mental in seeing that the Guthrie Test is now performed on every newborn infant at the Jefferson County Hospital.

Cindy is a student at Hope Haven in Rock Valley, Iowa, where she lives in a private foster home and enjoys her school program of academics, home living, crafts and vocational development. HOUSE CONCURRENT RESOLUTION 130

By Welden, Dunton, Kreamer, Millen, Halvorson, Middleswart, Wyckoff, Husak, McElroy, Jordan Miller of Buchanan, Baker, Crabb, Evans, Bortell, Spradling, Woods, Koogler, Miller of Cerro Gordo, Walter, Bina, Wells, Horn, Daggett, West, Brunow,

Dyrland, Den Herder, Danker, Wulff, Bennett, Branstad, Stromer, Schroeder, Tofte, Pellett and Harper

Whereas, with each passing year this nation becomes more deeply in debt as its expenditures grossly and repeatedly exceed available revenues, so that the public debt now exceeds hundreds of billions of dollars; and

Whereas, the annual federal budget continually demonstrates an unwillingness or inability of both the legislative and executive branches of the federal government to curtail spending to conform to available revenues; and

Whereas, unified budgets do not reflect actual spending because of the exclusion of special outlays which are not included in the budget nor subject to the legal public debt limit; and

Whereas, knowledgeable planning, fiscal prudence, and plain good sense require that the budget reflect all federal spending and be in balance; and

Whereas, fiscal irresponsibility at the federal level, with the inflation which results from this policy, is the greatest threat which faces our nation, and constitutional restraint is necessary to bring the fiscal discipline needed to restore financial responsibility; and

Whereas, Article V of the Constitution of the United States provides that amendments to the constitution may be proposed by the Congress whenever two-thirds of both houses deem it necessary, and we believe such action is vital; *Now Therefore*,

Page 2

Be It Resolved by the House of Representatives, the Senate Concurring, That Congress is urged to adopt a resolution proposing an amendment to the Constitution of the United States to require that, in the absence of a national emergency, the total of all federal appropriations made by the Congress for any fiscal year may not exceed the total of all federal revenues for the previous fiscal year.

Be It Further Resolved, that the Clerk of the House is directed to send copies of this resolution to the presiding officer of both houses of the legislature of each of the other states in the union, the Clerk of the United States House of Representatives, the Secretary of the United States Senate, and to all members of Congress from the State of Iowa.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 131

By Svoboda and Daggett

Whereas, a local government task force is created in Senate File 1062, as passed by the Sixty-sixth General Assembly, 1976 Session, for the purpose of studying and recommending solutions to problems in the delivery and financing of local government; and

Whereas, an important aspect of the local government task force study relates to the equitable assessment and equalization of property for taxing purposes; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the local government task force, created under Senate File 1062, is urged to give full consideration during its study of the valuation of taxable property to the concept of basing the assessed value of taxable property on an average of the fair and reasonable exchange value of the property established for the four years preceding the date of assessment; and

Be It Further Resolved, That the local government task force include in its final report to the Sixty-seventh General Assembly pertinent information relating to its consideration of the concept of basing the assessed value of taxable property on an average of the fair and reasonable exchange value of such property and its recommendation on the concept; and

Be It Further Resolved, That the Chief Clerk of the House of Representatives transmit a copy of this resolution to the chairperson of the local government task force upon its convening.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 132

By Koogler, Krause, Middleswart, Brunow, Halvorson, Gilloon, Tauke, Higgins, Hargrave, Schroeder, Poncy, Lindeen, Brockett, Hinkhouse, Hutchins, Perkins, Caffrey, Oakley, O'Halloran, Welden, Hansen, Pellett, Newhard, Rinas, Jordan, Baker, Nielsen of Polk and Scheelhaase

Whereas, section 6049 of the Internal Revenue Code requires every person who makes payments of interest aggregating ten dollars or more to file a return setting forth the aggregate amount of the payments and the name and address of the person to whom paid; and

Whereas, the ten dollar provision has not been adjusted to reflect the inflation occurring in costs of materials and labor, the postal rate increases, and the increase in interest rates; and

Whereas, the present law creates additional administrative problems for persons required to file the form 1099 reports; and

Whereas, the Congress of the United States has not reviewed the provisions of section 6049 of the Internal Revenue Code for several years; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the General Assembly of the State of Iowa recommends that the Congress of the United States amend the present law to increase from ten dollars to twenty-five dollars the amount of payments of interest

which are required to be reported under section 6049 of the Internal Revenue Code; and

Be It Further Resolved, That the Chief Clerk of the House of Representatives be directed to send a copy of this resolution to the President of the United States Senate, the Speaker of the United States House of Representatives, and to each member of the Iowa congressional delegation.

Laid over under Rule 25.

Section 1001. *NEW SECTION.* As used in this Act, unless the context otherwise requires:

1. "Board" means the state appeals board as defined in section twenty-three point one (23.1) of the Code.

2. "Claimant" means the person filing a claim pursuant to this Act.

3. "Crime" means an act committed in this state which would, if committed by a mentally competent criminally responsible adult, who has no legal exemption or defense, constitute a crime as defined in and prescribed by the penal law, provided, however, that no act involving the operation of a motor vehicle which results in injury shall constitute a crime for the purposes of this Act unless the injuries were intentionally inflicted through the use of a vehicle.

4. "Family", when used with reference to a person, means any person related to such person within the third degree of consanguinity or affinity, any person maintaining a sexual relationship with such person, or any person residing in the same household with such person.

5. "Victim" means a person who suffers personal physical injury as a direct result of a crime.

Sec. 1002. *NEW SECTION.* The attorney general shall appoint a special assistant attorney general who shall serve as the secretary of the board as provided in section twenty-five point four (25.4) of the Code.

Sec. 1003. *NEW SECTION.* The board shall have the following powers and duties:

1. To request from the department of public safety, from county or municipal police departments and agencies and from any other state or municipal department or agency, or public authority, and the same are hereby authorized to provide, such assistance and data as will enable the board to carry out its functions and duties.

2. To direct medical examination of victims.

3. To hold hearings, administer oath or affirmations, examine any person under oath or affirmation and to issue subpoenas requiring the attendance and giving of testimony of witnesses and

require the production of any books, papers, documentary or other evidence. The powers provided

Page 2

in this subsection may be delegated by the board to any member or employee thereof.

4. To take or cause to be taken affidavits or depositions within or without the state.

5. To render each year to the general assembly a written report of its activities and recommendations for awards.

Sec. 1004. *NEW SECTION.*

1. Except as provided in subsection two (2) of this section, the following persons shall be eligible for awards pursuant to this Act:

a. A victim of a crime;

b. A surviving spouse, parent or child of a victim of a crime who died as a direct result of such crime; and

c. Any other person dependent for his principal support upon a victim of a crime who died as a direct result of such crime.

2. A person who is criminally responsible for the crime upon which a claim is based or an accomplice of such person or a member of the family of such persons shall not be eligible to receive an award with respect to such claim.

Sec. 1005. *NEW SECTION.*

1. A claim may be filed by a person eligible to receive an award, as provided in section one thousand four (1004) of this Act, or, if such person is a minor, by his parent or guardian.

2. A claim must be filed by the claimant not later than ninety days after the occurrence of the crime upon which such claim is based, or not later than ninety days after the death of the victim, provided, however, that upon good cause shown, the board may extend the time for filing for a period not exceeding one year after such occurrence.

3. Claims shall be filed in the office of the secretary of the board in person or by mail. The secretary of the board shall accept for filing all claims submitted by persons eligible under subsection one (1) of this section and alleging the jurisdictional requirements set forth in this Act and meeting the requirements as to form in the rules of the board.

4. Upon filing of a claim pursuant to this Act, the board shall promptly notify the county attorney of the county wherein the crime is alleged to have occurred. If, within ten days after such notification, such county attorney advises the board that a criminal prosecution is pending upon the same alleged crime and requests that action by the board be deferred, the board shall defer all proceedings under this Act

Page 3

until such time as such criminal prosecution has been concluded and shall so notify such county attorney and the claimant. When such criminal prosecution has been concluded, such county attorney shall promptly so notify the board. Nothing in this section shall limit the authority of the board to grant emergency awards pursuant to this Act.

Sec. 1006. *NEW SECTION.* No award shall be made on a claim unless the claimant has incurred a minimum out-of-pocket loss of one hundred dollars or has lost at least two continuous weeks earnings or support. Out-of-pocket loss shall mean unreimbursed and unreimbursable expenses or indebtedness reasonably incurred for medical care or other services necessary as a result of the injury upon which such claim is based.

Sec. 1007. *NEW SECTION.*

1. The board shall cause an investigation to be conducted into the validity of each claim. Such investigation shall include, but not be limited to, an examination of police, court and official records and reports concerning the crime and an examination of medical and hospital reports relating to the injury upon which such claim is based.

2. Claims shall be investigated and determined, regardless of whether the alleged criminal has been apprehended or prosecuted for or convicted of any crime based upon the same incident, or has been acquitted, or found not guilty of the crime in question owing to criminal irresponsibility or other legal exemption.

3. The board may decide such claim in favor of a claimant in the amount claimed on the basis of the papers filed in support thereof and the report of the investigation of such claim. If the board is unable to decide such claim upon the basis of such papers and such report, he shall order a hearing. At such hearing any relevant evidence, not legally privileged, shall be admissible.

4. After examining the papers filed in support of such claim and the report of investigation, and after a hearing, if any, the board shall make a decision either granting an award or deny the claim.

5. The board shall file with the secretary a written report setting forth such decision and reasons therefor. The secretary shall thereupon notify the claimant and furnish him a copy of such report.

Sec. 1008. *NEW SECTION.* Notwithstanding the provisions of section one thousand seven (1007) of this Act, if it appears to the board prior to taking

Page 4

action upon such claim, that such claim is one with

respect to which an award probably will be made, and undue hardship will result to the claimant if immediate payment is not made, the board may make an emergency award to the claimant pending a final decision in the case, provided, however, that the amount of such emergency award shall not exceed five hundred dollars, the amount of such emergency award shall be deducted from any final award made to the claimant, and the excess of the amount of such emergency award over the amount of the final award, or the full amount of the emergency award if no final award is made, shall be repaid by the claimant to the board.

Sec. 1009. ***NEW SECTION.***

1. No award shall be made unless the board finds that a crime was committed, such crime directly resulted in personal physical injury to, or death of, the victim, and police records show that such crime was promptly reported to the proper authorities; and in no case may an award be made where the police records show that such report was made more than forty-eight hours after the occurrence of such crime unless the board, for good cause shown, finds the delay to have been justified.

2. Any award made pursuant to this Act shall be in an amount not exceeding out-of-pocket expenses, including indebtedness reasonably incurred for medical or other services necessary as a result of the injury upon which the claim is based, together with loss of earnings or support resulting from such injury.

3. Any award made for loss of earnings or support shall, unless reduced pursuant to other provisions **of this Act, be in an amount equal to the actual loss** sustained, provided, however, that no such award shall exceed one hundred dollars for each week of lost earnings or support, and provided further that the aggregate award for such loss shall not exceed fifteen thousand dollars. If there are two or more persons entitled to an award as a result of the death of a person which is the direct result of a crime, the award shall be apportioned by the board among the claimants.

4. Any award made pursuant to this Act shall be reduced by the amount of any payments received or to be received by the claimant as a result of the injury from or on behalf of the person who committed the crime, under insurance programs mandated by law, from public funds, under any contract of insurance wherein the claimant is the insured or beneficiary, or as an emergency award pursuant to section one

Page 5

thousand eight (1008) of this Act.

5. In determining the amount of an award, the board shall determine whether, because of his conduct,

the victim of such crime contributed to the infliction of his injury, and the board shall reduce the amount of the award or reject the claim altogether, in accordance with such determination; provided, however, that the board may disregard for this purpose the responsibility of the victim for his own injury where the record shows that such responsibility was attributable to efforts by the victim to prevent a crime or an attempted crime from occurring in his presence or to apprehend a person who had committed a crime in his presence or had in fact committed a felony.

6. If the board finds that the claimant will not suffer serious financial hardship, as a result of the loss of earnings or support and the out-of-pocket expenses incurred as a result of the injury, if not granted financial assistance pursuant to this Act to meet such loss of earnings, support or out-of-pocket expenses, the board or board members shall deny an award. In determining such serious financial hardship, the board shall consider all of the financial resources of the claimant. The board shall establish specific standards by rule for determining such serious financial hardship.

Sec. 1010. *NEW SECTION.* The award shall be paid in a lump sum, except that in the case of death or protracted disability the award may provide for periodic payments to compensate for loss of earnings or support. No award made pursuant to this Act shall be subject to execution or attachment other than for expenses resulting from the injury which is the basis for the claim.

Sec. 1011. *NEW SECTION.* Acceptance of an award made pursuant to this Act shall subrogate the state, to the extent of such award, to any right or right of action accruing to the claimant or the victim to recover payments on account of losses resulting from the crime with respect to which the award is made.

Sec. 1012. *NEW SECTION.* The comptroller shall pay to the claimant from funds appropriated by the general assembly for such purposes any initial emergency award granted by the board or a board member within five days after receipt of notice from the board of the emergency award.

Sec. 1013. *NEW SECTION.* The provisions of chapter twenty-five (25) of the Code shall be applicable unless inconsistent with this division of this Act.

GOVERNOR'S VETO MESSAGE
(House File 1457)

A copy of the following communication was received and placed on file:

April 19, 1976

The Honorable Dale M. Cochran
Speaker of the House of Representatives
Sixty-sixth General Assembly
State Capitol Building
Local

Dear Representative Cochran:

House File 1457, an Act relating to the compensation of the Beer and Liquor Control Council, is hereby disapproved and returned to the House of Representatives in accordance with Article III, Section 16, of the Constitution of the State of Iowa.

House File 1457 would change the compensation for the members of the Iowa Beer and Liquor Control Council from an annual salary of $2500 to a per diem of $40.

The explanation of the bill states that the reason for this change is to remove an apparent compensation inequity that exists among the five Council members. One member of the Council, who is designated by the Council to serve on the Department of Beer and Liquor Control's hearing board, serves approximately twice as often in one year as other Council members yet receives no extra compensation. A per diem salary supposedly would give recognition to this increased amount of service.

A closer examination of the service performed by members of the Council indicates that such corrective action is unnecessary. While service on the hearing board is an extra duty, it is an extra duty that is eventually shared by all five Council members. Service on the hearing board is on a rotation basis for a year at a time. Since the term of appointment to the Beer and Liquor Control Council is for five years, each member of the Council is given the opportunity to serve on the hearing board. Thus, in a five year period each Council member performs approximately the same amount of service.

While House File 1457 will remove no inequity, it will result in a negative corollary. Council members presently meet every month in regular session and additional times throughout the year. While the per diem provision of House File 1457 will result in a cut in compensation for Council members, it may also make it difficult to secure the type of appointees needed for this sensitive position.

The Governor's Economy Committee in 1969 recognized the contribution of management ability and experience that business executives could make to the operation of the State liquor monopoly. To help secure the participation of top-level business executives on the Beer and Liquor Control Council, the Governor's Economy Committee recommended an annual

salary of between $2000 and $3000 instead of a per diem. That recommendation was followed and has proved to be successful. The reduction in compensation of Council members contained in House File 1457 seems to be an unnecessary and unwise departure for a system that is working well.

For the reasons I have outlined above, I hereby respectfully disapprove of this House File 1457.

Sincerely,
ROBERT D. RAY
Governor

"Section 1. Section two hundred seventy-nine point thirteen (279.13), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

279.13 CONTRACTS WITH TEACHERS—AUTOMATIC CONTINUATION.

1. Contracts with teachers, which for the purpose of this section means all certificated employees of

a school district and nurses employed by the board, excluding superintendents and assistant superintendents, shall be in writing and shall state the number of contract days, the annual compensation to be paid, and any other matters as may be mutually agreed upon, including but not limited to educational leaves and reimbursement for tuition paid by the teacher for courses approved by the board of directors, and which may include employment for a term not exceeding the ensuing school year, except as otherwise authorized.

For the purpose of this section "educational leave" means a leave granted to an employee for the purpose of study including study in areas outside of a teacher's area of specialization, travel, or other reasons deemed by the board to be of value to the school system. The contract is invalid if the teacher is under contract with another board of directors to teach during the same time period until a release from the other contract is achieved. The contract shall be signed by the president of the board when tendered, and after it is signed by the teacher, the contract shall be filed with the secretary of the board before the teacher enters into performance under the contract.

2. If the teacher has been employed at least two consecutive years as a teacher in the same school district, the contract shall remain in force and effect for the period stated in the contract and shall be automatically continued for equivalent periods except as modified or terminated by mutual agreement of the board of directors and the teacher or as

Page 2

terminated in accordance with the provisions specified in this chapter. A contract shall not be offered by the employing board to a teacher under its jurisdiction prior to March first of any year. A teacher who has not accepted a contract for the ensuing school year tendered by the employing board may resign effective at the end of the current school year by filing a written resignation with the secretary of the board. The resignation must be filed not later than the last day of the current school year or the date specified by the employing board for return of the contract, whichever date occurs first. However, a teacher shall not be required to return a contract to the board less than twenty-one days after the contract has been offered.

3. The board, following the recommendation of the superintendent to consider termination, by a majority vote, may consider terminating the contract with the teacher. If such action is taken, the following procedure shall be followed. Within five days following school board action to consider terminat-

ing a teacher's contract, but no later than February fifteenth, the teacher shall be notified in writing, either by receipted personal service or mailed by certified mail, that the board has voted to consider termination of the contract. If the notice has been by certified mail, the notice shall be complete upon mailing. The notice shall state the specific reasons for considering the termination, which shall be any just cause affecting performance of duties which may include incompetency, persistent or substantial neglect of duty, inadequate performance, physical or mental disability or sickness which interferes with performance of duty as shown by competent medical evidence and following a leave of absence of one year, or factors which require a reduction of staff. However, a notice of intent to terminate shall not be issued until a member of the school administrative staff has provided the teacher with all written and documented evidence of any alleged deficiencies in performance of contracted duties and has allowed the teacher a definite reasonable time as determined by the board to correct the deficiencies. Evaluation procedures shall be established by each school district.

The teacher's complete personnel file shall be available, which file shall contain a record of all periodic reviews between the teacher and appropriate supervisors.

4. Within five days following receipt of the

Page 3

written notice that the board has voted to consider termination of a contract, the teacher may request in writing to the secretary of the board a private conference with the board. The private conference shall not be subject to chapter twenty-eight A (28A) of the Code and shall be held no sooner than ten days and no later than twenty days following the receipt of the request. The secretary of the board shall notify the teacher in writing of the date, time and location of the private conference. The conference shall be attended by members of the board and their legal representatives if any, the superintendent or the superintendent's representative, the teacher and the teacher's representatives if any, not to exceed five, and the teacher's immediate supervisor and the supervisor's representatives, if any. The discussion at the conference shall be limited to the specific reasons stated in the notice to consider termination. Any material removed from the teacher's personnel file or other material to be introduced at the conference shall be provided the teacher no less than five days preceding the conference. No participant in the conference shall be liable for any damages to any person if any statement at the conference

is determined to be erroneous as long as the statement was made in good faith.

5. Within three days following the conference, the superintendent shall make a written recommendation to the board. Within three days after the conference, the teacher may send a statement in writing to the board members. The school board shall meet within five days after the private conference is held, or after the time has passed to request a private conference, to determine the continuance or discontinuance of the contract. If a private conference has been held, the school board shall consider at the meeting the written recommendation submitted by the superintendent and the written statement of the teacher if one has been submitted. The board action shall be by roll call vote. A complete record of the meeting to determine the continuance or discontinuance of the contract shall be kept and made available to the teacher. The secretary of the board shall mail to the teacher notices of the board's action by certified mail, which shall be mailed promptly, and not later than March twentieth.

6. If the teacher has been employed at least two years as a teacher, the teacher may appeal the action of the board to terminate a contract. In case of the termination of employment or discharge of a teacher

Page 4

under the provisions of either this section or section two hundred seventy-nine point twenty-four (279.24) of the Code, the teacher may appeal the decision to a panel of three arbitrators within twenty days. The notice of appeal shall be sent to the secretary of the board whose decision is being appealed. Within five days following receipt by the secretary of the notice of appeal, the board or its legal representative if any and the teacher or the teacher's representative if any shall each select an arbitrator who resides within the boundaries of the state. The two parties shall then select a third arbitrator who is not required to possess residency requirements. The third arbitrator shall serve as chairperson of the panel of arbitrators. The parties shall immediately notify the secretary of the board of the selection of the panel and the names and addresses of the persons selected. If the third arbitrator cannot be mutually agreed upon within the five-day period, notice shall be sent by the secretary of the board to the chairperson of the public employment relations board by certified mail. Within ten days following receipt of the notice, the chairperson of the public employment relations board shall submit to the school board and the teacher a list of five names of available arbitrators from lists maintained by the public employee relations board. The school board and the teacher

shall remove names from the list until only one name remains. If the remaining person is unacceptable to the two parties, the two parties may request an additional list of three names of available arbitrators from lists maintained by the public employment relations board. Names shall be stricken in the manner provided in this subsection. The party entitled to remove the first name shall be determined by lot. The party having the right to remove the first name shall do so within two days of receipt of the list and each party shall have one additional day to remove each of the remaining names. The secretary of the board shall inform the chairperson of the public employee relations board of the name of the arbitrator selected. Within ten days following the selection of the third arbitrator, the arbitration panel shall request in writing from the secretary of the board of the school district all records and transcripts of the proceedings relating to the termination of the teacher's contract. The records and transcripts shall be delivered to the arbitration panel within five days after the secretary receives the request.

The chairperson of the arbitration panel may act

Page 5

as a mediator to bring the parties together to effectuate a settlement. If after five days the mediation is not successful, the arbitration panel shall send written notice to the teacher and the board of the school district of the date, time, and location of a hearing. The arbitration panel shall hear the matter de novo and shall take testimony at a time and place set by the arbitration panel, but no later than forty days following selection of the arbitration panel or receipt of the appeal by the chairperson of the public employment relations board. The arbitration panel may subpoena witnesses and documents and hold a private conference, and shall render a decision on the appeal within ten days following the hearing. The determination of the panel of arbitrators shall be by majority vote and shall be final and binding, subject to appeal to the courts. The report of the panel of arbitrators shall be written by the chairperson. The arbitration panel may reinstate the teacher and award back pay. A complete transcript of the arbitration panel's hearings shall be kept and made available upon request by the interested parties. A copy of the decision shall be sent by certified mail to the teacher and school board secretary. All costs of the appeal shall be shared equally by the teacher and school board.

7. If either party is aggrieved by the arbitration panel's decision, the decision may be appealed within twenty days to the district court in the county in which the hearing was held. Notice of the appeal

shall be made in writing to the other party when the appeal is filed. The arbitration panel's award may be modified, reversed, or set aside if the court determines that the arbitration panel acted without or in excess of the arbitration panel's authority or that the arbitration panel's findings of fact are not supported by a preponderance of the competent evidence on the record considered as a whole, or that the arbitration panel's award was procured by fraud or is contrary to law. The assessments of costs and attorney fees in such appeals shall be at the discretion of the court.

8. The first two consecutive years of employment of a teacher in the same school district are a probationary period. However, a board of directors may waive the probationary period for any teacher who previously has served a probationary period in another school district. If the board is considering termination of a probationary teacher's contract, the board shall notify the probationary teacher in writing,

Page 6

listing any alleged deficiencies and providing the probationary teacher with a definite reasonable time to correct the deficiencies. If the deficiencies are not corrected to the board's satisfaction, the contract of a probationary status teacher may be terminated at the end of the contract period upon written notice to that effect prior to April first of any year. The written notice shall state the reasons for termination. Following receipt of the written notice, the probationary teacher may request a private conference with the board, which shall be held in accordance with the provisions of subsection four (4) of this section. Within three days following the private conference, the superintendent shall make a written recommendation to the board. The board, at its next meeting, shall, by roll call vote, decide the retention or termination of the probationary teacher. The board's decision shall be final and binding unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the teacher or an alleged violation of public employee rights of the teacher under section twenty point ten (20.10) of the Code.

Sec. 2. Section two hundred seventy-nine point twenty-four (279.24), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

279.24 DISCHARGE OF TEACHER. The board may, by a majority vote, discharge any teacher for any just cause which may include incompetency or persistent or substantial neglect of duty. Prior to the discharge, the board shall conduct, at a meeting of the board held for that purpose, a complete and impartial

investigation of the specific reasons for the proposed action. The teacher shall receive three days written notice of the time and place of such meeting, a specification of the alleged causes for discharge and a list of the witnesses proposed to be called by the board, together with a brief summary of their expected testimony. The teacher and the teacher's representatives, if any, not to exceed five, shall be allowed to be present at the meeting, to call and cross-examine witnesses, and to otherwise make a defense. A record of the meeting shall be made and kept. Following the board decision to discharge the teacher, the teacher shall be notified promptly in writing, stating the specific reasons for the action.

Within twenty days following receipt of the decision of the board, the teacher may appeal the decision following the procedure stated in section two hundred

Page 7

seventy-nine point thirteen (279.13) of the Code. However, the superintendent may suspend a teacher for any of the reasons listed in this section and recommend that the board discharge the teacher. The superintendent shall immediately notify the board of the suspension. The board shall meet within seven days of receipt of the notice to consider discharging the teacher and shall conduct a complete and impartial investigation of the specific reasons for the recommended discharge in the same manner as if the teacher had not been suspended. The teacher shall be notified by personal service of the time and place of the meeting immediately after the meeting time and place have been set. If the board votes not to discharge the teacher, the teacher shall be reinstated and the board shall award back pay for the period during which the teacher was suspended."

HOUSE CONCURRENT RESOLUTION 133

By O'Halloran, Hullinger, Varley, Readinger, Cusack, Den Herder, Evans, Gentleman, Griffee, Howell, Jochum, Oakley, Perkins, Welden, Wells, Avenson and Binneboese

Whereas, conservation of energy resources has become vital as national demands for energy continue to rise while domestic petroleum reserves decline and the United States becomes more dependent on imported foreign petroleum; and

Whereas, significant conservation of energy resources can only be achieved through a national policy, through cooperation between the public, government and business sectors and through the conscious efforts of all Americans; and

Whereas, Iowans consumed 1626.2 million gallons of gasoline in 1975 as compared to 1567.6 gallons in 1974; and

Whereas, petroleum fuels are vital to the economy of this state and the production of food stuffs and must be used most efficiently; and

Whereas, it is believed that more energy efficient motor vehicles can be developed and manufactured; and

Whereas, the state could encourage the use of more

fuel efficient motor vehicles through a system of penalties and incentives built into vehicle registration fees; and

Whereas, fuel efficiency standards to encourage the development and manufacture of more fuel efficient vehicles would have a significant impact if promulgated as part of a national policy; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the General Assembly urges Congress to encourage automobile manufacturers and

Page 2

the general public to voluntarily reduce motor gasoline consumption through the development, manufacture, marketing and use of more efficient motor vehicles; and

Be It Further Resolved, That copies of this resolution be sent to the National Automobile Dealers Association, the major automobile manufacturers, the Iowa Automobile Dealers Association, and members of Iowa's congressional delegation as an expression of the concern of the General Assembly about present levels of motor gasoline consumption and as an indication that unless more fuel efficient motor vehicles are voluntarily developed, manufactured, marketed and used, statutory mandates may be necessary.

Laid over under Rule 25.

"Sec. ..... Section two hundred seventy-nine point thirteen (279.13), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

279.13 CONTRACTS WITH TEACHERS.

1. Contracts with teachers, which for the purpose of this section means all certificated employees of a school district including registered nurses who are also certificated teachers, shall be in writing and shall state the number of contract days, the annual compensation to be paid, and any other matters as may be mutually agreed upon, which may include employment for a term not exceeding the ensuing school year, except as otherwise authorized.

The contract is invalid if the teacher is under contract with another board of directors to teach during the same time period until a release from the other contract is achieved. The contract shall be signed by the president of the board and teacher and shall be filed with the secretary of the board before the teacher enters into performance under the contract.

2. If the teacher has been employed at least three consecutive years as a teacher in the same school district, the contract shall remain in force and effect for the period stated in the contract and shall be automatically continued for equivalent periods except as modified or terminated by mutual agreement of the board of directors and the teacher or as terminated in accordance with the provisions specified in this chapter. A contract shall not be offered by the employing board to a teacher under its jurisdiction prior to March first of any year.

A teacher who has not accepted a contract for the ensuing school year tendered by the employing board may resign effective at the end of the current school year by filing a written resignation with the secretary of the board. The resignation must be filed not later than the last day of the current school year or the date specified by the employing board for return of the contract, whichever date occurs

first. However, a teacher shall not be required to return a contract to the board less than twenty-one days after the contract has been offered.

