

871—10.3(84A) Applications/programming bureau. The bureau is under the direction of a chief who assists the division administrator in planning, directing and coordinating the development of computer programs and operating systems necessary to meet the needs of the department. The bureau is responsible for:

1. Developing new computer application systems/programs that are mandated by federal or state law or are required to support the department's mission. These systems/programs are developed in consultation with the requesting division.
2. Changing or modifying existing systems/programs to meet the changing needs or mandated requirements of federal or state law.
