

191—73.11(75GA,ch158) Rates.

73.11(1) A carrier shall use rate restrictions and regulations applicable to each market segment.

73.11(2) The HIPC may collect a different premium within the HIPC. This difference is predicated on marketing and administrative expenses which the HIPC would assume. Therefore, the carrier could offer the HIPC a lower final rate than the carrier would charge outside of the HIPC.