3. Teachers employed in the same school district for less than three consecutive years are probationary teachers. However, a board of directors may waive the probationary period for any teacher who previous-

ly has served a probationary period in another school district. If the board, upon the recommendation of the superintendent, is considering termination of a probationary teacher's contract, the board shall notify the probationary teacher in writing and list any alleged deficiencies. If the deficiencies are not corrected to the board's satisfaction, the contract of a probationary teacher may be terminated at the end of the contract period upon written notice to that effect prior to March thirty-first of any year. The written notice shall state the reasons for termination. Following receipt of the written notice, the probationary teacher may request a private conference with the board and, if requested, the conference shall be held within twenty days following receipt of the request. The board may be represented by its legal representative, if any, the superintendent or the superintendent's representative, and the teacher shall appear and may be represented by counsel and by the teacher's representative, not to exceed five, if any. Within three days following the private conference, a person designated by the board shall make a written recommendation to the board. The board, at its next regular meeting, shall by roll call vote, decide the retention or termination of the probationary teacher. The board's decision shall be final and binding unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the teacher or an alleged violation of public employee rights of the teacher under section twenty point ten (20.10) of the Code.

4. Within five days after receipt of the written notice by the teacher that the board has voted to consider termination of the contract of a teacher who is not a probationary teacher, the teacher may request in writing to the secretary of the board, that the notification be forwarded to the professional teaching practices commission along with a request that the professional teaching practices commission submit a list of five qualified hearing officers to the parties. Within three days of receipt of the list of qualified hearing officers, the teacher and the school board shall select a hearing officer by

Page 3

alternatively removing a name from the list until only one name remains. The person whose name remains is the hearing officer. The teacher and the school board shall determine by lot which party shall remove the first name from the list submitted by the commission.

If the teacher does not request such a hearing, the board, within fifteen days after receipt by the teacher of the written notice of consideration of termination of the contract, may determine the

continuance or discontinuance of the contract. Board action shall be by majority roll call vote entered in the minutes of the meeting. Notice of the board action shall be immediately sent to the teacher by certified mail.

5. The hearing officer shall notify the secretary of the school board and the teacher in writing concerning the date, time, and location of the hearing. The hearing shall be attended by members of the board and their legal representatives, if any, the superintendent or the superintendent's representative, the teacher and the teacher's representatives if any, not to exceed five, and the teacher's immediate supervisor and the supervisor's representatives, if any. The hearing officer shall hold a hearing, make findings of fact, and make a recommended decision. The hearing shall be held not sooner than fifteen days and not later than twenty-five days following receipt of the teacher's request by the professional teaching practices commission. The hearing shall be conducted pursuant to rules adopted by the professional teaching practices commission. The hearing officer shall have the authority to issue subpoenas to compel the attendance of witnesses and the production of records pertinent to the case. Evidence presented at the hearing shall be limited to the specific reasons stated in the notice to consider termination. Each party shall have the right to call witnesses in its own behalf and to cross-examine other witnesses. A transcript or recording shall be made of the proceedings at the hearing. No participant in the private hearing shall be liable for any damage to any person if any statement is determined to be erroneous as long as the statement was made in good faith at the hearing.

6. Within fifteen days following the conclusion of the hearing, the hearing officer shall make a recommended decision as to whether or not the contract of the teacher should be terminated, and shall give a copy of the recommended decision to the teacher

Page 4

and the school board. The recommended decision of the hearing officer shall become the final decision of the board unless within ten days after the filing of such decision, the teacher files a written notice of appeal with the secretary of the board, or the board on its own motion, determines to review the decision. Board action to review the hearing officer's recommended decision shall be by majority roll call vote, entered in the minutes of the meeting. The board shall immediately notify the teacher of its action by certified mail.

7. If the teacher appeals to the board, or if the board determines on its own motion to review the

recommended decision of the hearing officer, a private hearing shall be held before the board within five days after the petition for review, or motion for review, has been made. The board shall hear the case upon the record as submitted before the hearing officer, except that new evidence may be considered. The secretary of the board shall give the teacher written notice of the time, place, and date of hearing. The hearing shall be attended by members of the board and their legal representatives if any, the superintendent or the superintendent's representative, the teacher and the teacher's representatives if any, not to exceed five, and the teacher's immediate supervisor and the supervisor's representatives, if any. No participant in the private hearing shall be liable for any damage to any person if any statement is determined to be erroneous as long as the statement was made in good faith at the hearing. The board shall meet within five days after the conclusion of the hearing to determine the question of continuance or discontinuance of the contract. The board shall take action by a majority roll call vote, entered in the minutes of the board.

The secretary of the board shall mail notice of the board's action to the teacher by certified mail, which shall be mailed immediately following the action.

8. A teacher within thirty days after notification by the board of discontinuance of the contract may appeal to the district court of the county in which the administrative office of the school district is located.

The county may affirm the board's action. The court shall reverse, modify, or grant any other appropriate relief from the board action, equitable or legal, and including declaratory relief, if rights of the teacher have been prejudiced because the board action is:

Page 5

a. In violation of constitutional or statutory provisions,

b. In excess of the statutory authority of the board,

c. In violation of board policy or rule,

d. Made upon unlawful procedure,

e. Affected by other error of law,

f. Unsupported by a preponderance of the competent evidence on the record when that record is reviewed as a whole, or

g. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or clearly unwarranted exercise of discretion.

9. The hearings, meetings and conferences pertaining to the dismissal of a teacher shall be closed

meetings, except that final action to terminate a teacher's contract shall be by roll call vote and entered in the minutes of the meetings.

10. The provisions of this section shall not affect the power of the board of directors to discharge a teacher for cause under the provisions of section two hundred seventy-nine point twenty-four (279.24) of the Code.

Sec. ..... Section two hundred seventy-nine point twenty-four (279.24), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

279.24 DISCHARGE OF TEACHER. The board may, by a majority vote, discharge any teacher for any just cause which may include incompetency, or inattention to duty. Prior to the discharge, the board shall conduct, at a meeting of the board held for that purpose, a full and fair investigation of the specific reasons for the proposed action. The teacher shall receive three days written notice of the time and place of such meeting, a specification of the alleged causes for discharge, and a list of the witnesses proposed to be called by the board. The teacher and the teacher's representatives if any not to exceed five shall be allowed to be present at the meeting, to call and cross-examine witnesses, and to otherwise make a defense. A record of the meeting shall be made and kept. Following the board decision to discharge the teacher, the teacher shall be notified promptly in writing, stating the specific reasons for the action.

Within twenty days following receipt of the decision of the board, the teacher may appeal the decision following the procedure stated in chapter two hundred ninety (290) of the Code. However, the superintendent

Page 6

may suspend a teacher for any of the reasons listed in this section and recommend that the board discharge the teacher. The superintendent shall immediately notify the board of the suspension. The board shall meet within ten school days of receipt of the notice to consider discharging the teacher and shall conduct a full and fair investigation of the specific reasons for the recommended discharge in the same manner as if the teacher had not been suspended. The teacher shall be notified by personal service of the time and place of the meeting immediately after the meeting time and place have been set. If the board votes not to discharge the teacher, the teacher shall be reinstated and the board shall award back pay for the period during which the teacher was suspended.

Sec. ..... Chapter two hundred seventy-two A (272A), Code 1975, is amended by adding the following new

section:

NEW SECTION. LIST OF HEARING OFFICERS. The commission shall maintain a list of qualified hearing officers who shall have knowledge of the educational systems of this state. The hearing shall be held pursuant to rules adopted by the professional teaching practices commission. The full costs of the hearing shall be shared equally by the parties. No person who is employed as a teacher or administrator by a school district or is serving as an incumbent school board member may serve as a hearing officer."

Whereas, The Honorable James T. Caffrey of Polk County, who was a member of the Sixty-first, Sixty-second, Sixty-third, Sixty-fifth and Sixty-sixth sessions of the General Assembly, passed away April 24, 1976; *Now, Therefore,*

Higgins of Scott offered the following remarks in memory of Representative Caffrey:

MR. SPEAKER, LADIES AND GENTLEMEN:

The House this weekend lost one of its most respected members, Jim Caffrey of Des Moines. The loss, of course, is larger than our own, or even that of his family, painful as it is for them.

For Jim Caffrey was a statesman, and thus it is all of Iowa which will suffer his absence. We recall with pleasure so much about Jim, his kind wit, his devotion to the needs of the poor and the helpless, his unfailing courtesy, and most of all his championship of the cause of working people.

In an atmosphere which often breeds pettiness and thoughtless cruelties, who among us ever heard Jim utter a malicious word or make a mean gesture? Instead, so often did we observe his essential grace and dignity in committee and on the floor as he moved us to solutions and decent compromise.

He was a voice of cheer, never bearing ill will toward any who disagreed with him. Jim Caffrey was the kind of man you wanted in your corner, because he was a man of deep principle. In him those who were powerless had an ally. Because of him, countless working people in Iowa have a better life today.

Whether he was negotiating for his beloved rubber workers, or legislating in the House, Jim was steady in his purpose. He believed that laboring people were entitled to a living wage and good working conditions and he spent his career fighting for them. And for those unfortunates who could not work, his charity was unstinting.

We remember Jim as an utterly civilized man. Those of us younger than he was found in him a source of inspiration and wisdom. It was dispensed with twinkling eyes between puffs on his pipe. It was woven with anecdote and occasionally spliced talk of his love for opera.

History books sometimes leave out the Jim Caffreys of this world, and that's a sad thing. For I do not believe we can begin to measure how much good this New York native did for Iowa. Suffice to say that it endures.

He told me once that Eileen Farrell sang at his wedding. Like a true Irishman, he has the angels to sing for him now.

Amend Senate File 205, as amended, passed and reprinted by the Senate by striking everything after the enacting clause and inserting in lieu thereof the following:

"Section 1. Section two hundred seventy-nine point thirteen (279.13), Code 1975, is amended by striking

the section and inserting in lieu thereof the following:

279.13 CONTRACTS WITH TEACHERS.

1. Contracts with teachers, which for the purpose of this section means all certificated employees of a school district including registered nurses who are also certificated teachers, shall be in writing and shall state the number of contract days, the annual compensation to be paid, and any other matters as may be mutually agreed upon, which may include employment for a term not exceeding the ensuing school year, except as otherwise authorized.

The contract is invalid if the teacher is under contract with another board of directors to teach during the same time period until a release from the other contract is achieved. The contract shall be signed by the president of the board and teacher and shall be filed with the secretary of the board before the teacher enters into performance under the contract.

2. If the teacher has been employed at least three consecutive years as a teacher in the same school districts, the contract shall remain in force and effect for the period stated in the contract and shall be automatically continued for equivalent periods except as modified or terminated by mutual agreement of the board of directors and the teacher or as terminated in accordance with the provisions specified in this chapter. A contract shall not be offered by the employing board to a teacher under its jurisdiction prior to March first of any year.

A teacher who has not accepted a contract for the ensuing school year tendered by the employing board may resign effective at the end of the current school year by filing a written resignation with the secretary of the board. The resignation must be filed not later than the last day of the current school year or the date specified by the employing board for return of the contract, whichever date occurs first. **However, a teacher shall not be required to** return a contract to the board less than twenty-one days after the contract has been offered.

3. Teachers employed in the same school district for less than three consecutive years are probationary teachers. **However, a board of directors may waive**

Page 2

the probationary period for any teacher who previously has served a probationary period in another school district. If the board, upon the recommendation of the superintendent, is considering termination of a probationary teacher's contract, the board shall notify the probationary teacher in writing and list any alleged deficiencies. If the deficiencies are not corrected to the board's satisfaction, the contract of a probationary teacher may be terminated at the

end of the contract period upon written notice to that effect prior to March thirty-first of any year. The written notice shall state the reasons for termination. Following receipt of the written notice, the probationary teacher may request a private conference with the board and, if requested, the conference shall be held within twenty days following receipt of the request. The board may be represented by its legal representative, if any, the superintendent or the superintendent's representative, and the teacher shall appear and may be represented by counsel and by the teacher's representative, not to exceed five, if any. Within three days following the private conference, a person designated by the board shall make a written recommendation to the board. The board, at its next regular meeting, shall by roll call vote, decide the retention or termination of the probationary teacher. The board's decision shall be final and binding unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the teacher or an alleged violation of public employee rights of the teacher under section twenty point ten (20.10) of the Code.

4. Within five days after receipt of the written notice by the teacher that the board has voted to consider termination of the contract of a teacher who is not a probationary teacher, the teacher may request in writing to the secretary of the board, that the notification be forwarded to the professional teaching practices commission along with a request that the professional teaching practices commission submit a list of five qualified hearing officers to the parties. Within three days of receipt of the list of qualified hearing officers, the teacher and the school board shall select a hearing officer by alternatively removing a name from the list until only one name remains. The person whose name remains is the hearing officer. The teacher and the school board shall determine by lot which party shall remove the first name from the list submitted by the commission.

Page 3

If the teacher does not request such a hearing, the board, within fifteen days after receipt by the teacher of the written notice of consideration of termination of the contract, may determine the continuance or discontinuance of the contract. Board action shall be by majority roll call vote entered in the minutes of the meeting. Notice of the board action shhall be immediately sent to the teacher by certified mail.

5. The hearing officer shall notify the secretary of the school board and the teacher in writing concerning the date, time, and location of the hearing.

The hearing shall be attended by the members of the board and their legal representatives if any, the superintendent or the superintendent's representative, the teacher and the teacher's representatives if any, not to exceed five, and the teacher's immediate supervisor and the supervisor's representatives, if any. The hearing officer shall hold a hearing, make findings of fact, and make a recommended decision. The hearing shall be held not sooner than fifteen days and not later than twenty-five days following receipt of the teacher's request by the professional teaching practices commission. The hearing shall be conducted pursuant to rules adopted by the professional teaching practices commission. The hearing officer shall have the authority to issue subpoenas to compel the attendance of witnesses and the production of records pertinent to the case. Evidence presented at the hearing shall be limited to the specific reasons stated in the notice to consider termination. Each party shall have the right to call witnesses in its own behalf and to cross-examine other witnesses. A transcript or recording shall be made of the proceedings at the hearing. No participant in the private hearing shall be liable for any damage to any person if any statement is determined to be erroneous as long as the statement was made in good faith at the hearing.

6. Within fifteen days following the conclusion of the hearing, the hearing officer shall make a recommended decision as to whether or not the contract of the teacher should be terminated, and shall give a copy of the recommended decision to the teacher and the school board. The recommended decision of the hearing officer shall become the final decision of the board unless within ten days after the filing of such decision, the teacher files a written notice of appeal with the secretary of the board, or the board on its own motion, determines to review the

Page 4

decision. Board action to review the hearing officer's recommended decision shall be by majority roll call vote, entered in the minutes of the meeting. The board shall immediately notify the teacher of its action by certified mail.

7. If the teacher appeals to the board, or if the board determines on its own motion to review the recommended decision of the hearing officer, a private hearing shall be held before the board within five days after the petition for review, or motion for review, has been made. The board shall hear the case upon the record as submitted before the hearing officer, except that new evidence may be considered. The secretary of the board shall give the teacher

written notice of the time, place, and date of hearing. The hearing shall be attended by members of the board and their legal representatives if any, the superintendent or the superintendent's representative, the teacher and the teacher's representatives if any, not to exceed five, and the teacher's immediate supervisor and the supervisor's representatives, if any. No participant in the private hearing shall be liable for any damage to any person if any statement is determined to be erroneous as long as the statement was made in good faith at the hearing. The board shall meet within five days after the conclusion of the hearing to determine the question of continuance or discontinuance of the contract. The board shall take action by a majority roll call vote, entered in the minutes of the board.

The secretary of the board shall mail notice of the board's action to the teacher by certified mail, which shall be mailed immediately following the action.

8. A teacher within thirty days after notification by the board of discontinuance of the contract may appeal to the district court of the county in which the administrative office of the school district is located.

The court may affirm the board's action. The court shall reverse, modify, or grant any other appropriate relief from the board action, equitable or legal, and including declaratory relief, if rights of the teacher have been prejudiced because the board action is:

a. In violation of constitutional or statutory provisions,

b. In excess of the statutory authority of the board,

c. In violation of board policy or rule,

d. Made upon unlawful procedure,

Page 5

e. Affected by other error of law,

f. Unsupported by a preponderance of the competent evidence on the record when that record is reviewed as a whole, or

g. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or clearly unwarranted exercise of discretion.

9. The hearings, meetings and conferences pertaining to the dismissal of a teacher shall be closed meetings, except that final action to terminate a teacher's contract shall be by roll call vote and entered in the minutes of the meetings.

10. The provisions of this section shall not affect the power of the board of directors to discharge a teacher for cause under the provisions of section two hundred seventy-nine point twenty-four (279.24) of the Code.

Sec. 2. Section two hundred seventy-nine point twenty-four (279.24), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

279.24 DISCHARGE OF TEACHER. The board may, by a majority vote, discharge any teacher for any just cause which may include incompetency, or inattention to duty. Prior to the discharge, the board shall conduct, at a meeting of the board held for that purpose, a full and fair investigation of the specific reasons for the proposed action. The teacher shall receive three days written notice of the time and place of such meeting, a specification of the alleged causes for discharge, and a list of the witnesses proposed to be called by the board. The teacher and the teacher's representatives if any not to exceed five shall be allowed to be present at the meeting, to call and cross-examine witnesses, and to otherwise make a defense. A record of the meeting shall be made and kept. Following the board decision to discharge the teacher, the teacher shall be notified promptly in writing, stating the specific reasons for the action.

Within twenty days following receipt of the decision of the board, the teacher may appeal the decision following the procedure stated in chapter two hundred ninety (290) of the Code. However, the superintendent may suspend a teacher for any of the reasons listed in this section and recommend that the board discharge the teacher. The superintendent shall immediately notify the board of the suspension. The board shall meet within ten school days of receipt of the notice to consider discharging the teacher and shall conduct

a full and fair investigation of the specific reasons for the recommended discharge in the same manner as if the teacher had not been suspended. The teacher shall be notified by personal service of the time and place of the meeting immediately after the meeting time and place have been set. If the board votes not to discharge the teacher, the teacher shall be reinstated and the board shall award back pay for the period during which the teacher was suspended.

Sec. 3. Chapter two hundred seventy-two A (272A), Code 1975, is amended by adding the following new section:

NEW SECTION. LIST OF HEARING OFFICERS. The commission shall maintain a list of qualified hearing officers who shall have knowledge of the educational systems of this state. When requested under the provisions of section two hundred seventy-nine point thirteen (279.13) of the Code, the commission shall immediately submit a list of five qualified hearing officers to the parties. The hearing shall be held

pursuant to rules adopted by the professional teaching practices commission. The full costs of the hearing shall be shared equally by the parties. No person who is employed as a teacher or administrator by a school district or is serving as an incumbent school board member may serve as a hearing officer."

490A.23 ANNEXED AREAS—ELECTRIC SERVICE.

1. All rights of municipal corporations to franchise and regulate use of streets, alleys and other public property, and all rights acquired by franchise or agreement shall be preserved in such municipalities, excepting only the duties and jurisdiction conferred upon the commission in this

chapter.

2. Whenever the corporate boundaries of any city are extended, if a public utility which does not have a municipal franchise for such city is providing electric service to customers in such extended area at the time of the extension of corporate boundaries, such utility may continue to provide electric service to such customers until six years from the date the corporate boundaries shall have been extended. If such utility does not acquire a municipal franchise from such city within six years of the extension of the corporate boundaries, then, at the end of six years from the date the corporate boundaries shall have been extended, the municipally-owned utility or municipally-franchised public utility serving such city shall purchase the facilities of the non-franchised utility located within such extended area and shall furnish such service without interruption upon the acquisition of such facilities. Upon such determination of the just and

Local

Dear Mr. Secretary:

I hereby transmit Senate File 1062, an Act relating to the financing of political subdivisions of this state by providing budget limitations for certain political subdivisions, providing property tax credits for certain property owners and renters, making changes in the procedures for the assessment and valuation of certain taxable property, by amending the school foundation law, creating a task force for the study of local govern-

ment finance and services, making certain provisions of the Act retroactive, and making appropriations.

Senate File 1062 is approved April 26, 1976, with the following exceptions which I hereby disapprove.

I am unable to approve Item 4 designated as Section 4 in the Act which reads as follows:

"Sec. 4. SPECIAL DISTRICT LEVY LIMITATION. The maximum amount in dollars which may be levied by a special purpose district over the amount in dollars levied for the base year shall be limited to an aggregate increase of nine percent for the fiscal year beginning July 1, 1976 and seven percent for the fiscal years beginning July 1, 1977 and July 1, 1978, for the following designated property tax levies except as otherwise provided in this division:

1. The tax levy by a benefited water district for the maintenance of the water system authorized pursuant to section three hundred fifty-seven point twenty-five (357.25) of the Code.

2. The tax levy by a benefited fire district to provide fire protection within the district authorized pursuant to section three hundred fifty-seven B point five (357B.5) of the Code which permits the county board of supervisors to continue the levy upon dissolution of the district until all debts and obligations of the dissolved district are paid.

3. The tax levy by a benefited street lighting district authorized pursuant to section three hundred fifty-seven C point seven (357C.7) and three hundred fifty-seven C point eleven (357C.11) of the Code.

4. The tax levy authorized pursuant to section four hundred sixty-six point four (466.4) of the Code permitting a levy sufficient to raise the amount necessary for maintenance of a system to provide internal drainage necessary by the construction of a levee along a navigable stream forming a part of the boundary of the state.

5. The tax levy for a soil conservation district authorized pursuant to section four hundred sixty-seven A point twenty (467A.20) of the Code.

6. The tax levy authorized pursuant to section four hundred eighty-three point one (483.1) of the Code to provide aid to railroads.".

I am unable to approve Item 17 designated as Section 17 of the Act which reads as follows:

"Sec. 17. AGRICULTURAL PROPERTY VALUATION. Notwithstanding the provisions of section four hundred forty-one point twenty-one (441.21) of the Code, for assessments made as of January 1, 1976, the actual value of each tract of agricultural property consisting of more than ten acres shall be computed by multiplying the valuations established by the assessor and approved by the board of review by the percentage which the 1975 income value per acre bears to the 1975 actual value per acre of the agricultural property both as determined by the director. The county auditor shall proceed to make the necessary adjustments on the tax lists.

If the valuation of the agricultural property is increased in a county, the county auditor shall notify by ordinary mail the owners of agricultural property affected by the adjustment made pursuant to this section. The local board of review shall reconvene for a period of thirty days following the notification to the taxpayer in counties where valuations have been increased under this section. The notice shall include the adjusted value of the property, the dates during which the board of review is reconvened, and that a protest may be filed within twenty days from the date the local board of review is reconvened. The protest shall be limited to the adjustment made pursuant to this section. The provisions of this section shall apply only to valuations of agricultural property valued as of January 1, 1976."

I am unable to approve Item 18 designated as Section 18 of the Act which reads as follows:

"Sec. 18. Notwithstanding the provisions of section four hundred forty-one point twenty-one (441.21) of the Code, for assessments made as of January 1, 1977, in assessing and determining the actual value of agricultural land, except structures located thereon, the value shall be computed on the basis of the productivity and net earning capacity of the land determined on the basis of the use for agricultural purposes capitalized at a rate representing a fair return on the investment, such rate to be established by the state board of tax review and applied uniformly among counties and among classes of property. The actual value of a structure located on agricultural land shall be the fair and reasonable market value of the structure. The provisions of this section shall apply only to valuations of agricultural property valued as of January 1, 1977."

I am unable to approve Item 19 designated as Section 19 of the Act which reads as follows:

"Sec. 19. EFFECTIVE DATE. The provisions of section seventeen (17) of this Act shall be effective to January 1, 1976 for valuations of agricultural property assessed as of January 1, 1976 and to this extent the provisions of section seventeen (17) are retroactive."

I am unable to approve Item 23 designated as Section 23 of the Act which reads as follows:

"Sec. 23. Notwithstanding the provisions of section four hundred twenty-five point one (425.1), subsections two (2), three (3), and four (4) of the Code, the homestead tax credit shall be computed so as to give a credit against the tax on each eligible homestead in the state in an amount equal to the actual levy on the first five thousand dollars of actual value for each homestead. The provisions of this section shall only be applicable for each homestead tax credit claimed between January 1, 1976 and July 1, 1976 and approved and for each homestead tax credit claimed between January 1, 1977 and July 1, 1977 and approved except as provided in sections forty (40) and forty-one (41) of this Act."

I am unable to approve Item 24 designated as Section 24 of the Act which reads as follows:

"Sec. 24. EFFECTIVE DATE. The provisions of section twenty-three (23) of this Act are effective to January 1, 1976 for credits claimed on or after January 1, 1976 and approved under chapter four hundred twenty-five (425) of the Code for a homestead tax credit on an eligible homestead and to this extent the provisions of section twenty-three (23) of this Act are retroactive."

I am unable to approve Item 40 designated as Section 40 of the Act which reads as follows:

"Sec. 40. If the unencumbered balance of the general fund of the state on June 30, 1976 does not exceed fifty million dollars, the homestead tax credit computed in the manner provided in section twenty-three (23) of this Act shall not apply and the homestead tax credit for claims filed in 1976 shall be computed so as to give a credit against the tax on each eligible homestead in the state in an amount equal to the actual levy on the first four thousand five hundred dollars of actual value for each homestead. The county auditor shall compute the homestead tax credit in the manner provided in section twenty-three (23) of this Act and if the general fund balance does not exceed fifty million dollars, the department of revenue shall reduce the amount of each homestead tax credit claim certified to the department by ten percent and recertify the amount of the credit to be allowed on each eligible homestead to the county treasurers of the respective counties.

If the unencumbered balance of the general fund of the state on June 30, 1976, does not exceed fifty million dollars, there is appropriated for the fiscal year beginning July 1, 1977 and ending June 30, 1978 an amount equal to thirteen million (13,000,000) dollars, or so much thereof as may be necessary, to the agricultural land credit fund and the provisions of section four hundred twenty-six point one (426.1) of the Code shall not apply for the fiscal year beginning July 1, 1977 and ending June 30, 1978.

If the provisions of this section become effective and the amount of funds appropriated to the agricultural land credit fund is the amount specified in this section, the state comptroller shall recertify to the county auditors of the respective counties the pro rata percentage of reimbursement from the agricultural land credit fund which shall be distributed by the state comptroller."

I am unable to approve Item 41 designated as Section 41 of the Act which reads as follows:

"Sec. 41. If the unencumbered balance of the general fund of the state on June 30, 1977 does not exceed fifty million dollars, the homestead tax credit computed in the manner provided in section twenty-three (23) of this Act shall not apply and the homestead tax credit for claims filed in 1977 shall be computed so as to give a credit against the tax on each eligible homestead in the state in an amount equal to the actual levy on the first four thousand five hundred dollars of actual value for each homestead. The county auditor shall compute the homestead tax credit in the manner provided in section twenty-three (23) of this Act and if the general fund balance does not exceed fifty million dollars, the department

of revenue shall reduce the amount of each homestead tax credit claim certified to the department by ten percent and recertify the amount of the credit to be allowed on each eligible homestead to the county treasurers of the respective counties.

If the unencumbered balance of the general fund of the state on June 30, 1977, does not exceed fifty million dollars, there is appropriated for the fiscal year beginning July 1, 1978 and ending June 30, 1979 an amount equal to thirteen million (13,000,000) dollars, or so much thereof as may be necessary, to the agricultural land credit fund and the provisions of section four hundred twenty-six point one (426.1) of the Code shall not apply for the fiscal year beginning July 1, 1978 and ending June 30, 1979.

If the provisions of this section become effective and the amount of funds appropriated to the agricultural land credit fund is the amount specified in this section, the state comptroller shall recertify to the county auditors of the respective counties the pro rata percentage of reimbursement from the agricultural land credit fund which shall be distributed by the state comptroller."

During the past decade, considerable public debate has centered on property tax and the burdens it imposes. When concern over property taxes was at a fever pitch in 1971, we developed and passed the school foundation program. This long-term plan, which shifted the funding of increased school costs from property taxes to state revenues, has been a key to our success in recent years in stabilizing previously skyrocketing property taxes.

That property tax stability was jolted with the equalization order issued by the Director of Revenue in October, 1975. Required by law, and necessary to make our tax system an equitable one, the equalization order reflected the inordinate increase in property valuations across Iowa. As a result of the average increase of 30% in property valuations, Iowans faced the very real prospect of a substantial shift in school funding from state aid to property taxes and the possibility of local governments increasing their budgets to take advantage of the higher valuations.

In mid-January, we presented to the General Assembly our proposals to cushion what we believed would be an undesirable and unnecessary shock if no action were taken. Our proposals included a substantial increase in state aid to schools, reasonable limits on the additional property tax dollars that could be raised by local governments, and—very important—a task force on local government services and funding sources. This task force could amass the information so a more refined analytical approach could be developed for the rendition and funding of local government services. We offered these recommendations to the General Assembly, willing to accept improvements that might be made during the law-making session.

