

27—13.61(161C) Applications submitted to soil and water conservation district. Landowners or farm operators seeking organic nutrient management program funds shall complete necessary applications as specified in this part. Application and agreement forms referenced in this chapter are those described in rule 27—10.95(161A). All application forms and agreements for organic nutrient management program funds are available from and shall be submitted to the district office located in the county where such practices are proposed. If an applicant's land is in more than one district, the respective district commissioners will review the application and agree to obligate all funds from one district or prorate the funding between districts.
