"Any person or corporation that uses motor vehicle fuel as defined in section three hundred twenty-three point one (323.1) of the Code for any purpose other than in motor vehicles operated upon the public highways shall be granted a tax credit or deduction in the amount of the state motor vehicle fuel tax which was paid on the fuel so used. Should such a tax credit constitute an overpayment on the income tax return, a refund shall be made on the same basis as an overpayment of income taxes. Those persons claiming a tax credit under this Act shall maintain, for a period of three (3) years after the return claiming the credit is filed, complete records of state motor vehicle fuel taxes paid on motor fuel for which a tax credit is claimed. Upon request, the records shall be turned over to the commission.

The department of revenue shall transfer monthly for the eleven months from July through May the sum of one million two hundred thousand dollars (\$1,200,000.00) from the road use tax fund to the general fund. The commission shall certify to the department of revenue by June 20th of each year the total amount of credit that has been taken against the income tax liability since the time of the last certification. The department of revenue shall then transfer to the general fund from the road use tax fund the amount certified less the amount previously transferred."

Also:

That the Senate has adopted the following Senate concurrent resolution in which the concurrence of the House is asked:

Senate Concurrent Resolution 48, requesting the Iowa Reciprocity Board to rescind the May 1, 1967 ruling denying reciprocity to trucks bearing Minnesota farm registrations with gross weights in excess of 12,000 pounds and to grant reciprocity to all trucks bearing Minnesota farm registration plates regardless of the gross weight of the vehicle.
AL MEACHAM, Secretary

SENATE CONCURRENT RESOLUTION 48

By: Buren, Murray and Kibbie

WHEREAS, farmers residing in the state of Minnesota have created millions of dollars of business annually for the state of Iowa through the sale of livestock and grain to receiving points in the state of Iowa, and

WHEREAS, a great volume of this business is transported by trucks duly registered in the state of Minnesota with a special license available only to farmers, and

WHEREAS, the Iowa Reciprocity Board as of May 1, 1967 has denied reciprocity to Minnesota trucks so registered which exceed a gross weight of 12,000 pounds and has required these trucks to register in Iowa and pay a fee considerably in excess of the Minnesota fee, and

WHEREAS, the Board's ruling will result in the refusal of Minnesota farmers to enter the state of Iowa to sell grain and other products and the consequent failure of these farmers to purchase Iowa commodities, and

WHEREAS, the ruling will further create a great hardship upon northern Iowa merchants, will create ill feeling between the residents of the state of Iowa and the state of Minnesota, and will generally act to the detriment of the economic and social welfare of the state of Iowa; NOW THEREFORE

BE IT RESOLVED BY THE SENATE, THE HOUSE CONCURRING: That the Iowa Reciprocity Board be requested to rescind the May 1, 1967 ruling denying reciprocity to trucks bearing Minnesota farm registrations with gross weights in excess of 12,000 pounds and to grant reciprocity to all trucks bearing Minnesota farm registration plates regardless of the gross weight of the vehicle.

BE IT FURTHER RESOLVED That the Secretary of the Senate forward a copy of this resolution to the Secretary and to each member of the Iowa Reciprocity Board.

HOUSE CONCURRENT RESOLUTION 28

By Smith of O'Brien

WHEREAS, Senate File 532 enacted by the Sixty-Second General Assembly provides that the state board of regents after authorization by a constitutional majority of the General Assembly may carry out any project as defined in the Act at the state university of Iowa, and

WHEREAS, Senate File 532 authorizes the state board of regents to borrow money and to issue and sell negotiable bonds or notes to pay all or any part of the cost of carrying out such projects at the institution payable solely and only from and shall be secured by an irrevocable pledge of a sufficient portion of the University Hospital Income, and

WHEREAS, many of the facilities of the hospitals at the state university of Iowa were built between forty and fifty years ago and are inadequate to meet present and future demands for statewide medical and teaching services, and

WHEREAS, said inadequacy exists in operating room facilities which are located in several different areas at the university hospitals and are not designed for today's advanced surgical techniques and workload of more than fifteen thousand operations annually, and

WHEREAS, present space available for radiological services, one of the most important fields in modern medicine, is less than that recommended by the U. S. Public Health Services for a prototype hospital of five hundred beds although the university hospitals have eleven hundred ninety-two beds, and

WHEREAS, the out-patient clinical facilities are located in widely separated areas of the hospitals and seriously encumber the ability of the clinical specialists to handle almost one-quarter million patient visits annually and concentration of these services in a single area will greatly facilitate services to patients and training for family practice, and improve efficiency, and

WHEREAS, forty percent or four hundred forty of the beds serving annually more than 33,000 in-patients are located in large sixteen to twenty bed wards and do not meet the standards established for Medicare patients or the demands by private patients and, further, detailed studies have shown that remodeling these existing large wards into smaller units would be prohibitively costly and create insurmountable problems in teaching, and

WHEREAS, to alleviate these conditions, the board of regents requests authori-

BE IT RESOLVED BY THE HOUSE THE SENATE CONCURRING, that the State Board of Regents be and is hereby authorized to construct an addition of 466,000 gross square feet of floor space, more or less, to the general hospital of state university of Iowa to house an operating room suite and facilities, a diagnostic radiology section, out-patient clinic, and in-patient facilities at an estimated cost of \$17,550,000 of which not more than \$12,000,000 would be financed by borrowing authorized by the provisions of Senate File 532 enacted by the Sixty-Second General Assembly.

SENATE CONCURRENT RESOLUTION 51

SENATE CONCURRENT RESOLUTION 52

By: Lucken, Hagedorn, Briles,
Van Gilst, and Stephens

WHEREAS, millions of federal and state tax dollars are being spent for highway beautification and billboard control programs; and

WHEREAS, federal law requires one of the most obnoxious of all billboards, namely: the erection of "your highway taxes at work" signs on construction projects involving federal funds; and

WHEREAS, the American public has very few illusions as to whose tax dollars are being spent; and

WHEREAS, national, state and local news media very ably and objectively provide the public with all the information required on these billboard signs and detailed information is available to interested citizens in county court houses; and

WHEREAS, the tax funds spent for the manufacture, erection and dismantling of these signs would serve public interests better if used for road improvement purposes; and

WHEREAS, the placement of these signs have in some instances contributed to highway accidents and have been used in many states for misleading political advertising in favor of incumbent politicians; and

WHEREAS, we consider the many thousands of dollars spent for these signs a public nuisance and a waste of public funds; NOW THEREFORE,

BE IT RESOLVED BY THE SENATE OF THE SIXTY-SECOND GENERAL ASSEMBLY OF THE STATE OF IOWA; THE HOUSE OF REPRESENTATIVES CONCURRING;

That, we respectfully request the Congress to repeal this requirement by federal legislation and that copies of this resolution be sent to the Honorable members of the U. S. Senate, Bourke B. The bill having received a constitutional majority was declared to have passed the House and the title was agreed to.

House File 97, a bill for an act relating to contests of elections, with report of committee recommending amendment and passage, was taken up for consideration.

Andersen of Woodbury offered the following amendment filed by the committee on state government affairs:

Amend House File 97 by striking all after the enacting clause and by inserting in lieu thereof the following:

Section 1. The election of any person to the office of United States senator or United States representative may be contested and a recount or re canvass secured by any person eligible to such office who received an average of at least one (1) vote per precinct involved for such office.

Sec. 2. The grounds for such contest may include:

1. Misconduct, fraud, or corruption on the part of judges of election in any precinct, or of any board of canvassers, or any member of either, sufficient to change the result.
2. That the incumbent was not eligible to the office at the time of election.
3. That the incumbent has been duly convicted of a felony before the election and the judgment has not been reversed, annulled, or set aside, or the incumbent pardoned at the time of election.
4. That the incumbent has given or offered to any elector, or any judge, clerk, or canvasser of the election, any bribe or reward in money, property, or thing of value, for the purpose of procuring his election.
5. That illegal votes have been received or legal votes rejected at the polls, sufficient to change the result.
6. Any error in any board of canvassers in counting the votes, or in declaring the result of the election, if the error would affect the result.
7. Any other cause which shows that another person was the person duly elected.

Sec. 3. The contestant shall file with the secretary of state a written notice of his intention to contest the election. The notice shall be filed within thirty (30) days after a general or special election or within fifteen (15) days after the result of such election has been determined by the office or board of canvassers authorized by law to determine such result, whichever first occurs. The secretary of state shall upon receipt of the notice immediately notify the incumbent that such notice has been filed.

Sec. 4. If the contestant is a candidate for the United States senate, he shall deposit the sum of ten thousand (10,000) dollars or such letter of credit from a bank doing business in the state of Iowa or such bond as the secretary of state deems will assure that the sum of ten thousand (10,000) dollars will be immediately available upon demand by the secretary of state.

Sec. 5. If the contestant is a candidate for United States house of representatives, he shall deposit the sum of five thousand (5,000) dollars or such letter of credit from a bank doing business in the state of Iowa or such bond as the secretary of state deems will assure that the sum of five thousand (5,000) dollars will be immediately available upon demand by the secretary of state.

Sec. 6. No certificate of election shall be delivered prior to the expiration of the period of time during which a contest of election may be filed. If a notice of a contest of election has been filed, the certificate shall be withheld until the determination of the contest.

Sec. 7. A contest board consisting of the secretary of state, one (1) person designated by the contestant, and one (1) person designated by the incumbent shall conduct a recount in each precinct, county, or voting district in which a recount is requested by either the contestant or incumbent. The contest board shall conduct such recount at the earliest date practicable after appointment. Both the contestant and incumbent shall have a right to have one (1) observer at each location where a recount or recanvass is conducted. No person shall be allowed to observe or record the result of the balloting for any office other than the one being contested under this Act unless the consent of all candidates for such other office has been given in writing.

Sec. 8. The contest board may hold public hearings; require by subpoena or otherwise the attendance of witnesses and the production of correspondence, books, papers, election returns, ballots, and other documents; administer oaths; and take such testimony as is reasonably necessary to conduct a recanvass or recount. Disobedience to such process may be treated as a contempt. Depositions may be taken in the same manner and under the same rules as in an action at law in a district court, but no cause for taking the same need be shown.