Now, after more than 90 days and after a cascade of words of emotional debate in both Houses, we are convinced of the soundness of our approach—to limit property tax increases by having the state bear the major share of increased school costs.

* * * * *

Before we submitted our recommendations, the General Assembly had begun to wrestle with the property tax problem. Property tax deliberations by the General Assembly during the past six months have followed a tortuous trail beginning with an inconclusive interim study committee, pro-

gressing to lengthy Ways and Means Committee sessions, heated and protracted floor debates and intricate off-the-floor negotiations, and culminating in extraordinary conference committee deliberations and decisions.

From the time the Senate Ways and Means Committee first approved Senate File 1062 for debate on January 27 to the final vote by the House on April 13, the members of the General Assembly studied and considered a wide range of alternatives. Various budget limits, changes in our school aid formula, new property tax credits and exemptions, local option taxation and property valuation rollback and weightings are only some of the major options seriously debated by the legislature.

The final version of Senate File 1062 is a reflection and product of the often painful deliberations by the legislature on this subject. Its numerous provisions are an amalgam of the various proposals doggedly pursued throughout the deliberations. The raw political fact that no single approach enjoyed the support of a majority of both Houses, when combined with the exigencies of time, resulted in a bill where much—perhaps too much—was sacrificed for compromise. The many doubts expressed by so many of those who voted for the measure underscore the unusual odyssey of Senate File 1062.

* * * * *

Any bill of this scope and magnitude will contain both positive and negative provisions. Indeed Senate File 1062 contains several meritorious sections.

It improves our elderly tax credit program by providing more relief to our senior citizens.

The temporary property tax growth limitations of Senate File 1062 for local governments may prevent some otherwise potentially large increases in property tax levies during the next three years. An appeals process is established to accommodate unusual and exceptional needs.

Throughout the debate on Senate File 1062, it was apparent that the data and research needed to pursue the comprehensive and long-range changes being proposed were lacking. This is the reason why we proposed a task force to answer many of the presently unanswerable questions and give us a surer footing to develop a more permanent solution.

Provision for a task force is contained in Senate File 1062. Unfortunately it is restricted in its structure and capabilities. The geographic and partisan restrictions on the task force's membership will make it difficult to secure members with the kind of stature and the varied talents and backgrounds we feel essential for a top-notch task force. And the early reporting date for the task force to make its recommendations may inhibit comprehensive review and analysis of the complex issues at stake.

The most inexplicable and indefensible provision in the task force section is the requirement that public members work without pay while the legislative members receive $40 per day.

While the task force is a far cry from what we had recommended, we intend to make it work.

* * * * *

It is imperative that in important, far-ranging bills that the meritorious features outweigh the countervailing negative aspects. Regrettably, I find

this is not the case in Senate File 1062. There are several very serious considerations that weigh strongly against complete acceptance of this bill.

One consideration of paramount concern to all Iowans is the eventual cost of this legislation. It is estimated by the Revenue Department and State Comptroller that the total cost of the first year of Senate File 1062 (FYE 77) is approximately $7 million more than we recommended. But the real spending problem is in the second year (FYE 78) when it is estimated that the bill will cost approximately $21 million more than we originally recommended.

Even these substantial cost estimates are conservative. We have reason to believe that with the weaker limitations on property tax increases by local governments, the cost of new homestead credits in Senate File 1062 may be considerably more than estimated.

One would have to view Senate File 1062 with much hesitation and trepidation solely because of its cost, especially since we do not know what other spending measures this legislature may adopt. Should the State be required to seek new or increased taxes in two or three years because of this bill, Iowans would have the kind of tax relief they can hardly afford.

* * * * *

Senate File 1062 makes a long-term commitment with two marked departures from our present taxing system—a changed and greatly enlarged homestead credit and the use of 100% productivity for the assessment of agricultural land with a twist that could be detrimental to some farmers. While these departures may be desirable, Senate File 1062 initiates them based on little more than cursory knowledge of their impact on our tax system, long-term implications, and desirability vis-a-vis future alternatives. Further, the task force should not be preempted from considering all alternatives.

The deviation from existing policies contained in Senate File 1062 is demonstrated in its effect on state aid for schools. For the first time in many years, and contrary to the direction we have been pursuing, state aid for schools will actually decrease next year—from about $383 million to $378 million. Considering that school costs next year will be in excess of $55 million more than this year, the decrease in state aid for schools is a radical shift from our present policy of increased school costs being financed primarily from state revenues. The approach we have had is a proven method of property tax relief—and has equalized education for our young people.

* * * * *

While Senate File 1062 would soften the blow of increased property taxes in some areas more than our proposal, it provides no relief for Iowans who rent. It is estimated that roughly one-fifth of all homes in the residential class of property in the State are rental units. Since the homestead credit is available only to owner-occupants, renters will receive no benefits under the bill even though their rental payments will reflect increased property taxes.

Finally, I point out that Senate File 1062 does little to keep industrial, personal, and utility property from enjoying a reduction in taxes while agricultural and residential property taxes increase—a point often criticized during the debate on this bill.

* * * * *

As we have reviewed Senate File 1062, it has become more and more apparent that this measure is poorly conceived and ill-designed. The bill is so fraught with uncertainties and difficulties that we have found few legislators willing to sing its praises. It is indeed surprising that a bill of such consequence would elicit so little support following passage while generating, from members of both parties, so many requests for a full or item veto.

If I were to veto Senate File 1062 in total, for which a good argument can be made, the General Assembly would be compelled to reconsider the bill, start all over, or return in special session in order to keep Iowans from being unduly hit by excessive property tax increases. Yet as legislators continue to tell me, there is little reason to believe this legislature could turn out a better product. The same differences and the same problems frustrating the General Assembly during the development of Senate File 1062 still exist.

While there is no assurance that the legislature would give us an improved bill should I veto Senate File 1062, there would be a guarantee of more lost time in the local budgetary process. Should this occur, local units of governmen would be delayed in their tax collections and would incur extra interest cost of some $2 million a month.

While I am tempted to veto Senate File 1062, the prospect of havoc, little or no improvement, and added expense for local governments persuades me to sign into law the first year of this bill. Iowans must have some help and the first year under Senate File 1062 does send state revenues back to give some relief to some taxpayers.

The same considerations do not hold true for the second and third years of Senate File 1062. Next year we will have better information relative to the amount of money available from state resources for financing a property tax package for future years. We also will have the benefit of the efforts of the task force and can act upon its recommendations after they are made—instead of before. The new General Assembly will be in a position to consider improvements in or alternatives to the second and third year provisions of Senate File 1062 in a timely fashion. It could, of course, accept the second and third year provisions of Senate File 1062 if the data, statistics, and judgment accumulated during the interim warrant it.

Because of these considerations, I have decided to item veto from Senate File 1062 the homestead credits for FYE 1978 and FYE 1979, the change in assessment procedures for agricultural property for the same two years, and the automatic surplus triggers which are operative only because of the second and third years of the bill.

By vetoing the second and third years of this bill, I realize that prompt action will have to be taken to achieve a fair and equitable tax program when the next legislative session convenes.

This item veto should not be construed as opposition on my part to the establishment of additional productivity for agricultural land or assessment changes for other classes of property. It does mean that there are unknowns contained in this tax package that, if uncorrected, could do more harm than good to many taxpayers who are hoping for some relief.

I am also item vetoing the property tax limitations for special districts. It was intended that these special purpose districts be under the property tax limitations, but further study convinces us that the administration of and compliance with the limitations would be virtually impossible.

* * * * *

While I recognize there is always risk in an action such as I am taking today with this item veto, I truly believe that the risk is well worth it when we consider the definite possibility of writing into law next session a far superior plan—one that will be supported by fact and which will help the farmer and the residential dweller. It is hard to imagine that next year's effort will not produce something at least as good and hopefully much better than Senate File 1062.

It must now be apparent that an equitable solution to the basic problem—how local government services can be supplied to our people and how the costs of these services should be allocated—is not simple to develop—but neither is it impossible. The combination of better data and the dedication of people to improve the existing system can surely result in the evolution of a program that can meet the tests of time.

For these reasons, I hereby disapprove the aforementioned eight items in accordance with Amendment 4 of the Amendments of 1968 to the Constitution of the State of Iowa. All other items of Senate File 1062 are hereby approved this date.

Sincerely,
ROBERT D. RAY
Governor

Sec. ..... Section seventeen A point four (17A.4), subsections one (1) and two (2), Code 1975, are amended to read as follows:

1. Prior to the adoption, amendment, or repeal of any rule an agency shall:

a. Give notice of its intended action by [causing a notice] *submitting two copies of the notice to the Code editor* to be published in the "Iowa Administrative Code" *created pursuant to section seventeen A point six (17A.6) of the Code.* Any notice of intended action shall be published at least thirty-five days in advance of the action. The notice shall include a statement of either the terms or substance of the intended action or a description of the subjects and issues involved, and the time when, the place where, and the manner in which interested persons may present their views thereon.

b. Afford all interested persons [reasonable opportunity] *not less than twenty days* to submit data, views or arguments in writing. If timely requested in writing by twenty-five interested persons, by a governmental subdivision, by the administrative rules review committee, by an agency, or by an association having not less than twenty-five members, the agency must give interested persons an opportunity to make oral presentation according to agency rules which give the public [adequate] *not less than twenty days* notice of the time when and the place where oral presentation may be made, and which provide for the presentation prior to agency action on the rule which is the subject of the proceeding. The agency shall consider fully all written and oral submissions respecting the proposed rule. Within one hundred eighty days following either the notice published according to the provisions of subsection 1, paragraph "a" or *within one hundred eighty days after* the last date of the oral presentations on the proposed rule, whichever is later, the agency shall adopt a rule pursuant to the rule-making proceeding or shall terminate the proceeding *by publishing notice of termination in the Iowa administrative code.* If requested to do so by an interested person, either prior to adoption or within thirty days thereafter, the agency shall issue a concise statement of the principal reasons for and against the rule it adopted, incorporating therein the reasons for

overruling considerations urged against the rule.

c. Upon the request of at least two members of the administrative rules review committee, publish in the "Iowa Administrative Code" an estimate of the economic impact of the proposed rule adoption, amendment, or repeal upon all persons affected by it and upon the agency itself. If the agency determines that such an estimate cannot be formulated, the reasons for impossibility of formulation shall

be published instead of the estimate. An estimate of the adoption, amendment or repeal of the rule. In the case of a rule issued under subsection two (2) or made effective under the provisions of section seventeen A point five (17A.5), subsection two (2), paragraph b of the Code, an estimate, or the reasons for the impossibility of formulating an estimate shall be published within thirty days of the request.

2. When an agency for good cause finds that notice and public participation would be impracticable[, unnecessary,] or contrary to the public interest, the provisions of subsection 1 shall be inapplicable *if the rule which is so adopted provides by its own terms that it shall be effective for only one hundred eighty specified days. If an agency for good cause finds that notice and public participation would be unnecessary, subsection 1 shall be inapplicable if a majority of the members of the Administrative Rules Review Committee approve the inapplicability.* The agency shall incorporate in each rule issued in reliance upon this provision either the finding and a brief statement of the reasons therefor, or a statement that the rule is within a very narrowly tailored category of rules whose issuance has previously been exempted from subsection 1 by a special rule relying on this provision and including such a finding and statement of reasons for the entire category. In any action contesting a rule adopted pursuant to this subsection, the burden of proof shall be on the agency to show that the procedures of subsection 1 were impracticable, unnecessary, or contrary to the public interest and that, if a category of rules was involved, the category was very narrowly tailored.

Sec. 2. Section seventeen A point five (17A.5), Code 1975, is amended to read as follows:

17A.5 FILING AND TAKING EFFECT OF RULES.

1. Each agency shall file in the office of the secretary of state [a] *three* certified [copy] *copies* of each rule adopted by it[, including all rules as defined in this chapter existing on July 1, 1975]. *Each adopted rule shall, before filing, be submitted*

Page 3

for endorsement by the Code editor that it is in proper form and style. The Code editor shall not hold a rule for endorsement for longer than a week. Lack of endorsement shall not preclude publication of a rule. Two copies of it shall be forwarded to the Code editor. The secretary of state shall keep a permanent register of the rules open to public inspection. [Rules presently on file in the office of the secretary of state need not be refiled.]

2. Each rule hereafter adopted is effective thirty-five days after filing, as required in this

section, and indexing and publication as required by section 17A.6, except that:

a. If a later date is required by statute or specified in the rule, the later date is the effective date.

b. Subject to applicable constitutional or statutory provisions, a rule becomes effective immediately upon filing with the secretary of state, or at a subsequent stated date prior to indexing and publication, or at a stated date less than thirty-five days after filing, indexing and publication, if *the rule provides by its own terms that it is not effective for a period not to exceed one hundred eighty days, as specified, and if* the agency finds:

(1) That a statute so provides;

(2) That the rule confers a benefit or removes a restriction on the public or some segment thereof; or

(3) That this effective date is necessary because of imminent peril to the public health, safety or welfare. In any subsequent action contesting the effective date of a rule promulgated under this paragraph, the burden of proof shall be on the agency to justify its finding. The agency's finding and a brief statement of the reasons therefor shall be filed with and made a part of the rule. Prior to indexing and publication, the agency shall make reasonable efforts to make known to the persons who may be affected by it a rule made effective under the terms of this paragraph.

Sec. 3. Section seventeen A point six (17A.6), subsections one (1) and three (3), Code 1975, are amended to read as follows:

1. The Code editor shall cause to be compiled, indexed and published in loose leaf form all rules adopted by each agency and notice of all proposed rule-making by each agency. The Code editor further shall cause to be [distributed] *published* supplements to this publication at least every other week which

Page 4

supplements shall contain, in such a form that they may be filed in the appropriate places in the compilation, all rules and notices of proposed rules filed for publication in the prior two weeks. The Code editor shall devise a uniform numbering system for rules and may renumber rules before publication to conform with the system.

3. This publication, which shall be known as the "Iowa Administrative Code", shall be made available upon request to all persons who subscribe [thereto] *to it through the state printing division. Copies of this Code so made available shall be kept current by the division.*

Sec. 4. Section seventeen A point eight (17A.8),

Code 1975, is amended by adding the following new subsection:

NEW SUBSECTION. **Notwithstanding section thirteen** point seven (13.7) of the Code, the committee may employ necessary legal and technical staff.

H—6419

Amend Senate File 1258 as follows:

1. Page 2, by striking lines 12 through 35 and inserting in lieu thereof the following new section:

"Sec. ..... Section four hundred ninety A point twenty-three (490A.23), Code 1975, as amended by Acts of the Sixty-sixth General Assembly, 1975 Session, chapter sixty-seven (67), section forty-four (44), is amended by striking the section and inserting the following:

490A.23 ANNEXED AREAS—ELECTRIC SERVICE.

1. All rights of municipal corporations to franchise and regulate use of streets, alleys and other public property, and all rights acquired by franchise or agreement shall be preserved in such municipalities, excepting only the duties and jurisdiction conferred upon the commission in this chapter.

2. Whenever the corporate boundaries of any city are extended, if a public utility which does not have a municipal franchise for such city is providing electric service to customers in such extended area at the time of the extension of corporate boundaries, such utility may continue to provide electric service to such customers until six years from the date the corporate boundaries shall have been extended. If such utility does not acquire a municipal franchise from such city within six years of the extension of the corporate boundaries, then, at the end of six years from the date the corporate boundaries shall have been extended, the municipally-owned utility or municipally-franchised public utility serving such city shall purchase the facilities of the non-franchised utility located within such extended area and shall furnish such service without interruption upon the acquisition of such facilities. The purchasing utility shall pay to the selling utility

the just and reasonable price for such facilities. If the public utilities involved are unable to agree as to the price for such facilities, either utility may file an application requesting the commission to determine such price. Upon application, after notice and hearing, the commission shall determine such price for the facilities, giving due consideration to the cost of the facilities being acquired, any necessary generating capacity and transmission capacity dedicated to serving the customers in the extended area, depreciation, loss of revenue, and the cost of facilities necessary to reintegrate the system of the selling utility after detaching the portion sold. Upon such determination of the just and

Page 2

reasonable price for the facilities, the commission shall direct the transfer of such facilities and customers served thereby. Until such determination by the commission, the facilities shall remain in place and service shall be maintained by the owner. Provided however, that this section shall not apply to production, generation, high-voltage transmission facilities and high-voltage transformers located in such extended area and owned by a public utility which does not have a municipal franchise for such city.

3. Notwithstanding the provisions of section 490A.24, whenever the corporate boundaries of any city are extended, electric service to new customers shall be provided by municipally-owned utility or by any public utility having a municipal franchise for such city. This section shall not be construed to prohibit the granting of a municipal franchise to a public utility by a city in which electric service is presently being furnished by a municipally-owned utility or another municipally-franchised public utility.

4. Where a public utility acquires a municipal franchise from a city presently served by a municipally-owned utility or by another municipally-franchised utility, electric service to new customers shall be provided in accordance with the provisions of section 490A.24"

HOUSE CONCURRENT RESOLUTION 135
By Hansen, Cusack and Welden

Whereas, it appears that certain area detoxification centers in this state incurred various financial obligations during the fiscal year beginning July 1, 1974, on the assumption that state funds would become available to pay seventy-five percent of these obligations but prior to conclusion of contracts with the division of alcoholism as a basis for such reimbursement to the area centers involved; and

Whereas, some of these obligations remain unpaid, and it has been suggested that reimbursement of seventy-five percent of these obligations is, or should be regarded as, a responsibility of the state; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council is authorized to establish during the 1976 legislative interim an appropriate study committee or joint interim subcommittee to determine the extent and nature of the unpaid obligations incurred by area detoxification centers during the fiscal year beginning July 1, 1974 in reliance upon funds expected to be available through the commission on alcoholism, and submit to the first session of the Sixty-seventh General Assembly not later than January 31, 1977 a report including recommendations as to the disposition of these unpaid obligations.

Laid over under Rule 25.

The two installments of property taxes which became delinquent on October 1, 1975, and April 1, 1976, were the property taxes for the fiscal year beginning July 1, 1974 and ending June 30, 1975.

Sec. 2. Section four hundred twenty-eight point four (428.4), unnumbered paragraph one (1), Code 1975, is amended to read as follows:

Property shall be [taxed] *assessed for taxation* each year. Personal property shall be listed and assessed each year in the name of the owner of the personal property on the first day of January *and the assessment made shall be the value of the personal property as of January first of the year of the assessment.* Real estate shall be listed and valued in 1971 and every four years thereafter. *The assessment of real estate shall be the value of the real estate as of January first of the year of the assessment.* In any year, after the year in which an assessment has been made of all the real estate in any assessing jurisdiction, it shall be the duty of the assessor to value and assess or revalue and reassess, as the case may require, any real estate that [he] *the assessor* finds was incorrectly valued or assessed, or was not listed, valued and assessed, in the real estate assessment year immediately preceding, also any real estate [he] *the assessor* finds has changed in value subsequent to January [1] *first* of the preceding real estate assessment year. In any year after the year in which an assessment

has been made of all the real estate in any taxing district, it shall be the duty of the board of review to meet as provided in section 441.33, and where it finds the same has changed in value, to revalue and reassess any part or all of the real estate contained in such taxing district, and in such case, it shall determine the actual value *as of January first of*

the year of the revaluation and reassessment and compute the taxable value thereof, and any aggrieved taxpayer may petition for a revaluation of his property, but no reduction or increase shall be made for prior years. NEW SECTION. The assessment date of January first is the first date of an assessment year period which constitutes a calendar year commencing January first and ending December thirty-first. All property tax statutes providing for tax exemptions or credits and requiring, as a prerequisite thereto, that a claim be filed, shall be construed to require such claims to be filed during the assessment year. In the event that no claim is required to be filed to procure an exemption or credit, the status of the property as exempt or taxable on the levy date of the fiscal year which commences during the assessment year determines its eligibility for exemption or credit. Any statute requiring proration of property taxes for any purpose, unless otherwise stated, shall be for the assessment year and such proration shall be based on the status of the property during the assessment year.

NEW SECTION. The assessment date for property taxes for the fiscal period beginning January 1, 1973 and ending June 30, 1974 and which became delinquent during the fiscal period beginning January 1, 1974 and

ending June 30, 1975, was January 1, 1973. The assessment date for property taxes for the fiscal year beginning July 1, 1974 and ending June 30, 1975 and which became delinquent during the fiscal year beginning July 1, 1975 and ending June 30, 1976, was January 1, 1974. Thereafter, the assessment date is January first for taxes for the fiscal year which commences six months after the assessment date and which becomes delinquent during the fiscal year commencing eighteen months after the assessment date.

Sec. 5. Section four hundred forty-five point thirty-six (445.36), Code 1975, is amended to read as follows:

445.36 PAYMENT—INSTALLMENTS.

1. For fiscal years after July 1, 1975, the property taxes which become delinquent during the fiscal year shall be for the previous fiscal year.

Senate Joint Resolution 1006, a joint resolution proposing an amendment to the Constitution of the State of Iowa to provide home rule for counties and joint county-municipal corporation governments.

Be It Resolved by the General Assembly of the State of Iowa:

Section 1. The following amendment to the Constitution of the State of Iowa is hereby proposed:

Article three (III), legislative department, Constitution of the State of Iowa is hereby amended by adding the following new section:

NEW SECTION. Counties or joint county-municipal corporation governments are granted home rule power and authority, not inconsistent with the laws of the general assembly, to determine their local affairs and government, except that they shall not have power to levy any tax unless expressly authorized by the general assembly. The general assembly may provide for the creation and dissolution of joint county-municipal corporation governments.

If the power or authority of a county conflicts with the power and authority of a municipal corporation, the power and authority exercised by a municipal corporation shall prevail within its jurisdiction.

The proposition or rule of law that a county or joint county municipal corporation government possesses and can exercise only those powers granted in express words is not a part of the law of this state.

Sec. 2. The foregoing proposed amendment to the Constitution of the State of Iowa is hereby referred to the general assembly to be chosen at the next general election for members of the general assembly and the secretary of state is directed to cause the same to be published for three consecutive months previous to the date of said election as provided by law.

The joint resolution having received a constitutional majority was declared to have been adopted and agreed to by the House.

Pursuant to the announcement by the Speaker on page 2276 of the House Journal, the following amendment H—6482 filed by Bina, Cusack, Drake, Harvey, Higgins, Hinkhouse and Oakley from the floor was out of order:

H—6482

Amend Senate Joint Resolution 1006 as passed by the Senate as follows:

1. Page 1, by striking lines 6 through 23, and inserting in lieu thereof the following:

"*NEW SECTION.* Any county may frame a home rule charter for the structure and operation of its own government or for the government of one or more municipal corporations within the county, consistent with the Constitution of this state.

At the general election to be held in the year 1980, and in each tenth year thereafter, and also at such times as the governing body of a county may, by resolution, provide that the question, "Shall there be a charter convention for the purpose of establishing, revising or abolishing charter home rule in this county?", shall be decided by the electors qualified to vote in such county for members of the

general assembly; and in case a majority of the electors so qualified, voting at such election, for and against such proposition, shall decide in favor of a charter convention, the governing body of the county, within sixty days following such election shall establish a procedure for the election of delegates to such charter convention, and for submitting the results of said charter convention, in the form of a proposed charter, to the people, in such manner and within such time as the governing body of the county shall provide; and if the people of the county shall approve and ratify such proposed charter by a majority of the electors qualified to vote in such county for members of the general assembly, voting thereon, such charter shall become the newly established organic law of that county in accordance with the terms thereof.

Whenever the question calling for a charter convention within a county is submitted to the electors for decision, the further question, "Does this municipal corporation desire to be governed by the terms of a county charter?", shall also be decided in each municipal corporation within the county that is not so governed, by the electors qualified to vote in each such municipal corporation for members of the general assembly; and in case a majority of the electors so qualified, voting at any such election, for and against such proposition, shall decide that the municipal corporation does desire to be governed by the terms of a county charter, the governing body of the county charter, if required by countywide vote to establish a procedure for the election of delegates to a charter convention, shall also establish in its

Page 2

election procedure an assurance of delegate representation from each muncipal corporation which has indicated its desire to be governed by the terms of a county charter. The vote at which the people of the county may approve and ratify a charter for county purposes shall also serve to determine if that charter has been approved and ratified for municipal purposes by any of the municipal corporations which had theretofore indicated a desire to be governed by the terms of a county charter and had acordingly participated in the charter convention. If the people of a municipal corporation, at said charter vote, shall approve and ratify such proposed charter by a majority of the electors qualified to vote in such municipal corporation for members of the general assembly, voting thereon, such charter shall become, upon its approval and ratification for county purposes, the newly established organic law of that municipal corporation.

The governing body of a county may present to the

electors a proposition to amend or dissolve an existing charter, but any such proposition shall not become effective unless and until it is approved in the same manner and with the same formality as would be required to approve and ratify the results of a charter convention. Neither this amendatory power nor that which is implicit in the powers given to a charter convention shall prohibit the inclusion within a charter of more restrictive terms and conditions affecting the right to amend the same; in which case, those restrictive terms and conditions shall not be abrogated except through compliance therewith or by an act of the general assembly declaring the restrictions, or any of them, to be against public policy. In submitting a proposed charter, charter amendment, or terms for abolishing a charter, alternate articles or propositions may be presented for the choice of the voters and may be voted on separately without prejudice to others.

A charter so established shall supersede all laws inconsistent therewith, save only that it be consistent with the Constitution of this state.

The position and term of all elective officers who are in office at the time of the approval of a home rule charter shall terminate or continue as provided in the charter.

Counties functioning under charters shall continue to act in an administrative capacity for the state. In that capacity such counties shall continue to have all the rights, powers, privileges, and benefits then

Page 3

possessed or thereafter conferred by general law or the charter. All such authority granted to and imposed on the county officers by general law shall be vested in the governing body of the county unless expressly vested in specific officers by the charter. The governing body may by resolution delegate any of its executive or administrative powers, authority, or duties not expressly vested in specific officers by the charter, to any county officer or officers or county employee or employees.

The general assembly may by passage of a law receiving a majority vote of both houses discontinue specific taxes or methods of collecting revenues established in such charters, but not in a manner to jeopardize rights of existing bond holders.

Counties not adopting charters shall have all powers and functions not denied or limited by this Constitution or state law, except that they shall not have power to levy any tax unless expressly authorized by the general assembly.

If the power or function of a county not adopting a charter conflicts with the power or function of a municipal corporation, the power or function

exercised by the municipal corporation shall prevail within its jurisdiction."

2. Amend the title, by striking lines 2 and 3, and inserting in lieu thereof the words "of the State of Iowa to allow counties to adopt charters and provide home rule".

HOUSE JOINT RESOLUTION 1003 WITHDRAWN

Spradling of Sioux asked and received unanimous consent to withdraw **House Joint Resolution 1003** from further consideration by the House.

SENATE FILE 1288 SUBSTITUTED FOR HOUSE FILE 1510

Harvey of Scott asked and received unanimous consent to substitute Senate File 1288 for House File 1510.

Senate File 1288, a bill for an act relating to the economic impact of an administrative rule, was taken up for consideration.

Harvey of Scott offered the following amendment H—6423 filed by him and Monroe of Des Moines:

H—6423

Amend Senate File 1288 by striking everything after the enacting clause and inserting in lieu thereof the following:

Sec. ..... Section seventeen A point four (17A.4), subsections one (1) and two (2), Code 1975, are amended to read as follows:

1. Prior to the adoption, amendment, or repeal of any rules an agency shall:

a. Give notice of its intended action by [causing a notice] *submitting two copies of the notice to the Code editor* to be published in the "Iowa Administrative Code" *created pursuant to section seventeen A point six (17A.6) of the Code.* Any notice of intended action shall be published at least thirty-five days in advance of the action. The notice shall include a statement of either the terms or substance of the intended action or a description of the subjects and issues involved, and the time when, the place where, and the manner in which interested persons may present their views thereon.

b. Afford all interested persons [reasonable opportunity] *not less than twenty days* to submit data, views or arguments in writing. If timely requested in writing by twenty-five interested persons, by a governmental subdivision, by the administrative rules review committee, by an agency, or by an association having not less than twenty-five members, the agency must give interested persons an opportunity to make

oral presentation according to agency rules which give the public [adequate] *not less than twenty days* notice of the time when and the place where oral presentation may be made, and which provide for the presentation prior to agency action on the rule which is the subect of the proceeding. The agency shall consider fully all written and oral submissions respecting the proposed rule. Within one hundred eighty days following either the notice published according to the provisions of subsection 1, paragraph "a" or *within one hundred eighty days after* the last date of the oral presentations on the proposed rule, whichever is later, the agency shall adopt a rule pursuant to the rule-making proceeding or shall terminate the proceeding *by publishing notice of termination in the Iowa administrative code.* If requested to do so by an interested person, either prior to adoption or within thirty days thereafter, the agency shall issue a concise statement of the principal reasons for and against the rule it adopted, incorporating therein the reasons for

Page 2

overruling considerations urged against the rule.

c. Upon the request of at least two members of the administrative rules review committee, publish in the "Iowa Administrative Code" an estimate of the economic impact of the proposed rule adoption, amendment, or repeal upon all persons affected by it and upon the agency itself. If the agency determines that such an estimate cannot be formulated, the reasons for impossibility of formulation shall be published instead of the estimate. An estimate of the adoption, amendment or repeal of the rule. In the case of a rule issued under subsection two (2) or made effective under the provisions of section seventeen A point five (17A.5), subsection two (2), paragraph b of the Code, an estimate, or the reasons for the impossibility of formulating an estimate shall be published within thirty days of the request.

