to this division, the order may require reports to be made to the court who issues the order showing what progress has been made toward achievement of the authorized objective and the need for continued interception. Such reports shall be made at such intervals as the court may require.

7. The contents of any wire or oral communication intercepted by any means authorized by this division shall, if possible, be recorded on tape or wire or other comparable device. The recording of the contents of any wire or oral communication under this subsection shall be stored and maintained in such way as will protect the recording from editing or other alterations. Immediately upon the expiration of the period of the order, the extensions thereof, such recordings shall be made available to the court issuing such order and sealed under his directions. Custody of the recordings shall be wherever the court orders and they shall not be destroyed for a period of ten years except the court shall inspect all intercepted communications and if he finds there is no information therein which will be of aid in law enforcement he shall order the intercepted recording destroyed forthwith. Duplicate recordings may be made for use or disclosure pursuant to the provisions of section two thousand nine hundred three (2903), subsections

Page 7

one (1) and two (2) of this division for investigations. The presence of the seal provided for by this subsection, or a satisfactory explanation for the absence thereof, shall be a prerequisite for the use or disclosure of the contents of any wire or oral communication or evidence derived therefrom under section two thousand nine hundred three (2903), subsection three (3) of this division.

Applications made and orders granted under this division shall be sealed by the court. Custody of the applications and orders shall be wherever the court directs. Such applications and orders shall be disclosed only upon a showing of good cause before the district court of the county in which the interception was made and shall not be destroyed for a period of ten years.

Any violation of the provisions of this division may be punished as contempt of court.

8. Within a reasonable time but not later than ninety days after the filing of an application for an order of authorization or approval under this division which is denied or the termination of the period of an order or extensions thereof, the issuing or denying court shall cause to be served, on the persons named in the order or the application, and such other parties to intercepted communications as the court may determine in his discretion that is in the interest of the justice, an inventory which shall include notice of all of the following:

a. The fact of the entry of the order or the application.

b. The date of the entry and the period of authorized, approved or disapproved interception,

or the denial of the application.

c. The fact that during the period wire or oral communications were or were not intercepted.

The court upon the filing of a motion shall make available to the movant for inspection such portions of the intercepted communications, and applications and orders which pertain to the movant.

9. The contents of any intercepted wire or oral communication or evidence derived therefrom shall not be received in evidence or otherwise disclosed in any trial, hearing, or other proceeding in any court of this state unless each party, not less than ten days before the trial, hearing, or proceeding, has been furnished with a copy of the court order, and accompanying application, under which the interception was authorized or approved and the intercepted communications which pertain to such

Page 8

party's conversation. This ten-day period may be waived by the court if he finds that it was not possible to furnish the party with the above information ten days before the trial, hearing, or proceeding and that the party will not be prejudiced by the delay in receiving such information.

10. Any aggrieved person in any trial, hearing, or proceeding in or before any court, department, officer, agency, regulatory body, or other authority of this state, or a political subdivision thereof, may move to suppress the contents of any intercepted wire or oral communication, or evidence derived therefrom, on the grounds that the communication was unlawfully intercepted, the order of authorization or approval under which it was intercepted is insufficient on its face, or the interception was not made in conformity with the order of authorization or approval. Such motion shall be made before the trial, hearing, or proceeding unless there was no opportunity to make such motion or the person was not aware of the grounds of the motion. If the motion is granted, the contents of the intercepted wire or oral communication, or evidence derived therefrom, shall be treated as having been obtained in violation of this division. The court, upon the filing of such motion by the aggrieved person, shall make available to the aggrieved person or his counsel for inspection such portions of the intercepted communication or evidence derived therefrom as the court determines to pertain to the movant.

In addition to any other right to appear, the state shall have the right to appeal:

a. From an order granting a motion to suppress made under unnumbered paragraph one (1) of this subsection if the attorney general or county attorney shall certify to the court or other official granting

such motion that the appeal is not taken for purposes of delay. Such appeal shall be taken within thirty days after the date the order of suppression was entered and shall be diligently prosecuted as in the case of other interlocutory appeals or under such rules as the supreme court may adopt.

b. From an order denying an application for an order of authorization or approval, and such an appeal shall be ex parte and shall be in camera in preference to all other pending appeals in accordance with rules promulgated by the supreme court.

Sec. 7. ADDITIONAL PUBLIC HEARING—FISCAL YEAR 1977-78. If the governing body of a political subdivision approves a total budget for the fiscal year July 1, 1977, the property tax budget of which exceeds the property tax budget of such political subdivision for the base year by more than seven percent but not more than nine percent following a public hearing required under chapter twenty-four (24) or three hundred eighty-four (384), division two (II), of the Code, the governing body of such political subdivision shall withhold certification of such budget to the county auditor for at least ten days following such approval. If, during the ten days following approval of the total budget, a valid petition signed by the number of persons who are residents of such political subdivision as required under section twenty-four point twenty-seven (24.27) or three hundred eighty-four point nineteen (384.19) of the Code, is filed with the governing body of a political subdivision requesting a public hearing, the governing body shall publish notice of and conduct such public hearing not later than April fifth. The date, time and location of the public hearing and the information required to be published under section eight (8) of this division, shall be published in a newspaper having general circulation throughout the political subdivision not less than five days before the date specified for such hearing. Thereafter, the total budget shall be certified, with or with-

out changes that may be made after the hearing, to the county auditor and the state comptroller not later than April fifth. If, after such hearing, the property tax budget of the certified total budget for the fiscal year beginning July 1, 1977 is increased to more than nine percent above the property tax budget of the base year, such total budget shall be subject to appeal to the state appeal board as provided in section **six** (6) of this division.

Sec. 8. BUDGET PROCESS—NOTICE OF PUBLIC HEARING. In addition to the requirements of chapters twenty-four (24) and three hundred eighty-four (384), division two (II), of the Code relating to the publication of notice and public hearing on a budget of a political subdivision, the public notice of a hearing on a total budget shall include the following information:

1. The percentage and the dollar amount increase or decrease for the total budget and the property tax budget of the political subdivision.

2. The percentage and the dollar amount increase or decrease of each fund included in the proposed total budget and the property tax budget.

3. A statement showing the allowable growth guideline established by the general assembly and the dollar amount of increase represented by such guideline for the proposed total budget and the property tax budget of the political subdivision.

4. A statement of the major reasons for the proposed increases in the proposed total budget and the property tax budget.

5. A comparison of the percentages and dollar amounts proposed to be expended with the percentages and dollar amounts expended or proposed to be expended during the current fiscal year as amended to the date of publication which information shall be displayed in the publication in the form of a pie graph. The graphs shall be prepared for both fiscal years with one pie graph for each fiscal year showing the sources of anticipated revenue and one pie graph for each fiscal year showing the proposed budget expenditures by category of services.

The provisions of this section shall not apply to publication of notice for a hearing on a total budget for the fiscal year beginning July 1, 1976 required under section twenty-four point nine (24.9) or three hundred eighty-four point sixteen (384.16) of the Code if the notice of hearing has been published before the effective date of this division, but it shall apply to any other notice for a hearing on a total budget or amendment to a total budget required by this division or other provision of law for the fiscal years beginning July 1, 1976 and July 1, 1977.

Sec. 9. EXCEPTION TO DATES FOR BUDGET APPEAL. Notwithstanding sections twenty-four point twenty-seven (24.27) through twenty-four point thirty-two (24.32), inclusive, and three hundred eighty-four point nineteen (384.19) of the Code,

persons affected by a certified total budget of a political subdivision which conducts a public hearing as provided in section seven (7) of this division, shall have ten days following certification of such budget to file a petition to protest to the state appeal board and persons affected by a certified total budget of a political subdivision having a property tax budget exceeding a nine percent increase for the fiscal year beginning July 1, 1976, shall have ten days after the effective date of this division to file a petition to protest to the state appeal board. All other time limitations or dates specified in sections twenty-four point twenty-seven (24.27) through twenty-four point thirty-two (24.32), inclusive, and section three hundred eighty-four point nineteen (384.19) of the Code shall be correspondingly changed or extended to allow the same amount of time for the protest hearing and the decision of the state board that would exist had the appeal to the state appeal board been filed as provided in section twenty-four point twenty-seven (24.27) or three hundred eighty-four point nineteen (384.19) of the Code.

Sec. 10. PROPERTY TAX CARRYOVER. If a political subdivision adopts a total budget for the fiscal year beginning July 1, 1976, which does not include an increase in the amount of the property tax levy computed in dollars which exceeds or is equal to nine percent, the political subdivision may levy property taxes for the fiscal year beginning July 1, 1977 in excess of a seven percent increase and be exempt from the provisions of section seven (7) of this division or in excess of a nine percent increase and be exempt from the provisions of section six (6) of this division. However, the exemption from the provisions of section six (6) or seven (7) of this division shall be applicable only if the additional property tax levy does not raise in dollars an amount which exceeds the seven percent increase or the nine percent increase, as the case may be, for the fiscal year beginning July 1, 1977 and the difference between the amount in dollars which the political subdivision levied during the base year and the amount in dollars which the political subdivision could have levied during the base year under this division.

Sec. 11. PROPERTY TAX LEVY LIMITATION NOT AFFECTED. The provisions of this division shall not be construed as removing or otherwise affecting the property tax levy limitations otherwise provided by law for any fund, account, or program in the total budget of a political subdivision. However, for the fiscal year beginning July 1, 1977, the state appeal board may, upon appeal by a political subdivision, lift a property tax levy limitation where reductions in the assessed value of taxable property will cause a reduction in services providing substantial benefits to the residents of such political subdivision. For the purposes of this section, "political subdivision" means any city, county, or other local public body or corporation that has the power to levy or certify a property tax or sum of money to be collected by property taxation.

Sec. 12. BUDGET APPEAL NOT AFFECTED. The provisions of this division shall not be construed to prohibit or affect a protest filed with the state appeal board against a total budget of a political subdivision having a property tax budget

which does not exceed the property tax budget of such political subdivision for the base year by more than nine percent.

Sec. 13. SPECIAL CHARTERED CITIES. It is the intention of the general assembly that the provisions of this division shall apply to special chartered cities. The state appeal board may adopt such rules relating to budget forms and procedures as the state appeal board deems necessary to carry out the provisions of this division regarding special chartered cities.

Sec. 14. DUTIES OF STATE COMPTROLLER. As soon as practicable after the effective date of this division, the state comptroller shall give notice of the requirements of this division and distribute such forms as required to the governing bodies of the political subdivisions of this state.

Sec. 15. Section twenty-four point twenty-seven (24.27), Code 1975, is amended to read as follows:

24.27 PROTEST TO BUDGET. Not later than the first Tuesday in April, a number of persons in any municipality equal to one-fourth of one percent of those voting for the office of president of the United States or governor, as the case may be, at the last general election in said municipality, but in no event less than ten *or more than one hundred,* who are affected by any proposed budget, expenditure or tax levy, or by any item thereof, may appeal from any decision of the certifying board or the levying board, as the case may be, by filing with the county auditor of the county in which such municipal corporation is located, a written protest setting forth their objections to such budget, expenditure or tax levy, or to one or more items thereof, and the grounds for such objections[; provided that at least three of such persons shall have filed a joint written objection, at or before the time of the meeting contemplated in section 24.11 which shall include a detailed statement of the objections to said budget, expenditures or tax levy for each and every fund, or the items therein to which objection is taken and an analysis of the fund or funds, or items therein showing grounds for such objections or shall have appeared and made objection, either general or specific, as provided by section 24.11]. Upon the filing of any such protest, the county auditor shall immediately prepare a true and complete copy of said written protest, together with the budget, proposed tax levy or expenditure to which objections are made, and shall transmit the same forthwith to the state board, and shall also send a copy of such protest to the certifying board or to the levying board, as the case may be.

Sec. 16. Section three hundred eighty-four point nineteen (384.19), unnumbered paragraph one (1), Code 1975, as amended by Acts of the Sixty-sixth General Assembly, 1975

Session, chapter one hundred ninety-seven (197), section twenty-eight (28), is amended to read as follows:

Within a period of ten days after the final date that a budget or amended budget may be certified to the county auditor, persons affected by the budget may file a written protest with the county auditor, specifying their objections to the budget or any part of it. A protest must be signed by qualified electors equal in number to one-fourth of one percent of the votes cast for governor in the last preceding general election in the city, but not less than ten persons[, and at least three of the signers must have filed a written objection or appeared and objected to the budget at the budget hearing held by the council] *or more than one hundred persons.*

DIVISION II

VALUATION OF AGRICULTURAL PROPERTY

Sec. 17. AGRICULTURAL PROPERTY VALUATION. Notwithstanding the provisions of section four hundred forty-one point twenty-one (441.21) of the Code, for assessments made as of January 1, 1976, the assessed value of each tract of agricultural property consisting of more than ten acres shall be computed by multiplying the valuations established by the assessor and approved by the board of review by the percentage which the 1975 income value per acre bears to the 1975 actual value per acre of the agricultural property both as determined by the director. The county auditor shall proceed to make the necessary adjustments on the tax lists. If the valuation of the agricultural property is increased in a county, the county auditor shall notify by ordinary mail the owners of agricultural property affected by the adjustment made pursuant to this section. The local board of review shall reconvene for a period of thirty days following the notification to the taxpayer in counties where valuations have been increased under this section. The notice shall include the adjusted value of the property, the dates during which the board of review is reconvened, and that a protest may be filed within twenty days from the date the local board of review is reconvened. The protest shall be limited to the adjustment made pursuant to this section. The provisions of this section shall apply only to valuations of agricultural property valued as of January 1, 1976.

Sec. 18. EFFECTIVE DATE. The provisions of section seventeen (17) of this Act shall be effective to January 1, 1976 for valuations of agricultural property assessed as of January 1, 1976 and to this extent the provisions of section seventeen (17) are retroactive.

DIVISION III

Sec. 19. HOMESTEAD TAX CREDIT. Notwithstanding the provisions of section four hundred twenty-five point one (425.1), subsections two (2), three (3), and four (4) of the

Code, the homestead tax credit shall be computed so as to give a credit against the tax on each eligible homestead in the state in an amount equal to the actual levy on the first four thousand five hundred dollars of actual value for each homestead. The provisions of this section shall only be applicable for each homestead tax credit claimed and approved between January 1, 1975 and July 1, 1975.

Sec. 20. ADMINISTRATION. The county auditor shall recompute the amount of credit allowed on each eligible homestead under the provisions of this Act not later than August 1, 1976 and certify the amount of the homestead tax credits claimed in the county to the department of revenue. The department shall reimburse each county in the manner and at such time as is presently provided by law.

Sec. 21. EFFECTIVE DATE. The provisions of sections nineteen (19) and twenty (20) of this Act are effective to January 1, 1975 for credits claimed and approved under chapter four hundred twenty-five (425) of the Code for a homestead tax credit on eligible homesteads which claims are payable during the fiscal year beginning June 1, 1976 ending June 30, 1977 and to this extent the provisions of sections nineteen (19) and twenty (20) of this Act are retroactive.

Sec. 22. HOMESTEAD EXEMPTION. There is granted an exemption against the 1976 assessed valuation and against which taxes are levied in 1977 to each homestead and for which a homestead tax credit was applied for and approved in 1976, an amount equal to three thousand two hundred fifty dollars of the taxable value of the property. The exemption allowed under the provisions of the section shall be computed after computation of the homestead tax credit allowed under chapter four hundred twenty-five (425) of the Code.