Sec. 9. The contest board shall establish procedures for conducting a recount that will insure a prompt determination of the true result of the election but will not alter records which may be necessary to determine the result of an election contest for some other office at a later date.

Sec. 10. The contest board shall determine which candidate is entitled to hold the office. The secretary of state shall deliver the certificate of election six (6) days after the determination of the board unless an appeal has been filed. If an appeal has been filed, the certificate shall not be delivered until a final determination of the election has been made.

Sec. 11. The contest board shall order paid from the deposit required by sections four (4) and five (5) of this Act such sum as the state comptroller determines is necessary to pay the expenses incurred in conducting the contest and shall refund to the contestant the remainder of his deposit. The contestant shall not be liable for more than the amount of the deposit. The contestant shall not be liable for such expenses, and his deposit shall be returned, if the contest board finds that the result of the election has

been changed or if errors had been made which average more than one (1) vote per precinct.

Sec. 12. Proceedings under this Act shall be subject to the orders and direction of the Iowa supreme court for the purpose of determining whether the contest board has complied with the law and properly determined what ballots, parts of ballots, or marks for candidates on ballots are valid, to which candidate the votes should be attributed, and whether the true result of the election has been determined. Any appeal to such court shall be filed with the clerk of the supreme court within five (5) days following the determination of the contest board. The court shall enter such orders as are proper for further proceedings by the contest board or it may enter judgment setting aside, modifying, or affirming the decision of the contest board.

Sec. 13. Upon request by the United States house of representatives or the United States senate, the secretary of state shall furnish the record of the contest including all ballots, registers and other election materials and papers requested pertaining to the election contest.

Andersen of Woodbury offered the following amendment to the amendment filed by him and moved its adoption:

Amend the Committee on State Government Affairs amendment to House File 97 filed May 17, 1967, by inserting a new paragraph at the end of section two (2) as follows:

COMMUNICATION FROM THE GOVERNOR

STATE OF IOWA

Office of the Governor
Des Moines

June 26, 1967

The Honorable Maurice E. Baringer
Speaker of the House of Representatives
Sixty-second General Assembly
State Capitol
Des Moines, Iowa

HONORABLE MEMBERS OF THE HOUSE OF REPRESENTATIVES:

I would like to call your attention to Senate File 820, "an act relating to the acceptance of federal funds for highway safety," which has passed the Senate unanimously and which has been referred to the House Sifting Committee.

Senate File 820, if passed, would allow the State of Iowa to accept federal funds made available under the federal Highway Safety Act of 1966. At the present time the State of Iowa is eligible for \$670,000 and \$1,000,425 for the fiscal years 1967 and 1968 respectively, under this program.

This money is vitally needed to strengthen our existing highway safety program. We must use all of the resources available to us to turn back the tide of death on our streets and highways. In the last 10 years, traffic accidents in Iowa have taken the lives of 7,070 persons and have injured and maimed nearly a quarter million more. This senseless waste of our most precious resource -- human life - cannot, in my opinion, be allowed to continue unabated.

I do not recommend this legislation lightly. I have been advised by the National Highway Safety Agency of the U.S. Department of Commerce that enabling legislation, as embodied in Senate File 820, is essential if Iowa is to participate fully in the highway safety program. As a matter of fact, Senate File 820 is modeled closely after enabling legislation recommended to the states by the National Highway Safety Agency.

The need for enabling legislation can best be seen by examining the language of the federal Highway Safety Act of 1966 itself, which specifies in part that: ". . . The Secretary of Transportation shall not approve any State highway safety program under this section which does not -- (A) provide that the Governor of the State shall be responsible for the administration of the program . . ." (Section 402 (b) (1), Title 23, U.S. Code) The National Highway Safety Agency has questioned the adequacy of our present statutes to meet this requirement.

Quoting further from the Highway Safety Act of 1966, the following language would indicate that, without appropriate enabling legislation, the State of Iowa would seriously risk losing a substantial portion of its federal-aid highway funds in the future:

" . . . After December 31, 1968, the Secretary shall not apportion any funds under this subsection to any State which is not implementing a highway safety program approved by the Secretary in accordance with this section. Federal aid highway funds apportioned on or after January 1, 1969, to any State which is not implementing a highway safety program approved by the Secretary in accordance with this section shall be reduced by amounts equal to 10 per centum of the amounts which would otherwise be apportioned to such State under section 104 of this title, until such time as such State is implementing an approved highway safety program. Whenever he determines it to be in the public interest, the Secretary may suspend, for such periods as he deems necessary, the application of the preceding sentence to a State. Any amount which is withheld from the apportionment to any State under this section shall be reapportioned to the other States in accordance with the applicable provisions of law . . ."

Ten per cent of our federal highway funds, as referred to in the statutory provision just quoted, amounts to \$6,500,000 per year in Iowa at the present time.

Furthermore, without Senate File 820, we will be seriously handicapped in our efforts to develop a program for Iowa, between now and January 1, 1969, which will meet the federal standards. The frightful toll of deaths and injuries on our streets and highways offers tragic proof that we cannot afford an 18-month delay in implementing this program.

Therefore, in order for the State of Iowa to participate fully in the federal Highway Safety Act of 1966, to receive its allotted share of funds for these vital programs, and to avoid the unnecessary risk of losing critically needed federal highway funds, it is imperative that you enact Senate File 820.

I ask your support on this important piece of legislation and urge its adoption.

Very truly yours,
HAROLD E. HUGHES

JOURNAL OF THE HOUSE
CONFERENCE COMMITTEE REPORT
(House File 686)

June 27,

TO THE PRESIDENT OF THE SENATE AND THE SPEAKER OF THE HOUSE

We the undersigned members of the Conference Committee, appointed to consider the differences between the Senate and the House on House File 686 "A Bill for An Act relating to a method for general property tax replacement and equalization; and relating to the payment of agricultural land tax credits and making an appropriation therefore."; beg leave to report and make the following recommendations:

That everything after the enacting clause is hereby stricken and the following substituted in lieu thereof.

Section 1. The purpose of this act shall be to provide a method for general property tax replacement and equalization; and relating to the payment of agricultural land tax credits and making an appropriation therefor. This Act shall be liberally construed to that end.

Sec. 2. Definitions of terms used in this Act:

1. The "basic school tax unit" is conterminous with the county school system and is a term to define a local tax area to be used for public school support only.

2. The "basic school tax" on property is a uniform levy on all taxable property in the basic school tax unit for support of public schools within the unit. This levy will be the millage necessary to raise an amount of money equal to forty (40) percent of the total of the proposed general fund expenditures, reduced by anticipated receipts from other sources of all the school districts in the basic school tax unit.

3. The "basic school tax equalization fund" is a local fund in the county treasurer's office from which operating revenues are distributed to the school districts within the local basic school tax unit.

4. The "percent of allowable growth" is the percent of increase in revenue computed on a state wide basis for the sales and use taxes and the individual and corporate income taxes as well as the percent of increase in assessments for property tax for each year of the last three years. The sum of the individual percentages thus obtained shall be divided by six to arrive at the percent of allowable growth. In making such computations the comptroller shall adjust for changes in rates or basis of the income tax of sales and use tax and for statewide changes in assessment practices. He shall thereupon certify the percent of allowable growth per pupil to the several school districts of the state on or before June 30 of each year.

5. The "adjusted state average reimbursable expenditure" is the preceding year's average state reimbursable expenditure per pupil in average daily membership increased by the percent of allowable growth.

Sec. 3. There are hereby created in the state ninety-nine (99) basic school tax units. Said units shall be identified by the name of the county comprising the major part of each unit. The boundaries of the basic school tax unit shall be conterminous with the county school system and in case of joint districts with area in more than one (1) county, each area shall become a part of the basic school tax unit in which there are the greatest number of school electors in the district and the records of the department of public instruction compiled from the school secretaries' reports shall determine the basic school tax unit of which the area becomes a part. Where county school systems have been merged under section two hundred seventy-three point twenty-two (273.22) Code of Iowa,

such district shall be deemed part of the basic tax unit comprising the county system which would exist and of which it would be a part but for such merger.

Sec. 4. The county auditor of each county shall, prior to making the levies for school purposes in his county, starting with the 1967-68 school budgets and continuing with each school year thereafter, total the askings for general school purposes of the various school districts in the basic school tax unit. He shall then multiply said yearly total by forty hundredths (.40) and spread the levy to raise the amount thus ascertained at a uniform rate over all the taxable property in the basic school tax unit. In the case of joint districts such levy shall be spread in the same manner as heretofore employed for the purpose of making other school levies in such circumstances. The money collected from said levy shall be placed by the county treasurer in the basic school tax equalization fund.

Sec. 5. On or before August 15, 1967, and each year thereafter, the state tax commission shall make an accounting of the individual state income tax collected under division two (II) of chapter four hundred twenty-two (422) Code of Iowa, applicable to tax returns for the most recent completed tax year, as defined by section four hundred twenty-four point four (422.4), subsection four (4), Code of Iowa, from taxpayers in each of the various school districts in the state and certify to the state comptroller and the state department of public instruction forty (40) percent of the total credited from the taxpayers of each basic school tax unit.

Sec. 6. The county auditor shall, by August 15, 1967, and each year thereafter, certify to the state department of public instruction the amount of the basic school tax, as provided by section four (4) of this Act, to be placed in the basic school tax equalization fund.

Sec. 7. The state comptroller shall pay the state income tax collected, as provided in section five (5) of this Act, to each county treasurer in equal semiannual installments on or about April 1 and October 1 of each year, with the first installment to begin April 1, 1968. There is hereby appropriated from the general fund of the state the amounts necessary to make such payments. The county treasurer shall deposit said payments in the basic school tax equalization fund.

