EXPLANATION OF VOTE.

I voted "aye" on House File No. 282 because, according to its provisions, cities and incorporated towns will get at least a portion of their just proportion of the motor vehicle tax and because it makes available for the purpose of building and repairing roads and streets a larger percentage of the motor vehicle tax than is now given.

T. F. GRIFFIN.

Mr. Speaker and Gentlemen of the Thirty-sixth General Assembly:

I desire to have incorporated in the journal of the House an explanation of my vote upon House File No. 282, or the Johnson bill.

While I am not thoroughly in accord with all the provisions of the bill, I feel that this bill is decidedly a measure in behalf of restoring back to the people of the various counties and of the various localities of the state a much more thorough control of the highways, the levees, and the expenditure of the money by the people who pay the taxes that produce the money. While this measure may not fully come up to the entire expectations of my citizens at home, I desire to vote for this bill primarily upon the ground that it restores back to them a more thorough and efficient control of the funds.

C. H. CLARK.

Brady of Dallas in the chair.

AFTERNOON SESSION.

House reconvened, Speaker Atkinson in the chair.

Witthauer of Audubon asked unanimous consent to have the statement made by him this morning with reference to the amount of the automobile tax in Audubon county printed in the journal.

Unanimous consent having been granted, the statement was ordered printed in the journal.

MR. SPEAKER—I ask personal privilege to make a statement. I want to in part reply to the slanderous attacks made upon me as well as other members on the floor of this House yesterday and later printed in the Evening Tribune and Register and Leader, wherein I am accused of having voted away from my county \$9,718 by voting for the reconsideration of the Bronson amendment to H. F. 282. I deny the statement as absolutely false. I find that they have arrived at these figures by taking

the whole amount received for auto licenses in the state and taking the whole number of cars in the state and dividing the amount of money by the number of cars they got \$9.50 per car, which is not absolutely correct. My county is charged with 1,639 cars at \$9.50 per car, making \$15,570.50. By consulting the secretary of state's office I find that in fact my county only paid on 639 cars, a total of \$6,070.50, making an error as stated of 1,000 cars or \$9,500.

My county received \$5,852.16, which would be only a difference of \$218.34 were the pro rata per car correct, which I doubt very much. Not one cent was voted away from my county.

The same kind of errors may appear in the statement as applied to other members. The period for which the license money was paid, namely, eleven months, was from January 1, to December 1, 1914, while the amount paid to my county, \$5,852.16, was from August 1, 1913, to August 1, 1914, which was not for the same period of time and is not a fair statement.

I ask that the statement be corrected and I want to denounce the statement made on the floor of the House and printed in the Evening Tribune and Register and Leader as absolutely false. The Register and Leader has for some time been dubbed in my county as the "Register and Liar" and I want to again denounce the whole statement as false and ask that the same be corrected.

OTTO WITTHAUER.

On request of Johnston of Humboldt leave of absence was granted Wigdahl of Palo Alto for the day.

Prayer was offered by the Rev. E. T. McNally of Sibley, Iowa.

Witthauer of Audubon asked unanimous consent to have the following proposed amendments to House File No. 415 printed in the journal.

Unanimous consent having been granted, the amendments were ordered printed in the journal.

I move to amend House File No. 415 by striking out all of said bill after the enacting clause and inserting in lieu thereof the following:

"SECTION 1. Any person who hereafter shall have served a term of imprisonment under conviction for a crime or offense against the state, of which crime or offense he claims to have been innocent, or any person who shall have been pardoned by the governor on the ground of innocence and whose term of imprisonment shall thereby have been decreased, may petition the executive council for the allowance from the state of compensation for such wrongful imprisonment.

SECTION 2. Such executive council shall hold a hearing on such petition and shall cause evidence of the character hereinafter mentioned to be produced before it. After hearing the evidence, the executive council shall make a finding that it is clear beyond a reasonable doubt that the petitioner was innocent of the crime or offense for which he suffered imprisonment, or that it is not clear beyond a reasonable doubt that the petitioner was innocent of the crime or offense for which he was imprisoned. Upon the hearing before the executive council the record of the trial in which the conviction was had may be presented to the executive council for the purpose of enabling the executive council to understand the situation, but the finding of the executive council shall be based only on such evidence or circumstances as have been discovered or have arisen since the trial and conviction of the petitioner of the crime or offense for which he claims to have suffered wrongful imprisonment.

SEC. 3. If the executive council shall find that the petitioner was innocent of the crime or offense for which he has suffered imprisonment, and that he did not by his act or failure to act contribute to bring about the conviction and imprisonment for which he seeks compensation, the executive council shall proceed to find the amount which will compensate the petitioner for his wrongful imprisonment. Such executive council may award a compensation to the petitioner so found innocent of not to exceed five thousand dollars in any case, and at a rate of compensation not greater than fifteen hundred dollars per year for the imprisonment so unjustly suffered. If the executive council shall find that the amount they may be able to award will not be adequate compensation to the petitioner they shall report an amount to the legislature which they shall deem to be adequate and shall recommend the appropriation by the legislature to the petitioner of the amount in excess of the amount they may have awarded.

SEC. 4. The executive council shall keep a full and complete record of its proceedings in each case and of all the evidence produced before it. On such hearing the attorney general shall appear on behalf of the state. The findings and award of the executive council shall be subject to review on an appeal to the district court of Polk county, but the appeal shall be subject to the same limitations as apply to the findings and award made by the executive council. The attorney general may, on behalf of the state, appeal to said district court from the award of the executive council by serving notice of such appeal on the secretary of such executive council within twenty days after the filing of said award. In case appeal is taken the secretary of the executive council shall file a certified copy of the transcript of the proceedings of the executive council, together with its award, in the office of the clerk of the district court of Polk county, which clerk shall docket the cause without fee. Upon the expiration of twenty days from the final determination of such award the executive council shall certify the same to the state auditor, who shall issue his warrant therefor.

SEC. 5. There is hereby appropriated out of any money in the state treasury not otherwise appropriated a sum sufficient to carry out the provisions of this section."

EXPLANATION OF VOTE.

MR. SPEAKER—I wish to explain my vote against House File No. 422 because I believe a short vote will defeat for many years the chance for women to vote. The farmers are generally for women suffrage. I come from a rural district and fear because of the facts that it is well known that the farmers will not come out to the polls primary time their wishes will be defeated.

A. B. HOLBERT.

Holbert of Delaware moved that the remarks of Greene of Grundy on House File No. 422 be made a matter of record and printed in the journal.

Motion prevailed and the remarks were ordered printed in the journal.

HON. E. K. GREENE.

Mr. Speaker and Gentlemen of the House:

This is not a question of dollars and cents; not a question involving the financial affairs of the state, but a question of the common, every day rights of every human being of the earth. It is the same old question in the same old way, human rights, and when this question comes to me, it permeates the innermost parts of my soul. No human being can come to me with an appeal on this question but will always find a listening ear and a helping hand. There is a certain class of human beings so careful lest their fellow beings may fall that they will never even allow them to rise.

Humanity, since its birth, has been crying out for God and liberty. One of the most puzzling questions that have come down through the ages is why man, with all his intelligence, has been so oppressive to his fellowman, and this question has baffled the greatest minds of all times, and

the only excuse that seems to me that can be offered is that man is a natural enslaver of his kind. To my mind he is great who has in the least assisted in breaking the ties that bind, and thereby gains for himself in giving unto others, a wider view of God and a greater share of that liberty of body, soul and mind that is the inalienable right of all humanity.

In the early history of the colonies, through selfishness and love of greed, the black man was introduced in the colonies as a slave, and on down through the early years of our government, that accursed institution, that crime of all crimes—slavery—was nurtured and cared for with a zealous care. Thanks be to Him who rules the destiny of men and nations, there arose in our midst a modern Moses, who was destined to lead this poor, ignorant, benighted people out of the land of sin and degradation, from the house of bondage, through a wilderness of bigotry and selfishness into that great light of freedom, that a part at least might be fulfilled when that sainted Jefferson wrote into that immortal document that all men are created free and equal, that they are endowed by their Creator with certain inalienable rights, that among them are life, liberty and the pursuit of happiness.

The character of Abraham Lincoln, like that other man of sorrow, is of value to us only as we will drink it into our thirsty souls and make it a part of our character. As he labored, so many, many years to strike from the black man the shackles which bound him to servitude, so do we, here this day, labor to strike the shackles of political inequality from the lives of the mothers, wives, sisters and daughters of our fair land.

No people or government will ever come to its full share of the bounties and blessings that are in store for it until the equal rights of all mankind are recognized and given to each individual of the earth, and I care not whether that individual be white, brown, yellow, red or black, male or female.

Man believes in having all the rights that God intended him to have, and while we as men have them for ourselves, we ought to be willing and must give them to our fellow beings, but while we are guarding our own rights with such zealous care, we are disfranchising one-half of the human race, the noblest part of the work of God, the woman.

When that great Virginian patriot made that famous appeal, "Give me liberty or give me death," the whole world took up the cry and that appeal has come down through all the years as the cry of the soul when bound down by religious or political slavery.

The same sentiment that prompts the soul of man to cry out for liberty and freedom, also animates the very soul and being of woman to plead for that same God-given right which should be vouchsafed into all humanity, and thus will it ever be until mankind becomes conscious that there is but one set of principles for the government of the race, and those principles were promulgated to the world almost two thousand years ago by the lowly Nazarene, the Man of Galilee.

The love and devotion by woman for the perpetuation of the human race is a marvel to the world, and while we recall and eulogize the lives and deeds of many celebrated men who have made the world better and richer by their unselfish and virtuous lives, how little we think of the no-

ble mothers that not only gave Him to the world, but made themselves the crowning characters of their time.

It is woman that first gives man to the world, cares for and nurses his frail and weak body, teaches him his first steps, watches and guards his infant life, and as he waxes stronger in years, begins the cultivation of his immature brain, guides his thoughts and his every footstep, takes him to her knee and not only points out to him the pure and holy pathway of life, but teaches him the way to eternal salvation. In the language of one, the latchets of whose shoes I am unworthy to unloose, "All I am or hope to be, I owe to my mother."

Gentlemen of this House, I plead with you, I implore you to give unto woman her God-given right to freedom. Is there a man within the sound of my voice who will longer withhold from the mother, the sister, the wife or the daughter this sacred, God-given right which you hold so dear to your own heart?

The House resumed consideration of the resolution offered by Ball of Jefferson relative to instructing the chief clerk to place House File No. 187 on the calendar.

Swenson of O'Brien moved the previous question.

Holbert of Delaware seconded the motion.

Motion prevailed.

Roll call demanded by Helming of Allamakee and Swenson of O'Brien.

SPECIAL ORDER NO. 24.

Time having arrived for Special Order No. 24, Clark of Monroe moved that action on the same be deferred until the termination of the matter now under consideration.

Motion prevailed and action was deferred on Special Order No. 24 until the termination of the matter under consideration.

House resumed consideration of the resolution offered by Ball of Jefferson.

On the question, "Shall the resolution be adopted?"