2. When an agency for good cause finds that notice and public participation would be impracticable[, unnecessary,] or contrary to the public interest, the provisions of subsection 1 shall be inapplicable *if the rule which is so adopted provides by its own terms that it shall be effective for only one hundred eighty specified days. If an agency for good cause finds that notice and public participation would be unnecessary, subsection 1 shall be inapplicable if a majority of the members of the Administrative Rules Review Committee approve the inapplicability.* The agency shall incorporate in each rule issued in reliance upon this provision either the finding and a brief statement of the reasons therefor, or a statement that the rule is within a very narrowly tailored

category of rules whose issuance has previously been exempted from subsection 1 by a special rule relying on this provision and including such a finding and statement of reasons for the entire category. In any action contesting a rule adopted pursuant to this subsection, the burden of proof shall be on the agency to show that the procedures of subsection 1 were impracticable, unnecessary, or contrary to the public interest and that, if a category of rules was involved, the category was very narrowly tailored.

Sec. 2. Section seventeen A point five (17A.5), Code 1975, is amended to read as follows:

17A.5 FILING AND TAKING EFFECT OF RULES.

1. Each agency shall file in the office of the secretary of state [a] *three* certified [copy] *copies* of each rule adopted by it[, including all rules as defined in this chapter existing on July 1, 1975]. *Each adopted rule shall, before filing, be submitted*

Page 3

for endorsement by the Code editor that it is in proper form and style. The Code editor shall not hold a rule for endorsement for longer than a week. Lack of endorsement shall not preclude publication of a rule. Two copies of it shall be forwarded to the Code editor. The secretary of state shall keep a permanent register of the rules open to public inspection. [Rules presently on file in the office of the secretary of state need not be refiled.]

2. Each rule hereafter adopted is effective thirty-five days after filing, as required in this section, and indexing and publication as required by section 17A.6, except that:

a. If a later date is required by statute or specified in the rule, the later date is the effective date.

b. Subject to applicable constitutional or statutory provisions, a rule becomes effective immediately upon filing with the secretary of state, or at a subsequent stated date prior to indexing and publication, or at a stated date less than thirty-five days after filing, indexing and publication, if *the rule provides by its own terms that it is not effective for a period not to exceed one hundred eighty days, as specified, and if* the agency finds:

(1) That a statute so provides;

(2) That the rule confers a benefit or removes a restriction on the public or some segment thereof; or

(3) That this effective date is necesary because of imminent peril to the public health, safety or welfare. In any subsequent action contesting the effective date of a rule promulgated under this paragraph, the burden of proof shall be on the agency to justify its finding. The agency's finding and

a brief statement of the reasons therefor shall be filed with and made a part of the rule. Prior to indexing and publication, the agency shall make reasonable efforts to make known to the persons who may be affected by it a rule made effective under the terms of this paragraph.

Sec. 3. Section seventeen A point six (17A.6), subsections one (1) and three (3), Code 1975, are amended to read as follows:

1. The Code editor shall cause to be compiled, indexed and published in loose leaf form all rules adopted by each agency and notice of all proposed rule-making by each agency. The Code editor further shall cause to be [distributed] *published* supplements to this publication at least every other week which

Page 4

supplements shall contain, in such a form that they may be filed in the appropriate places in the compilation, all rules and notice of proposed rules filed for publication in the prior two weeks. The Code editor shall devise a uniform numbering system for rules and may renumber rules before publication to conform with the system.

3. This publication, which shall be known as the "Iowa Administrative Code", shall be made available upon request to all persons who subscribe [thereto] *to it through the state printing division. Copies of this Code so made available shall be kept current by the division.*

Sec. 4. Section seventeen A point eight (17A.8), Code 1975, is amended by adding the following new subsection:

NEW SUBSECTION. Notwithstanding section thirteen point seven (13.7) of the Code, the committee may employ necessary legal and technical staff.

Sec. 5. Section eighteen point ninety-seven (18.97), Code 1975, as amended by the Acts of the Sixty-sixth General Assembly, 1975 Session, Chapter 72, is amended by striking unnumbered paragraph 1 and inserting in lieu thereof the following:

The superintendent of printing shall make free distribution of the Code, rules of civil procedure, supreme court rules, the Acts of each general assembly, and, upon request, the Iowa administrative Code as follows:"

2. By amending the title by inserting after the word "rule" the following: "modifying provisions of the Iowa Administrative Procedure Act, limiting the duration of an emergency rule, relating to the duties of the Code editor in publishing the Iowa Administrative Code, relating to the duties of the superintendent of printing in distributing the Iowa Administrative Code, and providing staff for the administrative rules review committee".

H—6450

Amend amendment H—6423 to Senate File 1288, as amended, passed and reprinted by the Senate, page 2, by striking all of lines 2 through 17 and inserting in lieu thereof the following:

c. Upon the request of at least two members of the administrative rules review committee, publish in the "Iowa Administrative Code" an estimate of the economic impact of the proposed rule adoption, amendment, or repeal upon all persons affected by it and upon the agency itself. If the agency determines that such an estimate cannot be formulated, the reasons for impossibility of formulation shall be published instead of the estimate. An estimate shall be published at least fifteen days in advance of the adoption, amendment or repeal of the rule. In the case of a rule issued under subsection two (2) or made effective under the provisions of section seventeen A point five (17A.5), subsection two (2), paragraph b of the Code, an estimate, or the reasons for the impossibility of formulating an estimate shall be published within thirty days of the request.

Amend Senate File 205, as amended, passed and reprinted by the Senate by striking everything after the enacting clause and inserting in lieu thereof the following:

"Section 1. Section two hundred seventy-nine point thirteen (279.13), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

279.13 CONTRACTS WITH TEACHERS.

1. Contracts with teachers, which for the purpose of this section means all certificated employees of a school district including registered nurses who are also certificated teachers, shall be in writing and shall state the number of contract days, the annual compensation to be paid, and any other matters as may be mutually agreed upon, which may include employment for a term not exceeding the ensuing school year, except as otherwise authorized.

The contract is invalid if the teacher is under contract with another board of directors to teach during the same time period until a release from the other contract is achieved. The contract shall be signed by the president of the board and teacher and shall be filed with the secretary of the board before the teacher enters into performance under the contract.

2. If the teacher has been employed at least three consecutive years as a teacher in the same school district, the contract shall remain in force and effect for the period stated in the contract and shall be automatically continued for equivalent periods except as modified or terminated by mutual agreement

of the board of directors and the teacher or as terminated in accordance with the provisions specified in this chapter. A contract shall not be offered by the employing board to a teacher under its jurisdiction prior to March first of any year.

A teacher who has not accepted a contract for the ensuing school year tendered by the employing board may resign effective at the end of the current school year by filing a written resignation with the secretary of the board. The resignation must be filed not later than the last day of the current school year or the date specified by the employing board for return of the contract, whichever date occurs first. However, a teacher shall not be required to return a contract to the board less than twenty-one days after the contract has been offered.

3. Teachers employed in the same school district for less than three consecutive years are probationary teachers. However, a board of directors may waive

Page 2

the probationary period for any teacher who previously has served a probationary period in another school district. If the board, upon the recommendation of the superintendent, is considering termination of a probationary teacher's contract, the board shall notify the probationary teacher in writing and list any alleged deficiencies. If the deficiencies are not corrected to the board's satisfaction, the contract of a probationary teacher may be terminated at the end of the contract period upon written notice to that effect prior to March thirty-first of any year. The written notice shall state the reasons for termination. Following receipt of the written notice, the probationary teacher may request a private conference with the board and, if requested, the conference shall be held within twenty days following receipt of the request. The board may be represented by its legal representative, if any, the superintendent or the superintendent's representative, and the teacher shall appear and may be represented by counsel and by the teacher's representative, not to exceed five, if any. Within three days following the private conference, a person designated by the board shall make a written recommendation to the board. The board, at its next regular meeting, shall by roll call vote, decide the retention or termination of the probationary teacher. The board's decision shall be final and binding unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the teacher or an alleged violation of public employee rights of the teacher under section twenty point ten (20.10) of the Code.

4. If a board determines, after receiving a recommendation from the superintendent that it should con-

sider termination of a contract with a teacher who has completed the probationary period in the school district, the following procedures shall be followed. Within five days following action of the board to consider termination of a teacher's contract, but in no event later than March thirty-first, the teacher shall be notified in writing by letter, personally delivered or mailed by certified mail, that the board has voted to consider termination of the contract. The notification shall be complete when received by the teacher. If the notice has been by certified mail, the notice shall be complete upon mailing. The notice shall state the specific reasons the board is considering termination. Such reasons shall be any just cause which may include incompetency, inattention to duty, inadequate performance, physical

Page 3

or mental disability or sickness which interferes with performance of duty as shown by competent medical evidence and following a one-year leave of absence, or factors which require an adjustment, realignment, or reduction of staff.

5. Within five days after receipt of the written notice by the teacher that the board has voted to consider termination of the contract of a teacher who is not a probationary teacher, the teacher may request in writing to the secretary of the board, that the notification be forwarded to the professional teaching practices commission along with a request that the professional teaching practices commission submit a list of five qualified hearing officers to the parties. Within three days of receipt of the list of qualified hearing officers, the teacher and the school board shall select a hearing officer by alternatively removing a name from the list until only one name remains. The person whose name remains is the hearing officer. The teacher and the school board shall determine by lot which party shall remove the first name from the list submitted by the commission.

If the teacher does not request such a hearing, the board, within fifteen days after receipt by the teacher of the written notice of consideration of termination of the contract, may determine the continuance or discontinuance of the contract. Board action shall be by majority roll call vote entered in the minutes of the meeting. Notice of the board action shall be immediately sent to the teacher by certified mail.

6. The hearing officer shall notify the secretary of the school board and the teacher in writing concerning the date, time, and location of the hearing. The hearing shall be attended by members of the board and their legal representatives if any, the superinten-

dent or the superintendent's representative, the teacher and the teacher's representatives if any, not to exceed five, and the teacher's immediate supervisor and the supervisor's representatives, if any. The hearing officer shall hold a hearing, make findings of fact, and make a recommended decision. The hearing shall be held not sooner than fifteen days and not later than twenty-five days following receipt of the teacher's request by the professional teaching practices commission. The hearing shall be conducted pursuant to rules adopted by the professional teaching practices commission. The hearing officer shall have the authority to issue

Page 4

subpoenas to compel the attendance of witnesses and the production of records pertinent to the case. Evidence presented at the hearing shall be limited to the specific reasons stated in the notice to consider termination. Each party shall have the right to call witnesses in its own behalf and to cross-examine other witnesses. A transcript or recording shall be made of the proceedings at the hearing. No participant in the private hearing shall be liable for any damage to any person if any statement is determined to be erroneous as long as the statement was made in good faith at the hearing.

7. Within fifteen days following the conclusion of the hearing, the hearing officer shall make a recommended decision as to whether or not the contract of the teacher should be terminated, and shall give a copy of the recommended decision to the teacher and the school board. The recommended decision of the hearing officer shall become the final decision of the board unless within ten days after the filing of such decision, the teacher files a written notice of appeal with the secretary of the board, or the board on its own motion, determines to review the decision. Board action to review the hearing officer's recommended decision shall be by majority roll call vote, entered in the minutes of the meeting. The board shall immediately notify the teacher of its action by certified mail.

8. If the teacher appeals to the board, or if the board determines on its own motion to review the recommended decision of the hearing officer, a private hearing shall be held before the board within five days after the petition for review, or motion for review, has been made. The board shall hear the case upon the record as submitted before the hearing officer, except that new evidence may be considered. The secretary of the board shall give the teacher written notice of the time, place, and date of hearing. The hearing shall be attended by members of the board and their legal representatives if any, the

superintendent or the superintendent's representative, the teacher and the teacher's representatives if any, not to exceed five, and the teacher's immediate supervisor and the supervisor's representatives, if any. No participant in the private hearing shall be liable for any damage to any person if any statement is determined to be erroneous as long as the statement was made in good faith at the hearing. The board shall meet within five days after the conclusion of the hearing to determine the question of continuance

Page 5

or discontinuance of the contract. The board shall take action by a majority roll call vote, entered in the minutes of the board.

The secretary of the board shall mail notice of the board's action to the teacher by certified mail, which shall be mailed immediately following the action.

9. A teacher within thirty days after notification by the board of discontinuance of the contract may appeal to the district court of the county in which the administrative office of the school district is located.

The court may affirm the board's action. The court shall reverse, modify, or grant any other appropriate relief from the board action, equitable or legal, and including declaratory relief, if rights of the teacher have been prejudiced because the board action is:

a. In violation of constitutional or statutory provisions,

b. In excess of the statutory authority of the board,

c. In violation of board policy or rule,

d. Made upon unlawful procedure,

e. Affected by other error of law,

f. Unsupported by a preponderance of the competent evidence on the record when that record is reviewed as a whole, or

g. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or clearly unwarranted exercise of discretion.

10. The hearings, meetings and conferences pertaining to the dismissal of a teacher shall be closed meetings, except that final action to terminate a teacher's contract shall be by roll call vote and entered in the minutes of the meetings.

11. The provisions of this section shall not affect the power of the board of directors to discharge a teacher for cause under the provisions of section two hundred seventy-nine point twenty-four (279.24) of the Code.

Sec. 2. Section two hundred seventy-nine point twenty-four (279.24), Code 1975, is amended by striking the section and inserting in lieu thereof the

following:

279.24 DISCHARGE OF TEACHER. The board may, by a majority vote, discharge any teacher for any just cause which may include incompetency, or inattention to duty. Prior to the discharge, the board shall conduct, at a meeting of the board held for that purpose, a full and fair investigation of the specific

Page 6

reasons for the proposed action. The teacher shall receive three days written notice of the time and place of such meeting, a specification of the alleged causes for discharge, and a list of the witnesses proposed to be called by the board. The teacher and the teacher's representatives if any not to exceed five shall be allowed to be present at the meeting, to call and cross-examine witnesses, and to otherwise make a defense. A record of the meeting shall be made and kept. Following the board decision to discharge the teacher, the teacher shall be notified promptly in writing, stating the specific reasons for the action.

Within twenty days following receipt of the decision of the board, the teacher may appeal the decision following the procedure stated in chapter two hundred ninety (290) of the Code. However, the superintendent may suspend a teacher for any of the reasons listed in this section and recommend that the board discharge the teacher. The superintendent shall immediately notify the board of the suspension. The board shall meet within ten school days of receipt of the notice to consider discharging the teacher and shall conduct a full and fair investigation of the specific reasons for the recommended discharge in the same manner as if the teacher had not been suspended. The teacher shall be notified by personal service of the time and place of the meeting immediately after the meeting time and place have been set. If the board votes not to discharge the teacher, the teacher shall be reinstated and the board shall award back pay for the period during which the teacher was suspended.

Sec. 3. Chapter two hundred seventy-two A (272A), Code 1975, is amended by adding the following new section:

NEW SECTION. LIST OF HEARING OFFICERS. The commission shall maintain a list of qualified hearing officers who shall have knowledge of the educational systems of this state. When requested under the provisions of section two hundred seventy-nine point thirteen (279.13) of the Code, the commission shall immediately submit a list of five qualified hearing officers to the parties. The hearing shall be held pursuant to rules adopted by the professional teaching practices commission. The full costs of the hearing shall be shared equally by the parties. No person

who is employed as a teacher or administrator by a school district or is serving as an incumbent school board member may serve as a hearing officer."

Rinas of Linn offered the following amendment H—6118 filed by Rinas, et al.:

H—6118

Amend Senate File 204, as amended, passed and reprinted by the Senate, by striking everything after the enacting clause and inserting in lieu thereof the following:

"Section 1. Section three hundred twenty-one point forty (321.40), Code 1975, as amended by Acts of the Sixty-sixth General Assembly, 1975 Session, chapter one hundred seventy-one (171), sections five (5) and six (6), is amended to read as follows:

321.40 APPLICATION FOR RENEWAL—*RENEWAL REFUSED.*

1. Application for renewal of a vehicle registration shall be made on or after December 1 of the year for which it is registered by the owner upon proper application and by payment of the registration fee for such vehicle, as provided by law.

2. Registration receipts issued for renewals shall

have the word "renewal" imprinted thereon and, if the owner making a renewal application has been issued a certificate of title, the title number shall appear on the registration receipt. All registration receipts for renewals shall be typewritten or printed by other mechanical means. The applicant shall receive a registration receipt.

3. Not more than thirty days nor less than twenty days prior to December first the county treasurer shall cause to be published in a newspaper of general circulation in the county, a notice to vehicle owners. The notice shall contain a list of pertinent information which is required to register a vehicle. The notice shall also include a statement that application for renewal of a vehicle registration shall be made on or after December first of the year for which it is registered and that such renewal may be made by mail on or after November first. The county treasurer may deliver registration plates and other registration documents on which application for renewal has been made in November, to the owner thereof, after the last day of November.

4. The county treasurer shall refuse to renew a motor vehicle registration if all of the following circumstances exist:

a. The board of supervisors of the county in which application for renewal of registration is being made has adopted a resolution stating that in such county a lack of response of the citizens of the county to citations for violations of motor vehicle laws and ordinances has become a significant problem and directing the implementation of the provisions of subsections four (4) through nine (9) of this section; and

Page 2

b. A warrant is outstanding for the arrest of the owner of such motor vehicle or a delinquent citation or notice of violation is outstanding against such owner for an alleged violation of an ordinance enacted pursuant to section three hundred twenty-one point two hundred thirty-six (321.236) of the Code, which violation allegedly occurred within the county in which the application for renewal is being made.

The resolution adopted under paragraph a of this subsection may be rescinded by another resolution of the board of supervisors finding that the problem has significantly abated and directing termination of the provisions of subsections four (4) through nine (9) of this section. Upon adoption of a resolution to implement or rescind the implementation of the provisions of subsections four (4) through nine (9) of this section, the county auditor shall notify the clerk of the district court of such action and

the effective date of such implementation or rescission.

5. After the effective date of a resolution adopted under paragraph a of subsection four (4) of this section, the clerk of the district court shall give written notice by mail to each person against whom a warrant or delinquent citation or notice of violation is outstanding for the alleged violation of an ordinance adopted pursuant to section three hundred twenty-one point two hundred thirty-six (321.236) of the Code. The notice shall state that the registration of any motor vehicle owned by such person in that county will not be renewed until all outstanding warrants have been recalled and there are no delinquent citations or notices of violation outstanding against such person. The clerk of the district court shall also submit, on or before the fifth day of each month, to the county treasurer an alphabetized list of the names of all persons, including their respective addresses, against whom a warrant has been issued or a delinquent citation or notice of violation is outstanding. The clerk of the district court shall not include on such list the name of any person unless notice as required by this subsection is mailed to such person before the fifteenth day of the preceding month.

6. Upon application by a person or agent of a person whose name is on the list prepared under subsection five (5) of this section, the clerk of the district court shall issue a receipt to the person or agent of such person if all warrants or delinquent citations or notices of violations specified under

Page 3

paragraph b of subsection four (4) of this section have been recalled or are no longer outstanding. The receipt shall state that all outstanding warrants have been recalled and that there are no outstanding delinquent citations or notices of violation against the named person. Upon presentation of such receipt, the county treasurer need no longer refuse renewal of a registration because of an outstanding warrant or delinquent citation or notice of violation as specified in subsection four (4) of this section.

7. For each person whose name is listed as provided in subsection five (5) of this section, the local authority alleging violation of an ordinance enacted pursuant to section three hundred twenty-one point two hundred thirty-six (321.236) of the Code, shall pay to the county treasurer the sum of two dollars, which sum shall be credited to the general fund of the county. In addition to any other court cost provided by law, the district court shall assess, at the request of the local authority, the sum of

two dollars against any person whose name has been placed on the list prepared as provided in subsection five (5) of this section and who is convicted of a violation of an ordinance enacted pursuant to section three hundred twenty-one point two hundred thirty-six (321.236) of the Code if such violation was the basis for placing such person's name on the list. The clerk of the district court shall collect the two dollar assessment and remit it to the local authority.

8. For the purposes of this section, a citation or notice of violation of an ordinance adopted pursuant to section three hundred twenty-one point two hundred thirty-six (321.236) of the Code shall be deemed delinquent if it is not paid or adjudicated by the district court within fourteen days after the date of court appearance.

9. The implementation and enforcement of the provisions of subsections four (4) through nine (9) of this section shall not be a defense to the imposition of any penalties provided for in this chapter."

6. No vehicle sold or otherwise transferred pursuant to the provisions of this section shall be driven upon the highway until a valid official certificate of inspection has been affixed thereto and an unrestricted certificate of title, a registration card, and registration plates for the vehicle have been issued to the purchaser or transferee, except as set out in section 321.98. *However, this type of vehicle may be driven upon the highway on a direct route from its place of residence to the closest inspection station if the inspection station issues a one trip permit stating that it is reasonably safe to do so. HOUSE CONCURRENT RESOLUTION 136
By Doyle

Whereas, the question of whether or not a defendant is to be released from custody after arrest and before the defendant's case reaches final disposition is a critical one for both the defendant and the community; and

Whereas, release programs are fundamentally concerned with identifying defendants who are "good risks" to be released from custody prior to trial and with insuring that released defendants show up for scheduled court appearances; and

Whereas, historically, the principal mechanism used to resolve the question of whether a defendant should be released from custody prior to trial has been the money bail system; and

Whereas, the money bail system has been the target of recurrent criticisms for over half a century, and significant efforts have been made to develop viable alternatives to that system; and

Whereas, both the 1967 Report of the President's Crime Commission and the 1973 Report of the National Advisory Commission on Criminal Justice Standards and Goals endorsed bail reform legislation and urged states and localities to incorporate alternatives to traditional money bail into their own criminal justice systems; and

Whereas, the federal system and many states now have a wide range of pretrial options authorized by statute and at least two—Oregon and Illinois—have eliminated commercial bail bondsmen from any role in the criminal justice process; and

Whereas, pretrial diversion programs tend to involve

the delivery of social services to selected defendants and sustained contact with program participants, and most diversion programs explicitly contemplate the ultimate dismissal of the criminal charges for defendants who meet program expectations; and

Whereas, the release of persons on their personal promises to appear for future court dates, known as "release on recognizance" or "ROR," is now commonplace in many jurisdictions; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council direct the 1976 interim study committee on adult penal and correctional systems to consider alternative types of pretrial release, including but not limited to pretrial diversion and "release on recognizance."

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 137
By Brandt and O'Halloran

Whereas, Acts of the Sixty-sixth General Assembly, 1975 Session, chapter sixty-two, section nineteen directed the capitol planning commission to sponsor a statewide contest among public school classes of Iowa history for the purpose of providing a suitable name for the new state office building; and

Whereas, the capitol planning commission has selected a winning essay which recommends that the new state office building be named in commemoration of a distinguished native Iowan, Herbert Clark Hoover who was a distinguished civil engineer, Food Administrator, Secretary of Commerce, and thirty-first President of the United States; and

Whereas, Lou Henry Hoover, the wife of Herbert Clark Hoover, was also a native Iowan whose uncommon qualities, abilities and accomplishments in public and private life distinguished her as one of Iowa's most outstanding women; and

Whereas, Lou Henry Hoover was a scholar, wife, mother and leader, the only woman to be elected twice to serve as national president of the Girl Scouts of the United States of America; and

Whereas, Herbert Clark Hoover and Lou Henry Hoover were two native Iowans who had the vision to see that the American Dream can be realized only through the involvement of this nation's youth in those endeavors which build the character of a people truly able to govern themselves; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the new state office building

The three installments of property taxes which became delinquent on April 1, 1974, October 1, 1974, and April 1, 1975, pursuant to the provisions of chapter four hundred forty-five (445) of the Code, were the property taxes for the period beginning January 1, 1973 and ending June 30, 1974.

The two installments of property taxes which became

delinquent on October 1, 1975, and April 1, 1976, were the property taxes for the fiscal year beginning July 1, 1974 and ending June 30, 1975.

Sec. 2. Section four hundred twenty-eight point four (428.4), unnumbered paragraph one (1), Code 1975, is amended to read as follows:

Property shall be [taxed] *assessed for taxation* each year. Personal property shall be listed and assessed each year in the name of the owner of the personal property on the first day of January *and the assessment made shall be the value of the personal property as of January first of the year of the assessment.* Real estate shall be listed and valued in 1971 and every four years thereafter. *The assessment of real estate shall be the value of the real estate as of January first of the year of the assessment.* In any year, after the year in which an assessment has been made of all the real estate in any assessing jurisdiction, it shall be the duty of the assessor to value and assess or revalue and reassess, as the case may require, any real estate that [he] *the assessor* finds was incorrectly valued or assessed, or was not listed, valued and assessed, in the real estate assessment year immediately preceding, also any real estate [he] *the assessor* finds has changed in value subsequent to January [1] *first* of the preceding real estate assessment year. The assessor shall determine the actual value and compute the taxable value thereof *as of January first of the year of the revaluation and reassessment.* The assessment shall be completed as specified in section 441.28, but no reduction or increase in actual value shall be made for prior years. If the assessment of any such property is raised, or any property is added to the

tax list by the board, the clerk shall give notice in the manner provided in section 441.36, provided, however, that if the assessment of all property in any taxing district is raised the board may instruct the clerk to give immediate notice by one publication in one of the official newspapers located in the taxing district, and such published notice shall take the place of the mailed notice provided for in section 441.36, but all other provisions of said section shall apply. NEW SECTION. The assessment date of January first is the first date of an assessment year period which constitutes a calendar year commencing January first and ending December thirty-first. All property tax statutes providing for tax exemptions or credits and requiring, as a prerequisite thereto, that a claim be filed, shall be construed to require such claims to be filed during the assessment year. In the event that no claim is required to be filed to procure an exemption or credit, the status of the property as exempt or taxable on the levy date of the fiscal year which commences during the assessment year determines its eligibility for exemption or credit. Any statute requiring proration of property taxes for any purpose, unless otherwise stated, shall be for the assessment year and such proration shall be based on the status of the property during the assessment year.

NEW SECTION. The assessment date for property taxes for the fiscal period beginning January 1, 1973 and ending June 30, 1974 and which became delinquent during the fiscal period beginning January 1, 1974 and

Thereafter, the assessment date is January first for taxes for the fiscal year which commences six months after the assessment date and which become delinquent during the fiscal year commencing eighteen months after the assessment date.

Sec. 5. Section four hundred forty-five point thirty-six (445.36), Code 1975, is amended to read as follows:

Sec. 2. *NEW SECTION.* CONSTRUCTION. This Act shall be construed to complement and be harmonized with the applied laws of the United States which have the same or similar purpose as this Act. This construction shall not be made in such a way as to constitute a delegation of state authority to the federal government, but shall be made to achieve uniform application of the state and federal laws prohibiting restraints of economic activity and monopolistic practices.

Sec. 3. *NEW SECTION.* DEFINITIONS. As used in this Act, unless the context otherwise requires:

1. "Commodity" means tangible or intangible property, real, personal, or mixed.

Sec. 6. *NEW SECTION.* EXEMPTIONS. This Act shall not be construed to prohibit:

1. The activities of any labor organization, individual members of such an organization, or group of such organizations, of any employer or group of employers, or of any groups of employees, if these activities are directed solely to legitimate labor objectives which are permitted under the laws of either this state or the United States.

2. The activities of any agricultural or horticultural organization, whether incorporated or unincorporated, or of the individual members of such organizations, if these activities carry out the legitimate objectives of such organizations, to the extent permitted under the laws of either this state or the United States.

3. The activities of persons engaged in the production of agricultural products when these persons act together in associations, corporate or otherwise, with or without capital stock, in collectively processing, preparing for market, handling, and marketing the products of these persons, to the extent permitted under the laws of either this state or the United States. Activities included under this subsection are the maintaining of marketing and purchasing agencies in common and the making of necessary contracts and agreements to effect such purposes. However, such associations must be operated for the mutual benefit of these persons acting as producers to qualify under this subsection.

