HF 2174

1 Section 1. Section 99G.30, subsection 4, Code 2005, is  
2 amended to read as follows:

3 4. Except for the authority, a retailer shall only sell  
4 lottery products on the licensed premises and not through the  
5 mail or by technological means except as the authority may  
6 provide or authorize and subject to the requirements of  
7 section 99G.30A.

8 Sec. 2. NEW SECTION. 99G.30A MONITOR VENDING MACHINES --  
9 PAYOUT INFORMATION STICKER.

10 1. A retailer may sell lottery products or tickets by  
11 means of a monitor vending machine pursuant to the  
12 requirements of the authority, but only if the retailer  
13 affixes a sticker, as approved by the authority, which clearly  
14 indicates the approximate payout percentage for that machine.  
15 The sticker shall be of legible type and located in a  
16 prominent place on the machine that can be easily read by a  
17 user of the machine.

18 2. For purposes of this section, a "monitor vending  
19 machine" means a machine or other similar electronic device  
20 that includes a video monitor and audio capabilities that  
21 dispenses to a purchaser lottery tickets that have been  
22 determined to be winning or losing tickets by a predetermined  
23 pool drawing machine prior to the dispensing of the tickets.

24 EXPLANATION

25 This bill establishes requirements for the use by a  
26 retailer of monitor vending machines to sell Iowa lottery  
27 authority products or tickets. The bill defines a "monitor  
28 vending machine" as a machine with a video monitor and audio  
29 capabilities that dispenses to a purchaser lottery tickets  
30 that have been determined to be winning or losing tickets by a  
31 predetermined pool drawing machine prior to the dispensing of  
32 the tickets.

33 The bill provides that a retailer may sell lottery products  
34 by a monitor vending machine so long as the retailer affixes a  
35 sticker to the machine that indicates the payout percentage

1 for that machine. The bill requires the sticker to be  
2 approved by the lottery authority, be of legible type, and be  
3 located in a prominent place on the machine that can be read  
4 by a user of the machine.