The ayes were:

Anderson of Montgomery, Anderson of Greene, Anderson of Winnebago, Anderson of Davis, Bailey, Ball, Barry, Bauman, Becker, Bingham, Brady, Brammer, Bronson, Buxton, Clark, Coakley, Cochrane, Craven, Crozier, Doze, Durant, Eggleston, Elwood, Freeman, Garton, Gilmore, Grason, Gray, Greene, Griffin, Hadley, Hale, Hall, Helming, Holbert, Horchem, Ingwersen, Johnston of Humboldt, Johnston of Lucas, Jones of Cerro Gordo, Jones

of Dickinson, Kane, Kelso, Kepple, Kimberly, Klinker, Kopp, Lee, Lenoeker, Lueders, McDermid, McFerren, Mackie, Michael, Miller, Moore, Munro, Murray, Nicholson, Nordyke, Oldenburg, Petersen, Pitt, Purdy, Reese, Richards, Ring, Roberts, Rogers, Rone, Rowles, Sawyer, Schmedika, Shaeffer, Shortess, Slaughter, Smith, Spotts, Steelsmith, Stokes, Sullivan, Swain, Swenson, Taylor, Thompson, Tucker, Turner, Wayman, Wigdahl, Wilson of Cherokee, Wilson of Louisa, Wilson of Mahaska, Wilson of Mitchell, Witthauer—94.

The nays were:

Bruce, Gilbert, Jamison, McFarlane, Stone, Mr. Speaker—6.

Absent or not voting:

Coast, Darrah, Herman, Jessen, Neff, Rayburn, Rees, Wenstrand—8.

So the resolution was adopted and the chief clerk was instructed to place House File No. 187 on the calendar.

EXPLANATION OF VOTE.

I am voting to place House File No. 187 on the calendar for the sole purpose of considering it upon its merits, and not for any alleged misconduct of any member of the ways and means committee.

CLAYTON E. BRONSON.

AFTERNOON SESSION.

House reconvened, Speaker pro tempore Elwood in the chair.

Miller of Bremer was recognized by the chair and addressed the House on a question of personal privilege.

Freeman of Wapello moved that the remarks of Miller of Bremer be printed in the journal.

Motion prevailed and the remarks were ordered printed in the journal.

MR. SPEAKER—Inasmuch as certain false and malicious statements have been made before a Committee of the Senate—statements that not only imply that improper and corrupt methods have been employed to pass through the House a measure that will soon engage the Senate's attention, but which call into question the motives and character of some of the noblest men and women in this country, I regard it as no small privilege, I assure you, to be permitted to answer the false charges that have been so recklessly and maliciously made.

In no sense do I wish to have what I may say regarded as a personal defense. What I have stood for in this General Assembly is no different than what I have stood for in four others, and the fact that an intelligent constituency has approved my attitude as often as I have offered myself as a candidate for their favor is all the personal vindication that I crave.

I desire to deny, however, with all the vehemence of my being, the claim made by Dr. Duhigg before the Senate Public Health Committee, that the National League for Medical Freedom was organized, primarily,

to oppose the pure food and drug act, and that its activities have been in the direction of promoting the interests of the food adulterators and patent medicine manufacturers. As a matter of fact the National League for Medical Freedom did not come into being until 1910, several years after the pure food and drug act was enacted. What called it into being was the Owen Bill, which proposed to establish the medical dynasty in this country that the political doctors had been seeking for more than twenty years. This measure proposed an assault upon the human rights that our forefathers expended so much blood and treasure to secure, and the same patriotic motives that inspired those who wrested the Magna Charta from King John and later of those, who, in this country, joined in wresting our Independence from Great Britain, inspired those who banded themselves together to resist this menace to their liberties. I am proud to have been one of the founders of this organization and I maintain and insist that its personnel itself would be sufficient to clear it of every suspicion of improper or ulterior motives. At its head until a few months ago was Benjamin O. Flower, former Editor of the "Arena" and later of the "Twentieth Century Magazine", a writer on economic and sociological subjects whom history will accord a place beside Spencer and Huxley. It is not true that Mr. Flower was ever arrested for swindling or for any other offense—not true, indeed, that he was ever charged with any offense save that of championing the cause of the poor and oppressed, if that indeed may be considered as something to his discredit. But Mr. Flower is still among the living, and I leave to him the handling of this assassin of good names as he may see fit.

There are, however, those among the founders of this organization who have passed to that bourne from whence can come no plaint or protest, and for these, especially, would I raise my voice.

Among the first to respond to the battlecry of Medical Freedom was Miss Clara Barton, founder of the American Red Cross Society. Her name appears on the first piece of literature issued by the League, and she continued as one of our most valued counsellors till her death. You who know American history know Miss Clara Barton, she who won the name of the "Angel of the Battlefield" during our Civil War, she whose errands of mercy have mitigated the horrors of almost every calamity that has befallen the world during the last half century. If, as the poet has aptly said, "the drying of a single tear hath more of honest fame than shedding seas of gore", then indeed is the late Miss Barton exalted above all the blood letters that have inhabited the earth since the dawn of creation. Think, if you can, of this noble woman, honored in all the nations of the earth, and counting among her decorations the "Golden Cross of Baden" and the "Iron Cross of the Kaiser", as a tool of food adulterators and patent medicine interests—you can't do it. Your mind will not carry to any such absurd length.

Another great national character who cannot rise to defend the good name he bore during a long and distinguished career is Gen. James B. Weaver. Gen. Weaver was member of the Advisory Board of the National League for Medical Freedom, and he was my long time personal

friend. Among my possessions at home is a letter from Mr. Weaver, in which he declared that he was proud to be associated in this movement which he regarded as in line with the principles he espoused throughout his life. Do you believe that he would have been proud to join a movement that had even the suspicion of ulterior design behind it? Perish the thought.

If close pressed no doubt Dr. Duhigg would claim that Miss Clara Barton and Gen. Weaver were some of those well intentioned people who had been misled. But what would he say of these?

Mrs. John A. Logan, widow of the great hero of the Civil War;
 Mrs. G. T. Oliver, wife of the U. S. Senator from Pennsylvania;
 Hon. John L. Bates, formerly Governor of Massachusetts;
 Hon. Chas. M. Floyd, late Governor of New Hampshire;
 W. A. Scripps, founder of the Scripps-McRae news service;
 Col. Robt. C. Clowry, late president of the Western Union Telegraph Company;

Harry S. Chiles, Secretary of the National Organization of Osteopaths;
 Dr. A. F. Stephens, president of the National Association of Eclectic Physicians;

A. T. Still, founder of Osteopathy;
 Hon. Chas. A. Major, the well-known author;
 Edmund Vance Cooke, lecturer and poet;
 Orison S. Marden, Editor of "Success" Magazine;
 John Pitcairn, president of the Pittsburgh Plate Glass Co.;
 Geo. J. Delmege, former president of the Century Fire Insurance Co.,
 Des Moines;

Hon. W. B. Martin, former Secretary of State, Des Moines.

These are but a few, but the list contains many others equally well-known in the business, medical, literary and political life of this country. Do the names I have read to you sound like those of well intentioned people who could be easily deceived? You know they do not.

To identify me with this organization, of which I have been a member of the Board of Directors since its organization, which I represented in Washington during several sessions of Congress, and whose cause I pleaded before the Resolutions Committee of the Baltimore Convention, this medicated hyena sends a decoy telegram to Chicago, and the answer he received is used by him before the Senate Committee to carry the suggestion that I am really more deeply involved in moral turpitude than he had supposed; that instead of being merely the Second Vice President of the organization that has thus far saved the people of this country from the dominion of a medical bureaucracy, that I am in fact now its president. Here are his decoy telegrams and the replies thereto:

DES MOINES, IOWA, MARCH 12, 1915.

NATIONAL LEAGUE FOR MEDICAL FREEDOM, Chicago, Ill.

GENTLEMEN: Please advise me of the name and address of the local representative or any person that can be depended upon. Wire answer.

See Hon. Charles W. Miller of the Iowa House.

JOSEPH C. MASON, care National League for Medical Freedom, 332 S. Michigan Ave., Chicago.

Important that certain health legislation which now seems likely to pass be defeated. This will entail expense; prompt and radical action necessary. Can you help us financially? Will see Miller soon. How far can I go with him. Can he be depended upon to go the limit, Wire answer.

(Signed) A. B. CARTER.

MARCH 15, 1915.

A. B. CARTER, Des Moines, Iowa.

Mr. Miller undoubtedly can answer all of your questions.

(Signed) JOSEPH C. MASON.

Dr. Duhigg has not yet called upon me for an answer to his questions yet but I am going to take advantage of this opportunity to answer them.

The National League for Medical Freedom never has nor never will oppose any legislation that is in the interest of the public health. It opposes only such legislation guised as health projects, which tend toward medical monopoly or compulsory medication, or such as would deprive any citizen from seeking the aid of the practitioner of his choice in the hour of illness. This in brief is our platform. This is my answer and this our challenge sent to Dr. Duhigg from our Society in Chicago:

CHICAGO, ILL., MARCH 27, 1915.

DR. THOMAS F. DUHIGG, 4205 Greenwood Drive, Des Moines, Iowa.

Understand you declared the National League for Medical Freedom has opposed legislation in favor of pure food and the regulation of drugs. If so your statement is unqualifiedly false. On behalf of the League I suggest that the Iowa Legislature appoint a Committee of its members, or the Editor of the Des Moines Register and Leader name a Committee of disinterested citizens to examine the financial receipts and expenditures of this organization. This would enable the people to learn the facts about an organization that is endeavoring to protect their rights from an autocracy of political physicians.

JOSEPH C. MASON, *Secretary*,

THE NATIONAL LEAGUE FOR MEDICAL FREEDOM.

The fact that eighty-five members of this House passed the Chiropractice Bill against the frantic protest of Dr. Duhigg and his cohorts, has convinced him that the methods he employed here must be supplemented in some way, and so he adds to them the insinuation that you were influenced by a "disbursing officer" of the League for Medical Freedom along with an attempt to besmirch the character of thousands of as good people as ever lived in this or any other country.

The Bill that he had so large a part in framing and which was almost unanimously rejected by this body is now being pressed in the Senate. True, he is now content to put only the Chiropractor in jail, instead of providing a dungeon drear for Christian Scientists also. Evidently in attacking the Christian Scientists he realizes that he picked up something hotter than he could handle. Possibly the great meeting of a few nights ago when four thousand people gathered at the Coliseum and listened with reverent attention to a Christian Science lecturer, has caused him to be satisfied with half of his original design, but I am well convinced that the same stern rebuke administered to him here is awaiting him over on the other side of the corridor as in all decency it should be.

EXPLANATION OF VOTE.

MR. SPEAKER—I wish to explain my vote. I voted against the bill as I did not desire another man's bill substituted for my own.

FRED G. TURNER.

MR. SPEAKER—I am in favor of selling a part of the capitol extension tract but vote against the bill because it cuts off all appropriation for the improvement of the portion retained.

L. L. BINGHAM.

MR. SPEAKER—I vote no because there should be some retained on the west in front of the capitol building.

D. E. MACKIE.

MR. SPEAKER—I desire to have printed in the journal of the House the reason why I vote for House File No. 501, and that is this:

That this measure seeks to reduce at least more than one-half of the ground to be improved by the state, and therefore reduces the quantity of ground to a size that it will more than reduce the total expense and maintenance more than one-half both at the present time and in the future. While I am not in harmony with this measure, for I would much rather vote for a measure that would repeal this whole act and submit the matter to a popular vote of the people, but as that matter is not very readily in the power and in the hands of one member of this body of one hundred and fifty-eight men, I am considerably hampered in the way of

having my desires incorporated into law, and therefore would accept the next most available way of dealing with the matter.

C. H. CLARK.

MR. SPEAKER—I am in favor of the sale of part of the capitol extension grounds, but as there was no provision made for the improvement of the remaining ground, I was compelled to vote against it on that account.