4. The activities or arrangements expressly

approved or regulated by any regulatory body or officer acting under authority of this state or of the United States.

Sec. 7. *NEW SECTION.* ATTORNEY GENERAL TO ENFORCE. The attorney general, with such assistance as may be required from time to time of the county attorneys in their respective counties, shall institute all civil actions and proceedings brought under this Act in the name of the state.

However, the

Page 4

attorney general may, at any time, transmit information collected under this section to the antitrust division of the United States department of justice and to the attorney general's office of any other state.

Sec. 10. *NEW SECTION.* INVESTIGATION ENFORCEMENT. If a person objects or otherwise fails to obey a written demand or court order issued under section nine (9) of this Act, the attorney general may file in the district court of the county in which the person resides or maintains a principal place of business within this state an application for an order to enforce the demand or order. Notice of hearing and a copy of the application shall be served upon the person, who may appear in opposition to the application. If the court finds that the demand or order is proper, that there is reasonable cause to believe there has been a violation of this Act, and that the information sought or document or object demanded is relevant to the violation, it shall order the person to comply with the demand or order, subject to such modification as the court may prescribe. Upon motion by the person and for good cause shown, the court may make any further order in the proceedings which justice requires to protect the person from unreasonable annoyance, embarrassment, oppression, burden, or expense.

Sec. 11. *NEW SECTION.* PROTECTIVE ORDERS. Upon application of any person who was served a written demand or court order under section nine (9) of this Act, upon notice and hearing, and for good cause shown, the district court may make any order which justice requires to protect the person from annoyance, embarrassment, oppression, or undue burden of expense, including the following:

1. That the examination of this person shall not be taken or that documents or other tangible items shall not be produced for inspection and copying;

2. That the examination or production of documents or other tangible items shall be had only on specified terms and conditions, including a change in the time or place;

3. That certain matters shall not be inquired into or that the scope of the examination or production shall be limited to certain matters;

4. That the examination or production and inspection shall be conducted with only those persons present as designated by the court;

Page 5

5. That the transcript of the examination shall be sealed and be opened only by order of the court;

6. That a trade secret or other confidential research, development, or commercial information shall not be disclosed or shall be disclosed only in a designated way.

Sec. 12. *NEW SECTION.* REMEDIES. The state or a person who is injured or threatened with injury by conduct prohibited under this Act may bring suit to:

1. Prevent or restrain conduct prohibited under this Act and remove the conduct's effect by injunction, divestiture, divorcement, dissolution of domestic enterprises right to do business in this state, compelling the forfeiture or restraint of the issuance of a certificate of incorporation, permit to transact business, license, or franchise, or granting other equitable relief. The state may bring suit under this section without posting bond.

2. Recover actual damages resulting from conduct prohibited under this Act.

3. Recover, at the court's discretion, exemplary damages which do not exceed twice the actual damages awarded under subsection two (2) of this section if:

a. The trier of fact determines that the prohibited conduct is willful or flagrant; and,

b. The person bringing suit is not the state.

4. Recover the necessary costs of bringing suit, including a reasonable attorney fee. However, the state may not recover any attorney fee.

Sec. 13. *NEW SECTION.* CIVIL PENALTY. The suit may be tried to the jury and the civil penalty provided for in this section shall be imposed by the court. The civil penalty assessed shall not exceed ten percent of the total value of the specific commodities by their brand, make, and size or of services either of which were the subject of the prohibited conduct sold in the relevant market in this state by the enterprise in each year in which this conduct occurred, but this penalty shall not

exceed one hundred fifty thousand (150,000) dollars. In computing this penalty, only the four most recent years in which the prohibited conduct occurred, as of commencement of suit under this section, shall be used in the computation.

Sec. 14. *NEW SECTION.* LIMITATIONS.

1. Suit by the state under section thirteen (13)

Page 6

of this Act must be commenced within four years after the cause of action accrues or, if there is fraudulent concealment of this cause of action, within four years after the cause of action becomes known, whichever period is later.

2. Suit by any person under section twelve (12) of this Act must be commenced within four years after the cause of action accrues. However, if this cause is based, in whole or part, on the same set of facts as alleged in a suit brought under section thirteen (13) of this Act, this period shall be extended until one year after the suit brought under section thirteen (13) of this Act is concluded.

Sec. 15. *NEW SECTION.* PRIMA FACIE EVIDENCE. A final decree or judgment, other than a consent decree or consent judgment entered before trial, in a suit brought by the state under sections twelve (12) and thirteen (13) of this Act, is prima facie evidence against the defendant in a suit brought by any person other than the state under section twelve (12) of this Act as to all matters respecting which this decree or judgment would be an estoppel between the state and the defendant. This section shall not affect the application of collateral estoppel or issue preclusion.

Sec. 16. Chapter five hundred fifty-three (553), Code 1975, is repealed.

Sec. 17. *NEW SECTION.* EFFECTIVE DATE. This Act shall take effect on January 1, 1977."

279.13 CONTRACTS WITH TEACHERS—AUTOMATIC CONTINUATION—TERMINATION PROCEDURE.

1. a. Contracts with teachers, which for the purpose of this section means all certificated employees of a school district and nurses employed by the board, excluding superintendents, assistant superintendents, principals and assistant principals, shall be in writing and shall state the number of contract days, the annual compensation to be paid, and any other matters as may be mutually agreed upon, including but not limited to educational leaves and reimbursement for tuition paid by the teacher for courses approved by the board of directors, and which may include employment for a term not exceeding the ensuing school year, except as otherwise authorized.

b. For the purpose of this section "educational leave" means a leave granted to an employee for the purpose of study including study in areas outside

of a teacher's area of specialization, travel, or other reasons deemed by the board to be of value to the school system.

c. A contract is invalid if the teacher is under contract with another board of directors to teach during the same time period, until a release from the other contract is achieved. The contract shall be signed by the president of the board when tendered. After it is signed by the teacher, the contract shall be filed with the secretary of the board before the teacher enters into performance under the contract.

2. If the teacher has been employed at least three consecutive years as a teacher in the same school district, the contract shall remain in force and effect for the period stated in the contract and shall be automatically continued for equivalent periods, except as modified or terminated by mutual agreement of the board of directors and the teacher or as terminated in accordance with the provisions specified in this chapter. A contract shall not be offered by the employing board to a teacher under its jurisdiction prior to March first of any year. A teacher who has not accepted a contract for the ensuing school year tendered by the employing board may resign

Page 2

effective at the end of the current school year by filing a written resignation with the secretary of the board. The resignation must be filed not later than the last day of the current school year or the date specified by the employing board for return of the contract, whichever date occurs first. However, a teacher shall not be required to return a contract to the board less than twenty-one days after the contract has been offered.

3. a. The board may adopt a resolution finding just cause for terminating the contract with the teacher. If this resolution is adopted, the board shall cause the teacher to be notified in writing of it within five days of its adoption. This notice shall be served by receipted personal service or by certified mail. If served by certified mail, the act of mailing shall constitute completion of service. In any event, this notice shall not be served later than March fifteenth and shall state the specific reasons for considering the contract termination. These reasons shall be any just cause affecting performance of duties which may include incompentency, persistent or substantial neglect of duty, physical or mental disability or sickness which interferes with performance of duty as shown by competent medical evidence and following one year's leave of absence, or factors which require an adjustment, realignment, or reduction of the staff.

b. Before adoption of a resolution finding just

cause for termination is voted upon pursuant to paragraph a of this subsection, a member of the school administrative staff shall, at least thirty days prior to this vote, provide the teacher with a written statement of specific alleged deficiencies constituting grounds for termination.

c. At any time during proceedings under this section, the teacher's complete personnel file shall be made available to the teacher. This file shall contain a record of all periodic reviews between the teacher and appropriate supervisors.

4. a. Within ten days of service of notice under subsection three (3) of this section, the teacher may make written request to the secretary of the board that notifications be forwarded to the public employment relations board requesting appointment of a fact finder. This fact finder shall convene a fact finding hearing between ten and twenty days after the date the teacher makes written request to the secretary. The fact finder shall also cause reasonable written notice of the date, time, and location of the hearing

Page 3

to be given to the parties.

b. The fact finding hearing shall:

(1) Be reported by a person qualified to report proceedings before the courts of this state;

(2) Not be subject to chapter twenty-eight A (28A) of the Code;

(3) Not be limited to technical rules of evidence which preclude the introduction of evidence;

(4) Be subject to the rules governing the conduct and compensation of witnesses in civil cases, unless the context clearly dictates otherwise; and

(5) Be limited in scope to the specific reasons stated in the written notice served under paragraph a of subsection three (3) of this section.

c. The fact finding hearing may be attended as a matter of right by:

(1) Members of the board or their legal representatives, if any;

(2) The superintendent or the superintendent's representative; and

(3) The teacher and teacher's representatives, if any, but not to exceed five such representatives.

d. The fact finder may issue subpoenas in personam and subpoenas duces tecum upon the request of and showing by any party that the witnesses or material to be subject to the subpoena are material to the presentation of the applicant's case. At least three days prior to the hearing, each party shall notify the other parties of all witnesses and materials that will be presented at the hearing.

e. The costs of the hearing, except attorney fees, shall be paid by the board.

f. A complete transcript of the hearing shall be prepared. A copy of it shall be given to the teacher. The fact finder shall cause the hearing record to be certified to the board within twenty days of completion of the hearing.

g. Within ten days of receipt of the certified record, the board shall meet to determine whether to continue or terminate the teacher's contract. At the option of the teacher, this meeting shall be subject to chapter twenty-eight A (28A) of the Code. If the board determines to terminate the teacher's contract, it shall specify the specific grounds of just cause upon which the determination is based.

h. The transcript and material presented shall be subject to chapter sixty-eight A (68A) of the Code only if there is an appeal.

5. a. A teacher may appeal the board's deter-

Page 4

mination to terminate to the district court for the county in which the school district's principal offices are located. This appeal shall be filed within twenty days of service of the board's determination upon the teacher. The rules of civil procedure shall govern this appeal, except the court's review shall be on the certified transcript of the fact finding hearing.

b. The board's determination may be modified, reversed, or set aside if the court determines that:

(1) The board acted without or in excess of its authority; or

(2) The determination is not supported by a preponderance of the competent evidence in the record considered as a whole; or

(3) The determination was procured by fraud or is contrary to law.

c. If the court modifies, reverses, or sets aside the board's determination, it may also reinstate the teacher and award back pay. The court may assess costs of appeal and attorney fees.

6. a. The first three consecutive years of employment of a teacher in the same school district are a probationary period. However, a board of directors may waive the probationary period for any teacher who previously has served a probationary period in another school district. If the board is considering termination of a probationary teacher's contract, the board shall, at least thirty days prior to the vote on termination, notify the probationary teacher in writing of specific alleged deficiencies constituting grounds for termination. If the deficiencies are not corrected to the board's satisfaction, the contract of a probationary status

teacher may be terminated at the end of the contract period upon written notice to that effect prior to April first of any year. The written notice shall state the reasons for termination.

b. Following receipt of the written notice, the probationary teacher may request a private conference with the board. Within five days following receipt of the written notice that the board has voted to consider termination of a contract, the teacher may request in writing to the secretary of the board a private conference with the board. The private conference shall not be subject to chapter twenty-eight A (28A) of the Code and shall be held between ten days and twenty days following the receipt of the request. The secretary of the board shall notify the teacher in writing of the date, time, and location

Page 5

of the private conference. The conference shall be attended by members of the board and their legal representatives if any, the superintendent or the superintendent's representative, the teacher and the teacher's representatives, if any, not to exceed five representatives, and the teacher's immediate supervisor and the supervisor's representatives, if any. The discussion at the conference shall be limited to the specific reasons stated in the notice to consider termination. Any material removed from the teacher's personnel file or other material to be introduced at the conference shall be provided the teacher not less than five days preceding the conference. A participant in the conference shall not be liable for any damages to any person if any statement at the conference is determined to be erroneous if the statement was made in good faith.

c. Within three days following the private conference, the superintendent shall make a written recommendation to the board. The board, at its next meeting, shall by roll call vote decide the retention or termination of the probationary teacher. The board's decision shall be final and binding, unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the teacher or an alleged violation of public employee rights of the teacher under section twenty point ten (20.10) of the Code.

Sec. 2. Section two hundred seventy-nine point twenty-four (279.24), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

279.24 DISCHARGE OF TEACHER.

1. The board may, by a majority vote, discharge any teacher for any just cause which may include incompetency, persistent or substantial neglect of duty. Prior to the discharge, the board shall conduct,

at a meeting of the board held for that purpose, a complete and impartial investigation of the specific reasons for the proposed action. The teacher shall receive three days written notice of the time and place of such meeting, a specification of the alleged causes for discharge, and a list of the witnesses proposed to be called by the board, together with a brief summary of their expected testimony. The teacher and the teacher's representatives, if any, not to exceed five shall be allowed to be present at the meeting, to call and cross-examine witnesses, and to otherwise make a defense. A record of the meeting shall be made and kept. Following the board

Page 6

decision to discharge the teacher, the teacher shall be notified promptly in writing, stating the specific reasons for the action.

2. Within twenty days following receipt of the decision of the board, the teacher may appeal the decision following the procedure stated in section two hundred seventy-nine point thirteen (279.13) of the Code. However, the superintendent may suspend a teacher for any of the reasons listed in this section and recommend that the board discharge the teacher. The superintendent shall immediately notify the board of the suspension. The board shall meet within seven days of receipt of the notice to consider discharging the teacher and shall conduct a complete and impartial investigation of the specific reasons for the recommended discharge in the same manner as if the teacher had not been suspended. The teacher shall be notified by personal service of the time and place of the meeting immediately after the meeting time and place have been set. If the board votes not to discharge the teacher, the teacher shall be reinstated and the board shall award back pay for the period during which the teacher was suspended.

Sec. 3. Section twenty point six (20.6), Code 1975, is amended by adding the following new subsection:

NEW SUBSECTION. Maintain a list of qualified persons representative of the public to be available to serve as fact finders in contract termination disputes under section two hundred seventy-nine point thirteen (279.13) of the Code and establish their compensation rates."

H—6559

Amend H—6257, filed by Oakley of Clinton, to Senate File 205, as amended, passed, and reprinted by the Senate, as follows:

1. Page 1, by striking lines 5 through 50 and inserting in lieu thereof the following:

"Section 1. Section two hundred seventy-nine point thirteen (279.13), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

279.13 CONTRACTS WITH TEACHERS—AUTOMATIC CONTINUATION.

1. Contracts with teachers, which for the purpose of this section means all certificated employees of a school district and nurses employed by the board, excluding superintendents, assistant superintendents, principals, and assistant principals, shall be in writing and shall state the number of contract days, the annual compensation to be paid, and any other matters as may be mutually agreed upon. The contract may include employment for a term not exceeding the ensuing school year, except as otherwise authorized.

The contract is invalid if the teacher is under contract with another board of directors to teach during the same time period until a release from the other contract is achieved. The contract shall be

signed by the president of the board when tendered, and after it is signed by the teacher, the contract shall be filed with the secretary of the board before the teacher enters into performance under the contract.

2. The contract shall remain in force and effect for the period stated in the contract and shall be automatically continued for equivalent periods except as modified or terminated by mutual agreement of the board of directors and the teacher or as terminated in accordance with the provisions specified in this chapter. A contract shall not be offered by the employing board to a teacher under its jurisdiction prior to March fifteenth of any year. A teacher who has not accepted a contract for the ensuing school year tendered by the employing board may resign effective at the end of the current school year by filing a written resignation with the secretary of the board. The resignation must be filed not later than the last day of the current school year or the date specified by the employing board for return of the contract, whichever date occurs first. However, a teacher shall not be required to return a contract to the board or to resign less than twenty-one days after the contract has been offered.

3. The board shall establish evaluation criteria

Page 2

and shall implement evaluation procedures. If an exclusive bargaining representative has been certified, the board shall negotiate in good faith with respect to evaluation procedures pursuant to chapter twenty (20) of the Code.

4. The superintendent or the superintendent's designee shall notify the teacher not later than March fifteenth that the superintendent will recommend in writing to the board at a regular or special meeting of the board held not later than March thirty-first **that the teacher's continuing contract be terminated effective at the end of the current school year.**

5. Such notification shall be in writing and shall be personally delivered to the teacher, or mailed by certified mail. The notification shall be complete when received by the teacher. The notification and the recommendation to terminate shall contain a short and plain statement of the reasons, which shall be for just cause, why the recommendation is being made. The notification shall be given at or before the time **the recommendation is given to the board.**

As a part of the termination proceedings, the **teacher's complete personnel file of employment by that board shall be available to the teacher, which file shall contain a record of all periodic evaluations between the teacher and appropriate supervisors.**

Within five days of the receipt of the written notice that the superintendent is recommending termina-

tion of the contract, the teacher may request, in writing to the secretary of the board, a private hearing with the board. The private hearing shall not be subject to chapter twenty-eight A (28A) of the Code and shall be held no sooner than ten days and no later than twenty days following the receipt of the request unless the parties otherwise agree. The secretary of the board shall notify the teacher in writing of the date, time, and location of the private hearing, and at least five days before the hearing shall also furnish to the teacher any documentation which may be presented to the board at the private hearing and a list of persons who may address the board in support of the superintendent's recommendation at the private hearing. At least three days before the hearing, the teacher shall provide any documentation he or she expects to present at the private hearing, along with the names of any persons who may address the board on behalf of the teacher. This exchange of information shall be at the time specified unless otherwise agreed.

6. The participants at the private hearing shall

Page 3

be at least a majority of the members of the board, their legal representatives, if any, the superintendent, the superintendent's designated representatives, if any, the teacher's immediate supervisor, the teacher, the teacher's representatives, if any, and the witnesses for the parties. The evidence at the private hearing shall be limited to the specific reasons stated in the superintendent's notice of recommendation of termination. No participant in the hearing shall be liable for any damages to any person if any statement at the hearing is determined to be erroneous as long as the statement was made in good faith. The superintendent shall present evidence and argument on all issues involved and the teacher may cross-examine, respond and present evidence and argument in his or her behalf relevant to all issues involved. Evidence may be by stipulation of the parties and informal settlement may be made by stipulation, consent, or default or by any other method agreed upon by the parties in writing. The board shall employ a certified shorthand reporter to keep a record of the private hearing. The proceedings or any part thereof shall be transcribed at the request of either party with the expense of transcription charged to the requesting party.

The presiding officer of the board may administer oaths in the same manner and with like effect and under the same penalties as in the case of magistrates exercising criminal or civil jurisdiction. The board shall cause subpoenas to be issued for such witnesses and the production of such books and papers as either

the board or the teacher may designate. The subpoenas shall be signed by the presiding officer of the board.

In case a witness is duly subpoenaed and refuses to attend, or in case a witness appears and refuses to testify or to produce required books or papers, the board shall, in writing, report such refusal to the district court of the county in which the administrative office of the school district is located, and the court shall proceed with the person or witness as though the refusal had occurred in a proceeding legally pending before the court.

The board shall not be bound by common law or statutory rules of evidence or by technical or formal rules of procedure, but it shall hold the hearing in such manner as is best suited to ascertain and conserve the substantial rights of the parties. Process and procedure under this section shall be as summary as reasonably may be.

At the conclusion of the private hearing, the

Page 4

superintendent and the teacher may file written briefs and arguments with the board within three days or such other time as may be agreed upon.

If the teacher fails to timely request a private hearing or does not appear at the private hearing, the board may proceed and make a determination upon the superintendent's recommendation, which determination in that case shall be not later than April tenth, or not later than five days after the scheduled date for the private hearing, whichever is applicable. The board shall convene in open session and by roll call vote determine the termination or continuance of the teacher's contract.

Within five days after the private hearing, the board shall, in executive session, meet to make a final decision upon the recommendation and the evidence as herein provided. The board shall also consider any written brief and arguments submitted by the superintendent and the teacher.

The record for a private hearing shall include:

a. All pleadings, motions and intermediate rulings.

b. All evidence received or considered and all other submissions.

c. A statement of all matters officially noticed.

d. All questions and offers of proof, objections and rulings thereon.

e. All findings and exceptions.

f. Any decision, opinion, or conclusion by the board.

g. Findings of fact shall be based solely on the evidence in the record and on matters officially noticed in the record.

The decision of the board shall be in writing and shall include findings of fact and conclusions of

law, separately stated. Fndings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts and supporting the findings. Each conclusion of law shall be supported by cited authority or by reasoned opinion.

When the board has reached a decision, opinion, or conclusion, it shall convene in open meeting and by roll call vote determine the continuance or discontinuance of the teacher's contract. The record of the private conference and findings of fact and exceptions shall be exempt from the provisions of chapter sixty-eight A (68A) of the Code. The secretary of the board shall immediately mail notice of the board's action to the teacher.

7. If the teacher is no longer a probationary

Page 5

teacher, the teacher may, within ten days, appeal the determination of the board to an adjudicator by filing a notice of appeal with the secretary of the board. The notice of appeal shall contain a concise statement of the action which is the subject of the appeal, the particular board action appealed from, the grounds on which relief is sought and the relief sought.

Within five days following receipt by the secretary of the notice of appeal, the board or the board's legal representative, if any, and the teacher or the teacher's representative, if any, may select an adjudicator who resides within the boundaries of the merged area in which the school district is located. If an adjudicator cannot be mutually agreed upon within the five-day period, the secretary shall notify the chairperson of the public employment relations board by transmitting the notice of appeal, and the chairperson of the public employment relations board shall within five days provide a list of five adjudicators to the parties. Within three days from receipt of the list of adjudicators, the parties shall select an adjudicator by alternately removing a name from the list until only one name remains. The person whose name remains shall be the adjudicator. The parties shall determine by lot which party shall remove the first name from the list submitted by the chairperson of the public employment relations board. The secretary of the board shall inform the chairperson of the public employee relations board of the name of the adjudicator selected.

If the teacher does not timely request an appeal to an adjudicator the decision, opinion, or conclusion of the board shall become final and binding.

Within thirty days after filing the notice of appeal, or within further time allowed by the adjudicator, the board shall transmit to the

adjudicator the original or a certified copy of the entire record of the private hearing which may be the subject of the petition. By stipulation of the parties to review the proceedings, the record of the case may be shortened. The adjudicator may require or permit subsequent corrections or additions to the shortened record.

The record certified and filed by the board shall be the record upon which the appeal shall be heard and no additional evidence shall be heard by the adjudicator. In such appeal to the adjudicator, especially when considering the credibility of witnesses, the adjudicator shall give weight to the

Page 6

fact findings of the board; but shall not be bound by them.

Before the date set for hearing a petition for review of board action, which shall be within ten days after receipt of the record unless otherwise agreed or unless the adjudicator orders additional evidence be taken before the board, application may be made to the adjudicator for leave to present evidence in addition to that found in the record of the case. If it is shown to the adjudicator that the additional evidence is material and that there were good reasons for failure to present it in the private hearing before the board, the adjudicator may order that the additional evidence be taken before the board upon conditions determined by the adjudicator. The board may modify its findings and decision in the case by reason of the additional evidence and shall file that evidence and any modifications, new findings, or decisions, with the adjudicator and mail copies of the new findings or decisions to the teacher.

The adjudicator may affirm board action or remand to the board for further proceedings. The adjudicator shall reverse, modify, or grant any appropriate relief from the board action if substantial rights of the teacher have been prejudiced because the board action is:

a. In violation of a board rule or policy or contract; or

b. Unsupported by a preponderance of the competent evidence in the record made before the board when that record is viewed as a whole; or

c. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or a clearly unwarranted exercise of discretion.

The adjudicator shall, within fifteen days after the hearing, make a decision and shall give a copy of the decision to the teacher and the secretary of the board. The decision of the adjudicator shall become the final and binding decision of the board

unless either party within ten days notifies the secretary of the board that the decision is rejected. The board may reject the decision by majority vote, by roll call, in open meeting and entered into the minutes of the meeting. The board shall immediately notify the teacher of its decision by certified mail. The teacher may reject the adjudicator's decision by notifying the board's secretary in writing within ten days of the filing of such decision.

All costs of the adjudicator shall be shared equally

Page 7

by the teacher and the board.

8. If either party rejects the adjudicator's decision, the rejecting party shall, within thirty days of the initial filing of such decision, appeal to the district court of the county in which the administrative office of the school district is located. The notice of appeal shall be immediately mailed by certified mail to the other party. The adjudicator shall transmit to the reviewing court the original or a certified copy of the entire record which may be the subject of the petition. By stipulation of all parties to the review proceedings, the record of such a case may be shortened. A party unreasonably refusing to stipulate to limit the record may be taxed by the court for the additional cost. The court may require or permit subsequent corrections or additions to the shortened record.

In proceedings for judicial review of the adjudicator's decision, the court shall not hear any further evidence but shall hear the case upon the certified record. In such judicial review, especially when considering the credibility of witnesses, the court shall give weight to the fact findings of the board; but shall not be bound by them. The court may affirm the adjudicator's decision or remand to the adjudicator or the board for further proceedings upon conditions determined by the court. The court shall reverse, modify, or grant any other appropriate relief from the board decision or the adjudicator's decision equitable or legal and including declaratory relief if substantial rights of the petitioner have been prejudiced because the action is:

a. In violation of constitutional or statutory provisions; or

b. In excess of the statutory authority of the board or the adjudicator; or

c. In violation of a board rule or policy or contract; or

d. Made upon unlawful procedure; or

e. Affected by other error of law; or

f. Unsupported by a preponderance of the competent evidence in the record made before the board and the adjudicator when that record is viewed as

a whole; or

g. Unreasonable, arbitrary or capricious or characterized by an abuse of discretion or a clearly unwarranted exercise of discretion.

An aggrieved or adversely affected party to the judicial review proceeding may obtain a review of any final judgment of the district court by appeal

Page 8

to the supreme court. The appeal shall be taken as in other civil cases, although the appeal may be taken regardless of the amount involved.

9. The first two consecutive years of employment of a teacher in the same school district are a probationary period. However, a board of directors may waive the probationary period for any teacher who previously has served a probationary period in another school district and the board may extend the probationary period for an additional year with the consent of the teacher.

In the case of the termination of a probationary teacher's contract, the provisions of subsections four (4), five (5), and six (6), of this section shall apply.

The board's decision shall be final and binding unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the teacher or an alleged violation of public employee rights of the teacher under section twenty point ten (20.10) of the Code.

Sec. 2. Section two hundred seventy-nine point twenty-four (279.24), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

279.24 DISCHARGE OF TEACHER. A teacher may be discharged at any time during the contract year for just cause. The superintendent or the superintendent's designee, shall notify the teacher immediately that the superintendent will recommend in writing to the board at a regular or special meeting of the board held not more than fifteen days after notification has been given to the teacher that the teacher's continuing contract be terminated effective immediately following a decision of the board. The procedure for dismissal shall be as provided in subsections five (5) through nine (9) of section two hundred seventy-nine point thirteen (279.13) of the Code. The superintendent may suspend a teacher under this section pending hearing and determination by the board."

2. By striking pages 2 through 6.

b. The satisfaction by the insured of a final judgment shall not be a condition precedent to the right or duty of the insurance carrier to make payment on account of injury or damage.

c. An insurance carrier may consolidate notifications respecting two or more insureds into a single notification to the director.

d. A notice of cancellation mailed to an insured by an insurance carrier pursuant to this Act either shall contain a statement, or shall be accompanied by a statement, that proof of financial responsibility must be maintained for all nonexempt registered motor vehicles, and that operating or permitting the operation of a nonexempt motor vehicle without maintaining proof of financial responsibility is a public offense.

The bond shall be in a form prescribed by the director, and shall meet the terms, conditions, and amounts required of a motor vehicle liability insurance policy. In the case of a bond secured by real estate, the value of the unencumbered equities in the real estate must equal not less than fifty thousand dollars. The bond shall be filed with the director and shall constitute a lien in favor of the state upon the scheduled real estate of each surety, which lien shall exist in favor of any holder of a final judgment against the person because of loss resulting from the ownership, maintenance, use, or operation of a motor vehicle after the bond was filed, upon the filing of a notice and copy of the bond by the director in the office of the clerk of court of the county where such real estate is located. From and after the entry of the foregoing upon the encumbrance book all persons shall be charged with notice thereof.

Page 13

2. If a final judgment rendered against the principal on the bond shall not be satisfied within sixty days after it has become final, the judgment creditor may, for his own use and benefit and at his sole expense, bring an action or actions in the name of the state against the company or persons executing such bond, including an action or proceeding to foreclose any lien that may exist upon the real estate of a person who has executed such bond. An action to foreclose any lien upon real estate scheduled by any surety under the provisions of this chapter shall be by equitable proceeding in the same manner as is provided for the foreclosure of real estate mortgages.