DIVISION IV

AGRICULTURAL LAND CREDIT FUND

Sec. 23. APPROPRIATION. There is appropriated for the fiscal year beginning July 1, 1976 and ending June 30, 1977 to the agricultural land credit fund the sum of twenty-four million (24,000,000) dollars which shall be in addition to moneys appropriated pursuant to section four hundred twenty-six point one (426.1) of the Code.

Sec. 24. ADMINISTRATION. Not later than May 1, 1976, the state comptroller shall recertify to the county auditors of the respective counties the pro rata percentage of reimbursement from the agricultural land credit fund which shall be distributed by the state comptroller on or before September 15, 1976.

DIVISION V

STATE SCHOOL FOUNDATION PROGRAM

Sec. 25. Section four hundred forty-two point three (442.3), Code 1975, is amended to read as follows:

442.3 STATE FOUNDATION BASE. The state foundation base

for the school year beginning July 1, [1972] *1977*, is [seventy] *seventy-seven* percent of the state cost per pupil. For each succeeding school year the state foundation base shall be increased by the amount of one percent of the state cost per pupil, up to a maximum of eighty percent of the state cost per pupil. The district foundation base is the larger of the state foundation base or the amount per pupil which the district will receive from foundation property tax and state school foundation aid.

DIVISION VI

PROPERTY TAX REIMBURSEMENT

Sec. 29. Section four hundred twenty-five point seventeen (425.17), subsection ten (10), Code 1975, as amended by Acts of the Sixty-sixth General Assembly, 1975 Session, chapter two hundred thirteen (213), section one (1), is amended to read as follows:

10. "PROPERTY TAXES PAID" means property taxes *including one-half of any special assessments, but* exclusive of [special assessments,] delinquent interest[,] and charges for services, paid on a claimant's homestead in this state, but includes only property taxes for which the claimant was liable and which were actually paid by the claimant. If the property taxes have actually been paid, they shall be deemed to have been paid when due, regardless of the date of actual payment. "Property taxes paid" shall be computed with no deduction for any credit under this division or for any homestead credit allowed under section 425.1. Claims for property tax reimbursement filed in 1974 shall be based upon the property taxes paid in 1973. Claims for property tax reimbursement filed in 1975 shall be limited to two-thirds of the property taxes paid in 1974 and the first one-half of 1975. Each year thereafter, each claim shall be based upon the taxes paid

during the base year. If a homestead is owned by two or more persons as joint tenants or tenants in common, and one or more persons are not a member of claimant's household, "property taxes paid" is that part of property taxes paid on the homestead which equals the ownership percentage of the claimant and his household. The county treasurer shall include with the tax receipt a statement that if the owner of the property is sixty-five years of age or over or is totally disabled or is a surviving spouse of such person who is over the age of fifty-five years of age, the person may be eligible for the credit allowed under this division. If a claimant changes his homestead, this shall not prevent him from filing a claim based on property taxes for which the claimant was liable and which were actually paid by the claimant, but duplication of claims shall not be allowed. If a homestead is an integral part of a farm, the claimant may use the total property taxes paid for the larger unit, but not exceeding forty acres of land. If a homestead is an integral part of a multidwelling or multipurpose building the property taxes paid for the purpose of this subsection shall be prorated to reflect the portion which the value of the property that the household occupies as its homestead is to the value of the entire structure. For purposes of this subsection, "unit" refers to that parcel of property covered by a single tax statement of which the homestead is a part.

Sec. 30. Section four hundred twenty-five point seventeen (425.17), Code 1975, is amended by adding the following new subsection:

NEW SUBSECTION. "Special assessment" means special assessments made pursuant to sections three hundred eighty-four point thirty-seven (384.37) through three hundred eighty-four point seventy-nine (384.79) of the Code. The amount of a special assessment which may be included in the amount of property taxes paid for one year shall be an amount equal to one-twentieth of the total amount of the special assessment levied against the homestead of the claimant, if the claimant elected to pay the total amount of the special assessment in one payment. If the claimant elects to pay the special assessment in ten annual installments as provided by law, the claimant may include as a portion of the property taxes paid during the base year an amount equal to one-half of the special assessment, including interest, paid during that same base year.

Sec. 31. Section four hundred twenty-five point twenty-three (425.23), subsection one (1), Code 1975, as amended by Acts of the Sixty-sixth General Assembly, 1975 Session, chapter two hundred thirteen (213), section three (3), is amended by striking paragraph a and inserting in lieu thereof the following:

a. The amount shall be determined in accordance with the following schedule:

If the household income is:	Percent of property taxes paid or rent constituting property taxes paid allowed as a reimbursement:

$ 0 — 999.99	100%
1,000 — 1,999.99	95
2,000 — 2,999.99	85
3,000 — 3,999.99	70
4,000 — 4,999.99	55
5,000 — 5,999.99	45
6,000 — 6,999.99	35
7,000 — 7,999.99	30
8,000 — 8,999.99	25

Sec. 32. The provisions of sections twenty-nine (29), thirty (30), and thirty-one (31) of this Act shall become effective January 1, 1977 for all claims for property taxes paid and rent constituting property taxes paid filed on or after January 1, 1977.

DIVISION VII

Sec. 33. TASK FORCE CREATED. There is established a local government task force composed of sixteen members. The task force shall be composed of the chairman of the senate committee on ways and means, the minority party ranking member of the senate committee on ways and means, the chairman of the house committee on ways and means, the minority party ranking member of the house committee on ways and means, and twelve members appointed by the governor who are interested and knowledgeable in affairs of local government. The governor shall appoint two members from each congressional district, who shall not be members of the same political party. 8. The merits of local option taxation.

9. The budgeting procedures and mechanisms of local governments.

10. The development of a method of "recapturing" taxes on agricultural land if agricultural land is assessed at other than market value.

Sec. 35. STAFF. The governor may employ such professional, technical, and administrative assistance as shall be necessary to accomplish the purpose of this Act.

Sec. 36. REPORT. The governor shall transmit the recommendations of the local government task force, accompanied by proposed legislation necessary to carry out the recommendations, to the Sixty-seventh General Assembly not later than January 10, 1977. Copies of the recommendations and of the recommended legislation shall be transmitted to the president of the senate and the speaker of the house of representatives who shall, within ten days after the date of receipt, assign the proposed legislation to the appropriate standing committee.

Sec. 37. ACQUIRING DATA. The state comptroller may request the county auditor, an assessor, or any other public official to provide the valuations of each class of property in each city, county, school district, or other political subdivision of the state, and any other information which the task force deems necessary to properly perform its duties. The county auditors, assessors, and other public officials shall cooperate with the state comptroller and provide such information as is requested.

Sec. 38. APPROPRIATION. and making appropriations."

ON THE PART OF THE SENATE:	ON THE PART OF THE HOUSE:
NORMAN RODGERS, Chair	LOWELL E. NORLAND, Chair
LOWELL L. JUNKINS	ROBERT F. BINA
GEORGE R. KINLEY	C. W. HUTCHINS

The House stood at ease until the fall of the gavel.

The House resumed session, Speaker Cochran in the chair.

QUORUM CALL

A non-record roll call was requested to determine that a quorum was present.

Rule 69 was invoked.

The vote revealed eighty-nine members present, eleven absent.

RULE 36 INVOKED

Fitzgerald of Webster moved to invoke Rule 36, paragraph 4, on **Senate File 1062**, inasmuch as the second conference committee report on Senate File 1062 was not printed in the House Journal of March 17, 1976.

A non-record roll call was requested.

Rule 69 was invoked.

The ayes were 57, nays 35.

The motion prevailed.

POINT OF ORDER

Schroeder of Pottawattamie called up for consideration the following point of order filed by him:

MR. SPEAKER: I object to the introduction of the Conference Committee Report on Senate File 1062 based on Section 770.2 of Mason's Legislative Manual.

The form of this Report is objectionable because the Conference Committee has not confined itself to differences of opinion between the houses.

Also, this Conference Committee Report violates Section 772 of Mason's Legislative Manual because a free conference committee is, by said Section, limited to proposing amendments within the scope of the issue between the houses, and this report covers matters beyond the scope of Senate File 1062 and the differences beween the two houses on this legislation.

SCHROEDER of Pottawattamie

Oakley of Clinton rose on a point of order that the second conference committee report on Senate File 1062 was beyond its scope for the reason of not being germane to the bill.

The Speaker ruled that the scope of this bill was property tax relief and, therefore, the second conference committee report on Senate File 1062 was in order.

Oakley of Clinton rose on a point of order and appealed the ruling of the Chair.

Roll call was requested by Bittle of Polk and Avenson of Fayette.

On the question "Shall the ruling of the Chair be sustained?"

The ayes were, 60:

Absent or not voting, 4:

The ruling of the Chair was sustained.

Oakley of Clinton called up for consideration the following point of order filed by him:

MR. SPEAKER: I object to the consideration of the Conference Committee Report on Senate File 1062 on the grounds that it violates Sections 680 and 681 of Mason's Manual for the reason that there are substantial deviations in the language included in the Report and the action shown to have been taken in Committee by its minutes and further that the Report was circulated and filed when the Committee was not convened.

OAKLEY of Clinton

RE: OBJECTIONS TO SECOND CONFERENCE COMMITTEE REPORT FILED PURSUANT TO RULE 36 AND IN SUPPORT OF OBJECTIONS FILED BY MR. SCHROEDER AND MR. OAKLEY

MR. SPEAKER: A conference committee is a select committee of the House by reason of there being three kinds of committees, to wit, committee of the whole, standing committees and select committees.

Thus, the rules governing committees generally apply to free conference committees unless specifically altered by rules pertaining to those committees. It should be noted that under Mason's Section 769 a committee on conference from each of the two houses meeting together is not a joint committee but a joint meeting of two committees and in the absence of joint rules is governed by the rules of the respective houses independent of the other.

The committee report is objectionable on its face because it contains matter beyond the scope of the matters included in the content or title of Senate File 1062, is defective in that it contains at least two places wherein the minutes of the conference committee deviated substantially from the content of the report as to action taken and, lastly, was improperly signed.

Scope

There being no House rule indicating the breadth of inquiry and recommendation to which a conference committee is proscribed, reliance on other sources is necessary. Mason's Section 772(1) states that the committee on free conference has authority to propose any amendment within the scope of the issues between the houses. Thus, the question of scope is actually one of germaneness as the conference committee report is an amendment to the bill. The issue is thus governed by Mason's Section 402. It is debatable and should be submitted to the body for resolution. If the Chair proceeds to rule on germaneness, the motion is then available to appeal that ruling and it is likewise debatable. In determining germaneness and examining the Conference Committee Report, subparagraph 6 seems most appropriate. As the matters contained in the body of Senate File 1062 and its title present no question of such matters as school foundation aid formula, agricultural land tax credits, credits for residential property, property tax reimbursement for the elderly, a task force for local government spending nor several other matters contained in the report. While not compelling authority, persuasive secondary authority is found in former House-Senate Joint Rule 12(3) which specifically requires a free conference committee to be confined to the scope of the matters included in the title.

Defective Report

An examination of the minutes and of the minority members of the House Conference Committee reveals at least two substantive deviations in the language included in the report and the action shown to have been taken in committee by its minutes. This questioning of an action reported by a committee must be questioned before the report itself is considered and should be submitted to the body itself for decision rather than to be decided by the presiding officer. Likewise, it has come to our attention that the conference committee report was circulated and signed by a majority of the members when the committee was not convened and, thus,

the action of reporting is ineffective and cannot be regarded as a report of the committee. Under Section 680(1), "It is the duty of the presiding officer to refuse to accept any report on a bill or other question when he has knowledge that it was not considered and acted upon at a regular meeting."

OAKLEY of Clinton

Oakley of Clinton requested the reading of the following report:

MR. SPEAKER: As chair on the part of the House on the second conference commitee on Senate File 1062, a bill for an act to provide budget limitations for certain political subdivisions of the state, I respectfully report that at the meeting of March 18, 1976, the committee, by majority of both houses, voted that the House of Representatives should consider the report of the second conference committee first and that the House of Representatives be given physical custody of Senate File 1062.

NORLAND of Worth, Chair
On the Part of the House

In reply to a parliamentary inquiry by Oakley of Clinton regarding the above report, the Speaker ruled the report was not a part of the conference committee report.

Oakley of Clinton rose on a point of order that the second conference committee report was not valid under Section 680 of Mason's Manual.

The Speaker propounded the question to the House.

Roll call was requested by Oakley of Clinton and Readinger of Polk.

On the question "Is the second conference committee report on Senate File 1062 valid?"

The ayes were, 58:

The ruling of the Chair was sustained.

Oakley of Clinton called up for consideration the following points of parliamentary inquiry filed by him:

OBJECTIONS TO CONSIDERATION OF
SECOND CONFERENCE COMMITTEE REPORT ON
SENATE FILE 1062

The undersigned hereby objects to the further consideration of Senate File 1062 pursuant to House Rule 36 and other pertinent Rules of the House for the following reasons:

Senate File 1062 is in the possession of the Senate by reason of the House insisting on its amendments on February 24, 1976, and messaging that action, together with the bill, to the upper chamber.

Any physical delivery of Senate File 1062 to this House by the Secretary of the Senate is a violation of his custodial responsibilities under the Senate Rules and violates the spirit and letter of the comity of understanding between the two houses and a long line of legislative precedent.

I specifically refer the Speaker to "Mason's Manual of Legislative Procedure", Sec. 761(6) and (8). See also Mason's Sec. 768(7); Cushing's "Law and Practice of Legislative Assemblies", Sec. 2270; Cannon's "Procedure of the House", §909, page 128; Hughes "American Parliamentary Guide", Sec. 1054 (E) through (H); tradition under former Joint Rule 12 (4), page 28, "Rules of Procedure, Iowa, 1973-1974".

Thus, while the report may be read, the House must defer action until the bill with action on the report is received from the Senate. Will the Chief Clerk please read the latest notation of action on the bill.

If the House has requested return of the bill and the Senate accedes to the written message or request, the state of the proceedings are to place before the House the question of reconsidering its action of February 24th, insisting on its amendments and thereby voiding the action of the Speaker in appointing the conference committee. Such voiding act removes the consideration of a report from our order of business.

I therefore raise the following points of parliamentary inquiry to be considered separately:

1. Is the bill in the possession of the House pursuant to a message to the Senate requesting the same?

2. What Senate action is endorsed on the bill authorizing its messaging from the Senate to the House?

3. Does the receipt of the bill by the House void the consideration of the conference committee report?

4. Is the only method for the House to consider the bill to move to suspend certain specific rules?

OAKLEY of Clinton

The Speaker ruled, with respect to the above separate points of order, that Senate File 1062 had been properly placed in the possession of the House.

Oakley of Clinton rose on a point of order that the House does not have valid possession of Senate File 1062 for the purpose of taking positive action and therefore appealed the ruling of the Chair.

The Speaker propounded the question to the House.

"DIVISION X
COMPENSATION TO VICTIMS

Sec. 1001. ***NEW SECTION.*** **As used in this division,** unless the context otherwise requires:

1. "Board" means the crime victims compensation board.

2. "Claimant" means the person filing a claim pursuant to this division.

3. "Crime" means an act committed in this state which would, if committed by a mentally competent criminally responsible adult, who has no legal exemption or defense, constitute a crime as defined

in and prescribed by the penal law, provided, however, that no act involving the operation of a motor vehicle which results in injury shall constitute a crime for the purposes of this division unless the injuries were intentionally inflicted through the use of a vehicle.

4. "Family", when used with reference to a person, means any person related to such person within the third degree of consanguinity or affinity, any person maintaining a sexual relationship with such person, or any person residing in the same household with such person.