Sec. 8. The moneys in the basic school tax equalization fund in each basic school tax unit shall be distributed by the county treasurer on the tenth day of the month following the month of collection, to each of the respective districts in the basic school tax unit equally on the basis of the per pupil in average daily membership. A report of the distributions so made shall be certified by each county treasurer to the state department of public instruction.

Sec. 9. Section twenty-four point seventeen (24.17), Code of Iowa, is hereby amended by inserting in line six (6) after the word "year" the words "and school districts the fifteenth day of July each year."

Sec. 10. For the purpose of equalizing educational opportunity in the public high school districts throughout the state, the several school districts in the state shall be entitled to and receive financial aid from the state in the manner and amount provided in this Act.

Sec. 11. The local school district's state share of the cost of public education in each school district maintaining a public high school shall be determined by the ratio of its property value to that of the entire state, together with the ratio of its income to that of the entire state.

Sec. 12. For the purpose of computing state financial aid to local school districts under the formula hereinafter prescribed, the real value of taxable property and the adjusted

gross income within each public high school district shall be determined by the state department of public instruction from data furnished it by the department of revenue. For purposes of this Act, a "high school district" shall mean a district which maintains at least twelve (12) grades of instruction above the level of kindergarten. On or before June 30 of the year nineteen hundred sixty-eight (1968), and annually thereafter, the department of revenue shall report to the state department of public instruction:

1. Compiled and summarized data gathered under the provisions of subsection six (6) of section four hundred twenty-one point seventeen (421.17) Code of Iowa, for the preceding year, together with the sales-ratio figure or figures computed by the commission for each county. Upon receipt of said data, the state department of public instruction shall compute the real value of taxable real property in each public high school district in the state. "Real value" shall mean the quotient found by dividing the assessed value of taxable real property within each high school district by the average sales-ratio figure for each county as reported by the department of revenue, and shall be approximately equal to the market value of such taxable real property within each such district.

2. The total adjusted gross income, as defined by section four hundred twenty-two point seven (422.7) Code of Iowa, reported in the manner required by section four hundred twenty-two point twenty-one (422.21) Code of Iowa, for the last preceding calendar year or taxable year by residents of each public high school district in the state for which data or estimates are available.

Sec. 13. The average daily membership for each public high school district shall be determined by dividing the aggregate sum of the pupil membership in all schools of the district for each day school was in session throughout a school year by the number of days school was in session during that school year.

The school census for each public high school district shall be determined as specified in subsection one (1) of section two hundred seventy-nine point twenty-two (279.22) Code of Iowa.

Sec. 14. State aid payable to each public high school district shall be computed as follows:

1. Determine the market value of property for each high school district.
2. Multiply the amount in subsection one (1) by seven-tenths (.7).
3. Determine the adjusted gross income for each high school district.
4. Multiply the amount in subsection three (3) by three-tenths (.3).
5. Add the product from subsection two (2) to the product from subsection four (4).
6. In each high school district add the average daily membership to the school census.
7. Divide the sum from subsection six (6) by the number two (2).
8. Divide the sum from subsection five (5) by the amount determined in subsection seven (7).
9. Determine the market value of property in the state.
10. Multiply the amount in subsection nine (9) by seven-tenths (.7).
11. Determine the adjusted gross income in the state.
12. Multiply the amount in subsection eleven (11) by three-tenths (.3).

13. Add the product in subsection ten (10) to the product in subsection twelve (12).
14. In the state add the total state average daily membership to the total school census.
15. Divide the sum from subsection fourteen (14) by the number two (2).
16. Divide the sum from subsection thirteen (13) by the amount determined in subsection fifteen (15).
17. Divide the amount from subsection eight (8) by the amount from subsection sixteen (16).
18. Multiply the amount from subsection seventeen (17) by twenty-five one-hundredths (0.25).
19. Subtract the amount from subsection eighteen (18) from the number one (1).
20. From the local total general fund reimbursable expenditures, determined as hereinafter provided, subtract the amount of the basic school tax equalization fund allocated to each district as provided in sections four (4) and five (5).
21. Multiply the difference obtained in subsection twenty (20) by the difference obtained in subsection nineteen (19).

Sec. 15. Total general fund reimbursable expenditures shall be determined for the year ending June 30 of the school year in which the report is made, in each public high school district, from items defined in the uniform financial accounting system promulgated by the state board of public instruction under section two hundred fifty-seven point ten (257.10) Code of Iowa, as follows:

1. Determine general fund expenditures exclusive of gifts, and federal grants and aids, by adding together the amounts expended for the school year ending June 30 of the year in which the report is made, for administration, instruction, attendance services, health services, pupil transportation services, fixed charges, operation and maintenance, community services, capital outlay, debt service, and tuition paid other districts. The cost of food services and student body activities shall not be included in general fund costs.
2. From the total of the sums determined under subsection one (1) hereof deduct the following:
 - a. Receipts from state appropriations for handicapped children aid, vocational aid, driver education aid, and junior college aid.
 - b. General fund receipts from the following: tuition paid by individuals or by the state; transportation; services; rents; income on investment securities; other general fund revenue receipts; general fund non-revenue receipts; and transfers to the general fund other than those resulting from reorganization and the return of principal of invested securities.
 - c. The total amount determined on the per pupil cost basis for children transported who live within statutory walking distance from school.

Sec. 16. All moneys received by a public high school district from the state under the provisions of this Act shall be deposited in the general fund.

Sec. 17. At the close of each school year but not later than July 15 the local public high school district shall supply to the state department of public instruction the

information required by it for calculation of state aid under this Act.

Forms for such purpose shall be supplied by the state department to each public high school district no later than June 1 of each school year. After the aid payable has been calculated and validated for accuracy, the state department of public instruction shall certify to the state comptroller the amount of aid payable to each public high school district and he shall forthwith draw warrants, payable from moneys in the general fund of the state herein appropriated, and cause the same to be delivered to respective public high school districts of the state of Iowa.

Sec. 18. There are hereby appropriated from moneys in the general fund of the state for the ensuing biennium the following amounts for state equalization aid:

For the first year of the biennium fifty million five hundred thousand dollars and for the second year of the biennium one hundred eleven million dollars.

Sec. 19. That portion of any school reimbursable expenditures which exceeds the funds thus provided in the above sections, shall be levied by the county auditor as an additional property tax in said local school district, in addition to the scheduled annual amount for any bonded indebtedness or interest thereon. This additional levy shall be paid to each school district as the funds are collected in the same manner as other tax collections are paid over.

Sec. 20. The superintendent of public instruction, subject to the approval of the state board of public instruction, is hereby authorized to adopt such rules and regulations and definitions of terms as are necessary and proper for the administration of this chapter.

Sec. 21. Section two hundred eighty-six A point one (286A.1), Code of Iowa, is repealed, effective January 1, 1968, and the following enacted in lieu thereof:

"The several merged areas operating area vocational schools or community colleges and the several school districts operating junior colleges or community colleges in the state of Iowa shall be entitled to receive financial aid from the state in the manner and amount as provided in this chapter."

In no event shall a school district receive less in the aggregate than it received in reimbursement for the 1965-1966 fiscal year for any state funds distributed for general aid, supplemental aid, and transportation aid.

Sec. 30. Section four hundred twenty-six point three (426.3), Code of Iowa, is hereby amended as follows:

Sec. 32. No later than September 1, of each year the department of public instruction shall certify to the state comptroller the amounts of state equalization aid and any other state aid that will be received by each school district within the county. In the event any estimate of said aids in any school budget certified to the auditor as provided by section twenty-four point seventeen (24.17) is more or less than the amount of said aid certified to the state comptroller by the department of public instruction as provided by this section, the state comptroller shall certify to the county auditors the final millage for each school district.

Sec. 33. There is hereby created a committee to be known as the school budget review committee which shall consist of the superintendent of public instruction, the state comptroller and three members appointed by the governor to represent the public and to serve three year staggered terms. Legislators shall be notified of hearings concerning school districts in their constituencies. The school budget review committee shall meet and hold hearings each year in Des Moines in September and shall continue in session until it has acted on all requests from school districts for tax increase approval submitted to the committee for budgetary review and examination pursuant to section thirty-four (34) of this act. The committee may recommend to the state board of public instruction the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations thereto in regard to any budgeting or accounting matters, and may direct the superintendent of public instruction or the state comptroller to make studies and investigations of school costs in any school district whose budget has been submitted to the committee pursuant to section thirty-four (34) of this Act. The committee shall report to each session of the legislature which report shall include any recommended changes in laws relating to school districts, set out the number of hearings held pursuant to section thirty-four (34) of this Act, the reasons for any authorized increases in school costs beyond the state average as provided in section thirty-four (34) of this Act, and such other information as the committee may deem advisable. The committee shall adopt its own rules of procedure and the superintendent of public instruction shall serve as chairman. The state comptroller shall act as secretary. The committee members representing the public shall receive a per diem equal to the per diem of members of the board of public instruction and their necessary travel and expense while engaged in their official duties. Such payments shall be made from appropriations to the department of public instruction.

Sec. 34. The state comptroller shall compute the sum of tax askings plus state aids excluding special education, driver education and vocational education aids for each local school district for each of the preceding three (3) years. The three (3)

sums for the preceding years shall be divided by the average daily membership for each year respectively. The percentage change in tax askings plus state aids for two (2) years prior and the percentage change in tax askings plus state aids for one (1) year prior divided by two (2) shall constitute the average percent of change.

Each local school district shall certify to the state comptroller the amount currently budgeted for tax askings plus state aids divided by the projected average daily membership for the current year. Projected average daily membership shall be determined as follows:

The percentage change in average daily membership two (2) years prior plus the percentage change in average daily membership one (1) year prior divided by two (2). This percentage shall be used to determine the average percentage of change in projected average daily membership. The average percent of change in projected average daily membership multiplied times the prior years average daily membership added to this same prior years average daily membership shall constitute the projected average daily membership. In those prior years for which average daily membership data are not available "beginning of the year" enrollment figures as reported to the state department of public instruction shall be substituted.