ROY W. MURRAY.

SENATE CONCURRENT RESOLUTION.

WHEREAS, the completion of the Panama Canal has greatly lessened the cost of transportation on products and freight from coast points to coast points, and

WHEREAS, the products and freight of the Mississippi River Valley must at the present time be transported by rail and thus compete with this water rate, to the great disadvantage of the shippers and consumers of the Mississippi River Valley, and

WHEREAS, the Mississippi River and its tributaries have possibilities, if developed, for cheap water transportation of the freight of the Valley, to and from the markets of the world on an equality with the coast trade of our country, and

WHEREAS, Iowa is one of the great freight producing states of the country and vitally interested in transportation charges, and

WHEREAS, if the Mississippi River and its tributaries are to be made navigable it will require the co-operation of all the states of the Mississippi Valley.

Therefore be It Resolved by the Senate, the House concurring:

SECTION 1. That the Governor of the State is hereby authorized to appoint a committee of twenty-five (25) citizens of the State, to cooperate with similar commissions or committees from other interested states in a general meeting to devise ways and means to develop navigation on the Mississippi River and its tributaries.

EXPLANATION OF VOTE.

MR. SPEAKER—Am opposed to increase of salaries in most cases, but I believe in this case am justified in voting the increase as it is of vital importance to the farmers and shippers of the state.

R. A. LENOCKER.

MR. SPEAKER—I voted aye on Senate File No. 106 to raise the salary of the railroad commissioners because I believe that the fight they are making against the unequal freight rates against many of our cities and against the raise of both freight and passenger rates justifies an increase of salary, as compared with some higher salaries of some state officers.

R. W. ANDERSON.

MR. SPEAKER—I vote no on Senate File No. 106 because I am pledged to my constituents to oppose the increase of salaries at this session of the legislature unless an apparent injustice is done by the present salary.

GEO. W. BALL.

MR. SPEAKER—I wish to explain my vote on Senate File No. 106 on the theory of not being in favor of giving to high salary and \$2200 seems to be sufficient salary for any man to expect for any minor state office and I therefore am opposed to paying \$3000 to an officer that can be secured for \$2200, I voted no.

MR. SPEAKER—Your committee on appropriations, to whom was referred House File No. 353, a bill for an act to amend the law relating to the inspection of petroleum as the same appears in chapter eleven, (11) title twelve (XII), supplement to the code, 1913, beg leave to report they have had the same under consideration and have instructed me to report the same back to the House with the recommendation that the same be amended as follows:

Amend House File No. 353 by striking out all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. That the law as the same appears in section twenty-five hundred three (2503), supplement to the code, 1913, be and the same is hereby repealed and the following enacted in lieu thereof:

"The governor shall appoint inspectors of petroleum, not exceeding fourteen in number, one of whom shall be designated as chief inspector, who shall have general supervision of the inspection service of the state, to whom all reports shall be made. All differences arising in the inspection of oils shall be referred to the chief oil inspector and his decision of the question shall be final.

"The chief inspector shall make such recommendations to the state board of health as may be deemed necessary to improve the inspection service. He shall devote his time and services wholly to the inspection of oil and the duties of his office.

"Inspectors may appoint such deputies, helpers and branders as may be necessary in the proper discharge of their official duties, but such appointments before becoming effective must be submitted to and approved and confirmed and their compensation fixed by the executive council as in their judgment may be necessary, equitable and just. Each inspector shall be a resident of the state and not directly or indirectly interested in the manufacture or sale of products of petroleum. He shall give bond to the state in the penal sum of five thousand dollars (\$5,000). The chief oil inspector's bond shall be ten thousand dollars, all conditioned upon the faithful performance of their duties, with sureties who shall, in addition to the usual justification, make oath entered on the bond that they are not directly or indirectly interested in the manufacture or sale of products of petroleum for illuminating purposes, which bond shall be approved by the governor and filed with the secretary of state."

SEC. 2. That the law as it appears in section twenty-five hundred five (2505), supplement to the code, 1913, be and the same is hereby repealed and the following enacted in lieu thereof: "Each inspector shall be furnished, at reasonable expense to the state, with the necessary supplies, instruments and apparatus for testing, and shall promptly make inspections and tests and brand all illuminating oils kept for use or sale and for such purposes may enter upon the premises of any person.

"He shall reject all oils for illuminating purposes which will emit a combustible vapor at a temperature of 100 degrees standard Fahrenheit thermometer closed test, not less than one-half pint of oil to be used in the flash test. If upon test and examination the oil shall meet the requirements, he shall brand over his official signature and date on the barrel or package holding the same, 'Approved. Flash Test. . . . Degrees,' inserting in the blank the number. Should it fail to meet the requirements, it shall be branded under his official signature and date, 'Rejected for illuminating purposes.'

"All inspections shall be made within the state, and paid for by the person for whom the inspection is made at the rate of seven cents per barrel, fifty-five gallons for this purpose constituting a barrel; which charge shall be a lien upon the oil inspected and be collected by the inspector, reported and paid to the chief oil inspector of the state on or before the fifteenth day of each month, provided, however, that on the first

day of July of the year 1916, and on the first day of July of each year thereafter the chief inspector shall ascertain the total receipts from oil inspection and all the expenses thereof during the twelve months preceding, and, if in any such year, the revenue realized from oil inspection exceeds the total expenses of inspection by the sum of four thousand dollars (\$4,000), it shall be the duty of the chief inspector to reduce the fees for inspection during the ensuing year to such sum per barrel as will in the judgment of the chief inspector yield a revenue equal to the expenses during the preceding year plus the sum of four thousand dollars (\$4,000). Provided further, that if in any year such reduced charge of inspection proves insufficient to meet the total expenses of the department for said year, the chief inspector shall be authorized and is hereby directed to increase said inspection fees in an amount sufficient to pay the entire expenses of the department not exceeding, however, the sum of seven cents (7c) per barrel.

No gasoline shall be sold, given away or delivered to any person in the state until the package, cask, barrel or vessel containing the same has been painted bright red, and plainly marked "gasoline" in such manner as the board of health may prescribe.

There shall be no refund or rebate of charges made or paid for inspection except upon a duly verified certificate of the owner that the goods, for which the rebate is asked, have been disposed of outside of the state, said certificate to be in such form as shall be prescribed by the chief oil inspector of state and shall be delivered to the inspector and attached to his monthly report. The amount of such rebate per barrel allowed during any fiscal year shall be determined by the chief oil inspector of state during the month of July of each year and shall equal approximately the net proceeds per barrel from the inspection service of the state during the preceding fiscal year, the same to be seven cents per barrel.

"Any person, firm, corporation or agent violating any of the provisions of this act shall be deemed guilty of a misdemeanor and punished accordingly. All necessary supplies, tables, instruments and apparatus, as contemplated in this chapter, shall be purchased by the executive council and shall be furnished to the inspectors as needed by them upon requisition therefor made to the chief oil inspector of state, approved by him and forwarded to the executive council.

"Every person who receives products of petroleum for use or sale which have not been inspected as provided in this chapter shall, within five days after the receipt thereof, notify the inspector of that inspection district that the same is in his possession, and to neglect to do shall be deemed a misdemeanor."

cution, which record at all reasonable times shall be open to public inspection. A copy to the record duly verified under oath for the preceding month shall be filed with the chief oil inspector of state on or before the fifteenth day of each month, who shall examine said report and if found correct endorse his approval thereon, and certify the same to the executive council, and when approved by said council the auditor of state shall issue his warrant therefor upon the treasurer of state for the amount so approved and due the several inspectors, and no item of expense shall be allowed and paid not shown in such report.

"It shall be the duty of all persons, firms or corporations, officers or agents thereof, within the state receiving any of the products of petroleum, subject to inspection, to file with the chief oil inspector of state, on or before the tenth day of each month a certificate, duly verified in such form as shall be approved by the chief oil inspector of state, to cover the month preceding the one in which said report is made.

"Such report shall show the number of tanks or barrels, and if in tanks the tank number of each product inspected for such person, firm, corporation, officers or agents thereof, the amount of fees paid for such inspection, to whom paid, and that the amounts so stated are all products received by him or them which are subject to inspection during the period. For any failure to make the reports contemplated in this section the person, firm, corporation, officer, agent or employe shall be liable to a fine of not less than ten dollars nor more than one hundred dollars."

SEC. 4. That the law as it appears in section twenty-five hundred seven (2507), supplement to the code, 1913, be and the same is hereby repealed and the following enacted in lieu thereof: "The salary of the chief oil inspector shall be the sum of eighteen hundred dollars (\$1,800.00) per annum and of each of the other inspectors shall be the sum of twelve hundred dollars (\$1,200.00) per annum to be paid in the same manner as other state officers.

"For the purpose of enabling the chief inspector and the other officials charged with the enforcement of this act to enforce the same, of paying the salaries and all other expenses herein provided for, the sum of thirty-two thousand dollars (\$32,000.00) annually, or so much thereof as may be necessary, is hereby appropriated out of any money in the state treasury not otherwise appropriated.

EXPLANATION OF VOTE.

Regarding my vote on House File No. 353 in the negative I wish to explain by stating that when an honest measure is brought to the attention of the Appropriation Committee for the protection of some particular business and needs a little appropriation for that purpose the same is rejected and consigned to oblivion but when a begging bill to increase the salaries and the number of some inspection deputies and commissioners, which in reality are creating all over the state a political machine, that same is recommended out with approval and there is millions of money to support it. Therefore this House File No. 353 being a measure of this kind I am opposed to it.

Be It Enacted by the General Assembly of the State of Iowa:

SECTION 1. There is hereby established a district custodial farm which shall be under the control and jurisdiction of the board of control of state institutions.

SEC. 2. As soon as the necessary funds are provided by law, said board of control is hereby authorized and directed to erect the necessary buildings, to make all needed improvements and to employ a superintendent and manager and fix the compensation and that of all other officers and employes of said institution, and make all rules and regulations for the management and operation thereof as may be necessary; provided, however, that the guards and other employes shall be

appointed by the superintendent; and, provided further, that the provisions of sections fifty-seven hundred sixteen (5716) and fifty-seven hundred seventeen (5717), supplement to the code, 1913, relating to the compensation of guards and employes shall govern in so far as applicable.

SEC. 3. At least thirty days before the superintendent is ready to receive prisoners at said custodial farm, the board of control shall issue a notice or proclamation to the several district judges and clerks of the district courts of this state, advising them of the date fixed for the opening of said institution. After said institution is opened for the receiving of prisoners, and after the date thus fixed, no person shall thereafter be committed to the county jail of any county in this state for a period of ninety days or in excess thereof, and in every case where a commitment to the county jail for a period of ninety days or in excess thereof is authorized by the laws of this state, and made by any court or judge of this state, said commitments shall be construed and held to mean commitments to the district custodial farm herein established.

SEC. 4. If, in addition to receiving all of the prisoners in the state committed to a county jail for a period of ninety days, or in excess thereof, said custodial farm may accommodate more prisoners, the board of control shall issue a further proclamation to the several district judges and clerks of the district courts of this state advising that prisoners committed to the county jail for a less period of time may be received at said district custodial farm, and the number which may be received from each county, and the board of control shall make an apportionment based upon the proportion the population of each county bears to the total population of the state, and further advising in said proclamation the duration of sentence for which prisoners may be committed to said district custodial farm, and thereafter said commitments to the county jail in harmony with the proclamation aforesaid shall be construed and held to mean commitments to the district custodial farm, and such warrant of commitment shall be sufficient authority for the sheriff, his deputies or any peace officer to take said prisoner and deliver him to the superintendent of said district custodial farm.