3. A judgment creditor may give written notice to the director after the expiration of not less than thirty days after a judgment becomes final if the judgment has not been satisfied. Upon receiving notice, or upon receipt of other evidence, the director shall proceed as provided in sections four (4) or five (5) of this Act, whichever is applicable.

4. If any surety defaults in any undertakings or agreements, the director, pursuant to an order issued after notice and hearing, shall not thereafter accept as proof of financial responsibility any bond of that surety, whether filed before or tendered after the effective date of that order, so long as the default continues.

5. If an owner submitting real estate as surety fails to satisfy a final judgment within sixty days after entry, the registration of that owner shall be revoked until compliance with this chapter is maintained, and that owner may not thereafter submit proof of financial responsibility in the form of either surety bond or self-insurance.

Page 14

damages arising out of the ownership, maintenance, or use of any vehicle owned by that person.

3. Upon not less than five-days' notice and a hearing pursuant to such notice, the director upon reasonable grounds may cancel a certificate of self-insurance. Failure to pay any judgment within sixty days after that judgment shall have become final shall constitute grounds for the cancellation of a certificate of self-insurance.

Sec. ..... Section three hundred twenty-one A point seventeen (321A.17), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

321A.17 OTHER PROOF MAY BE REQUIRED. "Sec. 23. The general assembly finds that a critical situation continues to exist because of the high cost and impending unavailability of medical malpractice insurance. The general assembly further finds that to assure the uninterrupted delivery of health care services to the citizens of Iowa it is necessary to curtail excessive verdicts to persons who are damaged by medical accidents in order to keep

Page 2

medical malpractice insurance available in this state. The general assembly further finds that without medical liability insurance, physicians, other health care providers and hospitals cannot provide health care services to the public. It is the intent of section twenty-four (24) of this Act to protect the health and welfare of the people of this state by assuring health care.

Sec. 24. Chapter one hundred forty-seven (147), Code 1975, is amended by adding the following new section:

NEW SECTION. In an action for damages for personal injury against a health care practitioner or hospital, based on the alleged negligence of the health care practitioner in the practice of the profession or occupation, or upon the alleged negligence of the hospital in patient care, in which liability is admitted or established, the damages awarded for noneconomic losses incurred or to be incurred in the future by the claimant by reason of the personal injury, shall not exceed the sum of two hundred thousand dollars.

Sec. 25. Chapter six hundred twenty-four (624), Code 1975, is amended by adding the following new section:

NEW SECTION. JUDGMENTS IN MEDICAL MALPRACTICE ACTIONS.

1. As used in this section, the following

definitions shall apply unless the context otherwise requires:

a. "Health care provider" means as provided in section one (1) of this Act.

b. "Health care practitioner" means as provided in section one (1) of this Act.

c. "Hospital" means as provided in section one (1) of this Act.

d. "Medical malpractice action" means every action for damages for personal injury against a health care provider based upon alleged acts or omissions of a health care practitioner in the practice of his or her profession or occupation, or based upon alleged acts or omissions of a hospital in patient treatment or care.

e. "Future injuries" means and includes all legal harm which the trier of fact determines will be incurred by the injured party subsequent to the entry of judgment.

f. "Injured person" means the person during whose medical treatment or care the acts or omissions of malpractice are determined to have occurred.

Page 3

g. "Injured party" means a party plaintiff to a medical malpractice action who is determined to have suffered legal harm, and includes the injured person when a party.

h. "Injury" means and includes every legal harm for which damages are recoverable.

2. The trier of fact in every medical malpractice action shall find as separate facts with respect to each injured party the total amount to be awarded as damages for past injuries, if any, and the specific amounts to be awarded as damages for future injuries, if any. The award for future injuries shall be expressed in three elements, to the extent that each of the elements is found to be present; loss of future income, future expenses for care and treatment, and future noneconomic harm to be endured by the party.

3. The court, in a medical malpractice action in which the award for future injuries to a party exceeds fifty thousand dollars, shall enter, upon establishing that security for payment exists as provided in subsection five (5) of this section, a judgment ordering that those damages, in whole or in part, shall be payable to that party in installments, subject to the limitations contained in this section. Interest at the legal rate shall accrue on the unpaid balances of amounts awarded for future injuries. The court shall make a specific finding as to the dollar amount of regular installments which will be required to compensate the party for loss of future income, future expenses for care and treatment, and future noneconomic harm. The judgment

shall specify the recipient of periodic payments, the dollar amount of each regular payment, the portion of each payment attributable to each element of damages awarded, the interval between payments, the number of payments required to be made, and the amount of the judgment awarded for future expenses for care and treatment. A judgment ordering installment payments shall constitute a final judgment for purposes of appeal.

4. Attorney fees of the party receiving an award, if payable out of the judgment, shall be assessed by the court and applied pro rata against amounts awarded for past injuries and for future injuries. The amount thus determined by the court to be payable out of damages for future injuries shall be deducted by the court from the amount to be ordered paid in installments as provided in this section, and shall be deducted pro rata from those amounts awarded, if any, for loss of future income, future care and

treatment, and future noneconomic harm. The amount of attorney fees attributable to the award for future injuries shall be payable in full upon entry of judgment.

5. The court shall not enter a judgment for installment payments unless the judgment debtor establishes security for payment. Security for payment may be established by filing with the court a surety bond in the amount of the total damages which are payable in installments and conditioned on the timely payment of all damages payable pursuant to this section, or by filing of record in the action an admission of liability for payment of the judgment by one or more liability insurance carriers by whom the judgment debtor was insured, or by filing both a surety bond and admissions of liability in amounts sufficient to secure the payment of the total amount payable in installments.

A surety bond may be reduced in amount from time to time as permitted by the court, and may be terminated and the surety exonerated in the event of satisfaction of the judgment as provided in this section, or in the event admissions of liability are filed by one or more liability insurance carriers subsequent to the filing of the surety bond which establish security for the then outstanding balance of the judgment.

The judgment debtor or any other person on behalf of the judgment debtor may purchase from any life insurance company which holds a certificate of authority under the laws of the state an annuity to satisfy the obligations of the judgment. Upon approval by the court, such an annuity shall constitute security for payment within the meaning of this subsection.

Upon filing of a copy of that annuity with the court, any other security for payment previously filed shall be exonerated.

Nothing contained in this subsection shall require any liability insurance carrier to admit liability in excess of its policy limits, nor shall anything contained in this section impose liability upon an insurance carrier in excess of the amount specified in its admission of liability.

6. In the event that the court finds upon notice and hearing that the judgment debtor, or a person making payments on behalf of the judgment debtor, has exhibited a repeated failure to make timely payments, the court shall set aside the judgment for installment payments and enter judgment for payment of the balance owing in full.

Page 5

7. Except with respect to amounts representing loss of future income, a judgment for installment payment of damages for future injuries shall be a contingent award, and the right to payment shall vest only at such times and in such amounts as accrue pursuant to the judgment.

In the event of the death of the injured party that portion of the judgment constituted of damages for future expenses for care and treatment and damages for future noneconomic harm shall be deemed satisfied upon payment of amounts accrued up to the time of death. Funeral and burial expenses are expenses for care and treatment within the meaning of this subsection, and shall be deemed to have accrued prior to death. That portion of installments constituted of damages for loss of future income shall be paid to a spouse, parents and minor children to whom the deceased owed a legal duty of support, as provided by law, immediately prior to his or her death. In the event there are no such persons who survive the deceased, that portion of the judgment shall be deemed satisfied upon payment of amounts accrued up to the time of death.

The district court shall retain jurisdiction of any judgment in a medical malpractice action which orders installment payments, and upon the death of the recipient of installment payments, the dependents of the decedent in the case of an award for loss of future income or any other interested party to the action or a representative may petition the court for a modification of the judgment and for a redesignation of the recipient of payments, if any, in acordance with the rights of persons as established by this section. Unless otherwise ordered, the redesignated recipients of an award for loss of future income shall be paid in those amounts and at those intervals specified in the original judgment.

Payments shall continue until the remaining amounts awarded for that purpose have been depleted, or until the death of the last of those dependents, whichever occurs sooner. In the event of the death of the last surviving person to whom the injured party owed a duty of support prior to depletion of the amount awarded for loss of future income, the outstanding portions of the judgment shall be deemed satisfied upon payment of amounts accrued up to the time of death.

8. The supreme court is authorized to adopt rules relating to the apportionment of attorney fees of an injured party against past damages and future

Page 6

damages, and any other rules which may be necessary to implement the provisions of this section.

9. It is the intent of the general assembly in enacting this section to authorize the entry of judgments in malpractice actions against health care providers which provide for the payment of future damages through periodic payments rather than lump-sum payments. By authorizing periodic payment judgments, it is the further intent of the general assembly that the courts shall utilize such judgments to provide compensation sufficient to meet the needs of an injured plaintiff and those persons who are dependent on the plaintiff while eliminating the potential windfall from a lump-sum recovery which was intended to provide for the care of an injured plaintiff over an extended period who then dies shortly after the judgment is paid, leaving the balance of the judgment award to persons and purposes for which it was not intended. It is also the intent of the general assembly that all elements of the periodic payment program be specified with certainty in the judgment ordering such payments and that the judgment not be subject to modification at some future time which might alter the provisions of the original judgment other than as expressly permitted by this section.

This section shall apply to a judgment entered in a medical malpractice action on or after September 1, 1976, regardless of when the action was commenced."

15. By renumbering sections.

16. Amend the title, line 6, by inserting after the word "services," the words "for a limitation on amounts recoverable as damages for noneconomic harm in malpractice actions, for payment of certain portions of judgments in health care malpractice actions in installments rather than as a lump sum,".

HOUSE CONCURRENT RESOLUTION 138

By O'Halloran, Hullinger and Varley

Whereas, the Iowa Coal Research Project was established by the Sixty-fifth General Assembly, 1974 Session, with a $3 million, three-year appropriation, to provide a means of meeting the state's energy needs while simultaneously revitalizing Iowa's once thriving coal industry; and

Whereas, the primary goals of the project are to select, develop and demonstrate economical methods for strip mining Iowa coal and restoring the land and for cleaning the coal to meet current environmental standards; and

Whereas, a demonstration mine has been operating in Mahaska County since September of 1975 and 40,000 tons of coal have been extracted through an environmentally and economically acceptable surface mining procedure and sold to Iowa State University and the Corn Belt Power Cooperative in Humboldt, Iowa; and

Whereas, an experimental coal cleaning plant is being constructed on the Iowa State University campus to test and process the coal so that sulfur and ash content is sufficiently reduced to meet environmental standards; and

Whereas, The Energy and Mineral Resources Research Institute which is conducting the project has proposed the establishment of a second demonstration mine to facilitate economic studies of the dragline-scraper mining method and of a mining operation coordinated with an on-site coal cleaning facility; and

Whereas, it is estimated that $1.8 million in state funds would be necessary during the first year of

Page 2

operation of the second mine; and

Whereas, coal from the second demonstration mine could meet the coal needs of several state supported facilities at a net savings to the state and the state's initial investment would be repaid over a four-year period; *Now, Therefore,*

Be It Resolved by the House, the Senate Concurring, That the legislative council is requested to authorize the appointment of a joint interim subcommittee composed of members of the Senate and House Standing Committees on Energy to review the operations and accomplishments of the Iowa Coal Research Project to date and to study the need for additional funds to expand the project as proposed; and

Be It Further Resolved, That the joint interim subcommittee shall make a report of its findings to the legislative council and members of the Sixty-seventh General Assembly meeting in the year 1977.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 139

By Human Resources Subcommittee
of Committee on Appropriations

Whereas, the Attorney General of Iowa has recovered funds for the State of Iowa in an action in the United States District Court for the Southern District of New York for price fixing against several drug manufacturers; and

Whereas, after payment of refunds to all consumers who filed valid claims, there remained an excess consumer fund of $481,055; and

Whereas, the Attorney General of Iowa has filed with the court a proposed second stage allocation plan, which was approved by the court, wherein it was proposed that said excess consumer fund be distributed by agreement of the Attorney General with the Iowa State Department of Health to the Iowa State Department of Health for the purpose of combating current public health problems within the State of Iowa in the following manner:

(I)	Public health nursing services	15%
(II)	Rubella and other communicable testing and immunization	20%
(III)	Emergency medical technician-ambulance training	10%
(IV)	Establishing an Iowa health corps providing physicians and paramedics to rural areas	15%
(V)	Statewide perinatal care program including training for local physicians and the purchase of monitoring equipment	30%
(VI)	Emergency or contingency health purposes	10%: and

Page 2

Whereas, because of other program and funding developments which have occurred since the signing of the agreement on May 13, 1974, neither the emergency medical technician-ambulance training (10%) nor the Iowa health corps (15%) programs has required additional funding and such funds are unexpended; and

Whereas, the agreement requires the expenditure of the funds by the end of the biennium 1975-1976; and

Whereas, the Commissioner of Public Health proposes that the unexpended funds which were originally allocated for emergency medical technician-ambulance training (10%) and Iowa health corps (15%) be distributed in the following manner:

(I)	Well elderly clinics	$50,000
(II)	Venereal disease testing and screening	63,080; and

Whereas, amendment of the agreement to alter the allocation of principal and income of the excess consumer fund requires approval of both the court and the General Assembly of the State of Iowa; and

Whereas, the United States District Court for the Southern District of New York has approved the request to modify the existing agreement as proposed above;

Now, Therefore,

Be It Resolved by the House of Representatives, the Senate Concurring, That the General Assembly of the State of Iowa approve the modification of the

Page 3

existing agreement to permit expenditure of the funds originally allocated for emergency medical technician-ambulance training and Iowa health corps in the following manner:

(I)	Well elderly clinics	$50,000
(II)	Venereal disease testing and screening	63,080; and

Be It Further Resolved, That the agreement is amended to permit expenditure of the excess consumer funds by June 30, 1977.

Laid over under Rule 25.

The Speaker announced the appointment of the second conference committee to consider the differences between the House and the Senate concerning **House File 614**: Middleton of Black Hawk, chair; Higgins of Scott, Lonergan of Boone, Oakley of Clinton and Lipsky of Linn.

"Section 1. The general assembly hereby finds and declares:

1. That the prevailing rate structure for the sale of electric power to users in the state of Iowa may be outdated and may no longer serve the best interests of the citizens of the state; and

2. That the Iowa state commerce commission is best qualified by reason of its skills and experience to critically examine existing rate structures, to analyze the available alternatives, and to propose those criteria to be used to design present rate structures which the commission deems necessary, and to implement those criteria unless specifically disapproved by the general assembly; and

3. That in order to provide for a critical evaluation of Iowa's energy consumption patterns and electric untility rate structures and for possible improvements in such rate structures, the general assembly enacts the provisions of this Act.

Sec. 2. Chapter four hundred ninety A (490A), Code 1975, is amended by adding the following new section:

NEW SECTION. REVIEW OF RATE STRUCTURES.

1. By striking everything after the enacting clause, and inserting in lieu thereof the following:

"Section 1. Section two hundred eleven point one (211.1), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

211.1 DEFINITIONS. As used in this chapter, unless the context otherwise requires:

1. "Broker" means a compensated agent employed to negotiate sales of livestock.

2. "Consignment" means the transfer of possession of livestock to the care and custody of a livestock agency for the purpose of sale.

3. "Livestock" means cattle, horses, swine, sheep and poultry, but excluding any of those types of animals when bound for slaughter. "Livestock" does not include any other type of animal or fowl.

4. "Livestock history" means the information described in section three (3) of this Act.

5. "Livestock agency" means a person regularly engaged in livestock transactions and includes sales-yards, sales barns, auction markets, stockyards, order buyers, commission agents, and livestock dealers. A livestock agency is a merchant. A central public market is not a livestock agency or merchant.

6. "Merchant" means merchant as defined in section five hundred fifty-four point two thousand one hundred four (554.2104) of the Code.

7. "Owner" means a person having title to livestock which are the subject of a transaction.

8. "Person" means person as defined in section four point one (4.1) of the Code.

9. "Qualified livestock transaction" means as provided in section two (2) of this Act.

10. "Transaction" means either the sale of livestock, the brokering of livestock, or the consignment of livestock.

11. "Central public market" means a person who owns and operates a place, establishment, or facility which is registered as a stockyard, but who is not registered as a commission agent or dealer, under the United States Packers and Stockyards Act of 1921, as amended, Title VII, sections one hundred eighty-one (181) through two hundred thirty-one (231), United States Code.

Sec. 2. Section two hundred eleven point two (211.2), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

211.2 EXEMPTION OF TRANSACTIONS FROM IMPLIED WAR-

Page 2

RANTIES. A transaction which complies with section four (4) of this Act, as appropriate, is a qualified livestock transaction. Livestock which are the subject of a qualified livestock transaction shall be exempt from the implied warranties of section five hundred fifty-four point two thousand three hundred fourteen (554.2314) and five hundred fifty-four point two thousand three hundred fifteen (554.2315) of the Code with respect to that transaction, notwithstanding section five hundred fifty-four point two thousand three hundred sixteen (554.2316) of the Code. However, the exemption created by this section shall not be deemed to impair or modify any actual exclusion or modification of warranties as permitted by section five hundred fifty-four point two thousand three hundred sixteen (554.2316) of the Code.

Sec. 3. Section two hundred eleven point three (211.3), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

211.3 LIVESTOCK HISTORY.

1. When a written livestock history is to be used in a transaction, it shall be prepared on forms approved by, or prescribed and furnished by the department of agriculture. The form shall be signed by the owner of the livestock or his or her authorized agent, and shall state the names, mailing addresses, and residence or business locations of the present owner and all previous owners of the livestock within the thirty days preceding the date of the transaction.

2. If the identities of all previous owners within the preceding thirty days cannot be determined due to transactions which occurred outside the state

of Iowa, the form shall so indicate and shall provide full information concerning the out-of-state transaction resulting in the transportation of the livestock into Iowa.

3. If the livestock history is not available to the owner or a livestock agency due to the refusal of an owner to provide it, the owner or a livestock agency may prepare a livestock history which shall so indicate and which shall provide full information concerning its receipt of the livestock which are the subject of the transaction.

4. Except as provided in subsections two (2) and three (3) of this section, if the identities of all previous owners within the preceding thirty days are not determined or cannot be determined for any other reason, then the livestock shall not qualify for exemption under this Act.

5. The form shall require a description of the

Page 3

livestock including their number, breed and sex, and brands, tags, or other markings, if any.

6. The livestock history shall constitute an express warranty by the owner, or, by the livestock agency acting under the provisions of subsection three (3) of this section, as to the livestock which are the subject of the transaction.

7. If the livestock history is not the same for all livestock included in the transaction, a livestock history must be separately prepared and disclosed for all livestock included in the transaction.

8. Owners, and livestock agencies acting under the provisions of subsection three (3) of this section, shall retain one copy of each livestock history they prepare for at least two years after the date of the transactions to which it refers.

Sec. 4. Chapter two hundred eleven (211), Code 1975, is amended by adding the following new section:

NEW SECTION. 211.4 COMPLIANCE.

1. When selling livestock an owner who is not a livestock agency is deemed to have participated in a qualified livestock transaction if, prior to making the contract of sale, that owner does any of the following:

a. Delivers to the buyer a copy of the livestock history subscribed by that owner; or

b. Otherwise discloses the information required by the livestock history form; or

c. If the owner consigns the livestock to a livestock agency, the owner delivers a written livestock history to the livestock agency.

2. A livestock agency who participates in a transaction as the owner of the livestock, and who prepares a written livestock history as owner in accordance with section three (3) of this Act, and

who discloses the history as provided for in subsection three (3) of this section, is deemed to have **participated in a qualified livestock transaction.**

3. A livestock agency either selling livestock **on consignment or brokering the sale of livestock** is deemed to have participated in a qualified livestock transaction if it makes the livestock history form available at the place of business of the livestock agency for prospective buyers to see upon request prior to the making of a sale, and if it verbally announces immediately prior to the taking of bids or the receiving of other offers the name of the owner of the livestock and the number of owners previous thereto as reflected in the livestock history. The duty of the livestock agency in complying with this

Page 4

subsection shall be limited to accurately disclosing the livestock history as received by the livestock agency. The fact that a buyer did not hear the announcement shall not defeat the exemption claimed with respect to that buyer. If a livestock agency acting as a consignee or broker receives a written livestock history, the livestock agency shall retain the written history for two years from the date of receipt, regardless of whether or not the livestock agency participates in a qualified livestock **transaction.**

Sec. 5. Chapter two hundred eleven (211), Code 1975, is amended by adding the following new sections:

NEW SECTION. 211.5 EXEMPTION IS A DEFENSE.

In any action or proceeding, the implied warranty exemption which is created by section two (2) of this Act shall be a defense, and the burden of pleading the defense and of proving compliance with section four (4) of this Act shall be on the person or livestock agency asserting the defense. Proof of a material error in or material omission from information supplied shall defeat a claim of exemption, except as otherwise provided in subsection three (3) of section four (4) of this Act with respect to a livestock agency.

NEW SECTION. 211.6 NONCOMPLIANCE NOT EVIDENCE.

The election by any owner or by any livestock agency not to provide livestock history or not to make any verbal declaration of the history of livestock ownership in a transaction shall not be admissible as evidence in any action brought by the buyer in that transaction if offered by that buyer as proof of, or as fact tending to prove, any allegation or claim other than fraud or misrepresentation asserted by the buyer in that action.

NEW SECTION. 211.7 FALSE STATEMENT—PENALTY.

Any person who knowingly furnishes, completes or states false livestock history commits a misdemeanor,

punishable by a fine not exceeding one hundred dollars or by imprisonment in the county jail for not more than thirty days.

NEW SECTION. 211.8 VETERINARY INSPECTION.

1. INSPECTIONS. A livestock agency or central public market operating under a permit issued by the department of agriculture shall cause to be provided veterinary inspections by a qualified veterinary inspector who has been approved by the secretary of agriculture. The veterinary inspector shall visually inspect all livestock marketed and shall issue certificates as to the apparent health of

livestock so inspected. The veterinary inspector shall have other duties as determined by the secretary of agriculture.

2. CERTIFICATES. A livestock agency or central public market shall cause to be delivered with all livestock sold a verified veterinarian's certificate, on a form prescribed by the secretary of agriculture, which certifies that the health inspection of each animal sold was made during the twenty-four hour period immediately preceding the sale.

3. PENALTIES. A livestock agency or central public market which fails to comply with a duty imposed by this section commits a misdemeanor, and upon conviction may be sentenced to a fine not to exceed five hundred dollars, or to imprisonment in the county jail for a term not to exceed one year, or to both the fine and imprisonment.

4. INSPECTION FEES. The state department of agriculture shall collect a veterinary inspection fee agreed upon by the livestock agency or central public market and a qualified veterinary inspector, recommended by the livestock agency or central public market and approved by the secretary of agriculture plus a cost of administration not to exceed two dollars per month per livestock agency or central public market, on all livestock marketed through said livestock agency or central public market required to hold permits issued by the department of agriculture. Such fees, when collected, shall be placed by the secretary of agriculture in an "inspection fee revolving fund" under his or her jurisdiction. The department shall pay fees to each approved veterinary inspector for inspection services in accordance with agreements between such veterinarian and the livestock agency or central public market where inspections are accomplished, reduced by the allowable amounts for administration. Such fees shall be adjusted from time to time so that the amount collected will not exceed the costs of veterinary inspections and the administration thereof. The provisions of this section shall also apply to all livestock agencies or central

public markets receiving livestock moved into this state for sale through said livestock agency or central public market, except meat processing establishments or central public markets where full-time federal inspections are required and such requirement is complied with. Livestock agencies or central public markets not handling livestock shipped into this state for resale shall be exempt from the provisions of this section, as well as livestock meeting federal

Page 6

and state requirements for interstate shipment as to health at the time of entry into Iowa.

NEW SECTION. 211.9 BONDING CERTAIN LIVESTOCK AGENCIES. The secretary of agriculture may require reasonable bonds from every livestock agency operating in this state which is not presently bonded under the provisions of the United States Packers and Stockyards Act of 1921, as amended, Title VII, sections one hundred eighty-one (181) through two hundred thirty-one (231), United States Code, under such rules as he or she may prescribe to secure the performance of their obligations, and whenever the secretary after hearing under the Iowa Administrative Procedure Act finds any such agency is insolvent or has violated any provisions of this chapter he or she may suspend operations of the livestock agency forthwith for a reasonable specified period.

Sec. 6. Section five hundred fifty-four point two thousand three hundred fourteen (554.2314), Code 1975, is amended by adding the following new subsection:

NEW SUBSECTION. This section does not apply to livestock which are the subject of a qualified livestock transaction as provided in section two hundred eleven point two (211.2) of the Code.

Sec. 7. Section five hundred fifty-four point two thousand three hundred fifteen (554.2315), Code 1975, is amended by adding the following new unnumbered paragraph:

NEW UNNUMBERED PARAGRAPH. This section does not apply to livestock which are the subject of a qualified livestock transaction as provided in section two hundred eleven point two (211.2) of the Code.

Sec. 8. Not later than September 30, 1976, the secretary of agriculture shall approve, or prescribe and distribute the forms to be used pursuant to this chapter. The distribution initially may be restricted to livestock agencies, veterinarians, and other outlets which in the discretion of the secretary will provide the widest practical dissemination and availability."

STEERING COMMITTEE CALENDAR

House File 1550, a bill for an act relating to public utility rates, was taken up for consideration.

Small of Johnson offered the following amendment H—6575 filed by Small, et al.:

H—6575

1 Amend House File 1550 by striking everything after

the enacting clause and inserting in lieu thereof the following:

"Section 1. The general assembly hereby finds and declares:

1. That the prevailing rate structure for the sale of electric power to users in the state of Iowa may be outdated and may no longer serve the best interests of the citizens of the state; and

2. That the Iowa state commerce commission is best qualified by reason of its skills and experience to critically examine existing rate structures, to analyze the available alternatives, and to propose those criteria to be used to design present rate structures which the commission deems necsesary, and to implement those criteria unless specifically disapproved by the general assembly; and

3. That in order to provide for a critical evaluation of Iowa's energy consumption patterns and electric utility rate structures and for possible improvements in such rate structures, the general assembly enacts the provisions of this Act.

Sec. 2. Chapter four hundred ninety A (490A), Code 1975, is amended by adding the following new section:

NEW SECTION. REVIEW OF RATE STRUCTURES.

1. The commission shall conduct a continuing review of electric power consumption levels and patterns and user rate structures in Iowa. The review shall include but shall not be limited to an examination of:

a. Differences in electric power consumption levels and patterns resulting from the following:

(1) Seasonal demand fluctuations;

(2) Time of day demand fluctuations;

(3) Evidence or estimates of change in consumption patterns due to changes in price; and

(4) Income levels of users.

b. Electric power rate structures currently in effect in Iowa, and rate structures proposed or in effect in other parts of the country.

c. The relative advantages and disadvantages to consumers of the block rate system, lifeline service, peak hour schedules, metering devices and other methods which may be used to structure rate schedules.

2. The commission shall formulate, from time to time when the commission deems appropriate, new or revised criteria for evaluating and approving rate schedules submitted by utilities which supply electric power in Iowa and which are subject to rate regulation

Page 2

by the commission. Those criteria shall be designed to:

a. Eliminate any inequities to users resulting from existing rate structures.

b. Encourage conservation of electric power thereby conserving nonrenewable natural resources by eliminating or modifying the commonly used declining block rate structures.

c. Discourage use of electric power during periods of peak demand, or shift usage to other periods in order to better utilize existing power generating facilities and to avoid or define the need for new generating facilities.

d. Assure that rates are just, reasonable and sufficient, as required by this chapter, and otherwise comply with the laws of this state.

e. Correct other deficiencies identified by the commission.

3. The commission shall commence the review specified in subsection one (1) of this section immediately on the effective date of this Act. The commission shall submit a report to the general assembly not later than January 15, 1977 detailing the findings and conclusions of the study conducted pursuant to subsection one (1) of this section. The report shall include the criteria formulated according to the guidelines established in subsection two (2) of this section which the commission proposes to use in evaluating and approving rate structures. Unless specifically disapproved by the general assembly the proposed criteria for evaluating and approving rate schedules submitted to the commission shall apply to utilities supplying electricity which are subject to rate regulation by the commission and filing rate tariffs after July 1, 1977. After July 1, 1978, rate schedules which fail to satisfy the criteria prescribed by the commission pursuant to this section shall be unlawful."

Mennenga of Clinton offered the following amendment H—6580, to amendment H—6575, filed by him from the floor:

H—6580

Amend amendment H—6575, to House File 1550, as follows:

1. Page 2, by inserting after line 38, the following:

Sec. ..... 1. Section four hundred ninety A point six (490A.6), Code 1975, is amended to read as follows:

490A.6 CHANGE OF RATES—HEARING.