The state comptroller shall compute the proposed change between the three (3) year average and the current year as certified by each local school district. Any school district whose proposed growth exceeds the adjusted state average reimbursable expenditures per pupil in average daily membership for the preceding year shall have its budget submitted to the school budget review committee for review and examination. If after review and examination the committee recommends against the proposed growth increase and if the school district nevertheless maintains its proposed budget beyond the percent of allowable change, the payment of state funds to the district in the following year shall be limited to the reimbursable expenditures per pupil in average daily membership as allowed by the school budget review committee.

Sec. 35. In the event any school district shall, in the 1967-1968 school year, increase its general fund millage as a sole consequence of the nondiscretionary provisions of this Act beyond its general fund millage for the prior school year, the state school budget review committee may authorize the state comptroller to pay emergency aid from any money in the state treasury not otherwise appropriated.

Sec. 36. Section four hundred twenty-seven point one (427.1), subsection sixteen (16), Code of Iowa, is hereby amended by striking lines seven (7) through eleven (11) and inserting in lieu thereof the following:

"For the year 1967 and subsequent years, all tangible personal property customarily located and used in or about the residence or residences of the owner of said property; all wearing apparel and food used or to be used by the owner or his family; and all personal effects."

Sec. 37. Section four hundred twenty-seven point thirteen (427.13), Code of Iowa, is hereby amended by adding the following paragraph at the end of such section:

Sec. 38. There is hereby appropriated from the general fund of the state of Iowa to the department of revenue for each year of the biennium beginning July 1, 1967, and ending June 30, 1969, the sum of five million three hundred thousand (5,300,000) dollars to be used in the following manner:

1. The department of revenue shall determine the percentage which the aggregate taxable value for the year 1966, of property described in section thirty-six (36) of this Act, subject to taxation for the year 1966 but not subject to taxation for the year 1967, in each county bears to the total aggregate taxable value of such property

reported from all counties in the state and shall certify the percentage to the state comptroller prior to August 15, 1967. The state comptroller shall advise each county auditor on or before August 30, 1967, the amount each county shall receive from such fund.

2. The county auditor shall determine the amount due the several taxing districts for the tax years 1967 and 1968. The county auditor shall, in computing the tax rate for any taxing district, deduct from the total budget requirements certified by any such district all of the tax to be derived from the appropriation, and shall then apply such rate to the adjusted taxable value of the property in the district, necessary to raise the amount required after the deductions authorized in this subsection have been made.

3. In January 1968, and January 1969, the state comptroller shall apply said percentage to the five million three hundred thousand (5,300,000) dollars appropriated for each year of the biennium. The state comptroller shall draw warrants on the funds herein appropriated in such amounts payable to the county treasurer of each county and transmit same to the treasurer.

Sec. 39. For the purpose of this Act, "personal property" means all tangible property other than real property, owned by a resident or nonresident of the state, which is located in the state and assessed and taxed as personal property in accordance with the laws of this state and rules and regulations adopted thereunder, notwithstanding the provisions of section four point one (4.1), subsection nine (9), Code of Iowa, but not to include the following:

1. Machinery and equipment as contemplated under section four hundred twenty-eight point twenty-two (428.22), Code of Iowa.

2. Buildings as contemplated by section four hundred twenty-eight point four (428.4), Code of Iowa.

3. All centrally assessed property, by the department of revenue, under the provision of chapters four hundred twenty-eight (428), four hundred thirty-three (433), four hundred thirty-four (434), four hundred thirty-five (435), four hundred thirty-six (436), four hundred thirty-seven (437), and four hundred thirty-eight (438), Code of Iowa.

4. Property exempted by the provisions of chapter four hundred twenty-seven (427), Code of Iowa.

Sec. 40. Section four hundred twenty-eight point four (428.4), Code of Iowa, is hereby amended by striking from line seventeen (17) thereof the words "real estate" and inserting in lieu thereof the word "land". Section four hundred twenty-eight point four (428.4), Code of Iowa, is hereby amended by striking from line eighteen (18) thereof the expression "personal property, but" and inserting in lieu thereof the expression "real property." and by striking all of lines nineteen (19), twenty (20), and twenty-one (21).

Sec. 41. Persons entitled to exemption from personal property tax under provisions of section four hundred twenty-seven point three (427.3), Code of Iowa, shall be granted such exemption, in addition to the credits provided by this act.

Sec. 42. The personal property tax credit authorized by this Act shall not excuse the taxpayer from listing all personal property as required in chapter four hundred twenty-eight (428), Code of Iowa. The valuation of such personal property shall be determined as prescribed in chapter four hundred forty-one (441), Code of Iowa, so that the valuations of all personal property in a taxing district shall be known and shall be made a part of the tax list compiled by the county auditor under chapter four hundred forty-three (443), Code of Iowa.

The aggregate assessed value of personal property for each assessing district as established in the 1967 assessment year, after adjustment for equalization, shall be the basic taxable value upon which the credit granted herein shall be determined, subject to the following annual adjustments:

1. Add: additional personal property brought into each assessing district, but not to include replacement of personal property with like personal property, in accordance with section four hundred forty-one point twenty-one (441.21), Code of Iowa.

2. Subtract: personal property removed from each district by reason of transportation therefrom, personal property destroyed, and personal property consumed or disposed of and not replaced.

For the purpose of ascertaining assessed value of personal property added or subtracted from the aggregate assessed value of personal property for each district as established in the 1967 assessment year, assessors shall utilize personal property listing forms prescribed and furnished by the department of revenue, and shall distribute such forms in triplicate to persons possessed of such property for assessment, first by regular mail, and, where necessary, by personal service. Such assessed value of such personal property shall be determined in accordance with section four hundred forty-one point twenty-one (441.21), Code of Iowa.

Sec. 43. No taxpayer in the state shall be allowed a credit on personal property tax in excess of two thousand five hundred (2,500) dollars assessed valuation. Any taxpayer who owns personal property subject to taxation in more than one (1) county of the state shall designate in reporting such property as required in section thirty-nine (39) of this Act in which counties of the state the property is located and may claim the credit or a proportionate part thereof in each county where the property is situated and in no case shall he claim more than the two thousand five hundred (2,500) dollars assessed value for all personal property assessed in all counties. At the time of making such claim, the taxpayer shall state by affidavit or affidavits made a part of the personal property listing form filed in each county where his personal property is situated, that he has not claimed a total personal property tax credit on all counties in excess of a total of two thousand five hundred (2,500) dollars assessed valuation.

Sec. 44. If personal property is owned jointly, the owners may not respectively take a tax credit on such property in excess of the proportionate ownership in said property and said proportionate ownership shall be determined by dividing the total assessed value of the property by the number of owners unless they show their actual interest and ownership on the personal property listing form provided by the assessor. Any such proportionate credit may be applied only to the extent that the owner's total respective credit of two thousand five hundred (2,500) dollars of assessed valuation is not used up and in no event is an additional credit to be allowed for property held as hereinabove described in this section.

Sec. 45. On or before January 1 of each year, the auditor of each county shall prepare a statement listing for each taxing district in the county all personal property upon which taxes shall not be collected due to the tax credit granted in this Act. The statement shall show the tax rates of the various taxing districts and the total amount of taxes which shall not be collected in each district because of the tax credit. The auditor shall certify and forward one (1) copy of each of the statement of the state comptroller and to the department of revenue on or before January 15 of such year.

Sec. 46. The amounts due each taxing district certified by the county auditor shall be paid in two (2) equal payments by the state comptroller with the first payment to be paid March 15, 1968 and on or before September 15 and March 15 of each year thereafter,

drawn upon warrants payable to the respective county treasurers. The county treasurer upon receipt of the warrants from the comptroller shall apportion the proceeds among the taxing districts in the county as certified by the county auditor.

Sec. 47. There is hereby appropriated from any money in the state treasury not otherwise appropriated an amount sufficient to carry out the provisions of sections thirty-eight (38) to forty-four (44) of this Act.

Sec. 48. Section four hundred twenty-five point one (425.1), Code of Iowa, is hereby amended by adding a new subsection as follows:

"In addition to the homestead credit or twenty-five mills on twenty-five hundred (2,500) dollars of assessed valuation allowable under this chapter, in the event the owner as defined in this chapter, is over sixty-five (65) years of age, and provided that the income of such owner, when included with that of his spouse, if any, is less than three thousand five hundred (3,500) dollars per annum, there shall be credited against the tax levied on his eligible homestead (an amount in dollars equal to the difference between such tax levied in the current year and such tax levied in the year 1967 or 1968, whichever year resulted in the lowest tax, or in the year in which he became sixty-five (65) years of age, or in the year in which he acquired the homestead, whichever, is latest, if the tax levied in the current year is greater.) Said credit shall be paid to each taxing district from the homestead tax credits fund in the same manner as other homestead tax credits and all other nonconflicting provisions and computations in this chapter shall be applicable to the credit provided by this subsection, and in the event of conflict this subsection shall obtain.

"Each owner making application for credit because of age shall annually, on or before July 1, file a verified statement with the county assessor, showing:

a. He was sixty-five (65) years of age before midnight on December 31 of the year immediately preceding the year of the tax levy.

b. His income, when included with that of his spouse, if any, during the last preceding twelve-month income tax accounting period is less than three thousand five hundred (3,500) dollars.

c. The real value of all additions or improvements made to the homestead during the preceding year, and describing them. If any such addition or improvement, exclusive of repairs and maintenance, has been made the assessor shall determine whether the assessed valuation of the homestead shall be increased and if so the amount thereof. The additional credit provided herein shall not be allowed if such increases in valuation are in excess of one thousand (1,000) dollars, in the aggregate, during each five-year period commencing with the year in which application is first made under this subsection.

"The tax credit under this subsection shall also be allowable where there is more than one (1) "owner" as defined in this chapter, if any one of them is more than sixty-five (65) years of age and is occupying the premises as a homestead within the meaning of this chapter. The state tax commission shall determine the evidence requirements for all matters of fact to be shown by each owner making application for credit.

"For the purpose of this subsection 'income' means taxable income for federal income tax purposes plus income from securities of state and other political subdivisions exempt from federal income tax and income from social security and other tax-exempt retirement or pension plans."