SEC. 5. The sheriff or officer shall receive his actual expenses necessarily incurred in taking prisoners to the custodial farm, but shall receive no extra or additional compensation therefor. Said expenses of commitment shall be paid by the county from which commitment is made in the same manner as expenses committing persons to the county jail are paid.

SEC. 6. The board of control, after advising with the superintendent, may parole under such rules and regulations as it may prescribe, any prisoner committed to the district custodial farm if it shall be shown that society will not suffer thereby and that it is to the interest of the prisoner; provided, however, that employment shall first be found for said prisoner for at least a period of time equal to the time of commitment; and, provided further, that wherever practicable the board of control shall first require said prisoner to pay, or make satisfactory arrangements to pay, all costs incurred by reason of his arrest, trial and commitment.

Any person committed to said district custodial farm who shall escape therefrom may be arrested if found within this state and taken or returned to said district custodial farm by an officer or employe thereof, without any other authority than the certificate of the superintendent that said officer or employe is an officer or employe of said institution, or by any peace officer or other person on the request or direction of the superintendent of said institution, or the direction of the board of control.

SEC. 10. Every person committed to the district custodial farm shall perform such labor and be subject to such rules and regulations as the board of control and superintendent may prescribe. Whenever services are rendered by any inmate, the board of control may allow him compensation which shall not exceed the amount paid to free labor for the equivalent of like service, less such amount for maintenance as the board of control may deem equitable, and in addition to deducting an amount to pay the cost of maintenance, the board of control may also deduct an amount sufficient to pay all or a part of the costs taxed to the defendant by reason of his arrest, trial and commitment. Whenever the board of control deducts an amount from the earnings of any inmate for the purpose of defraying the costs taxed to such inmate by reason of his arrest, trial and commitment, said board shall forward the amount to the clerk of the district court, or proper official, and receive his receipt therefor; provided, further, that whenever money is earned by an inmate under the provisions of this act, the board of control may, whenever deemed advisable, pay all or any part of the same direct to the wife or any other member of the family of such inmate dependent upon him for support, or deposit the same to his account until his release, and make all rules and regulations in relation thereto, including the right to deposit funds in any bank to the credit of such inmate, and require such bank to pay interest on any money so deposited by or for such inmate at rates not to exceed the current rate of interest paid for similar deposits.

SEC. 11. There is hereby appropriated out of any money in the state treasury not otherwise appropriated, for the purpose of maintaining the district custodial farm, including the payment of compensation of officers and employes, furnishing the food and clothing, and all necessary supplies and transportation for paroled and discharged inmates,

and the return to the district custodial farm of paroled and escaped inmates, sixteen dollars (\$16) per month for each inmate, or so much thereof as shall be necessary estimated on the basis of the average number of inmates for the preceding month, provided that if the average number of inmates shall be less than one hundred (100) in any one month, then in that case, the appropriation for said month shall be sixteen hundred dollars (\$1,600), or so much thereof as may be necessary.

WHEREAS, the said proposed amendment was agreed to by a majority of the members elected to the House of Representatives of the said thirty-fifth General Assembly, and entered upon its journal at pages 1413, 1414 and 1415 thereof, and was also agreed to by a majority of the members elected to the Senate of said General Assembly, and entered upon its journal at pages 2175, 2176, 2177 and 2178 thereof, and,

WHEREAS, the said resolution has been published as provided by law and has now been referred to this the Thirty-fifth General Assembly. Now, therefore,

Be It Resolved by the General Assembly of the State of Iowa:

That the proposed amendment to the constitution of the state of Iowa, as contained in and proposed by the said House Joint Resolution No. 5 of the resolutions of the thirty-fifth General Assembly, which resolution, including its title, was and is in words and figures as follows, to-wit:

“Joint resolution to amend the constitution relating to legislative authority; providing for the initiative and referendum with reference to the enactment of laws, or laws enacted by the general assembly, and amendments to the constitution.

Be It Resolved by the General Assembly of the State of Iowa:

That the following, designated as section one (1), be and the same is hereby proposed as an amendment to section one (1), of articles (III) of the legislative department of the constitution of the state of Iowa, which, when agreed to by this, the thirty-fifth general assembly, shall be referred to the thirty-sixth general assembly and, if by it agreed to, shall be referred to the qualified electors of the state of Iowa, and, if approved and ratified by a majority of the qualified electors voting thereon, it shall be valid as a part of the constitution of the state of Iowa, as amended, and, when said section one (1), of article (III) of the legislative department is so amended, it shall read as follows:

SECTION 1. The legislative authority of this state shall be vested in a general assembly which shall consist of a senate and house of representatives, and the style of every law shall be, “Be it enacted by the general assembly of the state of Iowa”, but the people reserve unto themselves the right and power to propose laws, to enact, approve or reject the same at the polls, independent of the general assembly, and reserve the right and power to approve or reject any item, section or part of any act enacted by the general assembly, except otherwise provided by this section.

The general assembly shall fix the number of qualified electors required to propose the enactment of any proposed law, which shall not be less than twelve (12%) per cent nor more than twenty-two (22%) per cent of the qualified electors of each of the congressional districts of the state. Every law proposed by the people shall be presented by petition, signed by the required number of qualified electors, addressed to and filed with the secretary of state not less than one hundred and fifty (150) days before the general election at which the proposed law shall be submitted. The petition shall contain the full text of the proposed law, with title and enacting clause.

If the proposed measure be to enact a law, the enacting clause shall be as follows: “Be it enacted by the people of the state of Iowa.”

The right and power to initiate and enact laws shall be restricted within the same constitutional limitation as apply to the general assembly.

The required number of qualified electors required to exercise the right and power to require an act passed by the general assembly to be referred for approval or rejection shall be fixed by the general assembly, but shall not be less than ten (10%) per cent nor more than twenty

(20%) per cent of the qualified electors of each of the congressional districts of the state. Petitions therefor shall be addressed to and filed with the secretary of state within ninety (90) days from the final adjournment of the general assembly which passed the act to which the petition is addressed, and shall contain a full text of that part of the act to be referred; but such right and power shall not extend or apply to an act passed by the general assembly relating to the preservation of the public peace, public health or appropriations for the support and maintenance of the department of state and state institutions. All acts, and parts thereof, enacted by the general assembly and submitted to the people shall be and remain in full force and effect until rejected by the people, as herein provided.

Until the general assembly enacts a law fixing the per cent of qualified electors required for petition, the required per cent shall in all cases be fifteen (15%) per cent of the qualified electors of each of the congressional districts of the state.

The whole number of votes cast for secretary of the state at the regular general election last preceding the filing of petition shall be the basis for the number of legal voters required to sign such petition.

The veto power of the governor shall not apply or extend to any measure initiated and enacted by the people.

All measures for proposed laws under the initiative or referred under the referendum shall be submitted to the people for adoption or rejection at the regular biennial election first occurring after the filing of the petition.

All measures for proposed laws under the initiative shall become a law when approved by a majority of the voters whose votes are cast thereon, and shall take effect as hereinafter provided.

Any measure referred under the referendum shall cease to be a law when rejected by a majority of the voters whose votes are cast thereon and proclamation has been made by the governor as hereinafter provided. All proposed laws under the initiative shall take effect and any measure referred under the referendum shall cease to be a law from and after the date of official declaration of the vote thereon by proclamation issued by the governor, which shall be not later than thirty days after the vote has been canvassed by the state canvassing board for that purpose, composed of the governor, secretary of state and attorney general, and certificate thereof made not later than December first following the election.

The petition contemplated by this section shall consist of sheets having such general form, printed or written, as shall be prescribed by the secretary of state, and shall be signed by the required number of qualified electors, in their proper persons only, to which shall be attached the resident address of such persons signing the petition and the date of signing. To each of such sheets shall be attached and made a part thereof an affidavit of some qualified elector that each signature thereon is the signature of the person whose name it purports to be, and that, to the best of the knowledge and belief of the affiant, each of the persons signing said petition was, at the time of signing, a qualified elector. Such petition, so verified, shall be prima facie evidence that the signatures thereon are gen-

uine and true, and that the persons signing the same are qualified electors of the state of Iowa.

Immediately upon the filing of a petition for the submission of a proposed law to the voters, the secretary of state shall submit the said proposed law to the supreme court for its opinion upon the constitutionality thereof, which shall be rendered within twenty (20) days, and if the court finds that the proposed measure conflicts with the constitution of the United States or the state of Iowa, the proposed measure shall not be submitted.

Until the general assembly shall provide by law a method of procedure of printing, distributing and submitting proposed measures, the secretary of state shall, ninety (90) days preceding the general election at which the measure will be voted upon, cause to be printed any and all measures for or to which petition has been filed, in pamphlet form, containing the full text thereof, with the title and enacting clause, together with arguments for and against the same, within the limits prescribed by the secretary of state. The number printed shall be not less than one for each voter voting at the last general election preceding the filing of the petition, which shall be delivered to the county auditor of each county.

For each voter in each voting precinct of each political party voting at the last general election, the auditor of each county shall deliver one copy to each precinct committeeman of each political party in the county.

The secretary of state shall submit all measures petitioned for in accordance with the provisions of this section, to the people for adoption or rejection at the polls in compliance herewith; but the right and power reserved to the people shall not operate to deprive or limit the power of the general assembly to enact laws.

If, at an election, conflicting measures submitted to the voters of the state shall be approved by a majority of the votes, severally cast thereon, the measure receiving the highest number of affirmative votes shall become law as to all conflicting provisions.

Insofar as applicable, the provisions of this amendment shall govern in the initiative and adoption of amendments to the constitution; provided, however, that no amendment so submitted shall become a part of the constitution until it shall have first received an affirmative majority vote at two successive regular biennial elections, the majority vote at the first of which shall be the authority for preparation of the ballot and re-submission at the second. The word "enacted" shall be replaced by the word "resolved" in the enacting clause when amendments to the constitution are submitted. This section of the constitution shall be, in all respects, self-executive."

CONSIDERATION OF BILLS.

Unanimous consent having been granted to call up out of its regular order, on motion of Bingham of Emmet, Calendar No. 414, House File No. 576, a bill for an act to provide for joint action between the duly constituted authorities of this state having jurisdiction of drainage proceedings and like authorities of adjoining states, with a view to joint, equitable drainage of lands of both states, and to provide for the procedure in such cases, was taken up and considered.

The sifting committee proposed the following amendment:

Amend House File No. 576 by striking out all after the enacting clause and insert the following in lieu thereof:

SECTION 1. Whenever proceedings for the drainage of lands within this state and bordering upon a state line are had, and damages have been finally determined by the duly constituted authorities, and the engineer in charge reports that the establishment and construction of such improvement ought to be jointly constructed with like proceedings for the drainage of adjoining lands in an adjoining state, and that drainage proceedings are pending in such adjoining state for the drainage of such adjoining lands, then and in that case, the said authorities of this state may enter an order establishing and ordering the construction of such improvement, conditional upon arrangements being made by them with like constituted authorities in such other state for the joint and equitable drainage of the lands of both states.

