

**657—11.22(124,147A,155A) Return of drugs.** Drugs that have been removed from administration stock shall be returned to the responsible individual. In a pharmacy-based service, drugs returned from the service program to the base pharmacy may be used by the pharmacy for subsequent dispensing or administration provided the drugs are not outdated or adulterated. Records of the return of prescription drugs shall be maintained by the responsible individual.