5. "Victim" means a person who suffers personal physical injury as a direct result of a crime.

Sec. 1002. *NEW SECTION.*

1. There is hereby created a board, to be known as the crime victims compensation board. Such board shall consist of three members, no more than two of whom shall belong to the same political party, who shall be appointed by the governor by and with the advice and consent of the senate. The members of the board shall have been admitted to practice law in this state for not less than ten years next preceding their appointment.

2. The term of office of each such member shall be seven years, except that the members first appointed shall serve for terms of seven years, five years and three years, respectively. Any member appointed to fill a vacancy occurring otherwise than by expiration of a term shall be appointed for the remainder of the unexpired term.

3. The governor shall designate one member of the board as chairman thereof, to serve as such at the pleasure of the governor.

Page 2

4. The members of the board shall devote their whole time and capacity to their duties, and shall not engage in any other occupation, profession or employment, and shall receive an annual salary to be fixed by the governor within the amount made available therefor by appropriation.

Sec. 1003. *NEW SECTION.* The board shall have the following powers and duties:

1. To establish and maintain a principal office and such other offices within the state as it may deem necessary.

2. To appoint a secretary, counsel, clerks and such other employees and agents as it may deem necessary, fix their compensation within the limitations provided by law, and prescribe their duties.

3. To adopt, promulgate, amend and rescind suitable rules to carry out the provisions and purposes of this division, including rules for the approval of

attorneys' fees for representation before the board.

4. To request from the department of public safety, from county or municipal police departments and agencies and from any other state or municipal department or agency, or public authority, and the same are hereby authorized to provide, such assistance and data as will enable the board to carry out its functions and duties.

5. To hear and determine all claims for awards filed with the board pursuant to this division, and to reinvestigate or reopen cases as the board deems necessary.

6. To direct medical examination of victims.

7. To hold hearings, administer oaths or affirmations, examine any person under oath or affirmation and to issue subpoenas requiring the attendance and giving of testimony of witnesses and require the production of any books, papers, documentary or other evidence. The powers provided in this subsection may be delegated by the board to any member or employee thereof.

8. To take or cause to be taken affidavits or depositions within or without the state.

9. To render each year to the governor and to the general assembly a written report of its activities.

Sec. 1004. *NEW SECTION.*

1. Except as provided in subsection two (2) of this section, the following persons shall be eligible for awards pursuant to this division:

a. A victim of a crime;

Page 3

b. A surviving spouse, parent or child of a victim of a crime who died as a direct result of such crime; and

c. Any other person dependent for his principal support upon a victim of a crime who died as a direct result of such crime.

2. A person who is criminally responsible for the crime upon which a claim is based or an accomplice of such person or a member of the family of such persons shall not be eligible to receive an award with respect to such claim.

Sec. 1005. *NEW SECTION.*

1. A claim may be filed by a person eligible to receive an award, as provided in section one thousand four (1004) of this division, or, if such person is a minor, by his parent or guardian.

2. A claim must be filed by the claimant not later than ninety days after the occurrence of the crime upon which such claim is based, or not later than ninety days after the death of the victim, provided, however, that upon good cause shown, the board may extend the time for filing for a period not exceeding

one year after such occurrence.

3. Claims shall be filed in the office of the secretary of the board in person or by mail. The secretary of the board shall accept for filing all claims submitted by persons eligible under subsection one (1) of this section and alleging the jurisdictional requirements set forth in this Act and meeting the requirements as to form in the rules of the board.

4. Upon filing of a claim pursuant to this division, the board shall promptly notify the county attorney of the county wherein the crime is alleged to have occurred. If, within ten days after such notification, such county attorney advises the board that a criminal prosecution is pending upon the same alleged crime and requests that action by the board be deferred, the board shall defer all proceedings under this division until such time as such criminal prosecution has been concluded and shall so notify such county attorney and the claimant. When such criminal prosecution has been concluded, such county attorney shall promptly so notify the board. Nothing in this section shall limit the authority of the board to grant emergency awards pursuant to this division.

Sec. 1006. *NEW SECTION.* No award shall be made on a claim unless the claimant has incurred a minimum out-of-pocket loss of one hundred dollars or has lost at least two continuous weeks earnings or support. Out-of-pocket loss shall mean unreimbursed and

Page 4

unreimbursable expenses or indebtedness reasonably incurred for medical care or other services necessary as a result of the injury upon which such claim is based.

Sec. 1007. *NEW SECTION.*

1. A claim, when accepted for filing, shall be assigned by the chairman to himself or to another member of the board. All claims arising from the death of an individual as a direct result of a crime, shall be considered together by a single board member.

2. The board member to whom such claim is assigned shall examine the papers filed in support of such claim. The board member shall thereupon cause an investigation to be conducted into the validity of such claim. Such investigation shall include, but not be limited to, an examination of police, court and official records and reports concerning the crime and an examination of medical and hospital reports relating to the injury upon which such claim is based.

3. Claims shall be investigated and determined, regardless of whether the alleged criminal has been apprehended or prosecuted for or convicted of any crime based upon the same incident, or has been acquitted, or found not guilty of the crime in question owing to criminal irresponsibility or other legal

exemption.

4. The board member to whom a claim is assigned may decide such claim in favor of a claimant in the amount claimed on the basis of the papers filed in support thereof and the report of the investigation of such claim. If the board member is unable to decide such claim upon the basis of such papers and such report, he shall order a hearing. At such hearing any relevant evidence, not legally privileged, shall be admissible.

5. After examining the papers filed in support of such claim and the report of investigation, and after a hearing, if any, the board member to whom such claim was assigned shall make a decision either granting an award or deny the claim.

6. The board member making a decision shall file with the secretary a written report setting forth such decision and his reasons therefor. The secretary shall thereupon notify the claimant and furnish him a copy of such report.

Sec. 1008. *NEW SECTION.*

1. The claimant may, within thirty days after receipt of the report of the decision of the board member to whom his claim was assigned, make an application in writing to the board for consideration

of such decision by the full board.

2. Any member of the board may, within thirty days after the filing of such report, make an application in writing to the board for consideration of such decision by the full board.

3. Upon receipt of an application the board shall review the record and affirm or modify the decision of the board member to whom the claim was assigned. The action of the board in affirming or modifying such decision shall be final. The board shall file with the secretary of the board a written report setting forth its decision, and if such decision varies in any respect from the report of the board member to whom the claim was assigned setting forth its reasons for such decision. If the board receives no application pursuant to subsection one (1) or two (2) of this section the decision of the board member to whom the claim was assigned shall become the final decision of the board.

4. The secretary of the board shall promptly notify the claimant, the attorney general and the comptroller of the final decision of the board and furnish each with a copy of the report setting forth such decision.

Sec. 1009. *NEW SECTION.*

1. Within thirty days after receipt of the copy of the report containing the final decision of the board, the attorney general may, if in his judgment

the award is improper or excessive, commence a proceeding in the Polk county district court, to review the decision of the board. Within thirty days after receipt of the copy of such report, the comptroller may, if in his judgment the award is improper or excessive, request the attorney general to commence a proceeding to review the decision of the board in which event the attorney general shall commence such a proceeding. Such proceeding shall be heard in a summary manner and shall have precedence over all other civil cases in such court. There shall be no other judicial review of any decision made or action taken by the board, by a member of the board or by the secretary of the board with respect to any claim.

2. Any such proceeding shall be commenced by the service of notice thereof upon the claimant and the board in person or by mail.

Sec. 1010. *NEW SECTION.* Notwithstanding the provisions of section one thousand seven (1007) of this division, if it appears to the board member to whom a claim is assigned, prior to taking action upon

Page 6

such claim, that such claim is one with respect to which an award probably will be made, and undue hardship will result to the claimant if immediate payment is not made, such board member may make an emergency award to the claimant pending a final decision in the case, provided, however, that the amount of such emergency award shall not exceed five hundred dollars, the amount of such emergency award shall be deducted from any final award made to the claimant, and the excess of the amount of such emergency award over the amount of the final award, or the full amount of the emergency award if no final award is made, shall be repaid by the claimant to the board.

Sec. 1011. *NEW SECTION.*

1. No award shall be made unless the board or board member, as the case may be, finds that a crime was committed, such crime directly resulted in personal physical injury to, or death of, the victim, and police records show that such crime was promptly reported to the proper authorities; and in no case may an award be made where the police records show that such report was made more than forty-eight hours after the occurrence of such crime unless the board, for good cause shown, finds the delay to have been justified.

2. Any award made pursuant to this Act shall be in an amount not exceeding out-of-pocket expenses, including indebtedness reasonably incurred for medical or other services necessary as a result of the injury upon which the claim is based, together with loss

of earnings or support resulting from such injury.

3. Any award made for loss of earnings or support shall, unless reduced pursuant to other provisions of this division, be in an amount equal to the actual loss sustained, provided, however, that no such award shall exceed one hundred dollars for each week of lost earnings or support, and provided further that the aggregate award for such loss shall not exceed fifteen thousand dollars. If there are two or more persons entitled to an award as a result of the death of a person which is the direct result of a crime, the award shall be apportioned by the board among the claimants.

4. Any award made pursuant to this division shall be reduced by the amount of any payments received or to be received by the claimant as a result of the injury from or on behalf of the person who committed the crime, under insurance programs mandated by law, from public funds, under any contract of insurance

Page 7

wherein the claimant is the insured or beneficiary, as an emergency award pursuant to section one thousand ten (1010) of this division.

5. In determining the amount of an award, the board or board member, as the case may be, shall determine whether, because of his conduct, the victim of such crime contributed to the infliction of his injury, and the board or board member shall reduce the amount of the award or reject the claim altogether, in accordance with such determination; provided, however, that the board or board member, as the case may be, may disregard for this purpose the responsibility of the victim for his own injury where the record shows that such responsibility was attributable to efforts by the victim to prevent a crime or an attempted crime from occurring in his presence or to apprehend a person who had committed a crime in his presence or had in fact committed a felony.

6. If the board or board member, as the case may be, finds that the claimant will not suffer serious financial hardship, as a result of the loss of earnings or support and the out-of-pocket expenses incurred as a result of the injury, if not granted financial assistance pursuant to this division to meet such loss of earnings, support or out-of-pocket expenses, the board or board members shall deny an award. In determining such serious financial hardship, the board or board member shall consider all of the financial resources of the claimant. The board shall establish specific standards by rule for determining such serious financial hardship.

Sec. 1012. *NEW SECTION.* The award shall be paid in a lump sum, except that in the case of death or protracted disability the award shall provide for

periodic payments to compensate for loss of earnings or support. No award made pursuant to this division shall be subject to execution or attachment other than for expenses resulting from the injury which is the basis for the claim.

Sec. 1013. *NEW SECTION.* Acceptance of an award made pursuant to this division shall subrogate the state, to the extent of such award, to any right or right of action accruing to the claimant or the victim to recover payments on account of losses resulting from the crime with respect to which the award is made.

Sec. 1014. *NEW SECTION.* The comptroller shall pay to the claimant from funds appropriated by the general assembly for such purposes any initial

Page 8

emergency award granted by the board or a board member within five days after receipt of notice from the board of the emergency award.

The comptroller shall pay to the claimant from funds appropriated by the general assembly for such purposes the award as determined in the final decision by the board, reduced to the extent provided in section one thousand eleven (1011) of this division. Such payment shall be made thirty days after communication of the final decision of the board to the comptroller if action to review the board's decision has not been commenced. Payment of the final award as reviewed by the court shall be made in a lump sum within the time period ordered by the court."

Sec. ..... Section forty-seven point five (47.5), Code 1975, is amended to read as follows:

47.5 PURCHASING BY COMPETITIVE BIDDING. The commissioner shall take bids for any goods and services, *other than data processing services,* which will be performed or provided by persons who are not employees of the commissioner and where the costs of such services exceed five thousand dollars per contract in the case of contracts for the printing of ballots or, in the case of other services, [two thousand five hundred] *one hundred* dollars per contract. No bids shall be required for legal services. The commissioner shall publish notice to bidders, including specifications regarding the goods or services to be purchased or a description of the nature and object of the services to be retained, in a newspaper of general circulation in the county not less than fifteen days before the final date for submission of bids. The commissioner shall also file a copy of the bid specifications in the office of the state commissioner for a period of not less than twenty days prior to the date the bid is let. When competitive bidding procedures are used, the purchase of goods or services shall be made from the lowest responsible bidder which meets the specifications or description of the services needed or the commissioner may reject all bids and readvertise. In determining the lowest responsible bidder, various factors may be considered, including but not limited to the past performance of the bidder relative to quality of product or service, the past experience of the purchaser in relation to the product or service, the relative quality of products or services, the proposed terms of delivery and the best interest of the county.

[A county shall not enter into an intergovernmental agreement with any other political subdivision of the state for acquisition of goods or performance of services until an audit has been conducted by the auditor of state or an independent certified public accountant not in the regular employ of the counties executing an agreement which sets forth the costs of each county for providing goods and services.]

A county may purchase data processing services in

connection with administration of elections from a provider other than the state or an employee of the county, after the effective date of this Act, only until such time as the registrar certifies to the state commissioner that the state comptroller's data processing facilities are able to provide all services which counties are required by this Act to obtain from the registrar. During that period, the commissioner shall give the registrar written notice in advance on each occasion when it is proposed to

have data processing services, necessary in connection with the administration of elections, performed by any person other than the registrar or an employee of the county. Data processing services so performed shall be purchased by written contract of not more than one year's duration. The registrar, in consultation with the state voter registration commission, shall establish by rule the specifications for such data processing contracts, and shall notify prospective bidders on each occasion when a contract for data processing services is to be let. The registrar shall have authority to approve or disapprove all bids received. Each contract for data processing services necessary in connection with the administration of elections shall be executed with the contractor jointly by the board of supervisors of the county purchasing the service and the registrar. Each county exercising the option to purchase data processing services in connection with administration of elections from a provider other than the state or an employee of the county under this section shall provide the registrar, at the county's expense, original and updated voter registration lists in a form and at times prescribed by the registrar.

Any election or registration data or records which may be in the possession of a contractor shall remain the property of the commissioner. *Contracts with a private person relating to the maintenance and use of voter registration data, which were properly entered into in compliance with this section and with all other laws relating to bidding on such contracts, shall remain in force only until the most recently negotiated termination date of that contract, which shall in no case be later than one year after the effective date of this Act."*

2. The registrar shall provide staff services to the commission and shall make available to it all information relative to registration of voters in this state which may be requested by any two commission members. The commission may authorize the registrar to employ such additional staff personnel as it deems necessary to permit the duties of the registrar's office to be adequately and promptly discharged. Such personnel shall be employed pursuant to chapter nineteen A (19A) of the Code.

3. The commission shall annually adopt a set of standard charges to be made for such utilization of **voter registration records as it authorized by law** by persons other than the registrar, the state commissioner and the several county commissioners. These charges shall be specified by unit wherever possible. The standard charges shall be adopted by the commission by January fifteenth of each calendar year, and shall be in effect for one year thereafter.

Sec. ..... Section forty-eight point four (48.4), Code 1975, as amended by Acts of the Sixty-sixth General Assembly, 1975 Session, chapter eighty-one (81), section forty-eight (48), is amended to read as follows:

The Speaker ruled the point well taken but in view of past practice allowing members to vote within the ten minute time limit on quorum calls, members would be so recorded within that time period.

a. Written or recorded statements or confessions made by the defendant, or copies thereof, within the possession, custody or control of the government, the existence of which is known, or by the exercise of due diligence may become known, to the attorney for the government, and

b. Results or reports of physical or mental examinations, and of scientific tests or experiments made in connection with the particular case, or copies thereof, within the possession, custody or control of the government, the existence of which is known, or by the

c. Recorded testimony of the defendant before a grand jury.