Sec. 2. In the case contemplated in the preceding section, such authorities shall have the right to meet at such place or places as may be agreed on and confer with like authority having jurisdiction of the drainage of the lands of the adjoining state, and shall have authority to enter into an arrangement by which a separate engineer may be appointed by each of such authorities to report jointly to each of such authorities the total cost, expenses, cost of construction, fees, and damages determined for constructing the joint drainage of the lands lying in both states, the description of such lands in each state to be so drained, the total cost of constructing such improvement in each state, and the total amount of benefits each forty-acre tract, or less, will receive by the construction of such improvement, which benefits shall be determined as though no state line separated said lands. No farther report or assessment of benefits, and no hearing thereon, except as provided in section three hereof, shall be deemed necessary, though

the right of appeal from the assessment of benefits, as provided when the lands are wholly within this state, shall be preserved.

SEC. 3. Upon the filing of the report of said engineers, the said authorities of this state shall fix a date for the hearing thereon not less than twenty (20) nor more than forty (40) days thereafter, of which all parties shall have notice as now provided by law in such cases. If such report is approved by the authorities of both states, the authorities of this state shall have authority to unconditionally establish and order the construction of that part of said improvement lying within this state, and shall have authority to proceed therewith in all respects, as far as applicable, as now provided by law for the construction of drainage improvements except as herein provided.

SEC. 4. Unless the authorities of both state find that the project is of such a nature that the construction work on each side of the line can go forward independently and without undue friction when let to separate contractors, said authorities may proceed to the letting of the contract or contracts in the following manner, using as a basis the engineer's report, plans and profiles provided for in section two hereof:

The authorities of each state may separately call for the construction bids for any part or all of the improvement situated in their own states, and also for the improvement as a whole in the manner customary in their respective states, but should stipulate that any bids including construction work in both states must designate the part of the bid applicable to the work in each state separately. When the bids are opened no contract shall be let by the authorities in this state unless by joint conference of the authorities of both states, the acceptance of a bid or bids for the construction of the whole project is first jointly agreed upon, but the contract or contracts for the construction of that portion of the improvement within this state shall be entirely distinct and separate from the contract or contracts let by the authorities of the neighboring state; provided the contract or contracts for the construction of the work within this state shall not exceed an amount equal to the amount of benefits assessed in this state less the damages allowed in this state and less the incidental expenses in this state.

SEC. 5. No contract shall be let until the improvement shall be unconditionally and finally established in both states, and after final adjustment in both states of damages and benefits, both as between individuals and lands. No bonds shall be issued until all litigation in both states, arising out of said proceedings, has been finally terminated by actual trial and hearing, or by the expiration of all right of appeal.

SEC. 6. This act shall be construed as a part of and as additional to chapter two-a (2-a), title ten (10) of the supplement to the code, 1913.

Amendment adopted.

Mr. Bingham moved that the rules be suspended, the bill be considered engrossed, and read a third time now, which motion prevailed, and the bill was read a third time.

MINORITY REPORT.

We, the undersigned members of your committee on appropriations, submit the following minority report upon House File 321, by Coast:

We urgently recommend the passage of the said bill, House File 321, by Coast, without change. This bill was introduced in compliance with unanimous recommendation of the State Board of Education whose members have given very careful consideration to the actual and relative needs of the institutions named.

The majority of the committee has, in our opinion, made a serious mistake by making any reductions, and a most unjustifiable attitude is shown in reference to the askings for the State College at Ames. Altogether, the majority recommends an annual reduction from the Coast Bill amounting to \$230,875.00.

The State College has been reduced \$187,875 or 81.4% of the total reduction.

The State University has been reduced \$27,000 or 11.7% of the total reduction.

The State Teachers College has been reduced \$16,000 or 6.9% of the total reduction.

Stated in another way, the majority has cut the increases asked in the Coast Bill for the different institutions as follows:

State College	59.7%
State University	10.3%
State Teachers College	21.5%

The unfairness is emphasized further when we examine the printed report of the Board of Education, pages 37 and 41. The askings for increases for the two larger institutions in that report as compared with the report by the majority are as follows:

	State University	State College
Annual increase asked by the Board.....	\$227,100	\$305,175
Allowed by majority.....	234,950	126,800
Excess	\$ 7,850	
Decrease		\$178,375

This shows that the majority of the appropriations committee would allow to the State University \$7,850 more than the Board asked in its biennial report, and they would allow to the State College \$178,375 less than the Board asked in its biennial report. Thus the majority has seen fit to increase the askings for the State University 3.4% above the Board's official recommendation, and they would decrease the askings for the State College 58.4% below the Board's official recommendation.

Clearly, the action of the majority raises the question whether instruction at the State College at Ames is deserving of support and encouragement from the State of Iowa as compared with the instruction given at the other institutions. Evidently, the people of the state believe that the State College offers what the young men and young women most need because that College has the largest attendance. Its growth in recent years has been much more rapid than the growth of any other institution.

Much has been said about the so-called large increase for the State College at Ames as allowed by the last General Assembly. The minority finds that all institutions received from the last General Assembly practically the same as was recommended by the State Board of Education, and the 34th General Assembly took similar favorable action on the recommendations of the State Board of Education. The minority believes that the relative merits of the appropriations given in previous years need not be considered now, but if that question is raised, abundant evidence may be presented to the effect that educational work at the State University has been more generously supported than at the State College.

The minority finds that the funds available for educational work at the State College are now less than similar funds at the State University, and if the majority report is adopted the comparison will be still less favorable to the State College. It will then show that the state would furnish \$462,500 for educational work at the State College as compared with \$583,650 for educational work at the State University and with an attendance of nearly 200 students more at the College than at the University.

The minority finds that an unfair comparison has been made frequently as between the two institutions by adding to the fund for educational work at the State College, the funds which are disbursed through the college in connection with experimental and extension work. Money

for these latter purposes is not and cannot be used to instruct the enrolled student body at the institution and it should not be charged against such purpose. An inspector from the United States government visits the college annually to make sure that experiment station funds are not used to teach classes. Similarly there are provisions which prevent the use of extension funds for instructing the students who go to the State College at Ames for their education. When the money which is used, and all that can be used, for the instruction of these students (numbering about 300 and chiefly in agriculture and home economics) is compared with the funds available for instruction at the State University, the comparison shows a smaller amount for the College with its larger number of students.

We regard the action of the majority in cutting the askings of the Board of Education as unwise and unjust to the State University, the State College of Agriculture and Mechanic Arts, and the State Teachers College. Again we say that the Board of Education, whose members are nominated by the Governor and confirmed by the Senate, are the representatives and servants of the Legislature in these matters and are familiar with the needs both actual and relative of all the institutions and their recommendations can well be accepted by the Legislature, whose members do not have an equal opportunity to familiarize themselves with the details and needs of the institutions.

The minority reports in favor of the askings of the State Board of Education without further reduction because we find that the Board of Education has severely cut the askings of the state institutions before making their recommendations. The further reductions proposed by the majority need not be here referred to in detail. In our opinion, the State University should have especially the full amount of the increase requested for the school of commerce and extension work, and the item for buildings and grounds seems to be vital.

The most drastic reductions have been made in the askings for the State College at Ames. Unquestionably, the work of this institution will be crippled in nearly all of its departments if the recommendations of the majority are adopted. The severity of the cuts made by the majority may be indicated by the following: The President of the College originally recommended an increase in the general support fund of \$179,500. This item is intended to support the growth of such departments as animal husbandry, veterinary anatomy, home economics, and civil engineering. The Board reduced the item to \$125,000 and later the Board recommended to increase it to \$140,000, which the Board considers the irreducible minimum. The majority of the Appropriations Committee would make this item only \$25,000. This would have to provide for heating, lighting and caring for new buildings and for additional instructors at the State College with its increase of 681 students in the last two years. The majority would allow an increase considerably over \$125,000 for corresponding support at the State University with its smaller increase of enrollment of students. If the majority's report is sustained, the State College at Ames will be obliged to do what Pennsylvania State College did a few years ago, namely, put out

a sign "every seat occupied" and turn away the farmers boys and girls. Is the House of the Thirty-Sixth General Assembly prepared to take this responsibility?

The majority also would not permit any increase for certain important lines of work, including special work for boys and girls who have not had the advantage of high school courses and who wish to take short course instruction at Ames. The majority also would stop the development of certain very important lines of experimental work at the State College, contrary to the most emphatic recommendations by the Board of Education. The majority would also entirely eliminate the additional state support for agricultural and home economics extension work throughout the state, one of the most popular and useful educational efforts for all of the people ever attempted in this or any other state. The most serious result of the reduction by the majority in the equipment fund for the State College would be to further delay suitable equipment for the new chemistry building which replaced the old structure destroyed by fire together with its equipment and apparatus; over 1700 students would be seriously handicapped.

We object to the reduction in the funds intended to support growth at the State Teachers College. The last General Assembly imposed certain requirements upon teachers of this state and they must qualify accordingly. The increased amount asked is largely to help enable them to comply with the state law. The state has made a demand upon the teachers and the majority has seen to fit to allow some additional support for the State University and the State College to meet this demand,—why should not the State Teachers College be well supported in this its special field as well as in its proposed extension service work?

SECTION 3. That section fifteen hundred and twenty-seven-s 2 (1527-s 2), supplement to the code, 1913, be amended by striking out the word "commission" in the first line thereof and inserting the words "state highway engineer" in lieu thereof; also

Said engineer, or engineers, shall give a bond

for the faithful performance of their duties in a sum of not less than two thousand dollars (\$2,000.00) nor more than five thousand dollars (\$5,000.00), to be fixed by the board of supervisors."

SECTION 5. That section fifteen hundred and twenty-seven-s 4 (1527-s 4), supplement to the code, 1913, be repealed and the following enacted in lieu thereof:

"The highways now designated as the county road system by the plats and records now on file in the county auditor's office of each county, and all county highways from time to time added thereto, shall be known as the county road system. All other highways in the county shall be known as the township road system.

All county system road plats, profiles, engineers' records and records of surveys now on file in the auditor's office of each county, under and in accordance with which permanent highways, culverts and bridges have been constructed or are in the process of construction, or highways designated or established as county roads for improvement, shall be a part of the system known as the county road system and are hereby so recognized. Such highways, culverts and bridges as at the present time are completed, or are in course of construction on the said county road system, are deemed to be of proper width and are hereby so recognized. All of said plats, profiles, engineers' records and records of surveys shall be preserved by the auditor for future reference.

The county board of supervisors shall have full control and supervision of the highways in the county, designated as the county road system, as shown by the plats now on file in the county auditor's office in each county, and such other roads as they shall from time to time add to said system, which may include any public highway located along the corporate line of any city or town, partly within or without the same, and when so included it shall be improved by the board of supervisors as are other parts of the county road system, provided, however, that when any public highway located along the corporate line of a city of the first class is included in the county road system, the board of supervisors and the city council shall meet jointly and adopt plans and specifications for the construction of any bridge or culvert, if any may be required thereon, one-half of the cost of same to be paid by the city and one-half by the county, and in case the city council and the board of supervisors are unable to agree upon any question involved in the construction of same, it shall be referred to the state highway engineer, whose decision shall be final and binding upon each party. County boards of supervisors of adjoining counties shall confer with each other and determine and secure continuity of roads leading from the principal points in one county to the principal points in the other county. In case the boards of adjacent counties cannot agree in designating which road, or roads, running between their respective counties, or across their dividing lines, shall become a part of the county road system in order to maintain continuity, the matter shall be referred to the state highway engineer, who shall thoroughly investigate the roads in dispute and decide which road, or roads, shall become a part of the county road system of each county and his decision shall be final. For the purpose of aiding the state highway engineer in reaching his decision, the county auditor of each county

shall, within ten days after the failure of the boards to agree, forward to the state highway engineer plats of the roads in controversy located in his county.