Sec. 49. Section four hundred twenty-five point eleven (425.11), subsection two(2), Code of Iowa, is hereby amended by adding thereto the following sentence:

"For the purpose of this chapter the word 'owner' shall be construed to mean a vonda fide owner and not one for the purpose only of availing himself of the benefits of this chapter."

Sec. 50. In order to accommodate the orderly initiation of the provisions of this Act the following sums shall be appropriated for the period beginning July 1, 1967 to December 31, 1967:

For	General Aid	\$24,816,000.00

	Transportation Aid	2,992,000.00

Sec. 51. Section four hundred twenty-sixpoint one (426.1), Code of Iowa, is amended by striking from line nine (9) the word "fifteen" and inserting in lieu thereof the word "eighteen."

Sec. 52. If any section, subsection, subdivision, paragraph, sentence or clause of this Act is held invalid or unconstitutional, such decision shall not affect the remaining portions of this Act.

Amend the title to House File 686 by striking all after the word "equalization" in line two (2) and inserting in lieu thereof the following:

"by revising the method of taxation of property for school purposes and to make allocations of state funds to local governmental units in the form of aid to schools, agricultural land tax credit, personal property tax credit and additional homestead credit for the aged, all in the furtherance of tax equalization."

MOTION TO RECONSIDER WITHDRAWN (Senate File 161)

Gallagher of Black Hawk asked and received unanimous consent to withdraw his motion to reconsider the vote on Senate File 161, filed June 27 and found on page 2320 of the House Journal.

EXPLANATION OF VOTE

We voted No on House File 686, even though we agree with the principle and philosophies of this measure. We knew the Conference Committee compromise and package submitted to the General Assembly included the funding measure (H.F. 702)

which we could not in good conscience support, since the little time we have had to study the funding measure points out many loopholes in establishing a new tax structure that would be detrimental to the majority of our constituents.

EXPLANATION OF VOTE

I voted against Senate File 342, because it granted some powers and duties to local boards of health over practitioners of the healing arts, which includes the practice of Chiropractic and the bill refuses to treat the health professions with equality and impartiality. The State of Iowa licenses three healing arts professions: Doctors of Medicine, Doctors of Osteopathy, and Doctors of Chiropractic; all are deserving of equal protection of our laws and respect.

Mr. Speaker: I respectfully request that Senate File 820 be removed from the Sifting Committee.

4. The tax imposed by this section shall not apply with respect to any tobacco product which under the constitution and laws of the United States may not be made the subject of taxation by this state.

Sec. 3. Licenses; distributors, subjobbers.

1. From and after 12:01 o'clock a.m. on August 1, 1967, no person shall engage in the business of a distributor or subjobber of tobacco products at any place of business without first having received a license from the director to engage in that business at that place of business.

2. in this state, to be sold by those retailers, may make application for license as a distributor, be granted such a license by the director, and thereafter be subject to all the provisions of sections 1 to 9 and entitled to act as a licensed distributor, provided he files proof with his application that he has appointed the secretary of state for the service of process relating to any matter or issue arising under sections 1 to 9. A foreign corporation applying for a distributor's license need not qualify as such if it files the proof of appointment of the secretary of state for service of process as provided in this subdivision.

4. Each application for a distributor's license shall be accompanied by a fee of \$25, except that no applicant holding a permit pursuant to chapter ninety-eight (98) of the Code shall be required to pay an additional fee. The application shall also be accompanied by a corporate surety bond issued by a surety licensed to do business in this state, in the sum of \$1,000, conditioned upon the true and faithful compliance by the distributor with all the provisions of sections 1 to 9 and the payment when due of all taxes, penalties and accrued interest arising in the ordinary course of business or by reason of any delinquent money which may be due the State of Iowa. This bond shall be in a form to be fixed by the director and approved by the attorney general. Whenever it is the opinion of the director that the bond given by a licensee is inadequate in amount to fully protect the state, he shall require either an increase in the amount of said bond or additional bond, in such amount as he deems sufficient. Any bond required by this subdivision, or a reissue thereof, or a substitute therefor, shall be kept in full force and effect during the entire period covered by the license.

A separate application for license shall be made for each place of business at which a distributor proposes to engage in business as such under sections 1 to 9.

5. Each application for a subjobber's license shall be accompanied by a fee of \$10, except that no applicant holding a permit pursuant to chapter ninety-eight (98) of the Code shall be required to pay an additional fee.

6. A distributor or subjobber applying for a license between January 1 and June 30 of any year shall be required to pay only one-half of the license fee provided for herein.

The director, upon receipt of the application (and bond, in the case of the distributor) in proper form, and payment of the license fee required by subsection 4 or subsection 5, shall unless otherwise provided by sections 1 to 9, issue the applicant a license in form as prescribed by him which license shall permit the applicant to whom it is issued to engage in business as a distributor or subjobber at the place of business shown in his application. The director shall assign a permit number to each person licensed as a distributor at the time of issuance of his first license, which shall be inscribed upon all licenses issued to that distributor.

8. Each license shall expire on June 30 following its date of issue unless sooner revoked by the director or unless the business with respect to which the license was issued is transferred. In either case the holder of the license shall immediately surrender it to the director.

9. Each license shall be prominently displayed on the premises covered by the license.

10. No license shall be transferable to any other person.

11. The director may revoke, cancel, or suspend the license or licenses of any distributor or subjobber for violation of any of the provisions of sections 1 to 9, or any other act applicable to the sale of tobacco products, or any rule or regulations promulgated by

the director in furtherance of sections 1 to 9. No license shall be revoked, cancelled, or suspended except after notice and a hearing by the director as provided in section 7.

12. No license shall be issued under sections 1 to 9 to any person within one year of the date of final determination of a revocation of any previous license held by him.

13. When the surety upon any bond issued pursuant to the provisions of sections 1 to 9 shall have fulfilled the conditions of such bond and compensated the state for any loss occasioned by any act or omission of the person bonded under sections 1 to 9, such surety shall be subrogated to all the rights of the state in connections with the transaction wherein such loss occurred.

Sec. 4. Licensees, duties.

1. Every distributor shall keep at each licensed place of business complete and accurate records for that place of business, including itemized invoices, of tobacco products held, purchased, manufactured, brought in or caused to be brought in from without the state, or shipped or transported to retailers in this state, and of all sales of tobacco products made, except sales to the ultimate consumer.

When a licensed distributor sells tobacco products exclusively to the ultimate consumer at the address given in the license, no invoice of those sales shall be required, but itemized invoices shall be made of all tobacco products transferred to other retail outlets owned or controlled by that licensed distributor. All books, records and other papers and documents required by this subdivision to be kept shall be preserved for a period of at least one year after the date of the documents, as aforesaid, or the date of the entries thereof appearing in the records, unless the director, in writing, authorized their destruction or disposal at an earlier date. At any time during usual business hours, the director, or his duly authorized agents or employees, may enter any place of business of a distributor, without a search warrant, and inspect the premises, the records required to be kept under this subdivision, and the tobacco products contained therein, to determine whether or not all the provisions of sections 1 to 9 are being fully complied with. If the director, or any such agent or employee, is denied free access or is hindered or interfered with in making such examination, the license of the distributor at such premises shall be subject to revocation by the director.

2. Every person who sells tobacco products to persons other than the ultimate consumer shall render with each sale itemized invoices showing the seller's name and address, the purchaser's name and address, the date of sale, and all prices and discounts. He shall preserve legible copies of all such invoices for one year from the date of sale.

3. Every retailer and subjobber shall procure itemized invoices of all tobacco products purchased. The invoices shall show the name and address of the seller and the date of purchase. The retailer and subjobber shall preserve a legible copy of each such invoice for one year from the date of purchase. Invoices shall be available for inspection by the director or his authorized agents or employees at the retailer's or subjobber's place of business.

4. Records of all deliveries or shipments of tobacco products from any public warehouse of first destination in this state which is subject to the provisions of and licensed under Iowa Statutes, Chapter 554, shall be kept by the warehouse and be available to the director for inspection. They shall show the name and address of the consignee, the date, the quantity of tobacco products delivered, and such other information as the commissioner may require. These records shall be preserved for one year from the date of delivery of the tobacco products.

5. The transportation of tobacco products into this state by means other than common carrier must be reported to the director within 30 days with the following exceptions:

(1) The transportation of not more than 50 cigars, not more than ten ounces of snuff or snuff powder, or not more than one pound of smoking or chewing tobacco or other tobacco products not specifically mentioned herein;

(2) Transportation by a person with a place of business outside the state, who is licensed as a distributor under section 3, or tobacco products sold by such person to a retailer in this state.

Such report shall be made on forms provided by the director.

Common carriers transporting tobacco products into this state shall file with the director reports of all such shipments other than those which are delivered to public warehouses of first destination in this state which are licensed under the provisions of Iowa Statutes, Chapter 554. Such reports shall be filed on or before the tenth day of each month and shall show with respect to deliveries made in the preceding month; the date, point of origin, point of delivery, name of consignee, description and quantity of tobacco products delivered, and such information as the director may otherwise require.

Any person who fails or refuses to transmit to the director the required reports or whoever refuses to permit the examination of the records by the director shall be guilty of a misdemeanor.

Sec. 5. Distributors, monthly returns.

1. On or before the twentieth day of each calendar month every distributor with a place of business in this state shall file a return with the director showing the quantity and wholesale sales price of each tobacco product (1) brought, or caused to be brought, into this state for sale; and (2) made, manufactured or fabricated in this state for sale in this state, during the preceding calendar month. Every licensed distributor outside this state shall in like manner file a return showing the quantity and wholesale sales price of each tobacco product shipped or transported to retailers in this state to be sold by those retailers, during the preceding calendar month. Returns shall be made upon forms furnished and prescribed by the director and shall contain such other information as the director may require. Each return shall be accompanied by a remittance for the full tax liability shown therein, less a discount as fixed by the director not to exceed five percent of the tax.