2. OTHER BOOKS, PAPERS, DOCUMENTS, TANGIBLE OBJECTS OR PLACES. Upon motion of a defendant the court may order the attorney for the government to permit the defendant to inspect and copy or photograph books, papers, documents, tangible objects, buildings or places, or copies or portions thereof, which are within the possession, custody or control of the government, upon a showing of materiality to the preparation of his defense and that the request is reasonable. Except as provided in paragraph b of subsection one (1) of this rule, this rule does not authorize the discovery or inspection of reports, memoranda, or other internal government documents made by government agents in connection with the investigation or prosecution of the case, or of statements made by government witnesses or prospective government witnesses (other than the defendant) to agents of the government except as provided in 18 U.S.C. §3500.

3. DISCOVERY BY THE GOVERNMENT. If the court grants relief sought by the defendant under paragraph b of subsection one (1), or subsection two (2) of this rule, it may, upon motion of the government, condition its order by requiring that the defendant permit the government to inspect and copy or photograph scientific or medical reports, books, papers, documents,

4. TIME, PLACE AND MANNER OF DISCOVERY AND INSPECTION. An order of the court granting relief under this rule shall specify the time, place and manner of making the discovery and inspection permitted and may prescribe such terms and conditions as are just.

5. PROTECTIVE ORDERS. Upon a sufficient showing the court may at any time order that the discovery or inspection be denied, restricted or deferred, or make such other order as is appropriate. Upon motion by the

government the court may permit the government to make such showing, in whole or in part, in the form of a written statement to be inspected by the court in camera. If the court enters an order granting relief following a showing in camera, the entire text of the government's statement shall be sealed and preserved in the records of the court to be made available to the appellate court in the event of an appeal by the defendant.

6. TIME OF MOTIONS. A motion under this rule may be made only within ten days after arraignment or at such reasonable later time as the court may permit. The motion shall include all relief sought under this rule. A subsequent motion may be made only upon a showing of cause why such motion would be in the interest of justice.

7. CONTINUING DUTY TO DISCLOSE—FAILURE TO COMPLY. If, subsequent to compliance with an order issued pursuant to this rule, and prior to or during trial, a party discovers additional material previously requested or ordered which is subject to discovery or inspection under the rule, he shall promptly notify the other party or his attorney or the court of the existence of the additional material. If at any time during the course of the proceedings it is brought to the attention of the court that a party has failed to comply with this rule or with an order issued pursuant to this rule, the court may order such party to permit the discovery or inspection

HOUSE CONCURRENT RESOLUTION 122

By Branstad

Whereas, the salvation of the family farm in the State of Iowa and the United States is of critical importance to both agriculture and the consumer in America; and

Whereas, one of the major causes of destruction of the family farm and the family farm system is the loss of family owned farms and businesses because of federal inheritance and estate tax laws; and

Whereas, it is to the benefit of this country to have estate tax laws that are not confiscatory in nature which present federal estate tax laws are; and

Whereas, the Congress of the United States has seemingly procrastinated on this most important matter, thereby making it impossible for state legislatures to effect or enact corrective legislation until the federal government acts; *Now, Therefore, Be It Resolved by the House of Representatives, the Senate Concurring*, That the Legislature of the State of Iowa exhorts and insists that the Congress of the United States take action on this matter of the federal estate tax laws immediately in order that state legislatures throughout the United States may take action yet this year which will help save the family farm; and

Be It Further Resolved, That a copy of this resolution be sent by the Clerk of the House to all members of Iowa's Congressional Delegation to encourage them in the strongest manner possible to utilize whatever abilities they have to bring this matter to a satisfactory conclusion as quickly as possible.

Laid over under Rule 25.

"Sec. 2. Section four hundred ninety A point four (490A.4), Code 1975, is amended by adding the following new unnumbered paragraphs:

NEW UNNUMBERED PARAGRAPH. The commission shall designate, not later than October 1, 1976, a lifeline volume of gas and a lifeline quantity of electricity which is necessary to supply the energy needs of the average residential user. In estimating such volumes and quantities the commission shall take into account differentials in energy needs between utility customers whose residential energy needs are supplied by both electricity and gas and utility customers whose residential needs are supplied by electricity. The commission shall also take into account any substantial differentials in energy needs caused by geographic differences in severity of climate, and by season. The commission may establish more than one lifeline rate based on the variables specified in this paragraph.

NEW UNNUMBERED PARAGRAPH. Each public utility which provides residential natural gas service or residential electric service the rates of which are subject to regulation by the commission shall file not later than January 1, 1977, a schedule of rates and charges providing for a lifeline rate applicable to each unit of service consumed up to and including the lifeline volume of natural gas, and the lifeline quantity of electricity, whichever is applicable, as designated by the commission. The initial lifeline service rate for each public utility shall be the average cost per unit of service as determined by applying the lifeline volume or quantity designated by the commission to the rate or scale of rates for residential use approved and in effect for such service of that utility as of July 1, 1976. It shall be unlawful to increase an initial lifeline service rate until such time as the lowest rate for electric service, or natural gas service, whichever is applicable, other than the residential lifeline service, exceeds the lifeline service rate by more than twenty-five percent, calculated as a percentage of the lifeline rate. Thereafter, any rates or rate

schedules which establish a lifeline service rate equal to more than eighty percent of the next lowest service rate is unlawful. A power supply or fuel cost adjustment shall not be made by any public utility if that adjustment would have the effect of decreasing

Page 2

the rate differential prescribed by this paragraph.

Sec. 3. The commission shall report to the general assembly in January of 1977 and each year thereafter respecting the effects of this Act on utility rates and utility service consumption, including any indirect effects on public utilities not subject to rate regulation by the commission."

"DIVISION X
COMPENSATION FOR VICTIMS OF CRIME

Section 1001. *NEW SECTION.* As used in this Act, unless the context otherwise requires:

1. "Board" means the state appeals board as defined in section twenty-three point one (23.1) of the Code.

2. "Claimant" means the person filing a claim pursuant to this Act.

3. "Crime" means an act committed in this state which would, if committed by a mentally competent criminally responsible adult, who has no legal exemption or defense, constitute a crime as defined in and prescribed by the penal law, provided, however, that no act involving the operation of a motor vehicle which results in injury shall constitute a crime for the purposes of this Act unless the injuries were intentionally inflicted through the use of a vehicle.

4. "Family", when used with reference to a person, means any person related to such person within the third degree of consanguinity or affinity, any person maintaining a sexual relationship with such person, or any person residing in the same household with such person.

5. "Victim" means a person who suffers personal physical injury as a direct result of a crime.

Sec. 1002. *NEW SECTION.* The attorney general shall appoint a special assistant attorney general who shall serve as the secretary of the board as provided in section twenty-five point four (25.4) of the Code.

Sec. 1003. *NEW SECTION.* The board shall have the following powers and duties:

1. To request from the department of public safety, from county or municipal police departments and agencies and from any other state or municipal department or agency, or public authority, and the same are hereby authorized to provide, such assistance and data as will enable the board to carry out its functions and duties.

2. To direct medical examination of victims.

3. To hold hearings, administer oaths or affirmations, examine any person under oath or affirmation and to issue subpoenas requiring the attendance and giving of testimony of witnesses and require the production of any books, papers, documentary or other evidence. The powers provided

Page 2

in this subsection may be delegated by the board to any member or employee thereof.

4. To take or cause to be taken affidavits or depositions within or without the state.

5. To render each year to the general assembly a written report of its activities and recommendations for awards.

Sec. 1004. *NEW SECTION.*

1. Except as provided in subsection two (2) of this section, the following persons shall be eligible for awards pursuant to this Act:

a. A victim of a crime;

b. A surviving spouse, parent or child of a victim of a crime who died as a direct result of such crime; and

c. Any other person dependent for his principal support upon a victim of a crime who died as a direct result of such crime.

2. A person who is criminally responsible for the crime upon which a claim is based or an accomplice of such person or a member of the family of such persons shall not be eligible to receive an award with respect to such claim.

Sec. 1005. *NEW SECTION.*

1. A claim may be filed by a person eligible to receive an award, as provided in section one thousand four (1004) of this Act, or, if such person is a minor, by his parent or guardian.

2. A claim must be filed by the claimant not later than ninety days after the occurrence of the crime upon which such claim is based, or not later than ninety days after the death of the victim, provided, however, that upon good cause shown, the board may extend the time for filing for a period not exceeding one year after such occurrence.

3. Claims shall be filed in the office of the secretary of the board in person or by mail. The secretary of the board shall accept for filing all claims submitted by persons eligible under subsection

one (1) of this section and alleging the jurisdictional requirements set forth in this Act and meeting the requirements as to form in the rules of the board.

4. Upon filing of a claim pursuant to this Act, the board shall promptly notify the county attorney of the county wherein the crime is alleged to have occurred. If, within ten days after such notification, such county attorney advises the board that a criminal prosecution is pending upon the same alleged crime and requests that action by the board be deferred, the board shall defer all proceedings under this Act

Page 3

until such time as such criminal prosecution has been concluded and shall so notify such county attorney and the claimant. When such criminal prosecution has been concluded, such county attorney shall promptly so notify the board. Nothing in this section shall limit the authority of the board to grant emergency awards pursuant to this Act.

Sec. 1006. *NEW SECTION.* No award shall be made on a claim unless the claimant has incurred a minimum out-of-pocket loss of one hundred dollars or has lost at least two continuous weeks earnings or support. Out-of-pocket loss shall mean unreimbursed and unreimbursable expenses or indebtedness reasonably incurred for medical care or other services necessary as a result of the injury upon which such claim is based.

Sec. 1007. *NEW SECTION.*

1. The board shall cause an investigation to be conducted into the validity of each claim. Such investigation shall include, but not be limited to, an examination of police, court and official records and reports concerning the crime and an examination of medical and hospital reports relating to the injury upon which such claim is based.

2. Claims shall be investigated and determined, regardless of whether the alleged criminal has been apprehended or prosecuted for or convicted of any crime based upon the same incident, or has been acquitted, or found not guilty of the crime in question owing to criminal irresponsibility or other legal exemption.

3. The board may decide such claim in favor of a claimant in the amount claimed on the basis of the papers filed in support thereof and the report of the investigation of such claim. If the board is unable to decide such claim upon the basis of such papers and such report, he shall order a hearing. At such hearing any relevant evidence, not legally privileged, shall be admissible.

4. After examining the papers filed in support of such claim and the report of investigation, and after a hearing, if any, the board shall make a

decision either granting an award or deny the claim.

5. The board shall file with the secretary a written report setting forth such decision and reasons therefor. The secretary shall thereupon notify the claimant and furnish him a copy of such report.

Sec. 1008. *NEW SECTION.* Notwithstanding the provisions of section one thousand seven (1007) of this Act, if it appears to the board prior to taking

Page 4

action upon such claim, that such claim is one with respect to which an award probably will be made, and undue hardship will result to the claimant if immediate payment is not made, the board may make an emergency award to the claimant pending a final decision in the case, provided, however, that the amount of such emergency award shall not exceed five hundred dollars, the amount of such emergency award shall be deducted from any final award made to the claimant, and the excess of the amount of such emergency award over the amount of the final award, or the full amount of the emergency award if no final award is made, shall be repaid by the claimant to the board.

Sec. 1009. *NEW SECTION.*

1. No award shall be made unless the board finds that a crime was committed, such crime directly resulted in personal physical injury to, or death of, the victim, and police records show that such crime was promptly reported to the proper authorities; and in no case may an award be made where the police records show that such report was made more than forty-eight hours after the occurrence of such crime unless the board, for good cause shown, finds the delay to have been justified.

2. Any award made pursuant to this Act shall be in an amount not exceeding out-of-pocket expenses, including indebtedness reasonably incurred for medical or other services necessary as a result of the injury upon which the claim is based, together with loss of earnings or support resulting from such injury.

3. Any award made for loss of earnings or support shall, unless reduced pursuant to other provisions of this Act, be in an amount equal to the actual loss sustained, provided, however, that no such award shall exceed one hundred dollars for each week of lost earnings or support, and provided further that the aggregate award for such loss shall not exceed fifteen thousand dollars. If there are two or more persons entitled to an award as a result of the death of a person which is the direct result of a crime, the award shall be apportioned by the board among the claimants.

4. Any award made pursuant to this Act shall be reduced by the amount of any payments received or to be received by the claimant as a result of the

injury from or on behalf of the person who committed the crime, under insurance programs mandated by law, from public funds, under any contract of insurance wherein the claimant is the insured or beneficiary, or as an emergency award pursuant to section one

Page 5

thousand eight (1008) of this Act.

5. In determining the amount of an award, the board shall determine whether, because of his conduct, the victim of such crime contributed to the infliction of his injury, and the board shall reduce the amount of the award or reject the claim altogether, in accordance with such determination; provided, however, that the board may disregard for this purpose the responsibility of the victim for his own injury where the record shows that such responsibility was attributable to efforts by the victim to prevent a crime or an attempted crime from occurring in his presence or to apprehend a person who had committed a crime in his presence or had in fact committed a felony.

6. If the board finds that the claimant will not suffer serious financial hardship, as a result of the loss of earnings or support and the out-of-pocket expenses incurred as a result of the injury, if not granted financial assistance pursuant to this Act to meet such loss of earnings, support or out-of-pocket expenses, the board or board members shall deny an award. In determining such serious financial hardship, the board shall consider all of the financial resources of the claimant. The board shall establish specific standards by rule for determining such serious financial hardship.

Sec. 1010. *NEW SECTION.* The award shall be paid in a lump sum, except that in the case of death or protracted disability the award may provide for periodic payments to compensate for loss of earnings or support. No award made pursuant to this Act shall be subject to execution or attachment other than for expenses resulting from the injury which is the basis for the claim.

Sec. 1011. *NEW SECTION.* Acceptance of an award made pursuant to this Act shall subrogate the state, to the extent of such award, to any right or right of action accruing to the claimant or the victim to recover payments on account of losses resulting from the crime with respect to which the award is made.

Sec. 1012. *NEW SECTION.* The comptroller shall pay to the claimant from funds appropriated by the general assembly for such purposes any initial emergency award granted by the board or a board member within five days after receipt of notice from the board of the emergency award.

Sec. 1013. *NEW SECTION.* The provisions of chapter

twenty-five (25) of the Code shall be applicable unless inconsistent with this division of this Act.

STEVEN C. CROSS, Secretary

SENATE AMENDMENT TO HOUSE FILE 1277

H—6095

Amend House File 1277 as amended and passed by the House by striking everything after the enacting clause and inserting in lieu thereof the following:

"Section 1. Section one hundred twenty-five point two (125.2), Code 1975, is amended by adding the following new subsection:

NEW SUBSECTION. "Residence" means the place where a person resides. For the purpose of determining which Iowa county, if any, is liable pursuant to this chapter for payment of costs attributable to its residents, the following rules shall apply:

a. If a person claims an Iowa homestead, then the person's residence shall be in the county where that homestead is claimed, irrespective of any other factors.

b. If paragraph a does not apply, and the person is provided or has obtained living quarters within this state in a house, apartment, or room other than one owned or operated as a transient facility, including but not limited to a hotel or motel, then the person's residence shall be in the county where those living quarters are located, irrespective of any other factors: However, this paragraph shall not apply to unemancipated persons under eighteen years of age who are wards of this state.

c. If paragraphs a and b do not apply, or, if the person is under eighteen years of age, is unemancipated, and is a ward of this state, then the person shall be unclassified with respect to county of residence, and payment of all costs shall be made by the division as provided in this chapter.

d. An unemancipated person under eighteen years of age who is not a ward of the state shall be deemed to reside where the parent having legal custody, or

the legal guardan, or legal custodian of that person has residence as determined according to this subsection.

e. The provisions of this subsection shall not be used in any case to which section one hundred twenty-five point twenty-six (125.26) of the Code is applicable.