1. [No] *A* public utility subject to rate regulation shall *not* make effective any new or changed rate, charge, schedule or regulation except by filing the same with the commission [at least thirty days prior to the effective date thereof. The commission, for good cause shown, may allow changes in rates, charges, schedules or regulations to become effective on less than thirty days' notice] *which shall after investigating the proposed new or changed rates,*

charges, schedules, or regulations issue an order authorizing or prohibiting the new or changed rates, charges, schedules or regulations. A written statement by the commission justifying an order issued pursuant to this section shall accompany the order.

2. All public utilities, including those exempted from rate regulation by the provisions of section 490A.1, shall give written notice of any proposed increase of any rate or charge to all affected customers served by the public utility at least thirty days prior to the effective date thereof *and in the case of utilities subject to rate regulation at least thirty days prior to filing the proposed increase with the commission.* If the public utility is subject to rate regulation, the notice to affected customers shall also state that the customer has a right to file a written objection to such rate increase and that he may request the commission to hold a public hearing to determine if such rate increase should be allowed. The commission shall prescribe the manner and method that the written notice to each affected customer of the public utility shall be served.

3. Nothing in this chapter shall be taken to prohibit a public utility from establishing a sliding scale of rates and charges or from making provision for the automatic adjustment of rates and charges for public utility service provided that a schedule showing such sliding scale or automatic adjustment of rates and charges is first filed with *and authorized by* the commission.

4. Whenever there is filed with the commission by any public utility subject to rate regulation any new or changed rates, charges, schedules or

Page 2

regulations, the commission *shall investigate the same and* may[, prior to the effective date thereof,] docket the case as a formal proceeding and set the case for hearing. The commission shall give such notice of such formal proceedings as it deems appropriate. *The final decision by the commission shall be made within six months following the filing of the new or changed rates, charges, schedules or regulations with the commission.*

5. After the initiation of *the investigation or* such formal proceedings and pending the final decision thereon, the commission may, [at any time before they become effective, suspend the operation of such new or changed rates, charges, schedules or regulations, but not for a period longer than twelve months from the date when they would have become effective if not suspended] *upon the affirmative showing by the public utility that the imposition of the new or*

changed rates, charges, schedules or regulations is necessary for the continued operation of the utility, approve the imposition of the new or changed rates, charges, schedules or regulations until the commission has completed the investigation or formal proceedings and issued the final order.

6. [However, a public utility shall have the right at any time after said rates, charges, schedules or regulations have been suspended for ninety days to place in effect any or all of such suspended rates, charges, schedules or regulations by filing] *Public utilities effecting new or changed rates, charges, schedules or regulations pursuant to subsection five (5) of this section shall file* with the commission a bond or other undertaking approved by the commission conditioned upon the refund in a manner to be prescribed by the commission of any amounts collected thereunder in excess of the amounts which would have been collected under rates, charges, schedules or regulations finally approved by the commission. The commission shall establish a rate of interest to be paid by a public utility to persons receiving refunds. Such rate of interest shall be not less than five percent per annum, nor more than nine percent per annum.

7. If, after hearing and decision on all issues presented for determination in such rate proceeding, the commission shall find the rates, charges, schedules or rules of the utility to be unlawful, the same shall be set aside and the commission shall by order authorize and direct the utility to file rates, charges, schedules or rules which, when approved by

Page 3

the commission and placed in effect, will satisfy the requirements of this chapter. The rates, charges, schedules or rules so approved shall be lawful and effective unless changed as herein provided. [In the event a petition for rehearing is filed or a petition for judicial review is sought from an order concerning rates, charges, schedules or rules which are in effect under bond, those rates, charges, schedules or rules may, notwithstanding the terms of the Iowa administrative procedure Act, be continued in effect by the utility under the terms of a bond or other undertaking pending final determination of the application for rehearing or proceeding for judicial review of an order of the commission.] *A public utility may seek judicial review of a decision by the commission according to the provisions of chapter seventeen A (17A) of the Code.*

HOUSE CONCURRENT RESOLUTION 140

By Cusack, Daggett, Dyrland, Anderson, Bina, Griffee, Hansen, Monroe, Hargrave and Higgins

Whereas, the federal government has in recent months on a number of occasions reduced its level of commitment or discontinued its support for various existing programs in education, social services and other fields, including but not limited to programs carried on by or through Board of Regents institutions. Title twenty (XX) of the United States Social Security Act, Title three (III) programs for the aging and Title seven (VII) nutrition programs; and

Whereas, the federal revenue sharing programs on which local governments have come to rely to a significant extent are also in peril of reduction or discontinuance; and

Whereas, these actions or the apprehension that such actions are about to be taken nearly always result in requests that the General Assembly appropriate money to replace the federal funds which have been lost or the loss of which is anticipated; and

Whereas, the lack of a uniform policy guideline for responding to these pleas tend to make the General Assembly's response disorganized and inconsistent; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council is authorized to establish during the 1976 legislative interim a study committee on federal fund replacement and allocation policy, to review the present and prospective situation relative to existing programs begun or being supported to a significant extent with federal funds which are being or may be cut back or

discontinued, and recommend a consistent state policy which may be followed by the General Assembly in responding to requests for appropriations to replace federal funds for support of programs such as those referred to in the preamble to this resolution. The study committee shall also review current policies and practices regarding allocation of funds received by Iowa under Title twenty (XX) of the United States Social Security Act, in particular the allocation of these funds to Department of Social Services administrative districts, and recommend any changes in current allocation of these funds which are deemed appropriate. The study committee shall submit its report to the Sixty-seventh General Assembly upon its convening in January, 1977.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 141

By Cusack and Higgins

Whereas, the problems currently being encountered by the State of Iowa in regard to capacity of the state's penal and correctional institutions, the rewriting of Iowa's criminal code, and other factors have engendered much discussion of the philosophies which underlie sentencing, incarceration and probation or parole of convicted felons in this state; and

Whereas, it has become apparent that these are matters of serious concern to many Iowans, but that there is considerable disagreement among legislators and the general public as to the most desirable and effective policies to be followed in these matters, and a legislative study may assist in formulating conclusions as to such policies; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council is authorized to establish during the 1976 legislative interim a study committee to study and make recommendations for future state policy with respect to:

1. The merits of determinate sentencing of convicted felons, as against indeterminate sentencing.

2. The concept of rehabilitation of incarcerated felons, the extent and manner in which this concept is to be applied, and the implications of the rehabilitation concept as so applied for funding of Iowa's penal institutions.

3. The role of the Board of Parole in determining when parole is to be granted, and in supervising parolees.

4. The consequences of each of the three foregoing matters for future development and funding of both state

Page 2

correctional institutions and community-based correctional facilities; and

Be It Further Resolved, That the study committee shall submit its report to the Sixty-seventh General Assembly upon its convening in January, 1977.

Laid over under Rule 25.

Sec. 15. Section fifty-six point twenty-three (56.23), Code 1975, is amended by striking the section and inserting in lieu thereof the following:

56.23 DISTRIBUTION OF FUNDS—ACCEPTABLE USES—AUDITS REQUIRED.

The audit shall be made by an auditor of the commission's choice and at the commission's expense. A candidate's committee which has received funds under authority of this chapter shall be prepared to be audited pursuant to this section not later than thirty days after the latest election occurring in any calendar year in which that candidate's name appeared on the ballot. Statutory political committees shall submit to an audit once a year, at a time set by the commission.

2. The commission shall promulgate as rules, in accordance with chapter seventeen A (17A) of the Code, guidelines setting forth as specifically as is practicable what expenses are to be considered acceptable campaign expenses for the purposes of this chapter, and what documentation will be required as evidence of any expenditure constituting an acceptable campaign expense. No funds shall be distributed under authority of this chapter after the effective date of this Act until the rules required by this subsection

have been promulgated.

3. If the audit required by this section shows that the total amount of all expenditures by a candidate's committee or a statutory political committee for acceptable campaign expenses during the period covered by the audit is less than twice the amount of all money received by the committee under authority of this chapter during the same period, the committee shall return to the fund from which the money originated an amount equal to half the difference between twice the amount of all money so

received and the total amount of all expenditures for acceptable campaign expenses.

Sec. 16. Acts of the Sixty-sixth General Assembly, 1975 Session, chapter fifty-seven (57), section sixteen (16), third new section, amending chapter fifty-six (56), Code 1975, is amended to read as follows:

NEW SECTION. *1.* [It] *Except as provided in subsection three (3) of this section, it* **shall be unlawful for any insurance company, savings and loan association, bank, and corporation organized pursuant to the laws of this state or any other state,** territory, or foreign country, whether for profit or not, or any officer, agent, representative thereof **acting for such insurance company, savings and loan** association, bank, or corporation, to contribute any money, property, labor, or thing of value, directly **or indirectly, to any committee, or for the purpose of influencing the vote of any elector.**

2. [It] *Except as provided in subsection three (3) of this section, it* **shall be unlawful for any member** of any committee, or employee or representative thereof, or candidate for any office or the representative of such candidate, to solicit, request, or knowingly receive from any insurance company, savings and loan association, bank, and corporation **organized pursuant to the laws of this state or any** other state, territory, or foreign country, whether for profit or not, or any officer, agent, or representative thereof, any money, property, or thing of value belonging to such insurance company, savings **and loan association, bank, or corporation for campaign** expenses, or for the purpose of influencing the vote of any elector. Nothing in this section shall be construed to restrain or abridge the freedom of the press or prohibit the consideration and discussion **therein of candidacies, nominations, public officers,** or public questions.

3. It shall be lawful for any insurance company, savings and loan association, bank, and corporation

Page 9

organized pursuant to the laws of this state or any other state, territory, or foreign country, whether or not for profit, and for the officers, agents and representatives thereof, to use the funds of any such entity for the purposes of soliciting its stockholders, officers and employees for contributions to a committee sponsored by that entity and of financing the administration of a committee sponsored by that entity. A committee member, committee employee, committee representative, candidate or representative referred to in subsction two (2) of this section lawfully may solicit, request, and receive money, property and other things of value from a committee sponsored by an insurance company, savings and loan associa-

tion, bank, or corporation as permitted by this subsection.

4. The restrictions imposed by this section relative to making, soliciting or receiving contributions shall not apply to a person who uses those contributions to encourage registration of voters and participation in the political process, or to publicize public issues, or both, but does not use any part of those contributions to endorse, oppose, or evaluate favorably or unfavorably any candidate for public office or any public measure.

5. Any person convicted of a violation of any of the provisions of this section shall be subject to imprisonment in the county jail for not more than one year and by a fine not to exceed one thousand dollars.

Sec. 17. Chapter fifty-six (56), Code 1975, is amended by adding sections eighteen (18) through twenty-three (23) of this Act.

Sec. 18. *NEW SECTION.* WHEN CONTRIBUTIONS DEEMED MADE. For the purposes of sections nineteen (19), twenty (20), and twenty-one (21) of this Act, any contribution to a candidate's committee shall be considered to have been made in the same calendar year in which occurred the latest election at which the office that candidate sought appeared on the ballot, regardless of when the contribution actually was made.

Sec. 19. *NEW SECTION.* LIMITATIONS ON CERTAIN CONTRIBUTIONS.

1. The aggregate contributions of any one individual to all candidate's committees shall not exceed two thousand five hundred dollars, and the aggregate contributions of any committee other than a statutory political committee to all candidate's committees shall not exceed seven thousand five hundred

Page 10

dollars, in any one calendar year.

2. A committee shall not accept during any one calendar year from any one individual, who is not organized as a committee under this chapter, aggregate contributions in excess of two hundred dollars for the benefit of a candidate for governor or in excess of fifty dollars for the benefit of a candidate for the general assembly.

3. A candidate's committee shall not accept during any one calendar year from any other committee, except a statutory political committee, aggregate contributions exceeding three times the aggregate contribution which the same candidate's committee could accept from an individual under subsection two (2) of this section.

Sec. 20. *NEW SECTION.* QUALIFYING FOR MONEY FROM CANDIDATES' FUND.

1. The candidate's committee for an individual who has become a candidate for nomination or election to the office of governor, state senator or state representative is entitled to receive money from the Iowa candidates' fund, at the times and to the extent provided by section twenty-one (21) of this Act, upon filing with the commission a report showing that the committee has qualifying contributions aggregating at least twenty thousand dollars for a candidate for governor, seven hundred fifty dollars for a candidate for state senator, or five hundred dollars for a candidate for state representative.

2. Qualifying contributions are those received by a candidate's committee from individuals in amounts not exceeding, from any one individual, fifty dollars to a candidate for governor or ten dollars to a candidate for the general assembly, during the period beginning on the date the individual for whose benefit the contribution is made becomes a candidate and ending on the day preceding the next succeeding general election. Qualifying contributions must be reported to the commission by the candidate's committee on forms prescribed by the commission listing the name and address of the contributor and the amount of the contribution, and accompanied by either a signed declaration by the contributor acknowledging the contribution or a photocopy of the written instrument by which the contribution was made that identifies the contributor. This subsection shall not be construed to prohibit contributions in the amounts permitted by section nineteen (19), subsection two (2), of this Act, but the portion of any individual's contributions for the benefit of a candidate which

Page 11

exceeds the limits specified by this subsection may not be reportel as qualifying contributions by that candidate's committee.

3. An individual who desires to become a candidate for purposes of this section, at any time prior to filing with the state commissioner the documents necessary to seek nomination or election under chapters forty-three (43), forty-four (44) or forty-five (45) of the Code, may do so by filing an affidavit of candidacy with the commission. The affidavit shall be filed on a form prescribed by the commission and shall contain:

a. The candidate's name.

b. The office the candidate seeks.

c. The candidate's political party affiliation, if any.

d. A statement that the candidate has formed a candidate's committee which will receive contributions that will, to the extent permitted by subsection two (2) of this section, be reported to the commission

as qualifying contributions.

Sec. 21. *NEW SECTION.* LIMITS ON CLAIMS—HOW PAID AND USED.

1. Each candidate's committee is entitled to receive from the Iowa candidates' fund money in an amount equivalent to the total amount of qualifying contributions it has reported to the commission, up to a maximum of one hundred thousand dollars for a candidate for governor, one thousand five hundred dollars for a candidate for state senator or one thousand dollars for a candidate for state representative. These maximums shall apply to each individual candidate for any of these offices during each period of time beginning on the day following the latest general election at which the office the candidate seeks was filled and ending on the day of the next succeeding general election at which that same office is to be filled.

2. The initial report of qualifying contributions and any supplemental report of additional qualifying contributions made to the commission by a candidate's committee, except its final report, shall each claim at least one hundred dollars matching money from the Iowa candidates' fund. Matching money shall be paid, in accordance with section twenty-two (22) of this Act, by a warrant drawn by the state comptroller at the commission's direction upon the fund in favor of the treasurer of the candidate's committee. Matching money from the fund shall be used only to pay, or to repay loans lawfully obtained to pay,

Page 12

acceptable campaign expenses as defined pursuant to section fifty-six point twenty-three (56.23) of the Code which were actually and lawfully incurred.

Sec. 22. *NEW SECTION.* WHEN DISBURSEMENTS MAY BE MADE—PRORATION AUTHORIZED IF NECESSARY.

1. A candidate's committee may claim money from the Iowa candidates' fund no earlier than December first of the year next preceding the year of the general election at which the office the candidate seeks will be on the ballot, regardless of when the individual involved becomes a candidate for the office. A candidate's committee may at any time thereafter report qualifying contributions in any amount up to its allowable maximum, but the commission may not disburse matching money from the fund to any candidate's committee more rapidly than is permitted by the following schedule:

a. Prior to March first of the year of the general election at which the office the candidate seeks will be on the ballot, no more than twenty-five percent of such maximum may be disbursed.

b. Prior to June fifteenth of such year, no more than fifty percent maximum may be disbursed.

c. Prior to September fifteenth of such year, no more than seventy-five percent of such maximum may be disbursed.

2. A candidate's committee for a candidate who withdraws or is defeated in a primary election or other nominating procedure may nevertheless receive the allowable maximum amount of matching money from the Iowa candidates' fund, or so much thereof as the committee's reported qualifying contributions and the provisions of this section entitle it to receive, at the times prescribed by subsection one (1) of this section.

3. If the commission at any time concludes on the basis of the number of candidates which at that time have claimed a portion of their allowable maximum amount of matching money, and on the basis of the remaining balance in the Iowa candidates' fund, that it is unlikely that all claims on the fund can be paid as would otherwise be required by this Act, it shall prorate the unpaid portion of the pending claims and all claims subsequently received during the same biennial period. The proration of the various unpaid portions of claims and of subsequent claims shall be devised so that as nearly as possible an equivalent proportion of the full amount to which each claimant committee would otherwise be entitled is actually paid. If the commission does so prorate claims but

Page 13

finds that upon the date of the succeeding general election an unencumbered balance existed in the fund, that balance shall be applied to the payment of all or equivalent proportions of claims on the fund which were unpaid due to proration during the preceding year.

Sec. 23. *NEW SECTION.* MATCHING MONEY FOR CANDIDATES IN CERTAIN SPECIAL ELECTIONS. The candidate's committee for each candidate certified by the state commissioner as a nominee for a seat in the general assembly to be filled at a special election called under section sixty-nine point fourteen (69.14) of the Code is entitled to receive the allowable maximum amount of matching money upon qualifying therefor pursuant to section twenty (20), subsections one (1) and two (2), of this Act, except that qualifying contributions must be received by the day prior to the date of the special election. Claims may be presented to the commission under this section as soon as the candidates in the special election have been certified by the state commissioner, and the provisions of section twenty-two (22), subsection one (1), of this Act shall not apply. Matching money received by a candidate's committee under this section shall not apply against the allowable maximum amount of matching money available

to the individual candidate involved for the period established by section twenty-one (21), subsection one (1), of this Act between successive general elections at which the office involved in the special election is filled for a full term.

Sec. 24. The provisions of sections two (2), four (4), eight (8) through fifteen (15) and eighteen (18) through twenty-three (23) of this Act shall take effect January 1, 1977.

Sec. 25. Sections fifty-six point fourteen (56.14) and fifty-six point fifteen (56.15), Code 1975, are repealed.

7. An agreement executed under this section shall not be applicable to disputes arising from health care or treatment rendered at a hospital.

8. An agreement to arbitrate which satisfies the provisions of this section shall be presumed valid.

Sec. 26. *NEW SECTION.* **ARBITRATION FOR HOSPITALIZATION.**

1. A person who receives health care or treatment **at a hospital may, if offered, execute an agreement to arbitrate all disputes arising out of health care or treatment rendered at the hospital. A person receiving emergency health care or treatment may be offered the option to arbitrate but shall not be offered the option before the emergency care or treatment is completed. The agreement may provide for arbitration of existing disputes and may provide for arbitration of disputes arising subsequent to the execution of the agreement. An agreement executed pursuant to this section may limit the types of issues or controversies which will be subject to arbitration.**

2. The agreement to arbitrate shall not be a prerequisite to health care or treatment.

3. The agreement to arbitrate shall provide that the person receiving health care or treatment or his or her legal representative may revoke the agreement within ninety days after discharge from the hospital

Page 3

by notifying the hospital in writing. Other parties to the agreement shall not have the power to revoke the agreement. In the event a health care practitioner and his or her patient are the only parties to an arbitration agreement covering health care or treatment at a hospital, the agreement shall specify that notification of revocation by the patient shall be given to the health care practitioner.

4. The agreement shall contain the following statement immediately above the space for signature of the parties: "This agreement to arbitrate is not a prerequisite to health care or treatment and may be revoked by the patient within ninety days after discharge by notification in writing."

5. Notwithstanding the existence of a health care practitioner-patient arbitration agreement executed pursuant to section twenty-five (25) of this Act, health care or treatment rendered by a participating health care practitioner at a hospital shall be covered by the terms and conditions applicable between the patient and the hospital.

6. Each admission to a hospital shall be treated as separate and distinct for the purposes of an agreement to arbitrate, but a person receiving outpatient care may execute an agreement with the hospital which provides for continuation of the agreement for a specific or continuing program of health care or treatment.

7. The form of the agreement shall be accompanied by an informational brochure which clearly details the agreement and the revocation provision. The brochure shall be furnished the person receiving health care or treatment at the time of execution of the agreement. The person receiving health care or treatment and executing an arbitration agreement shall be furnished with either an original or a duplicate original of the agreement.

8. An agreement to arbitrate which satisfies the requirements of this section shall be presumed valid.

Sec. 27. *NEW SECTION.* GENERAL ARBITRATION REQUIREMENTS. The following provisions shall apply to an arbitration proceeding instituted pursuant to an agreement governed by this chapter:

1. The parties may be represented by counsel, and shall have the right to be heard, to present evidence material to the controversy, and to cross-

examine any witness.

2. The prevailing standard of duty, practice, or care applicable in a civil action commenced in this state shall be the standard applied in the

Page 4

arbitration.

3. Damages or remedial care shall be without limitation as to nature and amount unless specifically limited by law.

4. A party may appear without counsel, but shall be advised of the right to retain counsel in a manner calculated to inform the person of the nature and complexity of a proceeding by a simple concise form distributed by the association administering the arbitration.

5. The panel shall conclude the entire proceeding as expeditiously as possible, and the association shall maintain supervision to encourage compliance with this subsection.

6. A minor child shall be bound by a written agreement to arbitrate disputes upon the execution of an agreement on his or her behalf by a parent or legal guardian. The minor child may not subsequently disaffirm the agreement.

Sec. 28. *NEW SECTION.* COMMENCEMENT OF PROCEEDING—PARTIES.

1. A party to the arbitration agreement may demand arbitration of a claim, and the proceeding shall be instituted as provided by rule of the association.

2. In cases involving a common question of law or fact, the disputes, controversies, and issues shall be consolidated into a single arbitration proceeding, whether or not separate arbitration agreements exist between a plaintiff and a number of defendants or between defendants.

3. A person in interest who is not a party to the arbitration agreement may join in the arbitration at the request of any party with all the rights and obligations of the original parties. Each party to an arbitration under this chapter is deemed to be bound by the joinder of a new party.

Sec. 29. *NEW SECTION.* OFFERS OF SETTLEMENT.

1. Prior to the institution of an arbitration proceeding by a patient, any offer of reparations and all communications incidental thereto made in writing to a patient by a health care practitioner or hospital is privileged and may not be used by any party to establish the liability or measure of damages.

2. Such offers shall provide that a patient has thirty days to accept or reject the offer, or such lesser specified period of time as may be necessitated by the condition of health of the patient.

3. After any rejection or the lapse of the applica-

ble time, any party may demand arbitration.

4. Any such offer to a patient shall include a

Page 5

statement that the patient may consult legal counsel before rejecting or accepting the offer.

5. In a case where a potential claim is identified by a health care practitioner or hospital and where reparations, in its judgment, are not appropriate, the practitioner or hospital may, at its option, file a demand for arbitration which demand shall identify the potential claim and deny liability.

Sec. 30. *NEW SECTION.* SELECTION OF ARBITRATORS.

1. An arbitration under this chapter shall be heard by a panel of three arbitrators. One shall be an attorney who shall be the chairperson and shall have jurisdiction over prehearing procedures, one shall be a health care practitioner, preferably but not necessarily from the respondent's health care specialty, and the third shall be a person who is neither a health care practitioner, a lawyer, or a person affiliated with a health care practitioner or a hospital or insurance company. Where a case involves a hospital only, a hospital administrator may be substituted for a health care practitioner.

2. Except as otherwise provided in subsection seven (7) of this section, arbitrator candidates shall be selected pursuant to the rules and procedures of the association from a pool of candidates generated by the association. The rules and procedures of the association pertaining to selection of arbitrators under this chapter shall require that the association send simultaneously to each party an identical list of five arbitrator candidates in each of the three categories together with a brief biographical statement on each candidate. A party may strike from the list any name which is unacceptable and shall number the remaining names in order of preference. When the lists are returned to the association they shall be compared and the first mutually agreeable candidate in each category shall be invited to serve.

3. The association shall make an initial screening for bias as may be appropriate and shall require a candidate for a particular case to complete a current personal disclosure statement under oath. In addition to other relevant information the statement shall disclose any personal acquaintance with any of the parties or their counsel and the nature of such acquaintance. If the statement reveals facts which suggest the possibility of partiality, the association shall communicate those facts in writing to the parties.

4. Any party may propound reasonable questions to an arbitrator candidate if such questions are pro-

Page 6

pounded within ten days of the receipt of the candidate's name. Such questions shall be propounded through the association and the candidate shall respond to the association promptly. The association shall forward responses to the partics.

5. A party shall not communicate with a candidate either directly or indirectly, except through the association, at any time after the filing of the demand for arbitration. Any candidate who is aware of a prohibited communication shall immediately notify the association.

6. Where the parties fail to agree upon an arbitrator within a category a second list of that category shall be sent pursuant to subsection two (2) of this section.

7. If a complete panel is not selected by mutual agreement of the parties pursuant to subsections two (2) and six (6) of this section, then under the applicable rules and procedures of the association the association shall appoint the remainder of the panel on whom agreement has not been reached by the parties. The appointment by the association shall be subject to challenge by any party for cause which challenge may allege facts to establish that unusual community or professional pressures will unreasonably influence the objectivity of the panelist. A request to strike an arbitrator for cause shall be determined by the regional director or comparable officer of the association or as may be provided by rule of the commissioner of insurance.

8. The parties shall not be restricted to the arbitrator candidates submitted by the association for consideration. If all parties mutually agree upon a panelist within a designated category the panelist shall be invited by the association to serve.

Sec. 31. *NEW SECTION.* DISCOVERY.

1. Parties to the arbitration may take depositions and obtain discovery regarding the subject matter of the arbitration, and, to that end, may use and exercise the same rights, remedies, and procedures, and shall be subject to the same duties, liabilities, and obligations in the arbitration with respect to the subject matter thereof, as if the subject matter of the arbitration where pending in a civil action before the district court.

2. Discovery shall commence not later than twenty days after all parties have received a copy of the demand for arbitration and shall be completed within six months. A party may be granted an extension of time to complete discovery only upon a showing that

Page 7

the extension is not the result of neglect and that the extension is necessary in order to avoid

substantial prejudice to the rights of the party.

3. A party is entitled to disclosure of the name of any expert witness who is expected to be called at the arbitration, and may depose that witness.

4. A party may provide discovery of an expert witness expected to be called by that party by the written interrogatory procedure provided in rule 26 (b) (4) (a) of the federal rules of civil procedure.

5. A party may disclose without request and shall disclose, upon request, the name of each expert the party expects to call at the hearing, the subject matter on which the expert will testify, the substance of facts and opinions to which the expert will testify, and a summary of the grounds for each opinion.

6. If a party is provided discovery under subsections four (4) or five (5) of this section and the completion of discovery occurs prior to the date on which an expert is noticed for deposition or prior to the date other discovery is commenced under prevailing civil practice in this state, any further discovery of the expert by any other party by deposition or otherwise shall obligate that other party to compensate the expert for his time and expenses in a reasonable amount as may be determined by the panel.

7. On application of a party to the arbitration, the panel or its chairperson may order the deposition of a witness to be taken for use as evidence and not for discovery if the witness cannot be compelled to attend the hearing or if exceptional circumstances exist making it desirable, in the interest of justice and with due regard to the importance of presenting the testimony of witnesses orally at the hearing, to allow the deposition to be taken. The depositions shall be taken in the manner prescribed by law or court rule for the taking of depositions for such use in civil actions.

8. The panel may enforce the rights, remedies, procedures, duties, liabilities, and obligations of discovery by the imposition of the same terms, conditions, consequences, liabilities, sanctions, and penalties as may be imposed in like circumstances in a civil action by the Iowa district court, except the power to order the arrest or imprisonment of a person.

9. For the purpose of enforcing the duty to make discovery, to produce evidence or information, including books and records, and to procedure persons

Page 8

to testify at a deposition or at a hearing, and to **impose terms, conditions, consequences, liabilities, sanctions, and penalties upon a party for violation of a duty, a party shall be deemed to include every affiliate of the party as defined in this section.**

For that purpose the personnel of an affiliate shall be deemed to be the officers, directors, managing agents, agents, and employees of that party to the same degree as each of them, respectively, bears that status to the affiliate; and the files, books, and records of an affiliate shall be deemed to be in the possession and control of, and capable of production by, the party.

As used in this subsection, "affiliate" of the party to the arbitration means and includes a party or person for whose immediate benefit the action or proceeding is prosecuted or defended or an officer, director, superintendent, member, agent, employee, or managing agent of that party or person.