2. As soon as practicable after any return is filed, the director shall examine each return and correct it, if necessary, according to his best judgment and information. If the director finds that any amount of tax is due from the taxpayer and unpaid, he shall notify the taxpayer of the deficiency, stating that he proposes to assess the amount due together with interest and penalties as hereinafter provided. If a deficiency disclosed by the director's examination cannot be allocated by him to a particular month or months, he shall notify the taxpayer of the deficiency, stating his intention to assess the amount due for a given period without allocating it to any particular month or months. If any taxpayer making any return shall die or shall become incompetent at any time before the director issues his notice that he proposes to assess an amount due, that notice shall be issued to the administrator, executor, or other legal representative, as such, of that taxpayer.

3. If, within 20 days after mailing of notice of the proposed assessment, the taxpayer or his legal representative shall file a protest to said proposed assessment and request a hearing thereon, the director shall give notice to that taxpayer or legal representative of the time and place fixed for the hearing, shall hold a hearing on such protest, and shall issue a final assessment to the taxpayer or legal representative for the amount found to be due as a result of the hearing. This hearing shall be held within 45 days after filing of the protest. If a protest is not filed within the time herein prescribed, the director shall issue a final assessment to the taxpayer or legal representative, as such. Any such assessment made by the director shall be prima facie correct and valid, and the taxpayer shall have the burden of establishing its incorrectness or invalidity in any action or proceedings in respect thereto.

4. If any taxpayer required by sections 1 to 9 to file any return shall fail to do so within the time prescribed by sections 1 to 9, he shall, on the written demand of the director, file such return within 20 days after the mailing of such written demand and at the same time pay the tax due on the basis thereof. If such taxpayer shall fail within that time to file such return, the director shall make for him a return, from his own knowledge and from such information as he can obtain through testimony or otherwise, and assess a tax on the basis thereof, which tax shall be paid within ten days after the director has mailed to such taxpayer a written notice of the amount thereof and demand for its payment. Any such return or assessment made by the director on account of the failure of the taxpayer to make a return shall be prima facie correct and valid, and the taxpayer shall have the burden of establishing its incorrectness or invalidity in any action or proceeding in respect thereto.

5. All taxes shall be due and payable not later than the twentieth day of the month following the calendar month in which they were incurred, and thereafter shall bear interest at the rate of one percent per month.

Where, under the provisions of subdivisions 2 and 3 of this section, the amount of tax due for a given period is assessed without allocating it to any particular month or months, the interest shall commence to run from the date of such assessment.

The director shall have power to reduce or abate interest when in his opinion the facts warrant such reduction or abatement. The exercise of this power shall be subject to the approval of the attorney general.

6. The director in issuing his final assessment pursuant to subdivision 3 shall add to the amount of tax found due and unpaid a penalty of ten percent thereof, except that, if he finds that the taxpayer has made a false and fraudulent return with intent to evade the tax imposed by sections 1 to 9, the penalty shall be 25 percent of the entire tax as shown by the return as corrected. The director in assessing a tax on the basis of a return made pursuant to subdivision 4 shall add to the amount of tax found due and unpaid a penalty of 25 percent thereof.

The director shall have power to abate penalties, when in his opinion their enforcement would be unjust and inequitable. The exercise of this power shall be subject to the approval of the attorney general.

7. The director may recover the amount of any tax due and unpaid, interest, and any penalty in a civil action. The collection of such a tax, interest, or penalty shall not be a bar to any prosecution under sections 1 to 9.

8. On or before the 20th day of each calendar month, every consumer who, during the preceding calendar month, has acquired title to or possession of tobacco products for use or storage in this state, upon which tobacco products the tax imposed by section 2 has not been paid, shall file a return with the director showing the quantity of tobacco products so acquired. The return shall be made upon a form furnished and prescribed by the director, and shall contain such other information as the director may require. The return shall be accompanied by a remittance for the full unpaid tax liability shown by it.

Sec. 6. Refunds, credits. Where tobacco products upon which the tax imposed by section 1 to 9 has been reported and paid, are shipped or transported by the distributor to consumers, to be consumed without the state, or to retailers or subjobbers without the state, to be sold by those retailers, or subjobbers without the state, or are returned to the manufacturer by the distributor or destroyed by the distributor, refund of such tax or credit may be made to the distributor in accordance with regulations prescribed by the director. Any over-payment of the tax imposed under section 2 may be made to the taxpayer in accordance with regulations prescribed by the director. The director shall cause any such refund of tax to be paid out of the general revenue fund, and so much of said fund as may be necessary is hereby appropriated for that purpose.

Sec. 7. Investigations and hearings, testimonial powers.

1. The director, or his duly authorized agents, may conduct investigations, inquiries, and hearings for the purpose of enforcing the provisions of sections 1 to 9, and, in connection with such investigations, inquiries, and hearings, he and his duly authorized agents shall have all the powers conferred upon him and his examiners by Iowa Statutes, and the provisions of such shall apply to all such investigations, inquiries and hearings.

2. Every hearing conducted under sections 1 to 9 shall be preceded by ten days' notice in writing of the subject of the hearing, including, in the case of suspension or revocation, of a license, a statement of the nature of the charges against the licensee. The notice shall be sent by registered mail to the last known address of the licensee or other person involved in the hearing, and the service shall be complete upon mailing. After every hearing the director shall make his findings and his order in writing. The findings and order shall be filed in the office of the director, and a copy sent by mail or otherwise to the person to whom the notice was directed.

3. The director may exchange information with the officers and agencies of other states administering laws relating to the taxation of tobacco products.

4. No person shall be excused from testifying or from producing, pursuant to a subpoena, any books, papers, records, or memoranda in any investigation or upon any hearing, upon the ground that the testimony or evidence, documentary or otherwise, may tend to incriminate him or subject him to a criminal penalty, but no person shall be prosecuted or subjected to any criminal penalty for or on account of any transaction made or thing concerning which he may testify or produce evidence, documentary or otherwise, before the director or an employee or agent thereof; provided that such immunity shall extend only to a natural person who, in obedience to a subpoena, gives testimony under oath or produces evidence, documentary or otherwise, pursuant to a subpoena. No person so testifying shall be exempt from prosecution and punishment for perjury committed in so testifying.

5. Any person aggrieved by an order of the director fixing a tax, penalty or interest under section 2 may, within 30 days from the date of notice of the order, appeal to the board of review in the manner provided by law. Any other order of the director under sections 1 to 9 shall be subject to review by certiorari.

Sec. 8. Enforcement.

1. The director shall enforce the provisions of sections 1 to 9. He may prescribe rules and regulations not inconsistent with the provisions of sections 1 to 9 for its detailed and efficient administration. In the enforcement of sections 1 to 9 the director may call upon any county attorney or the attorney general for assistance. The director may bring injunction proceedings to restrain any person from acting as a distributor or subjobber without complying with the provisions of sections 1 to 9.

Sec. 9. Violations, penalties.

1. Any person who in any manner knowingly attempts to evade the tax imposed by sections 1 to 9 or who knowingly aids or abets in the evasion or attempted evasion of the tax or who knowingly violates the provisions of section 3, subsection 1, or sections 1 to 9, shall be imprisoned in the county jail for a term of not more than one (1) year or fined not to exceed one thousand (1,000) dollars, or both.

'Rule 381. Hearing, jury.

(a) The time for appearance shall be the time for hearing, unless a continuance has been granted under Rule 380. The hearing shall be to the court, unless a jury is demanded, shall be simple and informal, and shall be conducted by the court itself, without regard to technicalities of procedure; but the decision must be based on substantial evidence. The court shall swear the parties and their witnesses, and examine them in such way as to bring out the truth. The parties may participate, either personally or by attorney. The court may continue the hearing from time to time if justice requires. The proceedings shall not be reported unless a party provides a reporter at his own expense or the parties by agreement cause the proceedings to be electronically reported, but there shall be no delay for such purpose.

'(b) Jury trial is waived unless written demand therefor is filed by a party on or before the time for appearance. Upon such demand the court shall grant a continuance to a day certain. The jury shall consist of six jurors. The clerk shall select eight jurors by lot from the regular panel or additions thereto. Each party shall have the right to peremptorily challenge two jurors and strike off one juror. After all challenges have thus been exercised or waived, and two jurors have been stricken from the list, the clerk shall read the names of the six jurors remaining who shall constitute the jury selected. The court's instructions to the jury may be oral.' "

EXPLANATION OF VOTE

Both major political parties advocated in their platforms 40% aid to education and in my campaign, no one disagreed with this goal and, in fact, most were interested as to one's position. My position was for 40% and was the position of all candidates in the November, 1966 campaign who ran for the Iowa Legislature. This plan contained in House Files 686 and 702 gives Iowa approximately 36% state aid.

There is no more opportune time to reach the goal of the national state aid to education average of 40% than when one party controls one house and the other party controls the other house, since then the criticism or praise falls on both. This year, 1967, may be the only and perhaps the last time for this opportunity to be bipartisan since the Legislature has never been divided politically in this century as it is divided in the 62nd General Assembly.

Although the past record has not been adequate relative to our concern for the total needs of Iowa through tax revision and adequate appropriation for needed progressive programs, we must now catch up. We would fall behind at a pace much more quickly than before and could find ourselves beyond the point of no return unless the tax bill along with the governor's proposed budget is passed. By legislative action prior to this week, one area of legislation could not be obtained without passage of the other. I, therefore, voted for House File 702 so we could pass the governor's budget. Progressive tax revision should be done when Iowa's growth is at an all time high and we are under the dynamic leadership of a great leader who has all Iowa's total interest in mind, both present and future.

Those critics have not proposed a plan which could pass or even meet any real needs of this state.

There has been a compromise in this area and along with this compromise, all appropriations are to be reviewed. Restoration of the many areas of cuts in the various appropriations is to be made. These cuts, if they stand, would cripple the services and programs existing presently for this state. These cuts would prevent programs from being initiated by the administration for the benefit and interest of all Iowa. It is my understanding that these humanitarian programs and the appropriations financing them will be restored as nearly to their original status as possible which was recommended by the budget of Governor Harold Hughes.