Sec. 2. Section one hundred twenty-five point thirteen (125.13), subsection four (4), Code 1975, is amended by adding the following new unnumbered paragraph:

NEW UNNUMBERED PARAGRAPH. The director may adopt, amend and repeal rules pursuant to chapter seventeen A (17A) of the Code prescribing record-keeping requirements and accounting procedures to be used by facilities. The director shall not approve any

Page 2

facility, and shall not contract with any facility pursuant to section one hundred twenty-five point twenty-seven (125.27) of the Code, unless that facility agrees as a condition of such approval or such contract to comply with rules issued pursuant to this paragraph. However, rules issued pursuant to this paragraph shall not apply to any facility referred to in sections one hundred twenty-five point fourteen (125.14) or one hundred twenty-five point twenty-six (125.26) of the Code.

Sec. 3. Section one hundred twenty-five point twenty-seven (125.27), unnumbered paragraph two (2), Code 1975, is amended to read as follows:

The contract may be in such form and contain provisions as agreed upon by the parties. Such contract shall provide that the facility shall admit and treat alcoholics [whose legal settlement is in counties other than the contracting county] *regardless of where they have residence.* If one payment for care, maintenance, and treatment is not made by the patient or those legally liable therefor within thirty days after discharge the payment shall be made by the division directly to the facility. Payments shall be made each month and shall be based upon the facility's average daily per patient charge. Provisions of this section shall not pertain to patients treated at the mental health institutes.

Sec. 4. Section one hundred twenty-five point twenty-seven (125.27), Code 1975, is amended by adding the following new unnumbered paragraph:

NEW UNNUMBERED PARAGRAPH. Contracting facilities shall deliver to each patient upon discharge a statement of the costs of the care, maintenance and treatment for which that patient is liable, and shall retain a carbon copy or other similar copy of that statement for a period of not less than one year after the date of discharge of the patient to whom the

statement refers. Every payment received by a contracting facility from or on behalf of a patient, whether received before or after costs have been billed to the division or to a county, shall be identified by the facility as to patient and invoice or statement, and shall be reported to the division. A contracting facility shall allow as a credit against a future billing to the division or to a county, payments received during each month from or on behalf of a patient whose care, maintenance and treatment theretofore has been billed to and paid by the division or a county. Failure by a contracting facility to comply with this paragraph, or with rules promulgated

Page 3

pursuant to subsection four (4) of section one hundred twenty-five point thirteen (125.13) of the Code shall constitute grounds for nonrenewal of the contract.

Sec. 5. Section one hundred twenty-five point twenty-eight (125.28), Code 1975, is amended to read as follows:

125.28 COUNTIES TO SHARE COST. Except as provided in section 125.26, [counties] *each county* shall pay for the remaining twenty-five percent of the cost of the care, maintenance, and treatment *under this chapter* of [an alcoholic] *residents of that county* from the county mental health and institutions fund as provided in section 444.12. The commission shall establish guidelines for use by the counties in estimating the amount of expense which the county will incur each year. The facility shall certify to the county of [the alcoholic's legal settlement] *residence* once each month twenty-five percent of the unpaid cost of the care, maintenance, and treatment of an alcoholic. Such county shall pay the cost so certified to the facility from its county mental health and institutions fund. However, the approval of the board of supervisors shall be required before payment is made by a county for costs incurred which exceed a total of five hundred dollars for one year for treatment provided to any one alcoholic or intoxicated person, except that such approval is not required for the cost of treatment provided to an alcoholic or intoxicated person who is committed pursuant to sections 125.18 and 125.19. A facility may, upon approval of the board of supervisors, submit to a county a billing for the aggregate amount of all care, maintenance, and treatment of alcoholics *who are residents of that county* for each month. The board of supervisors may demand an itemization of such billings at any time or may audit the same.

Sec. 6. Section one hundred twenty-five point twenty-nine (125.29), Code 1975, is amended to read as follows:

125.29 [LEGAL SETTLEMENT] *COUNTY OF RESIDENCE*

DETERMINED. The facility shall, when an alcoholic is admitted, or as soon thereafter as it receives the proper information, determine and enter upon its records [whether] the [legal settlement] *Iowa county of residence* of such alcoholic [is in the county where the facility is located, or in some other county, state, or country, or is unknown], *or that the person resides in some other state or country, or that the person is unclassified with respect to residence.*

Sec. 7. Section one hundred twenty-five point thirty (125.30), Code 1975, is amended to read as follows:

125.30 [DISPUTED SETTLEMENT] *DISPUTES OVER PAYMENT.*

In the event any county to which certification of the cost of care, maintenance, and treatment of an alcoholic is made, disputes that such alcoholic has his [legal settlement] *residence* in that county, it shall immediately notify the facility that such dispute exists. The director shall immediately investigate the facts and determine in which county the patient has [legal settlement] *residence.* The director shall certify his determination to the county, *if any,* wherein it is found the patient has [legal settlement] *residence* and to the facility. [The] *A county certified by the director to be the* county of [legal settlement] *residence* shall reimburse the facility as provided in this chapter. If the director finds that the [legal settlement] *residence* of an alcoholic at the time of admission was in another state or county or [was unknown] *that the person is unclassified with respect to residence,* then the division shall pay for that portion of his care, maintenance, and treatment that his county of [legal settlement] *residence* would have been liable to pay. For purposes of this section, a "facility" does not include a mental health institute under the control of the department of social services.

Sec. 8. Section one hundred twenty-five point thirty-one (125.31), Code 1975, is amended to read as follows:

125.31 LEGAL LIABILITY FOR CARE. The alcoholic and any person, firm, corporation, or insurance company bound by contract to provide support, hospitalization, or medical services for the alcoholic shall be legally liable to the county of the alcoholic's [legal settlement] *residence* for twenty-five percent of the total amount and to the division for seventy-five percent of the total amount of the cost of providing care, maintenance, and treatment for the alcoholic while a voluntary or committed patient in a facility, except when the state pays the total cost of care in which case liability of one hundred percent shall be to the state. Nothing in this section shall

prohibit any individual from paying any portion of the cost of treatment.

Sec. 9. Section one hundred twenty-five point thirty-three (125.33), Code 1975, is amended to read as follows:

125.33 COUNTY AUDITOR TO KEEP ACCOUNTS. The auditor of each county shall keep an accurate account of the total cost *to the county* of the care,

Page 5

maintenance, and treatment of any alcoholic and *shall* keep an index of the names of the alcoholics [admitted from such county] *for whose benefit county funds are expended pursuant to section one hundred twenty-five point twenty-eight (125.28) of the Code for those services.*"

IMMEDIATE MESSAGE
(House File 1217)

Dunton of Keokuk asked and received unanimous consent that House File 1217 be immediately messaged to the Senate.

HOUSE CONCURRENT RESOLUTION 123
By Committee on Energy

Whereas, Iowa's needs for electrical energy will continue to increase as the state's economic growth continues and as the supply of primary sources of energy become less reliable; and,

Whereas, the costs of constructing electrical generation facilities have increased dramatically because of both rising capital costs and systems improvements designed to prevent the unreasonable depletion and degradation of our natural resources and to increase systems reliability; and,

Whereas, these increased costs of power plant construction do and will continue to impact significantly on the level of rates charged to consumers of electrical energy; and,

Whereas, although certain limitations have been imposed on the state's authority over the construction, operation and maintenance of nuclear powered generating plants by the federal government, the Iowa state commerce commission does have the authority, pursuant to chapter four hundred ninety A (490A) of the Code, to investigate the prudence of any expenditure by an Iowa utility, including expenditures relating to nuclear plants, to determine what expenditures should be allowed to be recovered through the utility's rate structure; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the Iowa state commerce commission is commended for its policy of investigating prior to actual construction certain capital expenditures proposed by a utility to insure the feasibility and economic validity of the project and to determine whether subsequent capital costs may be recovered through a reasonable rate schedule.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 124

By O'Halloran, Hullinger and Doyle

Whereas, the regulation of hazardous materials includes regulating the transportation, use, storage and disposal of materials which may pose an unreasonable risk to health, safety and property; and

Whereas, Iowa is one of only a few states which has not developed a comprehensive program for regulating hazardous materials; and

Whereas, a 1975 joint interim subcommittee on energy facilities and hazardous substances devoted most of its time to considering legislation requiring state certification for the siting of electric generating facilities and therefore did not have the opportunity to thoroughly discuss testimony and recommendations received concerning the limits of federal responsibilities and capabilities in hazardous material regulation and the possibilities for a more active state role particularly in the areas of transportion inspections and supervision, marking requirements for hazardous shipments and emergency response preparedness; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council is requested to authorize the appointment of a joint interim subcommittee consisting of members of the standing committees on energy to conduct a study of the regulation of hazardous materials which shall include:

1. An analysis of the problems faced by state agencies, political subdivisions and private industry

in dealing with hazardous materials and of efforts designed to meet such problems, including safety and emergency response educational programs.

2. An analysis of proposals to enhance the efficacy and uniformity of present hazardous material regulations.

3. An investigation of the status of rules to be promulgated by the department of environmental quality pursuant to chapter four hundred fifty-five B (455B) of the Code regarding the transportation, use and disposal of radioactive materials.

4. A study of the need to expand the state's role in the regulation of hazardous materials within limits established by the federal government;

Be It Further Resolved, That the joint subcommittee shall submit a report of its findings and recommendations to the Legislative Council, the standing committees on energy and the members of the Sixty-seventh General Assembly meeting in the year 1977.

Laid over under Rule 25.

1. As soon as practicable after the effective date of this division, the state comptroller shall give notice of the requirements of this division and distribute such forms as required to the governing bodies of the political subdivisions of this state.

2. The state comptroller shall review the certified total budget of each political subdivision and calculate the dollar amount and percentage increase of the property tax budget for the fiscal years beginning July 1, 1976, July 1, 1977 and July 1, 1978 over the property tax budget for the base year.

The state appeal

321.40 APPLICATION FOR RENEWAL—*RENEWAL REFUSED.*

1. Application for renewal of a vehicle registration shall be made on or after December 1 of the year for which it is registered by the owner upon proper application and by payment of the registration fee for such vehicle, as provided by law.

2. Registration receipts issued for renewals shall have the word "renewal" imprinted thereon and, if the owner making a renewal application has been issued a certificate of title, the title number shall appear on the registration receipt. All registration receipts for renewals shall be typewritten or printed by other mechanical means. The applicant shall receive a registration receipt.

3. Not more than thirty days nor less than twenty days prior to December first the county treasurer shall cause to be published in a newspaper of general circulation in the county, a notice to vehicle owners. The notice shall contain a list of pertinent information which is required to register a vehicle. The notice shall also include a statement that application for renewal of a vehicle registration shall be made on or after December first of the year for which it is registered and that such renewal may be made by mail on or after November first. The county treasurer may deliver registration plates and other registration documents on which application for renewal has been made in November, to the owner thereof, after the last day of November.

4. The county treasurer shall refuse to renew a motor vehicle registration if all of the following circumstances exist:

a. The board of supervisors of the county in which application for renewal of registration is being made

has adopted a resolution stating that in such county a lack of response of the citizens of the county to citations for violations of motor vehicle laws and ordinances has become a significant problem and directing the implementation of the provisions of subsections four (4) through nine (9) of this section; and

Page 2

b. A warrant is outstanding for the arrest of the owner of such motor vehicle or a delinquent citation or notice of violation is outstanding against such owner for an alleged violation of an ordinance enacted pursuant to section three hundred twenty-one point two hundred thirty-six (321.236) of the Code, which violation allegedly occurred within the county in which the application for renewal is being made.

The resolution adopted under paragraph a of this subsection may be rescinded by another resolution of the board of supervisors finding that the problem has significantly abated and directing termination of the provisions of subsections four (4) through nine (9) of this section. Upon adoption of a resolution to implement or rescind the implementation of the provisions of subsections four (4) through nine (9) of this section, the county auditor shall notify the clerk of the district court of such action and the effective date of such implementation or rescission.

5. After the effective date of a resolution adopted under paragraph a of subsection four (4) of this section, the clerk of the district court shall give written notice by mail to each person against whom a warrant or delinquent citation or notice of violation is outstanding for the alleged violation of an ordinance adopted pursuant to section three hundred twenty-one point two hundred thirty-six (321.236) of the Code. The notice shall state that the registration of any motor vehicle owned by such person in that county will not be renewed until all outstanding warrants have been recalled and there are no delinquent citations or notices of violation outstanding against such person. The clerk of the district court shall also submit, on or before the fifth day of each month, to the county treasurer an alphabetized list of the names of all persons, including their respective addresses, against whom a warrant has been issued or a delinquent citation or notice of violation is outstanding. The clerk of the district court shall not include on such list the name of any person unless notice as required by this subsection is mailed to such person before the fifteenth day of the preceding month.

6. Upon application by a person or agent of a person whose name is on the list prepared under

subsection five (5) of this section, the clerk of the district court shall issue a receipt to the person or agent of such person if all warrants or delinquent citations or notices of violations specified under

Page 3

paragraph b of subsection four (4) of this section have been recalled or are no longer outstanding. The receipt shall state that all outstanding warrants have been recalled and that there are no outstanding delinquent citations or notices of violation against the named person. Upon presentation of such receipt, the county treasurer need no longer refuse renewal of a registration because of an outstanding warrant or delinquent citation or notice of violation as specified in subsection four (4) of this section.

7. For each person whose name is listed as provided in subsection five (5) of this section, the local authority alleging violation of an ordinance enacted pursuant to section three hundred twenty-one point two hundred thirty-six (321.236) of the Code, shall pay to the county treasurer the sum of two dollars, which sum shall be credited to the general fund of the county. In addition to any other court cost provided by law, the district court shall assess, at the request of the local authority, the sum of two dollars against any person whose name has been placed on the list prepared as provided in subsection five (5) of this section and who is convicted of a violation of an ordinance enacted pursuant to section three hundred twenty-one point two hundred thirty-six (321.236) of the Code if such violation was the basis for placing such person's name on the list. The clerk of the district court shall collect the two dollar assessment and remit it to the local authority.

8. For the purposes of this section, a citation or notice of violation of an ordinance adopted pursuant to section three hundred twenty-one point two hundred thirty-six (321.236) of the Code shall be deemed delinquent if it is not paid or adjudicated by the district court within fourteen days after the date of court appearance.

9. The implementation and enforcement of the provisions of subsections four (4) through nine (9) of this section shall not be a defense to the imposition of any penalties provided for in this chapter."

HOUSE CONCURRENT RESOLUTION 125

By Committee on Appropriations

Whereas, there is general agreement that the overall capacity of Iowa's correctional system is currently inadequate, and will remain so for some years to come; and

Whereas, the Department of Social Services has recommended that a new prison facility be constructed, and it appears that there is some support for this recommendation from other quarters; and

Whereas, other parties, including many members of the General Assembly, believe that the current problems can be overcome through more extensive and effective use of the community-based corrections concept; and

Whereas, any effective, long-term answer to this problem must be one which is credible to and can be supported by members of both political parties and by persons in the legislative and executive branches of state government as well as by other concerned Iowans; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That there be established to function during the 1976 legislative interim a task force on penal facilities, which shall proceed in accordance with this resolution and shall submit a report and recommendations to the Sixty-seventh General Assembly not later than January 10, 1977. The task force shall also make such interim progress reports to the Legislative Council as the Council may request.