Sec. 32. *NEW SECTION.* POWER OF SUBPOENA. The panel or its chairperson in the arbitration proceeding shall, upon application by a party to the proceeding, and may upon its own determination, issue a subpoena requiring a person to appear and be examined with reference to a matter within the scope of the proceeding, and to produce books, records, or papers pertinent to the proceeding. In case of disobedience to the subpoena, the chairperson or a majority of the arbitration panel in the arbitration proceeding may petition the district court of the county in which the witness resides or the county in which the inquiry is being held to require the attendance and testimony of the witness and the production of books, papers, and documents. The district court, in case of contumacy or refusal to obey a subpoena, may issue an order requiring the person to appear and to produce books, records, and papers and give evidence touching the matter in question. Failure to obey the order of the court may be punished by the court as contempt.

Sec. 33. *NEW SECTION.* HEARINGS.

1. An arbitration hearing shall be informal and the rules of evidence shall be as provided under the rules of the association. The panel shall adhere to civil rules of evidence where the failure to do so would result in substantial prejudice to the rights of a party.

2. Testimony shall be taken under oath and a record of the proceedings shall be made by a tape recording. Any party, at that party's expense, may have transcriptions or copies of the recording made

or may provide for a written transcript of the proceedings. The cost of any transcription ordered by the panel for its own use shall be deemed part of the cost of the proceedings.

3. Expert testimony shall not be required, but where expert testimony is used it shall be admitted under the same circumstances as in a civil action and shall be subject to cross-examination.

4. The party with the burden of establishing a standard of care and breach thereof shall establish such standards whether by the introduction of expert testimony, or by other competent proof of the standard and the breach thereof, which may include the use of works as provided in subsection five (5) of this subsection.

5. Authoritative, published works on the general and specified subjects in issue may be admitted and argued from, upon prior notice to all other parties.

6. The panel shall accord such weight and probative worth to expert evidence as it deems appropriate. The panel may call a neutral expert on its own motion, which expert witness shall be subject to cross-examination by the parties. The cost of the expert will be deemed a cost of the proceeding.

7. The panel may order submission of written briefs within thirty days after the close of hearings. In written briefs each party may summarize the evidence in testimony and may propose a comprehensive award of remedial or compensatory elements.

8. The panel shall render its award and opinion within thirty days after the close of the hearing, or after the receipt of briefs if ordered.

Sec. 34. *NEW SECTION.* DECISION OF PANEL.

1. The award in the arbitration proceeding shall be in writing and shall be signed by the chairperson or by the majority of a panel of arbitrators. The award shall include a determination of all the questions submitted to arbitration by each party, the resolution of which is necessary to determine the dispute.

2. In addition to the award the panel shall render a written opinion which states its reasoning for the finding of liability or nonliability, and the reasoning for the amount and kind of award if any. A panel member who disagrees with the majority may write a dissenting opinion.

3. The panel shall determine the degree to which each respondent party was at fault for the total damages accruing to any other party to the arbitration, considering all sources of damage involving parties

Page 10

to the arbitration, but excluding the damages attributable to persons not parties to the arbitration.

4. The panel shall prepare a schedule of contributions according to the relative fault of each party which schedule shall be binding as between those parties, but such determination shall not effect a claimant's right to recover jointly and severally from all parties where such right otherwise exists in the law.

Sec. 35. *NEW SECTION.* PROVISIONS OF AN AWARD.

1. In the case of an award, any element of which

includes remedial services, contracts, annuities, or other noncash award element, the panel shall determine the current cash value of each element of the award and also shall determine a total current cash value of the entire award.

2. An award of remedial surgery or care shall not require that the patient undergo such treatment or care by the health care provider whose conduct resulted in the award.

3. A claimant need not accept the benefits of an award for remedial surgery or of other noncash award elements and such refusal shall not affect the claimant's right to receive any other part of the award.

Sec. 36. *NEW SECTION.* APPEAL. An appeal from the arbitration decision shall be subject to the procedures and grounds permitted under chapter seventeen A (17A) of the Code for judicial review of an agency decision in a contested case.

Sec. 37. *NEW SECTION.* WITNESS FEES AND MILEAGE. Except for the parties to the arbitration and their agents, officers, and employees, all witnesses appearing pursuant to subpoena are entitled to receive fees and mileage in the same amount and under the same circumstances as is prescribed by law for witnesses in civil actions. The fee and mileage of a witness subpoenaed upon the request of a party to the arbitration shall be paid by that party. The fee and mileage of a witness subpoenaed at the request of one or more arbitrators shall be assessed and paid in the manner provided in section thirty-eight (38) of this Act for the payment of the arbitrator's expenses.

Sec. 38. *NEW SECTION.* ARBITRATOR FEES AND MILEAGE. The cost of each arbitrator's fee and expenses shall be assessed among the parties in such proportions as may be determined in the arbitration award. The amounts paid an arbitrator for mileage and as compensation for serving as an arbitrator shall be

Page 11

the amounts provided in the schedule of arbitrator fees and expenses approved by the commissioner of insurance.

Sec. 39. *NEW SECTION.* CERTIFICATION OF ASSOCIATION. A person shall not engage in the administration of arbitration proceedings governed by this chapter unless that person has submitted an application and has been granted a certificate of authority by the commissioner of insurance. A person convicted of violating this section shall be subject to a fine not to exceed ten thousand dollars.

Sec. 40. *NEW SECTION.* APPLICATION—APPROVAL.

1. An application for a certificate of authority to engage in the administration of arbitration under

this chapter shall be filed with the commissioner of insurance in a form prescribed by the commissioner, and shall contain all of the following:

a. The name of the applicant;

b. The address of the principal place of business of the applicant, and the address of any other offices to be maintained by the applicant in this state;

c. Any other information which the commissioner of insurance deems necessary to enable him or her to carry out the provisions of this chapter;

d. A copy of all rules which will materially effect arbitration proceedings or the rights of any party to arbitration;

e. A copy of all standard form agreements between health care practitioners and hospitals and their patients to be used for the purpose of effecting arbitration;

f. A copy of every brochure and other written statement to be used by the association or by health care practitioners or hospitals to describe, explain, or promote arbitration; and

g. A schedule of fees and of all reimbursable expenses which will be paid to arbitrators for their services. A schedule of fees may provide for variable fees depending upon the professional or occupational qualifications of a prospective arbitrator as specified in the schedule.

2. The commissioner of insurance may approve the application and issue a certificate of authority if the applicant establishes the ability to administer arbitration services in the manner provided in this Act. The commissioner shall approve or disapprove an application within one hundred twenty days of receipt. If the commissioner determines the application to be deficient, the commissioner shall give the applicant a reasonable period of time in

Page 12

which to perfect the application before disapproving it.

3. The issuance of a certificate of authority shall not divest the commissioner of any authority with respect to the fees, charges, rules, and other matters which the commissioner has a duty to approve or disapprove under this chapter.

Sec. 41. *NEW SECTION.* ADMINISTRATION CHARGE.

1. An association may assess a charge against each party to arbitration proceedings. The charge shall be the same for each party to a proceeding and shall be the same for all proceedings. The administration charge shall not be imposed by an association unless that charge has been filed with and approved by the commissioner of insurance. An administrative charge may be adjusted upon filing and approval as in the case of the initial filing.

2. The commissioner of insurance shall not approve an administration charge unless that charge is reasonable. An administration charge is not reasonable if that charge is in excess of an amount constituting the reasonable costs of engaging in the administration of arbitration under this chapter plus a reasonable profit.

Sec. 42. *NEW SECTION.* PROCEEDINGS REPORTED TO HEALTH CARE LICENSING BOARDS. The association shall transmit to the applicable health care licensing board of any respondent party a copy of the demand for arbitration within ten days of filing, and shall transmit to that board a copy of the decision of the panel within ten days of transmission of that decision to the parties.

Sec. 43. *NEW SECTION.* AUTHORITY OF COMMISSIONER. The commissioner of insurance is empowered to promulgate rules to administer the provisions of this chapter. The commissioner of insurance is empowered to disapprove the use of any agreement, rule, brochure, circular or other written information if in the opinion of the commissioner such document fails to meet the requirements of this chapter.

Sec. 44. *NEW SECTION.* VIOLATIONS.

1. Any association which charges an administrative charge which has not been approved, or which distributes any agreement, brochure, circular or other written information which has been disapproved, or which uses any rule which has been disapproved by the commissioner of insurance commits a violation of this chapter. The commissioner of insurance, upon notice and hearing, may assess an administrative penalty not in excess of one thousand dollars for each such

Page 13

violation.

2. If the commissioner of insurance, upon notice and hearing, determines that an association has committed repeated violations of this Act, the commissioner of insurance may suspend or revoke the certificate of authority of that person.

Sec. 45. *NEW SECTION.* DUTIES OF COMMISSIONER.

1. The commissioner of insurance shall maintain for public inspection a copy of each existing rule submitted by an association.

2. The commissioner of insurance shall compilate, and shall report annually to the general assembly, the following information respecting arbitration under this chapter:

a. The numbers of claims filed.

b. The numbers of arbitration proceedings held.

c. The number of decisions for and against claimants.

d. Such other information not identified as to parties which the commissioner deems appropriate.

Sec. 46. *NEW SECTION.* EXCLUSIVENESS OF CHAPTER. This chapter shall govern arbitration by agreement between a health care practitioner or a hospital and a person receiving health care or treatment in this state. To the extent that any provision of chapter six hundred seventy-nine (679) of the Code is inconsistent with the provisions of this chapter, the provisions of this chapter shall be given effect."

By Horn, Patchett, Byerly, Stromer and Menke

Whereas, the personnel of agriculture, business and industry, and the youth and adults of Iowa call for increased commitment of educational agencies to provide assistance in preparing for work in an increasingly complex society; and

Whereas, the present legislative provisions that fund secondary vocational and career education programs, services, and activities for secondary schools need further delineation and study; and

Whereas, the legislative provisions for supporting and implementing these programs, services and activities are not clearly defined and do not provide an adequate mechanism for funding area colleges which provide secondary vocational training; and

Whereas, the legislative provisions for supporting and implementing these programs, services and activities do not provide for differing programatic and resource requirements; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the department of public instruction in cooperation with and under the direction of the standing committees on education of the House and Senate, shall conduct a study to begin as soon as possible and terminate by January 1, 1977, to determine specific action to this educational effort. The study will include a review of existing funding legislative provisions and the extent to which existing provisions of chapters 257, 258, 280, 280A, 281, 282, 289, and 442, might provide educational programs, services and activities that prepare individuals for productive satisfying work roles; and

Page 2

Be It Further Resolved, That the study will give specific attention to provisions that facilitate the equitable allocation of resources to cost centers, educational agencies and merged areas of the state in order to provide secondary vocational or career education programs, services and activities; and

Be It Further Resolved, That the study identify specific recommendations for improvement and include necessary bill drafts to implement recommendations in the report submitted in January, 1977, to the Sixty-seventh General Assembly.

HOUSE CONCURRENT RESOLUTION 143

By Brandt

Whereas, there are many Iowans who have skills and talents to offer the state who are barred from state employment because their circumstances do not permit them to accept a full-time job; and

Whereas, one remedy for this situation which other states are employing and which the United States Congress is presently considering is flexibly scheduled job opportunities including permanent part-time, gliding and tandem positions; and

Whereas, statistics indicate that flexible scheduling does work and that the system provides advantages to the employer in terms of productivity and morale and to potential employees, who are primarily women, elderly, handicapped and students in need of employment; and

Whereas, a flexible hours program for the state should provide vacation time and sick leave to flexitime employees according to the number of hours worked; and for participation by flexitime employees in other employee benefit programs including retirement, group insurance, workmen's compensation and unemployment compensation with the state's share prorated to reflect the employee's part-time status; and

Whereas, such a program should also protect the employment and employment rights of any employee or

prospective employee and should not interfere with normal agency operations; and

Whereas, House File 1209 and House Concurrent Resolution 119, introduced during the Second Session of the Sixty-sixth General Assembly offered alternative proposals for initiating a flexible hours program in

Page 2

state government; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council is requested to authorize the appointment of a study committee consisting of members of both Houses of the General Assembly to study House File 1209 and House Concurrent Resolution 119, and the problems created by flexible scheduling in terms of employee fringe benefits, including the costs of such benefits, and the effects on agency operations and to provide for input from both department heads and persons interested in flexibly scheduled employment concerning the feasibility of a flexitime systems; and

Be It Further Resolved, That the study committee shall submit a report of its findings and recommendations, including legislative bill drafts necessary to implement the recommendations, to the Legislative Council and members of the Sixty-seventh General Assembly meeting in the year 1977.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 144

By Hennessey, Mennenga, Howell, Miller of Buchanan, Wells, Spradling, Wyckoff, Miller of Cerro Gordo, Poncy, Hansen, Bortell, Jordan

Whereas, bonds issued by school corporations are retired from moneys derived from a property tax levy; and

Whereas, property owners are facing increases in property taxes for funding all levels of local government; *Now, Therefore,*

Be It Resolved by the House of Repesentatives, the Senate Concurring, That the legislative council is authorized to create a study committee as provided by law, composed of members of the Senate and the House of Representatives representing both political parties, to conduct a study during the 1976 interim to determine alternative methods available for financing the retirement of bonds issued by school corporations; and

Be It Further Rseolved, That the study committee shall prepare a report of its findings and recommendations and submit it to the legislative council and the members of the Sixty-seventh General Assembly, 1977 Session, accompanied by legislative bill drafts designed to carry out the recommendations of the study committee.

Laid over under Rule 25.

This provision shall not apply to any pretreatment system the effluent of which is to be discharged directly to another disposal system for final treatment and disposal.

Upon adoption of standards by the commission pursuant to item one (1) of this amendment, plans and specifications for sewer extensions and water supply distribution system extensions covered by this section shall be submitted to the city or county public works department for approval if the local public works department employs a qualified, registered engineer who reviews the plans and specifications using the specific state standards known as the Iowa

Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems that have been formulated and adopted by the commission pursuant to item one (1) of this amendment. The local agency shall issue a written permit to construct if:

a. The governmental subdivision employs full-time a qualified, professional engineer who reviews plans and specifications for such extensions, and the governmental subdivision notifies the director of that fact.

b. The submitted plans and specifications are in substantial compliance with departmental rules and the Iowa Standards for Sewer Systems and the Iowa Standards for Water Supply Distribution Systems.

c. The extensions primarily serve residential consumers and will not result in an increase greater than five percent of the capacity of the treatment works or serve more than two hundred fifty dwelling units or, in the case of an extension to a water supply distribution system, such extension will have a capacity of less than five percent of such system or will serve fewer than two hundred fifty dwelling units.

Page 4

d. The proposed sewer extension will not exceed the capacity of any treatment works which received a state or federal monetary grant after 1972; and

e. The proposed water supply distribution system extension will not exceed the production capacity of any water supply distribution system which received a state or federal monetary grant after 1972.

After issuing a permit, the city or county public work department shall notify the director of such issuance by forwarding a copy of the permit to the director. In addition, the local agency shall submit quarterly reports to the director including such information as capacity of local treatment plants and production capacity of water supply distribution systems as well as other necessary information requested by the director for the purpose of implementing chapter four hundred fifty-five B (455B) of the Code.

Plans and specifications for all other waste disposal systems and water supply distribution systems, including sewer extensions and water supply distribution system extensions not reviewed by a city or county public works department under this section, shall be submitted to the department before a written permit may be issued. The construction of any such waste disposal system or water supply distribution system shall be in accordance with standards formulated and adopted by the commission pursuant to item one (1) of this amendment or otherwise approved by the department. If it is necessary or desirable to make

material changes in such plans or specifications, revised plans or specifications together with reasons for the proposed changes must be submitted to the department for a supplemental written permit.

Prior to the adoption of statewide standards, the department may delegate the authority to review plans and specifications to those governmental subdivisions if, in addition to compliance with subsection three (3) of this section, that governmental subdivision agrees to comply with all state and federal regulations and submits a plan for the review of plans and specifications including a complete set of local standard specifications for such improvements.

The director may suspend or revoke delegation of review and permit authority after notice and hearing as set forth in chapter seventeen A (17A) of the Code if the director determines that a city or county public works department has approved extensions which do not comply with design criteria, which exceed the capacity of waste treatment plants or the production

CONSIDERATION OF BILLS

STEERING COMMITTEE CALENDAR

Senate File 367, a bill for an act relating to the location and operation of livestock feedlots, and defining nuisance as the term relates thereto, with report of committee recommending amendment and passage, was taken up for consideration.

Scheelhaase of Woodbury offered the following amendment H—6666 filed by Scheelhaase, et al.:

H—6666

Amend Senate File 367, as amended and passed by the Senate, by striking everything after the enacting clause and inserting in lieu thereof the following:

"Section 1. *NEW SECTION.* DEFINITIONS. As used in this Act, unless the context otherwise requires:

1. "City" means a municipal corporation including a town, but not including a county, township, school district, or any special-purpose district or authority.

2. "Department" means the department of environmental quality and includes any officer or agency within that department.

3. "Established date of operation" means the date on which a feedlot commenced operating with not more livestock than reasonably could be maintained by the physical facilities existing as of that date. If the physical facilities of the feedlot are subsequently expanded, the established date of operation for each expansion is deemed to be a separate and independent "established date of operation" established as of this date of commencement of the expanded operations, and the commencement of expanded operations shall not divest the feedlot of a previously established date of operation.

4. "Established date of ownership" means the date of the recording of an appropriate muniment of title establishing the ownership of realty.

5. "Rule of the department" means a rule as defined in section seventeen A point two (17A.2) of the Code which materially affects the operation of a feedlot and which has been adopted by the department. The term includes a rule which was in effect prior to the effective date of chapter one thousand ninety (1090), Acts of the Sixty-fifth General Assembly, 1974 Session. Nothing in this Act shall be deemed to empower the department to make any rule.

6. "Feedlot" means a lot, yard, corral, or other area in which livestock are confined, primarily for the purposes of feeding and growth prior to slaughter. The term does not include areas which are used for the raising of crops or other vegetation and upon which livestock are allowed to graze or feed.

7. "Livestock" means cattle, sheep, swine, poultry, and other animals or fowl, which are being produced primarily for use as food or food products for human consumption.

8. "Materially affects" means prohibits or regulates with respect to the location, or the emission of noise, effluent, odors, sewage, waste, or similar products resulting from the operation or the location

Page 2

or use of buildings, machinery, vehicles, equipment, or other real or personal property used in the operation, of a livestock feedlot.

9. "Nuisance" means and includes public or private nuisance as defined either by statute or by the common law.

10. "Nuisance action or proceeding" means and includes every action, claim or proceeding, whether brought at law, in equity, or as an administrative proceeding, which is based on nuisance.

11. "Owner" shall mean the person holding record title to real estate to include both legal and equitable interests under recorded real estate contracts.

12. "Zoning requirement" means a regulation or ordinance, which has been adopted by a city, county, township, school district, or any special-purpose district or authority, and which materially affects the operation of a feedlot. Nothing in this Act shall be deemed to empower any agency described in this subsection to make any regulation or ordinance.

13. A rule pertaining to "feedlot management standards" means a rule, the implementation of which, or the compliance with which, requires the expenditure of funds not in excess of two percent of the establishment cost of the feedlot.

14. A rule pertaining to "feedlot design standards" means a rule, the implementation of which, or the compliance with which, requires the expenditure of funds in excess of two percent of the establishment cost of the feedlot.

15. "Establishment cost of a feedlot" means the cost or value of the feedlot on its established date of operation and includes the cost or value of the building, machinery, vehicles, equipment or other real or personal property used in the operation of the feedlot.

Sec. 2. *NEW SECTION.* NUISANCE ACTIONS LIMITED. No person whose date of ownership of realty is subsequent to the established date of operation of a feedlot shall maintain a nuisance action or proceeding against a feedlot except upon the pleading and proof of a specific violation either of section three (3) or section four (4) of this Act.

Sec. 3. *NEW SECTION.* COMPLIANCE WITH RULES OF THE DEPARTMENT.

1. REQUIREMENT. A person who operates a feedlot shall comply with applicable rules of the department. The applicability of a rule of the department shall be as provided in subsection two (2) of this section.

Page 3

A person complies with this section as a matter of law where no rule of the department exists.

2. APPLICABILITY OF RULES.

a. Exclusion for federally mandated requirements. This section shall apply to the department's rules except for rules required for delegation of the national pollutant discharge elimination system permit program pursuant to the Federal Water Pollution Control Act, Title thirty-three (33), United States Code, chapter one hundred twenty-six (126), as amended, and forty (40) Code of Federal Regulations, Part one hundred twenty-four (124).

b. Applicability of rules of the department other than those issued by the air quality commission.

(1) A rule of the department in effect on the effective date of this Act shall apply to a feedlot with an established date of operation prior to the effective date of this Act.

(2) A rule of the department shall apply to a feedlot with an established date of operation subsequent to the effective date of the rule.

(3) A rule of the department adopted after the effective date of this Act shall not apply to a feedlot holding any DEQ permit and having an established date of operation prior to the effective date of the rule until either the expiration of the term of the permit in effect on the effective date of the rule, or ten years from the established date of operation of the feedlot, whichever time period is greater.

(4) A rule of the department adopted after the effective date of this Act shall not apply to a feedlot not previously required to hold a DEQ permit and having an established date of operation prior to the effective date of the rule for either a period of ten years from the established date of operation of the feedlot or five years from the effective date of the rule, whichever time period is greater.

(5) To achieve compliance with applicable rules the department shall issue an appropriate compliance schedule.

c. Applicability of rules of the air quality commission.

(1) A rule of the air quality commission in effect on the effective date of this Act shall apply to a feedlot with an established date of operation prior to the effective date of this Act.

(2) A rule of the air quality commission shall apply to a feedlot with an established date of operation subsequent to the effective date of the rule.

(3) A rule of the air quality commission pertain-

Page 4

ing to feedlot management standards adopted after the effective date of this Act shall not apply to any feedlot having an established date of operation prior to the effective date of the rule until one year after the effective date of the rule.

(4) A rule of the air quality commission pertaining to feedlot design standards adopted after the effective date of this Act shall not apply to any feedlot having an established date of operation prior to the effective date of the rule for either a period of ten years from the established date of operation of the feedlot or two years from the effective date of the rule, whichever time period is greater. However, any design standard rule pertaining to the siting of any feedlot shall apply only to a feedlot with an established date of operation subsequent to the effective date of the rule.

(5) To achieve compliance with applicable rules the department shall issue an appropriate compliance schedule.

Sec. 4. *NEW SECTION.* COMPLIANCE WITH ZONING REQUIREMENTS.

1. REQUIREMENT. A person who operates a feedlot shall comply with applicable zoning requirements. The applicability of a zoning requirement shall be as provided in subsection two (2) of this section. A person complies with this section as a matter of law where no zoning requirement exists.

2. APPLICABILITY.

a. A zoning requirement shall apply to a feedlot with an established date of operation subsequent to the effective date of the zoning requirement.

b. A zoning requirement, other than one adopted by a city, shall not apply to a feedlot with an established date of operation prior to the effective date of the zoning requirement, for a period of ten years from the effective date of that zoning requirement.

c. A zoning requirement which is in effect on the effective date of this Act, shall apply to a feedlot with an established date of operation prior to the effective date of this Act.

d. A zoning requirement adopted by a city shall apply to a feedlot located within an incorporated or unincorporated area which is subject to regulation by that city as of the effective date of this Act, regardless of the established date of operation of the feedlot.

e. A zoning requirement adopted by a city shall not apply to a feedlot which becomes located within

an incorporated or unincorporated area subject to regulation by that city by virtue of an incorporation or annexation which takes effect after the effective date of this Act for a period of ten years from the effective date of the incorporation or annexation.

Sec. 6. Chapter six hundred fifty-seven (657), Code 1975, is amended by adding the following new

section:

NEW SECTION. FEEDLOTS. This chapter shall apply to the operation of a livestock feedlot, only as provided in sections one (1) through five (5) of this Act.

Sec. 7. The code editor is directed to codify sections one (1) through five (5) of this Act as a new chapter of the Code.

Sec. 8. This Act shall take effect on November 1, 1976."

Sec. 7. Chapters one hundred twenty-five (125) and two hundred twenty-four B (224B), Code 1975, are repealed effective July 1, 1977. However, if the merger of the division of alcoholism and the Iowa drug abuse authority is delayed pursuant to section three (3) of this Act, the two agencies shall continue to be governed by the provisions of those chapters as if they were in full force and effect until the merger takes effect." Sec. 7. Chapter three hundred five A (305A), Code 1975, is amended by adding the following new sections:

NEW SECTION. The state archaeologist shall have the primary responsibility for investigating, preserving and reinterring discoveries of ancient human remains. For the purposes of section six (6) of this Act ancient human remains shall be those remains found within the state which are more than one hundred fifty years old. The state archaeologist shall make arrangements for the services of a forensic osteologist in studying and interpreting ancient burials and may designate other qualified archaeologists to assist the state archaeologist in recovering physical and cultural information about the ancient burials. The state archaeologist shall file with the department of health a written report containing both physical and cultural information regarding the remains at the conclusion of each investigation.

INTRODUCTION OF BILL

House File 1589, by committee on appropriations, a bill for an act relating to and appropriating funds for programs for low income and elderly persons.

Read first time and **placed on appropriations calendar.**

HOUSE CONCURRENT RESOLUTION 147

By Middleton, Lipsky, Svoboda, Brandt
Gentleman and Spencer

Whereas, the Iowa State Women's Reformatory at Rockwell City is established to rehabilitate individual offenders of the law; and

Whereas, the purpose of rehabilitation within the corrections community is to return individuals convicted of crimes against the state and private persons to the mainstream of society to lead healthy and productive lives; and

Whereas, there have been several reports and letters of concern that have alleged that the rehabilitation program and implementation of that program is inadequate and ineffective; and

Whereas, there have been reports and letters of concern further alleging that the disciplinary policy and the procedure to appeal from disciplinary policy decisions may not be equitable and proper; and

Whereas, correspondence between the administration and concerned individuals and members of the General Assembly has been unsatisfactory; and

Whereas, it may be desirable to close the Iowa State Women's Reformatory and to establish extensive community programs instead of operating a single penal institution for women; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the Legislative Council establish a committee to investigate during the 1976 interim the rehabilitation program, alternatives to prison confinement, disciplinary policy and appeal procedures from disciplinary decisions by the Rockwell City administration, which committee shall be composed

of female and male members of the House of Representatives and the Senate representing both political parties, and which shall include members of the appropriate standing committees of the House of Representatives and the Senate; and

Be It Further Resolved, That the investigating committee may include nonlegislative members having special knowledge in the fields of penal and correctional facilities, rehabilitation programs and that the committee be authorized to retain, if necessary, consultants and assistants, and that a report of the committee's findings be prepared and submitted to the legislative council and members of the Sixty-seventh General Assembly, 1977 Session, and shall be accompanied by legislative bill drafts designed to carry out the recommendations of the committee.

Laid over under Rule 25.

HOUSE CONCURRENT RESOLUTION 148

By Brunow, Brandt, Bortell, Krause, Miller of Buchanan, Menke, Rinas and Schroeder

Whereas, TRACIS was formed in 1970 for the purpose of planning and forming a computer center for the purpose of collecting and dispatching criminal information data to law enforcement agencies; and

Whereas, the criminal information data has not been placed in the computer and is not available to law enforcement agencies throughout the state; and

Whereas, a question has arisen concerning the payment of consulting fees to the Planning Research Corporation; and

Whereas, there is a need for a complete review of the TRACIS program; *Now, Therefore,*

Be It Resolved by the House of Representatives, the Senate Concurring, That the legislative council is authorized to create a study committee as provided by law, composed of members of the Senate and the House of Representatives representing both political parties, to conduct a study during the 1976 interim relating to the development and operations system of TRACIS in this state and to determine the need for evaluating the operation of the program; and

Be It Further Resolved, That the study committee shall prepare a report of its findings and recommendations and submit it to the legislative council and the members of the Sixty-seventh General Assembly, 1977 Session, accompanied by legislative bill drafts designed to carry out the recommendations of the study committee.

Laid over under Rule 25.

HOUSE RESOLUTION 120

By Clark, Tauke, Millen, Harvey, Oakley, Stromer, West, Bennett, Nealson, Wulff, Danker, Crabb, Schroeder, Lindeen, Halvorson, Brockett, Drake, Varley and Pellett

Whereas, transportation on the upper Mississippi River provides a vital link to foreign and domestic markets for Iowa products; and

Whereas, 9 million tons of freight are shipped to and from the state of Iowa annually by way of the upper Mississippi River; and

Whereas, Locks and Dam 26 at Alton, Illinois has deteriorated to an obsolete condition; and

Whereas, the closing of Locks and Dam 26 would have a devastating effect on the economy of Iowa as well as on the economies of our sister states; *Now, Therefore,*

Be It Resolved by the House of Representatives, That we appeal to the Iowa Congressional Delegation to make every effort to secure the reconstruction

of Locks and Dam 26 at the earliest possible date; and

Be It Further Resolved, That a copy of this resolution be forwarded to the members of the Iowa Congressional Delegation.

Laid over under Rule 25.