There are parts of this bill that are not to my liking, but one must look at the effect on Iowa and all its groups who differ financially, ethnically, and geographically. If we started eliminating one group, then everyone would have a legitimate reason for exclusion and we would not arrive at any of the following goals:

1. Adjourning session.
2. Property tax relief.
3. 36% state aid to education.

I might further add that those who are opponents of this bill who have approached me are the very ones who could well afford to assume a more proportionate share which is within their means.

STATE OF IOWA
OFFICE OF THE GOVERNOR
Des Moines

Harold E. Hughes
Governor

July 2, 1967

The Honorable Maurice Baringer
Speaker of the House of Representatives
Sixty-second General Assembly
State Capitol
Des Moines, Iowa

HONORABLE MEMBERS OF THE GENERAL ASSEMBLY:

As the Sixty-second General Assembly stands ready for sine die adjournment, it is my privilege to convey to you my sincere congratulations on a productive session and to comment briefly on the contributions you have made to the future of Iowa.

Currently, a great deal of attention is focused upon the fact that the 1967 session, which completed its regular work at dawn of the 175th day, was the longest session in Iowa's history. To this point, I would repeat what I have said before -- that the measure of success of a legislative session, in the perspective of history, is in what it accomplishes, not how long it lasts. Primarily, the record length of the session resulted from the volume and complexity of the problems with which you had to deal. While the cost of operating a legislature is not inconsiderable, the price of a few extra weeks of operation is small by comparison with the potential cost of leaving major legislative needs unmet. You stayed on the job until you had taken care of the major jobs and I commend you for it.

In this reference, I applaud your wisdom in approving the constitutional amendment for Annual Sessions initiated by the 1965 Assembly. The work of a modern, progressing state of nearly three million people can no longer be satisfactorily handled by unprofessional legislators who meet every two years for a period of a few months.

About 1,750 bills were introduced in the current session. But it isn't just the volume of the legislation that has increased the load on the General Assembly. The sophistication of the problems facing a state that has entered its most phenomenal era of economic growth and general development imposes demands on legislative decision-making that far exceed anything known in the past.

The legislative achievements of this session range far and wide from Permanent Reapportionment and Subdistricting to State Civil Service, Increase of IPERS Benefits, Medical Aid for the Aged and Educational TV.

But the cardinal accomplishment of this session, by almost anyone's evaluation, was your courage in meeting the long-standing need for Major Tax Revision in Iowa.

In this period of unprecedented economic growth and general development for Iowa, you had two ways you could have gone on a tax program.

You could follow the course outlined in my budget message, which provided for meeting the state's essential needs plus giving substantial increases in school aid and other refunds to local governments without increasing state taxes.

Of you could go the route of major tax reform and local property tax relief.

You chose the latter course. And whatever anyone's reservations may be about specific aspects of the tax and property tax relief program you adopted, I believe you deserve public praise for meeting forthrightly this complicated problem the people had long clamored for you to meet.

The three words most often heard in the 1966 campaign and in this legislative session were property tax relief.

Members of both parties were committed to this objective, and it was apparent throughout the session that the people did not want you to go home until you had provided some meaningful plan of property tax relief.

To be sound, a major tax revision program of this nature must provide for a fair distribution of property tax relief credits to all citizens and must distribute the tax load fairly among all citizens of our society.

The tax and school aid package you enacted is an honest attempt to fulfill these two objectives.

It gives much - needed relief to rural citizens from heavy and regressive taxation on real and personal property. And it has provisions that extend this tax relief, in the form of school aid, to city and town dwellers, including low and middle income people; offer special relief to the elderly in modest circumstances, and repeal the annoying and costly-to-collect personal property tax on household goods.

Naturally, massive property tax relief on the local level entails substantial tax increases on the state level. Cutting 20 mills or so off of your real estate taxes and giving a tax credit for up to \$2,500 valuation on your personal property cannot be purchased cheaply.

The extensive tax program enacted to finance the massive property tax relief represents, on your part, a conscientious effort to equalize the tax load among all segments of our society.

There isn't a citizen who won't carry his proportionate share of the tax load, nor is there a citizen who won't share, in some measure, the relief from regressive taxes on property.

This is the first time, to my knowledge, that the legislative leadership of both political parties and the chief executive have worked out, together, a major tax revision program.

I want to express to leaders of both parties my deep appreciation for their spirit of cooperation and "give and take" that made it possible to arrive at a common ground of solution in the public interest.

I also want to commend legislators in both houses for the long hours of conscientious work they put in during this longest of all sessions in order to keep faith with the people on their pledge of property tax relief.

It should be noted also that the effort was aided by a comprehensive professional study of our state and local tax system, wisely provided for by the 1965 session of the General Assembly.

We all realize that no product of the human mind is perfect. Certainly a vast and comprehensive tax reform, such as this one, will require some revisions by future sessions of the Legislature.

But the fact is that you have, at long last, delivered a major revision of our tax system, in accordance with the public demand, that removes the major inequities in our state -local system that have long been recognized and condemned.

Judged in its entirety -- and this is the only fair way in which it can be judged -- you have given Iowa a tax program that is as fair to all citizens as could be devised and is properly responsive to economic change. In other words, the revenues and aids will increase or diminish as the economy of the state changes so that new taxes and major alterations in the tax system won't be required at each successive session of the Legislature.

An integral part of the tax revision package was the enactment of a sound assessment bill which provides for the state-wide equalization of property assessments at 27 per cent of fair market value.

Ranking alongside of tax revision as a major bipartisan objective of this session was State Government Reorganization.

The foundation of the proposed comprehensive reorganization of the state government was laid out in a number of constitutional amendments passed by the 1965 Assembly. As you know, I was disappointed in the rejection of some of these amendments -- notably the four-year term for Governor and Lieutenant Governor, with the two running as a team, and the amendment calling for appointment of state officials by the chief executive.

However, I am deeply gratified that you adopted Annual Sessions, Permanent Reapportionment, Item Veto, and then added a new amendment I strongly supported for Subdistricting.

In connection with constitutional amendments, certainly one of the most important and historic actions you took was to give legislative approval for the second time to constitutional home rule for Iowa's cities and towns. With the exception of reforms in legislative apportionment, no constitutional change has been more urgently needed and widely supported than Municipal Home Rule.

The reorganization of the more than 120 sprawling administrative agencies of state government into some 13 modern departments under single directors, as proposed in the Public Administration Service report, was a large undertaking that might well have occupied an entire legislative session itself. Although the major part of the re-structuring awaits future legislative sessions, you deserve great credit for taking two major, pioneering steps by creating a Department of Revenue to replace the Tax Commission and by combining the Department of Social Welfare, the Board of Control and other kindred agencies into a new Department of Social Services.

I have frequently said that the keystone of any sound plan of government reorganization must be the establishment of an effective state civil service system in Iowa. As you may recall, in my inaugural message, I stated that if only one single measure could be enacted by the Sixty-second General Assembly, I would urge you to make it Civil Service.

The mass political hirings and firings that have been practiced through the years by both parties in the state have shamed all of us and have been a severe deterrent to good government in Iowa. In the face of political realities, this situation would never change until the system was changed. Now this had been done, and I am deeply grateful to the members of both parties who put the good of the state before partisan considerations and arrived at agreement on this long-needed legislation.

No service of modern government is more important than Education. It is closely linked to economic development; it is essential to the good life we all seek.

Besides voting a historic \$141 million in school aid in this session, you provided generous support for higher education, including much needed capital improvements; you voted to establish a state-wide educational TV system -- in itself, a milestone; you legislated and appropriated wisely for vocational-technical schools and community colleges; and you retained our state scholarship program, although somewhat short of the level I had hoped for. All in all, it was a constructive session for education.

In this period of explosive social tensions, we all recognize the priority need for upgrading the standards and public prestige of our police and other law enforcement officials. You can't have respect for the law unless you have respect for those who enforce the law. The establishment of a State Law Enforcement Academy is a major step in the right direction.

At the same time, by enacting the state's first Fair Housing Legislation and by providing increased support for the State Civil Rights Commission, you moved constructively toward eliminating some of the major causes of social unrest. I commend you for these particularly outstanding contributions to the public well-being.

The addition of 10 men to the Highway Patrol complement will be helpful in our unceasing labors to control the slaughter on our highways, although I deeply believe the increase of 60 officers I had recommended is more realistic.

One of the landmark achievements of the session was the enactment of an Interstate Toll Bridge Authority to permit the Highway Commission to issue bonds to build toll bridges over the Mississippi and Missouri Rivers -- an enactment absolutely imperative to the state's continuing economic growth and development.

You enacted a wide range of other constructive measures for the good of the state which I had recommended and for which I am deeply appreciative.

You broke new ground in widely divergent areas by providing state disaster aid for Iowa's communities for the first time in history in the form of interest-free loans, by adopting guidelines on conflicts of interest for state officials, and by supporting a State Arts Council.

You passed a Humane Slaughter Act and you enacted a number of measures desired by agriculture, including the appropriating of a half million dollars to indemnify farmers for the loss of hogs in the state's cholera eradication program.

You prudently removed the interest ceiling on invested public funds, an action that will enable the state to strengthen its economy by investing its sinking funds and temporarily idle operating funds in Iowa banks without loss of interest to the taxpayers.

You furthered Iowa's industrial development by updating and improving our Industrial Revenue Bond Law.

You provided additional funds for the acquisition of lands for state parks and outdoor recreational facilities, and you met an urgent need for additional state office space.

You passed the enabling legislation for Medicaid; you increased the retirement benefits for public employees of state and local governments; and you wisely initiated a constitutional change to modify the present unfair residence requirements for voting in Iowa.

There was one enactment by this session that affects relatively few people, but which I believe will make Iowa stand tall and proud in the long reach of history. I refer to the law you passed that permits the Old Order Amish to continue to educate their children in their own schools.

I always recognized the logic and the integrity of those who sincerely believed that such an exception should not be made. But sometimes it is wiser to be tolerant of non-uniformity and to bend laws, rather than people.