1. The task force shall consist of the members of the joint appropriations subcommittee on human resources, two other members of the senate designated

by the majority leader, two other members of the

house of representatives designated by the speaker of the house, and five citizens of the state appointed by the governor.

2. The task force in discharging its duties under this resolution shall consider and shall respond in its report to the following questions:

a. Is a new prison facility necessary to house those persons whom the courts have sentenced to incarceration and who, it is anticipated, will be so sentenced in the next several years, or can some alternative kind of restrictive living arrangement adequately meet this need without committing the state to a large outlay for a major new institution?

b. If a new prison is necessary, where should it be located?

c. How may plans to meet the need for increased capacity to house persons sentenced to incarceration, however this need may be met, best be meshed with the need to plan for replacement of existing prison facilities, particularly the penitentiary at Fort Madison?

3. The task force may hold no more than four meetings during the 1976 legislative interim, unless the legislative council authorizes additional meetings.

Laid over under Rule 25.

1. Prior to the adoption, amendment, or [repeal] *rescission* of any rule an agency shall:

a. Give notice of its intended action by [causing a notice] *submitting two copies of the notice to the Code editor* to be published in the "Iowa Administrative Code" *created pursuant to section seventeen A point six (17A.6) of the Code.* Any notice of intended action shall be published at least thirty-five days in advance of the action. The notice shall include a statement of either the terms or substance of the intended action or a description of the subjects and issues involved, and the time when, the place where,

and the manner in which interested persons may present their views thereon.

b. Afford all interested persons [reasonable opportunity] *not less than twenty days* to submit data, views or arguments in writing. If the agency determines that such an estimate cannot be formulated, the reasons for impossibility of formulation shall be published instead of the estimate. An estimate shall be published at least fifteen days in advance of the action.

2. When an agency for good cause finds that notice and public participation would be impracticable, unnecessary, or contrary to the public interest, the provisions of subsection 1 shall be inapplicable *if:*

b. Two-thirds of the members of the administrative rules review committee approve the inapplicability of subsection one (1) of this section.
The agency shall incorporate in each rule issued in reliance upon this provision either the finding and a brief statement of the reasons therefor, or a statement that the rule is within a very narrowly tailored category of rules whose issuance has previously been exempted from subsection 1 by a special rule relying on this provision and including such a finding and statement of reasons for the entire category. In any action contesting a rule adopted pursuant to this subsection, the burden of proof shall

Upon the vote of two-thirds of its members, the administrative rules review committee may prohibit the adoption, amendment, or rescission of a rule for which a notice of intended action has been published. b. Any rule prohibited under paragraph a of this subsection and the notice of intended action to which it was related shall be forwarded to the speaker of the house and the president of the senate. The speaker and the president shall refer this rule and notice to the appropriate standing committee. A standing committee may recommend that the prohibition be overcome by joint resolution or the rule implemented as law.

c. The governor may, by executive order, rescind a rule within ninety days of its effective date. Notice of rescission shall be published in the next supplement of the Iowa administrative code.

Sec. ..... Section seventeen A point five (17A.5), Code 1975, is amended to read as follows:

Two*

b. Subject to applicable constitutional or statutory provisions, a rule becomes effective immediately upon filing with the secretary of state, or at a subsequent stated date prior to indexing and publication, or at a stated date less than thirty-five days after filing, indexing and publication, if *the rule provides, by its own terms, that it is not effective for a specified time of more than one hundred eighty days, if the rule has been approved by two-thirds of the members of the administrative rules review committee, and if* the agency finds:

(1) That a statute so provides;

(2) That the rule confers a benefit or removes a restriction on the public or some segment thereof; or

(3) That this effective date is necessary because of imminent peril to the public health, safety or welfare. In any subsequent action contesting the effective date of a rule promulgated under this paragraph, the burden of proof shall be on the agency to justify its finding. The agency's finding and a brief statement of the reasons therefor shall be filed with and made a part of the rule. Prior to indexing and publication, the agency shall make reasonable efforts to make known to the persons who may be affected by it a rule made effective under the terms of this paragraph.

1. The Code editor shall cause to be compiled, indexed and published in loose leaf form all rules adopted by each agency and notice of all proposed rule-making by each agency. The Code editor further shall cause to be distributed supplements to this publication at least [every other week] *once monthly,* which supplements shall contain, in such a form that they may be filed in the appropriate places in the compilation, all rules and notice of proposed rules filed for publication in the prior [two weeks] *month.* The Code editor shall devise a uniform numbering

system for rules and may renumber rules before publication to conform with the system.

3. This publication, which shall be known as the "Iowa Administrative Code", shall be made available upon request to all persons who subscribe [thereto] *to it through the state printing division.*

Sec. ..... Section seventeen A point seven (17A.7), Code 1975, is amended to read as follows:

Page 5

17A.7 PETITION FOR ADOPTION OF RULES. An interested person may petition an agency requesting the promulgation, amendment or [repeal] *rescission* of a rule. Each agency shall prescribe by rule the form for petitions and the procedure for their submission, consideration and disposition. Within sixty days after submission of a petition, the agency either shall deny the petition in writing on the merits, stating its reasons for the denial, or initiate rule-making proceedings in accordance with section 17A.4, or issue a rule if it is not required to be issued according to the procedures of section 17A.4, subsection 1.

Sec. ..... Section seventeen A point eight (17A.8), subsections one (1), four (4), and eight (8), Code 1975, are amended to read as follows:

Murray, Mrs. Evelyn Birkby, Dick Ranney, Herman Schweiker, Lyle Bruere, Dave Palmer, Carl Hamilton, Max Hawkins, Edward Voldseth, Peter T. Harstad, Bob Stone, Del Van Horn, Kenneth Fulk, Don Kersten, Bob Dillon, Melvin Synhorst, Representatives Lillian McElroy and Richard Byerly and Senators Norman Rodgers, Forrest Schwengels and Joseph Coleman.

President Neu introduced Governor Robert D. Ray, who offered the following remarks in presenting John W. Warner, Administrator of the American Revolution Bicentennial Administration:

Thank you very much. Mr. President, Mr. Speaker, Mr. Chief Justice, Members of the Senate and House of Representatives, Members of the Supreme Court, Fellow Elected Officials, and Ladies and Gentlemen:

The last time that I spoke before a joint session such as this was when I delivered the state of the state message on January 13—I know it seems like 200 years ago.

Today we have a very special occasion for which we gather and for which we have a very distinguished person to deliver some very timely remarks to all of us.

One other thing that is going to happen today is that we are going to send off some covered wagons that will go all the way to Valley Forge, Pennsylvania, and will arrive there just before July 4. I want you to know that I have inspected them and not one of them is sixty-five feet in length and not one of them is double bottom.

These covered wagons are replicas of covered wagons that carried our country's pioneer settlers across our state to the west in the very early years of America's history.

Abraham Lincoln once said "I am in favor of cutting up the wild lands into parcels so that every poor man can have a home." Even then they had property taxes. Those settlers found new homes—they didn't, however, find conveniences. They found little else except, as they looked ahead, a future of uncertainty. But there was an exception—they found

a form of government that gave them hope, gave them freedom and gave them opportunity to succeed. That is a form of government that has its roots in the Declaration of Independence, that document that was signed 200 years ago July 4, 1776. I think what is really significant about that document is that in it it says "that to secure the rights of life, liberty and pursuit of happiness, those who govern derive their powers from the consent of the governed." I think it is significant for each and every one of us elected to public office to never forget that and this is the best time for us to revive our memories about what that really means.

Many of you, if you have not already, will be asked to sign scrolls. The Executive Council members and I signed a scroll yesterday that dedicated ourselves to the precepts and the principles of the Declaration of Independence. Those scrolls will be carried along with thousands of others in these covered wagons to Valley Forge, Pennsylvania. This is just one indication that the bicentennial year is going to be a significant year so that when it is all over, we will not look back and say merely that it was a time for festivals and parades and a lot of hoopla, but instead we can look back and say, "Yes, it did have meaning."

Thanks to the leadership of Bob Dillon, Murray Goodman and the Iowa Bicentennial Commission, our citizens have joined together and will take part in over 2300 bicentennial activities. That is more than any other state. Five hundred fifty-six Iowa communities have officially been recognized. That is the second largest number—second only to Pennsylvania—in the entire country. So, I think our Iowa Bicentennial Commission deserves a lot of credit, a lot of recognition for a job that they have done very, very well and I compliment you, Bob Dillon, for the job you have done in leading these bicentennial efforts.

Another person that has led the efforts clear across the country is the Administrator of the American Revolution Bicentennial Administration, Mr. John W. Warner. Mr. Warner has been an Assistant United States Attorney, Under Secretary of the Navy, Secretary of the Navy, a member of the presidential party at the Moscow meeting and the recipient of the distinguished medal award issued by the Department of Defense. Mr. Warner was appointed to his present position in March of 1974 and has spearheaded the bicentennial heritage, festivals and horizon programs with an emphasis on local involvement and local direction in the efforts of all of these programs. Under John Warner's leadership the bicentennial will be a very meaningful and memorable experience for literally millions of Americans.

It is my pleasure to introduce to you the Administrator of the American Bicentennial Administration, the Honorable John Warner.

Mr. Warner delivered the following address:

Thank you, Governor Ray. President Neu, Speaker Cochran, Mr. Chief Justice, Members of the Senate and House of Representatives, Members of the Supreme Court, Members of the fine Bicentennial Commission of this Great State, and Ladies and Gentlemen:

As I walked down the aisle a lady looked at this and said, "Oh, gracious, is that his speech?" No, it is not. I brought this from Washington with me—part of my responsibility under the law is to compile a record for the National Archives for future generations to look back and examine what

was done during our nation's bicentennial, and this is what I call the interim copy of the National Record of the nation's bicentennial.

As of today, there are over 50,000 programs and events now cataloged for the bicentennial and it is growing at the rate of several thousand each month. I brought this rather weighty volume—perhaps a portion of four telephone directories—because in it Iowa stands number one. Congratulations.

It is surprising to think the nation's bicentennial is being celebrated back where all the revolutionary history took place in the original thirteen colonies, but I split it using the Mississippi River, divided east and west, and there is just as much activity west of the Mississippi as there is east of the Mississippi. You may ask, why is that? There is a very simple reason, for me at least to answer because I have had the privilege in the past two years of traveling across these United States, having now completed visits to some 47 states. Most recently a swing through the Pacific to visit Honolulu, Hawaii, Samoa and Guam, where again there is just as much bicentennial activity as to be found in Baltimore, Boston or Philadelphia, or the nation's capital.

The reason is America is honoring its past, honoring its present and looking toward the future. Of course I don't have time to go into this volume but you will find a range of programs which covers all possible imaginations and initiatives that our citizens can put together. And again, put together by and large with their own funds.

When the Congress of the United States rewrote the law for the bicentennial two years ago, and I had the privilege of being appointed the first and I suppose the only administrator of this small agency, the people said we want the bicentennial to be celebrated equally in every town, village, Indian reservation, cities large and small in America, and that is precisely what is taking place.

On the cover of this volume is the national symbol of the bicentennial—the two stars, the white star and the red, white and blue star. It is the national symbol representing 200 years of our country. That is now flying from your state capitol as it is from every other state capitol in the United States and over 11,000 communities proudly fly that flag. But in Iowa every single county is organized for the nation's bicentennial.

I was walking up with your state chairman, Mr. Dillon, and he was telling me the tremendous support he has received from the Governor, the Legislature, and most particularly from his commission. He said remember the adage, "Give me ten stout hearted men, I'll give you 10,000 more." Well we have them—we don't have 10,000—there are over 100,000 people in the state of Iowa actively involved in the nation's bicentennial. You are not merely having what you might call just parades, fireworks, rhetoric—all of those things will take place and should take place—no, your state program is laying down permanent cornerstones again for the future generations to look back and say that the citizens of this state and the citizens of the community cared enough about their nation to put down a cornerstone. What comes to mind, of course, is the world food conference, that will be internationally recognized, solving hopefully some of the problems and laying down the cornerstones for the solution of some of the most needed problems for the future.

Again, the fifth grade history project where you are not just teaching any history, the emphasis is totally upon the history of Iowa.

Then, of course, I being a farmer at heart—and as soon as the bicentennial is over I hope to return to my farm—the Living History Farm, which I have visited, is another program which is more than just speech making, parades; it shows that this state has come together to put down some permanent reminders of the nation's bicentennial.

Additionally, we have another interesting chapter. Last night I was privileged in Washington, D. C. to join the vice president to honor the King of Sweden who has come over on the occasion of our bicentennial. There are over seventy foreign nations who are now actively participating in the bicentennial. Their gifts range all the way from small ones such as stamp collections and medals to the giving of permanent scholarships at our universities, and the bringing of cultural events such as opera and ballet. Then, Great Britain, not surprisingly, is sending over on loan for one year that document, Mr. Chief Justice, which you know so well and which lays the foundation for all western law—the exact document to which King John affixed his seal in the year 1215—the Magna Carta. It will be brought to the United States in May of this year for a period of twelve months and placed in the rotunda of the capitol building in Washington, D. C. Just another example of the tremendous enthusiasm to be found not only in our United States but all over the world for the bicentennial.

The bicentennial is not without controversy, nor should it be, after all we are celebrating a revolution. Many times I have been asked, because it falls in a political year, will it be used by politicians for their benefit? I have been privileged the past two years to appear on a number of occasions with our President, who totally supports and participates in the bicentennial, as well as Senators, Congressmen, Governors, state legislators, councilmen and mayors all over this nation and I have yet to see one single individual try to use the bicentennial for his or her personal benefit.

Then the question of commercialism—will this bicentennial go down as one gigantic "ripoff." My answer clearly is no. What better example could I use than this state bicentennial commission, which has not indulged in manufacturing knickknacks to be sold. They sold one item— the same item that the Congress of the United States directed me to prepare and sell to the people—a medallion—and from it they have gained proceeds which have helped finance a part of the bicentennial program in this state. As a matter of fact, Chairman Dillon has explained to me that the bicentennial Commission has granted approximately $500,000 and together with the help of the private sector and the citizens of this state that sum has been multiplied ten-fold into the millions of dollars to pay for your bicentennial. It is truly representative of a grass roots effort and this state, in my judgment, is the model state of the nation's bicentennial. As a matter of fact, since we are all attuned to politics, I remember so well the adage back east, "As goes Maine in the presidential election, so goes the nation." Well the confidence I have in your bicentennial program I am willing to predict, "As goes the success of the bicentennial program in Iowa, so goes the success of the entire nation's bicentennial program."

I would like to close with a short personal story. Again, I have been privileged to address many state legislatures but I can't remember ever walking into a capitol building and being more struck with emotion than I was about an hour ago upon entering the lower lobby and coming up to the Governor's office. For there were two things that are very dear to my heart. Having joined the navy at seventeen and having risen to being

its boss at the age of forty-two, only in America could that sort of story take place. I saw the old battleship Iowa, 61. I was aboard that ship briefly, during the Korean war, as a young marine officer. Then passing on I saw the tattered flags of the regiments and states.