The board of supervisors may from time to time add to the county road system such roads from the township road system as in their judgment should become a part of said system, but in no case shall more than ten per cent (10%) of the township roads be added to the county road system in one year. They shall cause a map to be made, plainly marking the road, or roads, proposed to be added to said system, and file the same with the county auditor to be kept open for public inspection. Upon the filing of said map the county auditor shall at once fix a date of hearing thereof, which shall not be more than twenty (20) days distant from the date of filing same, and ten (10) days' notice of the filing of said map with the county auditor, and the date of hearing fixed, shall be published in one issue of each of the official county papers.

At any time before said hearing is concluded, any ten (10) freeholders of the county may file a petition with the county auditor, asking for any change in said designated roads which may be deemed advisable, which petition shall set forth the reasons for the proposed change, and shall be accompanied by a plat accurately showing such proposed change. Upon such hearing the board of supervisors shall, after taking into consideration the volume of traffic, continuity, and maintenance, finally determine the road, or roads, that are to become a part of the county road system, and cause said map to be marked in conformity to the added road, or roads, as finally designated, and a copy of said map shall be forwarded to the state highway engineer to be kept for reference in his office. Within ten (10) days after the decision of the board of supervisors any ten, or more, aggrieved persons may appeal from said decision to the state highway engineer, by giving notice in writing of such appeal to the county auditor, and by filing with the county auditor a bond with approved sureties in the sum of two hundred dollars (\$200.00), conditioned for the payment of all expenses occasioned by such appeal. The state highway engineer within ten (10) days after the appeal has been decided shall send a statement to the county auditor of all expenses incurred in his office by reason of said appeal.

Upon the petition of any ten (10) freeholders of the county filed with the county auditor asking that a change be made in any portion of the county road system which will eliminate dangerous curves, railroad crossings, or bridges, or will shorten the distance between market places, or will materially lessen the cost of construction and maintenance of

COMMUNICATION FROM GENERAL DODGE.

The following communication was received from Gen. Grenville M. Dodge, and on motion of Rogers of Carroll was ordered printed in the journal.

Council Bluffs, Iowa, April 12, 1915.

W. I. Atkinson, Speaker of the House, and Members of the House,
Des Moines, Iowa.

Gentlemen: I thank each and every one of the members of the House and Senate of our great state of Iowa for their kind thought of me on this, my eighty-fourth birthday, which also marks my sixty-second year as a citizen of Iowa. I take equal pride with you in our great state, the garden and granary of the United States. It was my duty and honor to serve her as a soldier, but I hope neither this nor any other generation may be called upon to take up arms in behalf of our country or state; but, should the call come, I know Iowa will answer, if necessary, to its last citizen.

With great gratitude and respect,

GRENVILLE M. DODGE.

REPORT OF COMMITTEE.

Anderson of Greene, from the committee on appropriations, submitted the following report:

MR. SPEAKER—Your committee on appropriations, to whom was referred Senate File No. 272, a bill for an act to amend section 2888-h of the Supplement to the Code, 1913, relating to the appropriation for the Iowa Library commission, beg leave to report they have had the same under consideration and have instructed me to report the same back to the House with the recommendation that the same do pass.

W. W. ANDERSON,

Chairman.

Report adopted.

Neff of Pottawattamie called up the Senate concurrent resolution relative to memorializing Congress to readjust parcels post rates, and moved that the House concur in the resolution.

CONCURRENT RESOLUTION.

Be It Resolved by the Senate of the General Assembly of the State of Iowa, the House Concurring:

WHEREAS, The glory and prosperity of Iowa has rested not alone in her wonderful farms, but also in her prosperous and beautiful cities and towns as well, and the prosperity of her entire citizenship requires a symmetrical development of both farm and city, for the injury of either is sure to bring a loss and depreciation to the other and a decline in the population of the state; and

WHEREAS, The rates of the parcels post are so low for excessive distances and the charge for shipment is in such unjust and unfair proportion to the haul that neither the government nor the railroads are receiving sufficient compensation to cover cost of service rendered, and a large amount of trade that legitimately belongs to the inhabitants of the state of Iowa is being diverted to the great cities of the land in distant states. This policy is depriving thousands of our best and brightest young men and women of their birthright by forcing them to emigrate from the state in order that they may have a chance in the world; and

WHEREAS, These great concerns in distant cities do not contribute in any way to the revenues of the State of Iowa, nor do they in any way assist in the education of the youth of our state. They build no roads or bridges and bear none of our many burdens incident to the development of Iowa; and

WHEREAS, They are waxing fat upon the trade they take from our state and are fast developing into great monopolies that bid fair to equal if not excel in size the greatest manufacturing concerns in the land; and

WHEREAS, It is the policy of Iowa to provide work and opportunity for all its children, and we believe the Federal government, of which we are a part, should not tax the people to reimburse losses in the parcels post service when these losses are incurred in establishing great monopolies that are fast sapping the life of our cities and towns, and depriving our children of a place and opportunity in their own community; and

WHEREAS, Thousands of Iowa's citizens have petitioned the General Assembly of the State of Iowa to memorialize the Postmaster General and the Congress of the United States to limit the weight of the parcels post package to a maximum of forty pounds and make such readjustment in the postal rates as will eventually make each class self-supporting.

Now, Therefore, Be It Resolved by the Senate of the General Assembly of the State of Iowa, the House Concurring:

That the Postmaster General and the Congress of the United States be, and they are hereby requested and petitioned to reduce the weight of the parcels post package to a maximum of forty pounds and make such

readjustment in our postal rates and zones as will eventually make each class self-supporting, to the end that justice may be done as between all of the citizens of the United States, and that the unjust discrimination that now exists against the State of Iowa may be removed.

Bruce of Pocahontas moved to lay the resolution on the table.

Motion prevailed and the resolution was laid on the table.

The system of bridge and culvert work herein provided for shall apply to all highways throughout the county outside of the limits of cities of the first class; provided, however, that when any part of any public highway located along the corporate line of a city of the first class is included in the county road system, as herein provided, the board of supervisors and the city council shall meet jointly and adopt plans and specifications with the approval of the highway commission for the construction of bridges and culverts, one-half of the cost of the same to be paid by the city and one-half by the county, and in case the city council and the board of supervisors are unable to agree upon any question or questions involved in the construction of the same it shall be referred to the state highway commission, whose decision therein shall be final and binding upon each party.

In matters involving highway improvements upon or across state lines or in determining continuous routes for interstate roads, the state

highway commission shall be authorized to confer with authorities of bordering states and to agree upon proper connections or plans and the apportionment of cost of such improvements.

SEC. 5. That section fifteen hundred twenty-seven-s-five (1527-s5), supplement to the code, 1913, be amended by adding thereto the following:

"Provided that the board of supervisors of any county may at any time make application to the said commission for a change or modification of the established county road system when such change is proposed for the purpose of eliminating from such road dangerous crossings or curves, or when such change would materially decrease the cost of improving or maintaining the road, and in such case the commission may reopen such matter and authorize such change as may seem advisable."

SEC. 6. That section fifteen hundred twenty-seven-s-eight (1527-s8), supplement to the code, 1913, be stricken out and the following enacted in lieu thereof:

"The survey and report of each section, as soon as completed and approved by the board of supervisors, shall be submitted to the state highway commission, and the board of supervisors may designate to the said commission what sections, in their estimation, should be first passed upon by said state highway commission. The said commission is hereby charged with the duty of passing upon such reports and plans, and in so doing, shall take into consideration the thoroughness, feasibility and practicability of such plans, and may approve or modify the same. After such survey and plan for each section is passed upon by the state highway commission, they shall be returned to the county auditor with full and explicit directions as to modifications, if there be any. The county auditor shall, upon receipt of the approved and modified survey and plans, record the same at length in a county road book, and the board of supervisors shall thereupon proceed to the construction of the road, bridge, tile and culvert work in accordance therewith, and as herein provided. The duty to construct and maintain all bridges and culverts throughout the county is imposed upon the board of supervisors. All culverts and bridges shall be paid for out of the county bridge fund, except as provided in section twelve (12) of this act. Where conditions are such as to warrant or necessitate the same, the board of supervisors shall furnish township trustees metal or other temporary culverts authorized by the state highway commission to be placed by them on their township road system. Said culverts to be purchased by the board of supervisors and paid for out of the county bridge fund and shall not exceed in size thirty-six (36) inches in diameter, or its equivalent. The county, however, shall be at no expense for placing, filling or transportation of said temporary culverts other than their delivery at a railroad station to be designated by the board of supervisors. Immediately upon the completion by the board of supervisors of any bridge or culvert situated upon the township road system, or the installation of a temporary culvert furnished to the township by the board of supervisors, it shall be the duty of the township trustees to properly fill over with dirt all such culverts and fill in and uniformly grade the approaches to all such bridges. Should the trustees fail for a period of

two weeks after notification to make such fill, or fail to fill in and grade over such culvert, as herein provided, the board of supervisors shall proceed to do so, and the engineer shall report the actual cost of so doing and such amount, not exceeding one hundred fifty dollars (\$150.00), for any such bridge or culvert, shall be certified by the board of supervisors to the county treasurer who shall transfer said amount to the county road cash fund from the first collection of road funds belonging to said township.

The county road fund, the county road building fund, the county drainage fund, and all other moneys received by the board of supervisors for road purposes, except as otherwise provided, shall be placed in the county road cash fund, and shall be paid out only on order of the said board of supervisors for the purchase of tools, machinery and equipment, or for tile and tiling, or for filling on culverts and bridge approaches as herein provided, or for work done on the county road system, or for the elimination of dangers at railroad crossings on both county and township roads, at the discretion of the board of supervisors on an adjustment of such dangerous conditions by negotiations between the railroad and the board of supervisors, or upon an order and finding of the railroad commission. All money received by the township trustees for road purposes shall be expended for and upon the township road system, or for the elimination of dangers at railroad crossings on the township roads, at the discretion of the township trustees, on an adjustment of such dangerous conditions by negotiations between the railroad company and the township trustees, or upon an order and finding of the railroad commission."

Sec. 7. That section fifteen hundred twenty-seven-s-nine (1527-s9), supplement to the code, 1913, be stricken out and the following enacted in lieu thereof:

"Whenever all the roads of the county road system have been improved according to the plans herein provided, the board of supervisors shall add such roads from the township road system as have been improved by the township in accordance with the general plans and specifications furnished by the engineer and in accordance with the requirements of this act, and if the township roads so improved be not sufficient to use all county funds available for that purpose, the board of supervisors may select additional county roads, but no increase shall be made in the mileage of the county road system until that system is completed, except that the board of supervisors may at any time add such roads from the township road system as will materially shorten the direct lines of travel between market towns. In all cases of additions the same proceedings shall be followed in all regards as herein provided for the original selection and improvement of county roads."