I am sure that no session of the Legislature has ever turned out perfectly in the view of the man who sits in the Governor's chair. I would be less than honest if I did not admit to certain disappointments, some of which I have already mentioned. But the work of a session must be judged in its entirety, not by a few selected issues.

The failure to set a minimum wage law, even at a very low wage level, was a matter of regret and disappointment to me. I was also disappointed that the legal voting age was not lowered to 18. I commend you for putting some legislation on the books, even though it was considerably watered down, to protect the young children of migrant workers from being compelled to work in the fields at the expense of their education and possibly their health.

On the whole, you did well by the recommendations I submitted to you, and in fairness I want to write this into the record. Moreover, there were compensations in some areas in which you either did more on behalf of causes I support than I had hoped for or did not enact measures against causes for which I stand.

As you know, I have long supported the proposition of allowing private school children to ride on public school buses. While I was disappointed that the bus bill was not enacted, I was gratified that the measure to restore capital punishment in Iowa was not enacted.

Naturally, some of the changes you made in my budget recommendations were not to my liking. But I fully respect the prerogatives of the Legislature in this area and did not expect my recommended budget to emerge unscathed.

What I asked was that you meet the vital needs of state government operations to assure our continuing progress and development. You have done this and I salute you for it.

In our lifetimes, we have seen the social and economic pattern of Iowa change greatly with increasing urbanization and industrialization, and with the continuing exodus of people from rural to urban areas. I believe our Legislatures need to be more sensitive and responsive to these changes than they have sometimes been.

One of the areas in which the Sixty-second General Assembly might have strengthened its record was in its response to the legislative needs of city and town governments and urban citizens. In justice to members of this particular session, let me say that this comment applies to Iowa legislatures generally and not exclusively to this one. Traditionally, our legislatures have fallen short of giving city and town legislation the consideration it should have in this urbanized era.

There are nearly 950 incorporated communities in the state; they are afflicted with severe revenue problems and with property taxes that have reached the level of "all the traffic will bear," as is the case with rural taxpayers.

In the absence of home rule, city and town governments are powerless to act without specific legislative authorization. As a consequence, they move into each session with a multiplicity of requests for needed legislation. To an overworked Legislature, these problems of municipalities seem endless and lacking in political magnetism. The tendency, therefore, is to relegate these matters to a position of secondary importance, and even, at times, to take a punitive attitude toward some reasonable city and town requests.

This is unfortunate because these municipal measures are important, often critically important, to the communities where more than three-quarters of our people now live. They are, therefore, important to the present and future well-being of all Iowa.

In this session, the cities and towns asked the Legislature for a modest increase in the urban share of the Road Use Tax Fund. The municipalities need additional money for streets, deserve it and should have received it.

The allocation of some 3.2 million dollars in additional money to cities and towns from liquor receipts was helpful. But the dimension of urban needs had not yet been placed in proper focus.

Clearly, the long-range interests of the state lie in fairly meeting the needs of both rural and urban Iowa -- and this in realistic terms of the present and future and not the past.

In my adjournment message to the Sixty-first General Assembly, I referred to four main recommendations that had been made by national public interest studies on improving what has been referred to as "our horse and buggy state legislatures."

These recommendations were: (1) Annual sessions to cope with the vastly increasing workloads of modern states; (2) Increased pay for legislators; (3) More adequate office space and facilities for legislators and staff; and (4) Improved legislative research facilities.

I pointed out that the 1965 Legislature took some action relation to all four of these points. This session should be given credit also for taking action to improve the Legislature along each of the four lines suggested.

In my view, the fourth recommendation, relating to improved legislative research facilities, has yet to be given the consideration its importance deserves, and should therefore be high on the priority list of the next Assembly.

It has been a long and difficult session and I know that many of you have served through it at considerable personal sacrifice and inconvenience. We have had our disagreements as well as our agreements, and at times there have been blunt words between us. But I assure you that I bear only good will toward each and every one of you who served so faithfully in this Sixty-second General Assembly.

Again, I want to express my deep appreciation for the constructive work you have done and the personal courtesies you have accorded me. I wish you health and happiness and hope that your interest in Iowa's public affairs and her future development will continue, undiminished, through the years ahead.

Very truly yours,
HAROLD E. HUGHES
Governor

STATEMENT BY THE SPEAKER

The Sixty-second General Assembly has seen a revitalization of the legislative committee system in the House of Representatives.

Thorough study of bills in the standing committees facilitated discussion of the bills by the full House, thereby permitting consideration and passage of much more legislation than would have been possible if bills had been placed on the calendar without adequate committee review.

The major increase in state support of education would not have been possible without the study throughout the session by the committees on Tax Revision, Schools, Higher Education, and Appropriations. These committees involved over 90 of the 124 House members.

Significant steps toward reorganization of the Executive branch were achieved through passage of a Merit system of public employment and establishment of Departments of Social Services and Revenue. Successful administration of these three Acts will permit consideration of further reorganization by the Sixty-third and succeeding General Assemblies.

Legislative re-districting progressed further toward compliance with U. S. Supreme Court requirements.

House Committees initiated the major Acts for Control of Air Pollution, Medicare and the Law Enforcement training academy.

The actions of this General Assembly in many areas that concern the people of Iowa represent only the beginning: all citizens must be acquainted with these actions and encouraged to participate in the decisions required for the continued growth and development of Iowa. Every member of this House must continue to participate at all levels of government if our form of government is to survive.

By virtue of House Concurrent Resolution 27, duly adopted, and the hour of four thirty o'clock a.m., July 2, 1967, having arrived, the Speaker of the House declared the House of Representatives of the Sixty-second General Assembly adjourned sine die.

GOVERNOR'S VETO MESSAGE ON HOUSE FILE

April 17, 1967

The Honorable Maurice E. Baringer
Speaker of the House of Representatives
Sixty-second General Assembly
State Capitol
Des Moines, Iowa

Honorable Members of the House of Representatives:

House File 72, an act relating to open hunting seasons, is hereby disapproved and returned to the House of Representatives in accordance with Article III, Section 16, Constitution of the State of Iowa.

This legislation apparently was intended to provide our State Conservation Officers with an additional enforcement tool to prevent the illegal killing of deer in Iowa. While I am in favor of effective measures to curtail the illegal shooting of our deer population, I do not feel that this bill would accomplish its intended purpose without undesirable side effects that would outweigh its merits.

The use of high-powered rifles in taking deer is illegal at all times in Iowa. There have unquestionably been a number of complaints of hunters illegally shooting deer with such weapons; but it is difficult to obtain convictions unless the hunter is apprehended in the act of killing or shooting a deer illegally. Conservation officers say that when they check hunters using high-powered rifles in the field during the deer season, the hunters usually say they are hunting fox or small game, not deer. Therefore, it is understandable that enforcement-minded persons might see merit in a bill, such as House File 72, which makes it illegal for a hunter to "have in his possession in the field during the gun season for hunting deer any shotgun with slugs or with shot larger than size number two (2), or any rifle other than a twenty-two (22) rimfire caliber, without also having a license or permit for such deer-hunting season."

However, there are three undesirable aspects of this legislation which I feel render it unacceptable. First, it would have the effect of prohibiting anyone from carrying a high-powered rifle in Iowa virtually anywhere during the deer-hunting season. Second, it would not prevent violaters from killing deer with small shot or with smaller-bore weapons of high muzzle velocity. Third, it does not take into account that some waterfowl and other hunting seasons overlap the deer season, and hunters who are legally taking other types of wildlife with weapons prohibited under House File 72 could innocently be penalized.

Therefore, I feel it would be inadvisable to permit this measure to become law.

Very truly yours,
HAROLD E. HUGHES

GOVERNOR'S VETO MESSAGE ON SENATE FILE

May 5, 1967

The Honorable Robert D. Fulton
Lieutenant Governor
President of the Senate
Sixty-second General Assembly
State Capitol

Honorable Members of the Senate:

Senate File 40, the bill to require a colored photograph on each Iowa driver's license, is hereby disapproved and returned to the Senate in accordance with Article III, Section 16, Constitution of the State of Iowa.

The decision to disapprove this measure was reached only after careful weighing of the potential usefulness of the photo licenses and thorough research into the cost and administrative problems of providing them.

Prior to the time the bill reached my desk, I made known my misgivings about it so the disapproval should come as a surprise to no one.

In the first place, no provision was made by the General Assembly to defray the cost of carrying out this enactment. Presumably, therefore, the funds would have to come out of the operating budget of the Public Safety Department.

Cost estimates vary, but there is no doubt whatsoever that the cost of establishing the photo license system would be substantial.

The most informed estimate I have been able to obtain indicates that it would cost about \$1,100,000 for the first two-year period, not counting the cost of added space that would be required at driver's license examining stations.

At a time when the needs of the state for vital services are compelling and our citizens are pleading for tax relief, I simply cannot justify this expenditure out of funds urgently needed by the Public Safety program for additional Highway Patrol officers and other essential traffic safety requirements.

Proponents of this measure have stated that the photo licenses would cut down the passing of bad checks, would help prevent liquor sales to minors, and would provide more positive identification for law enforcement officers.

But professional law enforcement people with whom I have consulted consider these advantages to be limited. They state that the majority of bad checks are passed by professional criminals from out of the state who carry forged documents anyway. A laminated photo on a driver's license can still be "doctored up" and relaminated in the event that a minor wanted to purchase alcoholic beverages. Moreover, some protection is already provided by the fact that any driver who is not of age has "under 21" marked across his driver's license.

Public safety officials see some advantage to the photo licenses in law enforcement and prevention. Some of them would favor the establishment of the system if it were self-supporting. Under Senate File 40, it would not be. Since that is the case, the conclusion is that there are more vital needs for funds in public safety than for this purpose.

I do not for a moment question the high purpose of the General Assembly in enacting Senate File 40. But for the reasons stated above, I could not in good conscience approve the bill.

Very sincerely,
HAROLD E. HUGHES