So, you might expect an old sailor to tell one sea story here in mid-America. And this is a true story that comes from the history of my state, Virginia. Let's go back to the turn of the century, and the United States, being a great naval power, then as it is now, invited from all over the world the finest ships and each head of state was to come with their ship. Picture yourself seated on the balcony of the U. S. battleship—I don't remember the name, perhaps it was the Iowa. Behind each head of state, seated in a neat row, was posted a United States sailor. The sailor's function was to lean down very respectfully as each of the foreign ships passed in review and give the history of the ship and most particularly describe the flag. As they came by, one by one, the sailor would lean down and say, "That, sir, is the ship which flies the flag of the Queen of England. She has the following guns, etc." One by one, the ships came by. "That, sir, is the ship which flies the flag of the Czar of Russia. That ship flies the flag of the Emperor of Japan." And so on. Finally, over the horizon, came the last ship flying Old Glory. The sailor leaned down and said, "That, sir, is the United States ship, the length is such and such, etc." This particular monarch leaned back and said, "Lad, which monarch's flag does that ship fly?" The sailor replied, "No monarch's, sir, that ship flies my flag."

Thank you very much.

GOVERNOR'S VETO MESSAGE
(Senate File 1125)

A copy of the following communication was received and placed on file:

April 7, 1976

The Honorable Arthur A. Neu
Lieutenant Governor and President of the Senate
Sixty-sixth General Assembly
State Capitol Building
Local

Dear Governor Neu:

I am returning herewith Senate File 1125, an Act repealing the statutory appropriation for the state employees' disability plan, disappoved and without my signature to the Senate in accordance with Article III, Section 16, of the Constitution of the State of Iowa.

Senate File 1125 would repeal the standing unlimited appropriation for

the recently initiated state employees' disability insurance plan. Begun in January, 1975, the disability insurance program provides benefits to those state employees who are disabled for an extended period of time. If signed into law, Senate File 1125 would cause the disability insurance program to be financed from departmental budgets rather than the standing unlimited appropriation provided for in 79.21-22 of the Code.

—

The genesis for Senate File 1125 was a mutual desire by the legislative and executive branches to reflect in a departmental appropriation the full cost of operating that department. To that purpose, it was recommended to the General Assembly that the existing standing unlimited appropriation for the disability insurance program be repealed and that replacement funds be appropriated directly to the departments to cover the costs of the disability insurance.

While the General Assembly has promptly passed the repeal of the standing unlimited appropriation, they have unfortunately not provided the replacement funds to the agencies in most cases. I have already signed into law several departmental appropriations, such as Energy Policy, Medical Examiners, Citizen's Aide, and Environmental Quality, where only a flat two percent increase or no increase has been granted for departmental operations. Other agencies such as the Commerce Commission, the Department of Public Defense, and Soil Conservation have experienced similar treatment with their appropriations. If this trend were to continue, we may be forced to discontinue the disability insurance program altogether or force agencies to retrench elsewhere to make up these replacement costs.

The General Assembly leadership has been asked what their intentions are in this area. They have informed my office that they do not intend to provide replacement funds for the disability insurance program. They suggest instead that the agencies can finance the program by squeezing funds from their regular budgets.

The state employees' disability insurance program is too important to be dropped or slighted. If Senate File 1125 is not vetoed, we may be forced to cancel this valuable fringe benefit for employees or retrench in other areas to make up the difference. Since I have received no assurance from the legislative leadership that the costs of the disability insurance program will be adequately financed, I have decided to veto Senate File 1125.

I have directed the Comptroller's Office to assist the Executive Council in administering the standing unlimited appropriation for the disability insurance program in as prudent and frugal manner as possible. If a department is appropriated sufficient funds to cover the disability insurance costs, we will not use funds from the standing unlimited appropriation.

It should be noted that this retention of the standing unlimited appropriation does not increase my budget recommendations to you. Since my budget included the disability insurance costs, this action merely insures the departments will have sufficient funds to cover the costs of the disability insurance program. There will be no expenditure for disability insurance beyond what I recommended.

For the reasons I have outlined above, I hereby respectfully disapprove of this Senate File 1125.

Sincerely,
ROBERT D. RAY
Governor

1. Any person owning land to which this section is applicable may present to the board of supervisors **or board of trustees in control of the district a** petition alleging that:

a. The land or a particular portion of it, which shall be specifically and intelligibly described in the petition, is receiving no material benefit from the district and should therefore be severed from it because:

No participant in the private hearing shall be liable for any damage to any person if any statement is determined to be erroneous as long as the statement was made in good faith at the hearing.

6. Upon the conclusion of the hearing, the hearing officer, within fifteen days, shall make **a recommended decision as to whether or not the** teacher should be dismissed, and shall give a copy of the recommended decision to the teacher and the school board. The recommended decision of the hearing officer shall become the final decision of the board unless within ten days after the filing of such decision, the teacher files a written notice of appeal with the secretary of the board, or the board on its own motion, determines to review the decision. Board action to review the hearing officer's recommended decision shall be by majority roll call vote, entered in the minutes of the meeting. The board shall immediately notify the teacher of its action by certified mail.

7. If the teacher appeals to the board, or if the board determines on its own motion to review the recommended decision of the hearing officer a private hearing shall be held before the board within five days after the petition for review, or motion for review, has been made. The secretary of the board shall give the teacher written notice of the time, place, and date of hearing. The board may be represented

by its legal counsel, if any, the superintendent and the superintendent's representative. The teacher shall appear and may be represented by counsel and the teacher's representative, if any. roll call vote, entered in the minutes of the board.

The secretary of the board shall mail notice of the board's action to the teacher by certified mail, which shall be mailed immediately.

8. A teacher within thirty days after notification by the board of discontinuance of the contract may appeal to the district court of the county in which the administrative office of the school district is located.

The court may affirm the board's action. The court shall reverse, modify, or grant any other appropriate relief from the board action, equitable or legal, and including declaratory relief, if rights of the teacher have been prejudiced because the board action is:

d. Made upon unlawful procedure.
e. Affected by other error of law.

279.13 CONTRACTS WITH TEACHERS—AUTOMATIC CONTINUATION—TERMINATION PROCEDURE.

1. a. Contracts with teachers, which for the purpose of this section means all certificated employees of a school district and nurses employed by the board, excluding superintendents, assistant superintendents, principals and assistance principals, shall be in writing and shall state the number of contract days, the annual compensation to be paid, and any other matters as may be mutually agreed upon, including but not limited to educational leaves and reimbursement for tuition paid by the teacher for courses approved by the board of directors, and which may include employment for a term not exceeding the ensuing school year, except as otherwise authorized.

b. For the purpose of this section "educational leave" means a leave granted to an employee for the purpose of study including study in areas outside

of a teacher's area of specialization, travel, or other reasons deemed by the board to be of value to the school system.

c. A contract is invalid if the teacher is under contract with another board of directors to teach during the same time period, until a release from the other contract is achieved. The contract shall be signed by the president of the board when tendered. After it is signed by the teacher, the contract shall be filed with the secretary of the board before the teacher enters into performance under the contract.

2. If the teacher has been employed at least three consecutive years as a teacher in the same school district, the contract shall remain in force and effect for the period stated in the contract and shall be automatically continued for equivalent periods, except as modified or terminated by mutual agreement of the board of directors and the teacher or as terminated in accordance with the provisions specified in this chapter. A contract shall not be offered

Page 2

by the employing board to a teacher under its jurisdiction prior to March first of any year. A teacher who has not accepted a contract for the ensuing school year tendered by the employing board may **resign effective at the end of the current school year by filing a written resignation with the secretary of the board. The resignation must be filed not later than the last day of the current school year or the date specified by the employing board for return of the contract, whichever date occurs first. However, a teacher shall not be required to return a contract to the board less than twenty-one days after the contract has been offered.**

3. a. **The board may adopt a resolution finding just cause for terminating the contract with the teacher. If this resolution is adopted, the board shall cause the teacher to be notified in writing of it within five days of its adoption. This notice shall be served by receipted personal service or by certified mail. If served by certified mail, the act of mailing shall constitute completion of service. In any event, this notice shall not be served later than March fifteenth and shall state the specific reasons for considering the contract termination. These reasons shall be any just cause affecting performance of duties which may include incompetency, persistent or substantial neglect of duty, physical or mental disability or sickness which interferes with performance of duty as shown by competent medical evidence and following one year's leave of absence, or factors which require an adjustment, realignment, or reduction of the staff.**

b. **Before adoption of a resolution finding just**

cause for termination is voted upon pursuant to paragraph a of this subsection, a member of the school administrative staff shall, at least thirty days prior to this vote, provide the teacher with a written statement of specific alleged deficiencies constituting grounds for termination.

c. At any time during proceedings under this section, the teacher's complete personnel file shall be made available to the teacher. This file shall contain a record of all periodic reviews between the teacher and appropriate supervisors.

4. a. Within ten days of service of notice under subsection three (3) of this section, the teacher may make written request to the secretary of the board that notification be forwarded to the public employment relations board requesting appointment of a fact finder. This fact finder shall convene a fact finding

hearing between ten and twenty days after the date the teacher makes written request to the secretary. The fact finder shall also cause reasonable written notice of the date, time, and location of the hearing to be given to the parties.

b. The fact finding hearing shall:

(1) Be reported by a person qualified to report proceedings before the courts of this state;

(2) Not be subject to chapter twenty-eight A (28A) of the Code;

(3) Not be limited to technical rules of evidence which preclude the introduction of evidence;

(4) Be subject to the rules governing the conduct and compensation of witnesses in civil cases, unless the context clearly dictates otherwise; and

(5) Be limited in scope to the specific reasons stated in the written notice served under paragraph a of subsection three (3) of this section.

c. The fact finding hearing may be attended as a matter of right by:

(1) Members of the board or their legal representatives, if any;

(2) The superintendent or the superintendent's representative; and

(3) The teacher and teacher's representatives, if any, but not to exceed five such representatives.

d. The fact finder may issue subpeonas in personam and subpoenas duces tecum upon the request of and showing by any party that the witnesses or material to be subject to the subpoena are material to the presentation of the applicant's case. At least three days prior to the hearing, each party shall notify the other parties of all witnesses and materials that will be presented at the hearing.

e. The costs of the hearing, except attorney fees, shall be paid by the board.

f. A complete transcript of the hearing shall be prepared. A copy of it shall be given to the teacher. The fact finder shall cause the hearing record to be certified to the board within twenty days of completion of the hearing.

g. Within ten days of receipt of the certified record, the board shall meet to determine whether to continue or terminate the teacher's contract. At the option of the teacher, this meeting shall be subject to chapter twenty-eight A (28A) of the Code. If the board determines to terminate the teacher's contract, it shall specify the specific grounds of just cause upon which the determination is based.

Page 4

h. The transcript and material presented shall be subject to chapter sixty-eight A (68A) of the Code only if there is an appeal.

5. a. A teacher may appeal the board's determination to terminate to the district court for the county in which the school district's principal offices are located. This appeal shall be filed within twenty days of service of the board's determination upon the teacher. The rules of civil procedure shall govern this appeal, except the court's review shall be on the certified transcript of the fact finding hearing.

b. The board's determination may be modified, reversed, or set aside if the court determines that:

(1) The board acted without or in excess of its authority; or

(2) The determination is not supported by a preponderance of the competent evidence in the record considered as a whole; or

(3) The determination was procured by fraud or is contrary to law.

c. If the court modifies, reverses, or sets aside the board's determination, it may also reinstate the teacher and award back pay. The court may assess costs of appeal and attorney fees.

6. a. The first three consecutive years of employment of a teacher in the same school district are a probationary period. However, a board of directors may waive the probationary period for any teacher who previously has served a probationary period in another school district. If the board is considering termination of a probationary teacher's contract, the board shall, at least thirty days prior to the vote on termination, notify the probationary teacher in writing of specific alleged deficiencies constituting grounds for termination. If the **deficiencies are not corrected to the board's satisfaction, the contract of a probationary status teacher may be terminated at the end of the contract**

period upon written notice to that effect prior to April first of any year. The written notice shall state the reasons for termination.

b. Following receipt of the written notice, the probationary teacher may request a private conference with the board. Within five days following receipt of the written notice that the board has voted to consider termination of a contract, the teacher may request in writing to the secretary of the board a private conference with the board. The private conference shall not be subject to chapter twenty-

Page 5

eight A (28A) of the Code and shall be held between ten days and twenty days following the receipt of the request. The secretary of the board shall notify the teacher in writing of the date, time, and location of the private conference. The conference shall be attended by members of the board and their legal representatives if any, the superintendent or the superintendent's representative, the teacher and the teacher's representatives, if any, not to exceed five representatives, and the teacher's immediate supervisor and the supervisor's representatives, if any. The discussion at the conference shall be limited to the specific reasons stated in the notice to consider termination. Any material removed from the teacher's personnel file or other material to be introduced at the conference shall be provided the teacher not less than five days preceding the conference. A participant in the conference shall not be liable for any damages to any person if any statement at the conference is determined to be erroneous if the statement was made in good faith.

c. Within three days following the private conference, the superintendent shall make a written recommendation to the board. The board, at its next meeting, shall by roll call vote decide the retention or termination of the probationary teacher. The board's decision shall be final and binding, unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the teacher or an alleged violation of public employee rights of the teacher under section twenty point ten (20.10) of the Code.

Sec. ..... Section two hundred seventy-nine point twenty-four (279.24), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

279.24 DISCHARGE OF TEACHER.

1. The board may, by a majority vote, discharge any teacher for any just cause which may include incompetency, persistent or substantial neglect of duty. Prior to the discharge, the board shall conduct, at a meeting of the board held for that purpose, a

complete and impartial investigation of the specific reasons for the proposed action. The teacher shall receive three days written notice of the time and place of such meeting, a specification of the alleged causes for discharge, and a list of the witnesses proposed to be called by the board, together with a brief summary of their expected testimony. The teacher and the teacher's representatives, if any,

Page 6

not to exceed five shall be allowed to be present at the meeting, to call and cross-examine witnesses, and to otherwise make a defense. A record of the meeting shall be made and kept. Following the board decision to discharge the teacher, the teacher shall be notified promptly in writing, stating the specific reasons for the action.

2. Within twenty days following receipt of the decision of the board, the teacher may appeal the decision following the procedure stated in section two hundred seventy-nine point thirteen (279.13) of the Code. However, the superintendent may suspend a teacher for any of the reasons listed in this section and recommend that the board discharge the teacher. The superintendent shall immediately notify the board of the suspension. The board shall meet within seven days of receipt of the notice to consider discharging the teacher and shall conduct a complete and impartial investigation of the specific reasons for the recommended discharge in the same manner as if the teacher had not been suspended. The teacher shall be notified by personal service of the time and place of the meeting immediately after the meeting time and place have been set. If the board votes not to discharge the teacher, the teacher shall be reinstated and the board shall award back pay for the period during which the teacher was suspended.

Sec. ..... Section twenty point six (20.6), Code 1975, is amended by adding the following new subsection:

However, an interlocutory adoption decree may be vacated sooner than the date specified in it by the court for good cause shown. Also, the court may provide in the interlocutory adoption decree for further observation, investigation, and report of the conditions of and the relationships between the adoption petitioner and the person petitioned to be adopted.

3. Except as enumerated in subsection two (2) of this section, an interlocutory adoption decree shall have the same legal effect as a final adoption decree. If an interlocutory adoption decree is vacated under subsection two (2) of this section, it shall be void from the date of issuance and the rights, duties, and liabilities of all persons affected by it shall, unless they have become vested, be governed accordingly. Upon vacation of an interlocutory adoption decree, the court shall proceed under the provisions of paragraph c of subsection one (1) of this section.