Sec. 8. That section fifteen hundred twenty-seven-s-eleven (1527-s11), supplement to the code, 1913, be repealed and the following enacted in lieu thereof:

"Standard specifications for all bridges and culverts, railroad overhead crossings or subways shall be furnished without cost to the counties and railroad companies by the state highway commission, and work shall be done in accordance therewith, and when said bridge and culvert

work is completed and approved a duplicate statement of the cost thereof shall be filed at once with the state highway commission by the county auditor. All culverts and bridge construction, tile and tiling and repair work or materials therefor, of which the engineer's estimated cost shall be one thousand dollars (\$1,000.00) or less, may be advertised and let at a public letting, or may be let privately at a cost not to exceed the engineer's estimate, or may be built by day labor. All culvert and bridge construction, tile and tiling and repair work, or materials therefor of which the engineer's estimated cost shall exceed one thousand dollars (\$1,000.00) shall be advertised and let at a public letting, provided, that the board shall have the power to reject all bids, in which event they may readvertise, or let privately by submitting contract to the state highway commission for approval, or build by day labor, at a cost not to exceed the lowest bid received. All bids received shall be publicly opened, at the time and place specified in the advertisement, and shall be recorded in detail, in a book kept for that purpose, by the county auditor; said book shall at all times be open to the public for inspection. Any proposed contract which shall exceed the sum of two thousand dollars (\$2,000.00) for any one bridge or culvert, or repairs thereon, shall be first approved by the state highway commission before the same shall be effective as a contract. Before beginning the construction of any permanent bridge or culvert by day labor or by contract, the plans, specifications, estimate of drainage area, estimate of cost and their specific location shall be filed in the county auditor's office by the engineer. On completion, a detailed statement of cost, and of any additions or alterations to the plans shall be added to the above records by the engineer, all of which shall be retained in the county auditor's office as permanent records, and when said work is completed and approved, a duplicate statement of the cost thereof shall be filed at once with the state highway commission by the county auditor. The board of supervisors may authorize the county auditor to draw warrants for the amount of pay rolls for labor furnished under the day labor system, when said pay rolls are certified to by the engineer in charge of the work. Said bills shall be passed upon by the board at the first meeting following said payment."

SEC. 9. That section fifteen hundred twenty-seven-s-twelve (1527-s12), supplement to the code, 1913, be and the same is hereby repealed.

SEC. 10. That section fifteen hundred twenty-seven-s-thirteen (1527-s13), supplement to the code, 1913, be repealed and the following enacted in lieu thereof:

"At every February meeting, or as soon thereafter as possible, the township trustees of each township shall select from its township road system the roads to be dragged for the year, to be known as draggable roads, which shall include all roads in consolidated school districts and all mail routes, and shall employ a superintendent or superintendents, not exceeding four in number, for the township road system, who shall give bond for the faithful performance of their duties in such sum as the township trustees may direct. Said superintendent or superintendents shall have general supervision of all dragging and repair work on the township road system, including the placing of temporary cul-

verts, and the term of office and compensation of such superintendent or superintendents shall be at the discretion of the township trustees. The superintendent shall see that the approaches to all bridges on the said roads are maintained in such manner as to present smooth and uniform surfaces, and keep the openings to all culverts and ditches free from weeds, brush and other material that will in any manner prevent the free discharge of surface water. He shall have charge of all druggable roads of the township road system and make contracts for dragging, and shall see that all druggable roads of the township road system are properly dragged at such times as are necessary to maintain such roads in smooth condition, at such price as is reasonable and necessary to secure such contracts, to be fixed by the township trustees. For this purpose there shall be expended, under the direction of the township trustees, through the road superintendent, upon the township road system not less than the one (1) mill drag tax now authorized by law. The township trustees shall not allow any bills for dragging, maintenance, or repair work, nor shall warrants in payment therefor be drawn by the township clerk upon funds of the township road system until itemized bills therefor have been certified to by the township road superintendent. A violation of this section shall render the township clerk liable on his bond for the amount of said warrant. The compensation of such superintendent for all duties including any dragging actually performed by him, and the cost of all equipment for dragging, shall be paid for out of the township road funds. He shall at least once a year, or on demand, furnish the township trustees a report of all work done under and by him."

SEC. 11. That section fifteen hundred twenty-seven-s-fourteen (1527-s14), supplement to the code, 1913, be and the same is hereby amended by adding thereto the following:

"Providing the trustees may contract with the board of supervisors for the construction of any work on the township road system, provided the county shall not make any charge for the use of the county's road equipment except the actual cost of operating the same."

SEC. 12. That section fifteen hundred twenty-seven-s-sixteen (1527-s16), supplement to the code, 1913, be repealed and the following enacted in lieu thereof:

"Not later than the first day of January, or at any time upon the demand of the township trustees, the township clerk shall report the work accomplished on the township road system in his township, including number of culverts installed, location thereof and the number and size of culverts on hand and not installed. Said township trustees shall, as nearly as practicable, recommend what is to be done upon the township road system for the succeeding year, and shall also prepare a list of the culverts and bridges which in their judgment should be constructed by the board of supervisors in their township during the succeeding year, giving the proposed location of such culverts, the material of which such culverts should be constructed, and the approximate size of same, together with any and all recommendations concerning such culverts as the board of township trustees see fit to give, which list, report and recommendation shall be filed on or before the first day of

January of each year, or oftener if the emergency requires, in the office of the county auditor, and a copy of the same shall be forthwith mailed by the township clerk to each member of the board of supervisors."

Sec. 13. That section fifteen hundred seventy-one-m-thirty-two (1571-m32), supplement to the code, 1913, be stricken out and the following enacted in lieu thereof:

"Ninety (90) per cent. of all moneys paid into the state treasury pursuant to the provisions of this act shall be apportioned among the several counties in the same ratio as the number of townships in the several counties bear to the total number of townships in the state, said apportionment to be made by the state treasurer on the first day of April and the first day of August of each year. When such apportionment has been made the state treasurer shall forthwith remit to the county treasurers of the several counties of the state the amount of money so apportioned to the respective counties, and the county treasurer of each county immediately upon receipt of such money shall charge himself therewith and forthwith give notice to the county auditor of the amount of money so received. The county treasurer shall pay into the treasury of the cities and incorporated towns in such county a portion of said motor vehicle fund to be determined as follows: Each city or incorporated town shall receive a share to be determined by the ratio of miles of unpaved streets within the limits of said city or incorporated town to the total number of miles of public roads and unpaved streets within the county; provided, however, that in no case shall the aggregate amount apportioned to the various cities and towns exceed ten (10) per cent. of the total amount apportioned to the county. And such apportionment to cities and towns shall be expended by them only for the purpose of improving the unpaved streets and roads connecting directly with the county or township road systems, or by order of the city or town council or commission the apportionment may be transferred to the county road cash fund and be expended on the county road system. For the purpose of making such apportionment the city or town clerk shall file in the office of the county treasurer ten days before the date of the apportionment from the state treasurer a certified statement of the number of miles of unpaved streets within such city or town, and the county auditor shall make a like statement of the number of miles of highway in such county outside the limits of cities and incorporated towns. The treasurer of each city or town shall charge himself with the sum received from said apportionment and shall forthwith give notice to the city or town auditor or clerk of the amount of money so received. The total amount of funds so received by the county treasurer, less the amount apportioned to the various cities and towns, as herein provided, shall constitute the county motor vehicle road fund and shall be expended for the following purposes only: the crowning, drainage, dragging or gravelling of public highways outside the limits of cities and towns, and for the building of permanent culverts on such highways. Such fund shall be paid out on warrants drawn by the county auditor, duly authorized by the board of supervisors and entered of record. The same procedure shall apply to the expenditure of this fund as to the expenditure of other road and bridge funds. Five (5) per cent. of all moneys paid into the state treasury on and after

July first, nineteen hundred fifteen, pursuant to the provisions of this act, shall be set aside and shall constitute a maintenance fund for the state highway commission. Said five (5) per cent. shall be used for no other purpose than as a maintenance fund for said state highway commission, and shall be drawn out only on warrants drawn by the auditor of state on itemized vouchers approved by the state highway commission, the expenditures of which commission shall be audited by the executive council, and a full and complete report of all said expenditures shall be published in the annual report under the act creating the state highway commission. At the end of each biennial period the funds remaining in the highway maintenance fund shall be placed to the credit of the general fund."

SEC. 14. That section fifteen hundred twenty-seven-s10 (1527-s10), supplement to the code, 1913, be amended by striking out all following the period in line nineteen thereof, and inserting the following in lieu thereof:

A violation of this section shall render the county auditor liable on his bond for the amount of said work."

SEC. 15. In all cases wherein plans, specifications and profiles are submitted to the state highway commission, proposing and setting forth the plans and specifications for improving any portion of a road system, if, except as to cuts, fills, and decreases in inclines, such plans and specifications meet with the approval of the state highway commission, the said commission shall not refuse to approve such plans and specifications in full if the proposed cuts, fills, or decreases in inclines set forth in such plans propose to decrease the hills or inclines at least twenty per cent. of the original incline.

SEC. 15. This act being deemed of immediate importance shall be in effect from and after its publication in The Register and Leader and The Des Moines News, newspapers published at Des Moines, Iowa.

Elwood of Howard moved to reconsider the vote by which Senate File No. 567 passed the House, and to lay the motion to reconsider on the table.

Motion prevailed and the motion to reconsider was laid on the table.

EXPLANATION OF VOTE.

I voted "no" on the substitute for Senate File 567, because I believe the highway commission is an unnecessary ornament and expense, and favor home rule as against centralized commission rule.

G. F. TUCKER.

MR. SPEAKER—I wish to explain my vote on substitute for Senate File No. 567. I voted yes—not because I am in accord with all of its measures and intents, but because I see in it the last chance to get some road legislation in this Thirty-sixth General Assembly and because I am of the opinion that this bill is an improvement on the old law and I believe my people of Delaware county will be better pleased with a part of a loaf than no loaf at all. I see this as a move in the right way and will hope the coming assemblies of the state will not forget to perfect it.

A. B. HOLBERT,
of Delaware County, Iowa.

MR. SPEAKER—I am in favor of good roads and road legislation at this session but I cannot support this bill on account of the provision in Section 4, line 10 of the printed bill, by which the Highway Commission retains the power to terminate the term of office of the county engineer for incompetency. And I am also opposed to the commission system.

W. SCHMEDIKA.

MR. SPEAKER—I am in favor of good roads and good road legislation. But not in favor of a State Highway Commission located at Ames or anywhere else.

A. T. STOKES.

MR. SPEAKER—I am in favor of good roads and good road legislation at this session; but I cannot support this bill on account of the provision in Section 4, line 10 of the printed bill, by which the Highway Commission retains the power to terminate the term of office of the County Engineer for incompetency.

C. B. EGGLESTON.

MR. SPEAKER—My object in voting against Senate File No. 567 was if possible to do away with the "Highway Commission", and substitute a state engineer in lieu. I do not consider that otherwise there was much difference between the two bills.

W. H. COCHRANE.

MR. SPEAKER—I vote no on the Elwood amendment to Senate File No. 567 for the reason that it retains the Highway commission whose extravagance and mismanagement of the road law have been condemned by seventy-five per cent of the people of Iowa and because the adoption of this amendment makes the road law more vicious than the law now upon the statute books.

GEO. W. BALL.

MR. SPEAKER—I vote no on the Elwood substitute because I believe it sustains the Highway Commission who can stand, if it should so desire, as indirect agents for all supply companies for road materials.

And that the commission is only waiting for legislation that will enable them to enforce the paving of highways as indicated by Register and Leader Editorials, and recent articles referring to the intention of the commission to urge counties to do permanent road building at least one mile in each county, known as the seedling mile.

I believe the Highway Commission should be removed from Ames College I feel convinced that the state highway engineer would direct the road building properly and that the county supervisors would be guided by the law in road construction.

R. W. ANDERSON.

MR. SPEAKER—I desire to explain my vote on proposed amendment to Senate File No. 567, and as to why I vote "No".