4. A final adoption decree terminates any parental rights, except those of a spouse of the adoption petitioner, existing at the time of its issuance and

establishes the parent-child relationship between the adoption petitioner and the person petitioned to be adopted. Unless otherwise specified by law, such parent-child relationship shall be deemed to

Page 18

have been created at the birth of the child.

5. An interlocutory or a final adoption decree shall be entered with the clerk of the court. Such decree shall set forth any facts of the adoption petition which have been proven to the satisfaction of the court and any other facts considered to be relevant by the court and shall grant the adoption petition. If so designated in the adoption decree, the name of the adopted person shall be changed by issuance of that decree. The clerk of the court shall, within thirty days of issuance, deliver one certified copy of any adoption decree to the petitioner, one copy of any adoption abstract to the department and any agency or person making an independent placement who placed a minor person for adoption, and one certification of adoption as prescribed in section one hundred forty-four point nineteen (144.19) of the Code to the state registrar of vital statistics. Upon receipt of the certification, the state registrar shall prepare a new birth certificate pursuant to section one hundred forty-four point twenty-three (144.23) of the Code and deliver to the parents named in the decree and any adult person adopted by the decree a copy of the new birth certificate. The parents shall pay the fee prescribed in section one hundred forty-four point forty-six (144.46) of the Code. If the person adopted was born outside the state, the state registrar shall forward the certification of adoption to the appropriate agency in the state of birth. A copy of any interlocutory adoption decree vacation shall be delivered and another birth certificate shall be prepared in the same manner as a certification of adoption is delivered and the birth certificate was originally prepared.

Sec. 23. *NEW SECTION.* APPEAL. An appeal from any final order or decree rendered under this Act shall be taken in the same manner as an appeal is taken from a final judgment under the rules of civil procedure. However, a rule of civil procedure provision regarding a minimum amount of value in controversy shall not bar an adoption appeal. The supreme court shall review an adoption appeal de novo.

Sec. 24. *NEW SECTION.* FOREIGN AND INTERNATIONAL ADOPTIONS.

1. A decree terminating a parent-child relationship or establishing a parent-child relationship by adoption which is issued pursuant to due process of law by

a court of any other jurisdiction, whether within or without the United States, shall be recognized

Page 19

in this state.

2. If there is a proxy adoption in the minor person's country of origin, a further adoption must occur in the state where the adopting parents reside in accordance with the adoption laws of that state.

3. The department may provide necessary assistance to an eligible citizen of Iowa who desires to, in accordance with the immigration laws of the United States, make an international adoption. For any such assistance the department may charge a fee which does not exceed the reasonable cost of services rendered and which is based on a sliding scale relating to the investigated person's ability to pay.

4. Any rules of the department relating to placement of a minor child for adoption which are more restrictive than comparable rules of agencies making international placements and laws of the United States shall not be enforced by the department in an international adoption.

Sec. 25. *NEW SECTION.* TERMINATION AND ADOPTION RECORD.

1. Any information compiled under subparagraphs one (1) and two (2) of paragraph c of subsection one (1) of section seventeen (17) of this Act shall be made available at any time by the clerk of the court, the department, or any agency which made the placement to:

a. The adopting parents.

b. The adopted person who is an adult.

c. Any person approved by the department if the person uses this information solely for the purposes of conducting a legitimate research project or of treating a patient in a medical facility.

2. The permanent termination of parental rights record of the juvenile court under division one (I) of this Act and the permanent adoption record of the court shall be sealed by the clerk of the juvenile court and the clerk of court, as appropriate, when they are complete and after the time for appeal has expired. All papers and records pertaining to a termination of parental rights under division one (I) of this Act and to an adoption, whether a part of the permanent termination and adoption records of the juvenile court and of the court or on file with a guardian, guardian ad litem, custodian, person who placed a minor person, or the department shall not be open to inspection and the identity of the biological parents of an adopted person shall not be revealed. However, an agency involved in placement shall contact the adopting parents or the adult adopted

Page 20

child regarding eligibility of the adopted child for benefits based on entitlement of benefits or inheritance from the terminated biological parents. Also, the clerk of the court shall, upon application to and order of the court for good cause shown, open the permanent adoption record of the court for the adopted person who is an adult and reveal the names of either or both of the biological parents, unless either or both of the biological parents have filed and not withdrawn an affidavit denying such revelation as to each parent's name. If the adopted person who applies for revelation of the biological parents' name has a sibling who is a minor and who has been adopted by the same parents, the court shall deny such application on the grounds that revelation to the applicant may also indirectly and harmfully permit the same revelation to the applicant's minor sibling. To facilitate the biological parents in filing such affidavit, the department shall, upon request of such parent, file an affidavit in the court in which the adoption records have been sealed.

3. Notwithstanding any other provisions in this section, the juvenile court or court may, upon competent medical evidence, open termination or adoption records if opening is shown to be necessary to save the life of or prevent irreparable physical harm to an adopted person or the person's offspring. The juvenile court or court shall make every reasonable effort to prevent the identity of the biological parents from becoming revealed under this subsection to the adopted person. The juvenile court or court may, however, permit revelation of the identity of the biological parents to medical personnel attending the adopted person or the person's offspring. These medical personnel shall make every reasonable effort to prevent the identity of the biological parents from becoming revealed to the adopted person.

4. Any person, other than the adopting parents or the adopted person, who discloses information in violation of the provisions of this section shall be, upon conviction, guilty of a misdemeanor, and shall be fined not more than one hundred dollars or imprisoned in the county jail for not more than thirty days.

HOUSE RESOLUTION 116

By Schroeder, Nealson of Muscatine, Crabb, Clark, Drake, Varley, Bennett, Wulff, Millen, Menke and Scheelhaase

Whereas, the House and Senate chambers of the State House are air conditioned and that as installed the system does not have proper modulating valves to control the chilled water supply and the outside air supply; and

Whereas, there exists an energy shortage and the installation of such valves would conserve the considerable amount of energy used in chilling the House and Senate chambers; and

Whereas, the present distribution system and the over-supply of chilled water to the system causes uncomfortable conditions for many persons because of excessive amounts

of air conditioning being supplied to the chambers; *Now Therefore,*

Be It Resolved by the House of Representatives, That appropriate action be taken for the installation of modulating valves to control the chilled water and outside air supplies, to conserve energy, and to protect the health of certain members of the General Assembly.

Read the first time and referred to the **administration committee.**

279.13 CONTRACTS WITH TEACHERS—AUTOMATIC CONTINUATION—TERMINATION PROCEDURE.

1. a. Contracts with teachers, which for the purpose of this section means all certificated employees of a school district and nurses employed by the board, excluding superintendents, assistant superintendents, principals and assistance principals, shall be in writing and shall state the number of contract days, the annual compensation to be paid, and any other matters as may be mutually agreed upon, including but not limited to educational leaves and reimbursement for tuition paid by the teacher for courses approved by the board of directors, and which may include employment for a term not exceeding the ensuing school year, except as otherwise authorized.

b. For the purpose of this section "educational leave" means a leave granted to an employee for the purpose of study including study in areas outside of a teacher's area of specialization, travel, or other reasons deemed by the board to be of value to the school system.

c. A contract is invalid if the teacher is under contract with another board of directors to teach during the same time period, until a release from the other contract is achieved. The contract shall be signed by the president of the board when tendered. After it is signed by the teacher, the contract shall be filed with the secretary of the board before the teacher enters into performance under the contract.

2. If the teacher has been employed at least three consecutive years as a teacher in the same school district, the contract shall remain in force and effect for the period stated in the contract and shall be automatically continued for equivalent periods, except as modified or terminated by mutual agreement of the board of directors and the teacher or as terminated in accordance with the provisions specified in this chapter. A contract shall not be offered by the employing board to a teacher under its jurisdiction prior to March first of any year. A teacher who has not accepted a contract for the ensuing school year tendered by the employing board may resign

effective at the end of the current school year by filing a written resignation with the secretary of the board. The resignation must be filed not later than the last day of the current school year or the date specified by the employing board for return of

the contract, whichever date occurs first. However, a teacher shall not be required to return a contract to the board less than twenty-one days after the contract has been offered.

3. a. The board may adopt a resolution finding just cause for terminating the contract with the teacher. If this resolution is adopted, the board shall cause the teacher to be notified in writing of it within five days of its adoption. This notice shall be served by receipted personal service or by certified mail. If served by certified mail, the act of mailing shall constitute completion of service. In any event, this notice shall not be served later than March fifteenth and shall state the specific reasons for considering the contract termination. These reasons shall be any just cause affecting performance of duties which may include incompetency, persistent or substantial neglect of duty, physical or mental disability or sickness which interferes with performance of duty as shown by competent medical evidence and following one year's leave of absence, or factors which require an adjustment, realignment, or reduction of the staff.

b. Before adoption of a resolution finding just cause for termination is voted upon pursuant to paragraph a of this subsection, a member of the school administrative staff shall, at least thirty days prior to this vote, provide the teacher with a written statement of specific alleged deficiencies constituting grounds for termination.

The board, at its next meeting, shall by roll call vote decide the retention or termination of the probationary teacher. 4. The state appeal board may approve or modify the base year's total budget expenditures of any political subdivision which changes accounting procedures.

5. The state appeal board shall approve the total budget as requested or reduce the amount of increased expenditures. All decisions of the board under this division shall be made in accordance with reasonable and uniform policies which shall be consistent to carry out the provisions of this division. The board shall take into account the intent of this division to provide property tax relief and to provide reasonable control of costs of the political subdivisions of this state.

Sec. 11. PROPERTY TAX CARRYOVER. 10. "PROPERTY TAXES PAID" means property taxes *including one-half of any special assessments, but* exclusive of [special assessments,] delinquent interest [,] and charges for services, paid on a claimant's homestead in this state, but includes only property taxes for which the claimant was liable and which were actually paid by the claimant. If the property taxes have actually been paid, they shall be deemed to have been paid when due, regardless of the date of actual payment. "Property taxes paid" shall be computed with no deduction

for any credit under this division or for any homestead credit allowed under section 425.1. Claims for property tax reimbursement filed in 1974 shall be based upon the property taxes paid in 1973. Claims for property tax reimbursement filed in 1975 shall be limited to two-thirds of the property taxes paid in 1974 and the first one-half of 1975. Each year thereafter, each claim shall be based upon the taxes paid during the base year. If a homestead is owned by two or more persons as joint tenants or tenants in common, and one or more persons are not a member of claimant's household, "property taxes paid" is that part of property taxes paid on the homestead which equals the ownership percentage of the claimant and his household. The county treasurer shall include with the tax receipt a statement that if the owner of the property is sixty-five years of age or over or is totally disabled or is a surviving spouse of such person who is over the age of fifty-five years of age, the person may be eligible for the credit allowed under this division. If a claimant changes his homestead, this shall not prevent him from filing a claim based on property taxes for which the claimant was liable and which were actually paid by the claimant, but duplication of claims shall not be allowed. If a homestead is an integral part of a farm, the claimant may use the total property taxes paid for the larger unit, but not exceeding forty acres of land. If a homestead is an integral part of a multidwelling or multipurpose building the property taxes paid for the purpose of this subsection shall be prorated to reflect the portion which the value of the property that the household occupies as its homestead is to the value of the entire structure. For purposes of this subsection, "unit" refers to that parcel of property covered by a single tax statement of which the homestead is a part.

Sec. 31. Section four hundred twenty-five point seventeen (425.17), Code 1975, is amended by adding the following new subsection:

NEW SUBSECTION. "Special assessment" means special assessments made pursuant to sections three hundred eighty-four point thirty-seven (384.37) through three hundred eighty-four point seventy-nine (384.79) of the Code. The amount of a special assessment which may be included in the amount of property taxes paid for one year shall be an amount equal to one-twentieth of the total amount of the special assessment levied against the homestead of the claimant, if the claimant elected to pay the total amount of the special assessment in one payment. If the claimant elects to pay the special assessment in ten annual installments as provided by law, the claimant may include as a portion of the property taxes paid during the base year an amount equal to one-half of the special assessment, including interest, paid during that same base year.

Sec. 32. Section four hundred twenty-five point twenty-three (425.23), subsection one (1), Code 1975, as amended by Acts of the Sixty-sixth General Assembly, 1975 Session, chapter two hundred thirteen (213), section three (3), is

Ninety-fourth Calendar Day—Sixty-second Session Day

HALL OF THE HOUSE OF REPRESENTATIVES
DES MOINES, IOWA, WEDNESDAY, APRIL 14, 1976

The House met pursuant to adjournment, Speaker Cochran in the chair.

Prayer was offered by the Reverend Doctor Howard Palmer, pastor of the Ventura United Methodist Church, Methodist Camp, Clear Lake, Iowa.

LEGISLATIVE PHYSICIAN FOR THE DAY

Dr. C. W. Beckman, Kalona, Iowa.

CORRECTION OF JOURNAL

The House gave attention to the correction of the Journal of April 13, 1976.

Oakley of Clinton asked and received unanimous consent that the orders of the day be printed in the Journal of April 13, 1976.

Oakley of Clinton objected to the House members' names on page 1918 of the House Journal.

The Speaker ruled that the names were in order.

Oakley of Clinton asked and received unanimous consent that a record of dissent be inserted in the Journal.

Varley of Adair requested that the motion on page 1899 be amended to read as follows: "Fitzgerald of Webster moved to suspend the rules for the consideration of the second conference committee report as amended and adopted by the Senate to Senate File 1062."

Objection was raised by Fitzgerald of Webster.

Fitzgerald of Webster moved that the Journal of Tuesday, April 13, 1976, as corrected, be approved.

A non-record roll call was requested.

The ayes were 54, nays 35.

The motion prevailed.

EXPLANATION OF VOTE

April 14, 1976

The undersigned members of the minority caucus voted "no" on approval of the House Journal of Tuesday, April 13, 1976, as corrected, for the following reasons:

1. The Report of the Second Conference Committee on Senate File 1062 (House Journal pages 1901-1918) is not a true and accurate recording of what the House had under consideration as it incorporates House amendment H—6130 (House Journal page 1560) directly into the text of the Report with no depositive action being indicated in the Journal.

2. The signatures of the majority party members appearing on the Report of the Second Conference Committee on Senate File 1062 as recorded in the House Journal of April 13, 1976 (House Journal page 1918), are not in order as the conference committee was never reconvened for the purpose of adopting, as an amendment to the Report, the Senate amendment to the Report.

3. All attempts to correct references to the Second Conference Committee Report to Senate File 1062, which was under consideration by the House on April 13, 1976, as being an amended conference committee report and not the same Second Conference Committee Report previously considered and adopted by the House (House Journal page 1282), were rejected.

4. In spite of the suspension of Chapter 72, Section 769, paragraph 2 of Mason's Manual of Legislative Procedure (House Journal page 1899) relative to non-amendability of conference committee reports, the Speaker ruled out of order amendments filed by the Republican caucus to amendment H—6130, whether the latter was a part of the Report or not.

5. There being no other method to express our general objections to procedures employed in the consideration of the Report of the Second Conference Committee on Senate File 1062 (House Journal pages 1901-1918), we state, for the record, that the minority party was prevented from consideration of and votes on its alternative property tax proposals by parliamentary methods.

If that denial had been rendered by established rules of the House for the purpose of facilitating legislative business, we could accept that decision. However, to make a shambles of our rules, without any plausible parliamentary basis, is to establish a dangerous precedent and exact from this body as a price, the destruction of the concept of the minority serving as the loyal opposition.