In the first place that measure does not restore near enough back to the people who pay the road tax how, when and where they shall expend the outlay; nor does it allow them any way to say how much they may levy for such expense except as to the amount as fixed by statute, and the measure passed is of little or no more reform than is the law as it now stands, and at best is the old law slightly modified and somewhat dressed up anew and passed more to appease an already outraged and enraged tax paying public, and I vote "No".

C. H. CLARK.

MR. SPEAKER—I wish to explain my vote on House File No. 567 as finally amended by stating as follows: That while this Bill does not embrace everything by any means that I would consider perfect in road legislation, it does amend some of the annoying features of the present Road Law and provides also, an attempt to a just distribution of the auto tax. On the basis of not being able to get all that by justice is due,

I am willing by voting for the measure, to accept the best that can be had at the moment.

J. S. MICHAEL.
(Woodbury County.)

EXPLANATION OF VOTE.

MR. SPEAKER—I wish to explain my vote on House File No. 603.

I voted "no" because I considered the amendments not fair to the men who were to the expense and bore the burden of the loss; because the amendments left the bill indefinite as to its application.

On the whole, as I see it, the real liberal spirit and fair deal proposition on which the bill was originally written and intended was mutilated by the pose of attorney rule. Because there seems to me to be a disposition on the part of certain members of the House that attorneys, in the interest of the "big push", can, with impunity, mutilate any piece of law written in plain English by cutting into it, amending and substituting, until it means a law suit to find out what it really is and only trouble to the ones who are, or should be, the honest recipients of lawful dues.

Because certain attorneys, who, as I see it, know but little about the stock interests of the state and care less, predominated the bill. Because the appropriation, in my opinion, is not sufficient to safeguard the interests of the stockmen of the state when we consider that when winter comes again, there is apt to be another outbreak of the disease.

TO THE 36TH GENERAL ASSEMBLY.

The Committee on Retrenchment and Reform beg to submit the following report:

Chapter 19 of the acts of the 35th General Assembly being additional to Chapter 9, title 2 of the Code granted to the Joint Committee on Retrenchment & Reform authority and power to employ Expert Accountants and Efficiency Engineers to assist said Committee in performing its duty as prescribed by law. They were further authorized to institute such changes in the administration of public affairs as would promote efficiency and economy in administering the affairs of State in its various departments. There was appropriated by this act the sum of \$10,000.00 or so much thereof as was necessary out of the general funds of the State not otherwise appropriated to meet the expenses contemplated by the Act.

Chapter 20 of the Acts of the 35th General Assembly amending section 181 of the Code provided for the enlargement of the Committee on Retrenchment & Reform by adding to said Committee two members from the House and two from the Senate from the minority party or parties as by the Act provided. The said Act further provided that said Committee should continue after the adjournment of the Legislature until the succeeding Legislature re-convened with the same powers as the Committee would have during the Session of the Legislature. It provided for the organization of the Committee, and for the payment of the actual expenses of the Members in attending meetings other than those held during the Legislative Session. It further provided that the expense account of the Members of the Committee should be audited by the Executive Council.

In Chapter 321 section 51, \$600.00 was appropriated to the Committee on Retrenchment & Reform for clerical hire and assistance that might be necessary for the period ending Jan. 1, 1915, and in section 54 there was appropriated the sum of \$10,000.00 per annum for extra clerical assistance in any of the departments of State that should be authorized by said Committee on Retrenchment & Reform to have additional assistance as provided in Joint Resolution Number 15.

By Joint Resolution number 9 of the Acts of the 35th General Assembly the said Committee was authorized and empowered to employ Expert Accountants and Efficiency Engineers to assist the Committee in the inquiry required by the Statute. The said Committee was further authorized and empowered to institute such changes in the administration of public affairs as would promote the efficient and economical administration of the affairs of the State in its various departments. Said resolution further appropriated sufficient funds with

which to meet the expenses contemplated by the Resolution out of the general funds of the State not otherwise appropriated.

In pursuance with the authority granted by Chapter 19 and Joint Resolution number 9 the Committee employed the firm of Quail Parker & Co. of St. Paul, Certified Accountants, as per contract on file.

Said Engineers proceeded upon their work and submitted preliminary reports with reference to the organization of the Department of Agriculture, State Fair management, and the matter of issuing passes in connection with the State Fair Board.

The Committee on Retrenchment & Reform submitted their report which will be found on page 1646 and 1647 of the Senate Journal which was based on the report of the Efficiency Engineers dated March 25, 1913, and addressed to the Committee on Retrenchment & Reform. Said report to be found on pages 1649 to 1667 inclusive of the Senate Journal, 1913.

The report of the Efficiency Engineers with reference to the heating plant at the State House was filed under date of May 21, 1913, addressed to the Joint Committee on Retrenchment & Reform, which report will be found on file in the Secretary of State's office. On June 3, 1913, the said report was approved and referred to the Executive Council. The Committee met with the Executive Council and presented report on said date.

On June 4, 1913, a sub-committee composed of Klay and Miller was appointed to confer with the Executive Council, and to recommend the use of an addressograph in the Secretary of State's office. On the same date new form of application of registration of automobiles was prepared and recommended for use in the automobile department. The firm of Quail Parker & Co. were employed in this department for some time assisting in establishing more efficient methods. On August 27, 1913, the Committee recommended to the Executive Council the purchase of a photographic machine for use in the Secretary of State's office, which machine has been installed in the office of the Secretary of the Executive Council, for the use of the various departments of the State.

In addition to the specified reports and matters referred to herein the Committee had under consideration various requests for help, some of which were approved and a large number denied. Personal investigations by Members of the Committee with reference to the methods of bookkeeping etc. in the various departments, was also conducted.

On March 24, 1914, Quail Parker & Co. filed with the Committee their consolidated report which is on file in the office of the Secretary of State. The Committee is frank to say that this report was disappointing in that too much of the report was taken up with the plan for re-organization of the State's business. The Committee, however, wish to say that the firm of Quail Parker & Co. made many very valuable suggestions with reference to changes in the various offices and departments, and on the whole the State has profited very much by the investigations carried on as will be shown by the financial report and the schedule of savings as hereinafter set out.

The Committee on Retrenchment & Reform filed their preliminary report under date of Nov. 12, 1914, and filed the subsequent report under date of Feb. 20, 1915, which report will be found on page 443 to page 459 inclusive of the Senate Journal.

As a part of this report we, herewith, submit a financial statement setting forth the various funds under the control of the Committee, the disbursement of the same, and the balances on hand at this date. The said statement further sets out the total amount paid to the Members of the Committee for expenses, the sum so expended representing the total cost to the State for the services rendered by the said Committee.

The total amount of expense to the State for the expenses of Members of the Committee is the sum of \$848.84, detailed statement of which can be found in the office of the Auditor of State.

With reference to the savings to the State we beg to submit, herewith, the following:

Amount saved by reason of changes made in steam, water and gas pipes at the Power Plant and Historical Building according to statement of W. R. Spry on file.....	\$ 3,536.70
Saving in the Secretary of State's office by use of the addressograph according to W. S. Allen, Secretary.....	900.00
In addition to the direct saving above referred to we desire to call attention to the fact that from Jan. 1, 1913, to April 1, 1913, the automobile department registered 28,665 cars and collected \$309,637.00, and that the office expense was \$4,137.04, and that the work in the office was over 60 days behind: that from Jan. 1, 1914, to April 1, 1914, the automobile department registered 43,812 cars and collected \$433,059.29 for first registrations, and collected the sum of \$9,908.70 from cars that had failed to properly register during the year 1913, making a total amount collected or handled in the office \$442,967.99 or \$133,330.99 more than was handled the year before and the office expense was \$3,175.12 or \$961.92 less than the preceding period, and the work of the office was up to date. Using the three months in 1913 as a basis in comparison with the three months in 1914 this would represent a net saving to the State in the administration of this office in addition to the \$900.00 referred to by Secretary Allen approximately	\$ 4,888.46
That from Jan. 1, 1915, to April 1, 1915, the automobile department registered 73,051 cars and collected for first registrations \$520,131.91, and from cars that had failed to properly register during the year 1914 the sum of \$6,260.16, making a total amount collected or handled in the office \$526,392.07 or \$216,755.07 more than was handled in the year 1913, and the office expense was \$3,109.28 or \$1,027.76 less than the same period in 1913, and the work of the office was practically up to date. Using the three months in 1913 as a basis in comparison with the three months in 1915 this would represent a net saving to the State in the administration of this office in addition to the \$900.00 referred to by Secretary Allen of approximately..	\$13,228.38
The Committee does not claim full credit for this saving, but wishes to say that it was brought about by the co-operation and assistance from Mr. Williams who is the head of this Department. The Committee has recommended a change in the automobile law. If their recommendations are adopted there will follow a further saving to the State of more than \$20,000.00 annually.....	20,000.00
On the three year basis in saving in expense of number plates, and the office expense will be reduced at least 5% resulting in a net saving of at least \$5,000.00 annually	5,000.00

Amount saved the State in purchasing coal for Institutions under Board of Control under the B. T. U. system as returned by the Board of Control from July 1, 1914 to March 1, 1915	\$15,570.97
Applying the same ratio to the coal purchased by the Educational Institutions where this system has been adopted in part the saving for the Educational Institutions would be approximately	6,000.00
This represents the saving from July 1, 1914 to April 1, 1915, over the year from July 1, 1913 to July 1, 1914. The institution at Ames also heated 3½ acres more space than before at no additional cost.	

PRINTING AND BINDING.

Due from State Printer Henderson for leaded or price and a half matter for the year 1913 as per statement of F. H. Paul, State Accountant	932.31
Due from State Printer Henderson for leaded or price and a half matter overcharge for year 1914 as per statement of F. H. Paul, State Accountant	727.67
Estimated saving to the State by reason of changes in handling of printing and binding as recommended by the Committee, and also by reduction in the amount of help required in the office of the Secretary of State, annually...	32,000.00
Estimated saving to the State by reason of reduction in the number of employees to be employed by succeeding General Assemblies	12,500.00
Estimated saving by reason of cutting off passes to State Fair By abolishing the office of the Custodian	\$ 2,557.00
Estimated saving by deposit of funds from different Departments	2,800.00
Had the report of the Committee abolishing the Board of Parole been adopted there would have resulted a saving in per diem and travelling expenses annually.....	1,505.21
The remaining office expense and salaries amounting to \$6,532.62 annually would be materially reduced.	
Should the report of the Committee with reference to the Board of Health be adopted by this Legislature it will result in a saving to the State of approximately.....	9,758.84
There could be over \$1,000.00 to \$2,000.00 saved to the State in connection with the heating plant at the State House by installing cisterns so as to have soft water, and thus save the purchase of boiler compounds. Similar plans could be adopted in connection with the heating plants at other State Institutions which would result in a very material reduction in the expenses to the State.	5,000.00

The Committee desires to say that if the bill introduced by this Committee, Senate File No. 519 and House File No. 602, providing for the reorganization of the State's business had passed and become a law, a very much greater saving would have resulted to the State by the co-ordination and consolidation of Departments.

In conclusion the Committee desires to say that one of the best results of its work, and especially of the work of the Efficiency Engineers working under directions, is the promotion of a better spirit in the heads, as well as the Employees, of all Departments. Those directing the State's various activities are now demanding a day's work for a day's pay, and there have been various incidental savings which, though small in themselves, amount to considerable in the aggregate. Referring to the general spirit of the employees since their work has been under review, one of the veteran State Officers declares, that never within his recollection has so effective and efficient service been given as during the past two years.

Respectfully submitted,

J. H. ALLEN,

Chairman Retrenchment and Reform Committee.
