# JOURNAL OF THE SENATE

---

FIRST CALENDAR DAY  
FIRST SESSION DAY

Senate Chamber  
Des Moines, Iowa, Monday, January 13, 2003

Pursuant to chapter two (2), sections two point one (2.1) and two point three (2.3), Code of Iowa, the 2003 Regular Session of the Eightieth General Assembly convened at 10:02 a.m. The Senate was called to order by President Mary Kramer.

Prayer was offered by the Reverend Ken Arendson, associate pastor of the Westminster Presbyterian Church in Des Moines, Iowa. He was the guest of President Kramer.

## OPENING REMARKS BY THE PRESIDENT OF THE SENATE

President Kramer addressed the Senate with the following remarks:

Good morning and welcome to this beautiful chamber. It has been restored to historic grandeur and at the same time prepared to be functional for today's deliberations. And for that we owe many people a real debt of gratitude. Specifically, the architects who researched what could be—and with a wonderfully innovative spirit combined history with preparation for the future. The craftsman—what skill it took for them to reclaim and refurbish the wood, the marble, the windows, the seating, the desks—all beautifully and lovingly restored. The Senate staff, who have continued to function among all the construction, and who have assisted in many decisions that will make our lives easier but preserve the deliberative process. And to our predecessors whose vision of preservation is now bearing fruit. Thank you all.

Today, as we complete the swearing-in process, we complete what is considered a miracle in many other parts of the world. Orderly elections. The people have spoken and they have given us an awesome responsibility. To represent our constituency and all of Iowa. And if this campaign and election cycle did nothing else, it created a consensus in Iowa—we must grow our economy. Status quo is an unacceptable vision for the future. A window of opportunity has been given to us. We must not squander it. The stakes are too high.

So let's not waste our time debating whether education or economic growth is our top priority. Instead, we will continue to invest in and to improve our education systems, but we work equally as hard to create "destinations", that is, jobs so there is a vision for the desired future for our young people in Iowa.

We must seek new questions. For instance, the same multiple choice question is raised every time the Medicaid program is discussed. When asked, how will we fix Medicaid?, five multiple choice answers are given—cut benefits, cut eligibility, cut provider payment, all of the above, or none of the above. Because none of these actually solve the problem, none of the above has been the answer. Let's ask a new question. What do the various customers being served by the Medicaid program need? Then we can look for new ways of providing those needs. This will require cooperation and collaboration, not name calling and fingerpointing. In other words, leadership. Harry Truman said, ". . . in periods where there is no leadership, society stands still. Progress occurs when courageous, skillful leaders seize the opportunity to change things for the better." We were elected to lead and we have opportunity to change things for the better.

Iowa has severe economic problems to be sure. But due to some unique structural foresight and some very difficult decision making over the past few years, our problems are not of the magnitude of many other states. We have a unique opportunity, if we are nimble and innovative enough, to create a business platform for growth that will vault us into a leadership position among the states and in the world.

We then have another opportunity—culminating in January 2004—when the caucus system will thrust us into the world limelight for several months. If we have made the changes we need to make, we will have a great story to tell, and the marketing and promotion opportunity provided during that time period can be priceless! The window of opportunity is short. Will we seize these opportunities for leadership?

The words to a song written for the Olympics several years ago say—"give me one moment in time to be more than I thought I could be—when all of my dreams are a heartbeat away and the answers are all up to me." We have been given our one moment in time.

Nelson Mandela, in his 1994 inaugural, provided these words—about the power and responsibility of each individual in relationship to their higher calling.

"Our deepest fear is not that we are inadequate. Our deepest fear is that we are powerful beyond measure. It is our light, not our darkness, that most frightens us. We ask ourselves, who am I to be brilliant, gorgeous, talented, and fabulous? Actually, who are you not to be? You are a child of God. Your playing small doesn't serve the world. There's nothing enlightening about shrinking so that other people won't feel insecure around you. You were born to make manifest the glory of God that is within us. It's not just in some of us; it's in everyone. And as we let our light shine, we unconsciously give other people permission to do the same. As we are liberated from our own fear, our presence automatically liberates others."

I believe we have a common vision for the desired future of Iowa. It is a vision of a vibrant and growing economy that provides great opportunity and preserves the values that serve us so well.

And so we begin.

## REMARKS BY THE MAJORITY LEADER

Senator Iverson addressed the Senate as follows:

I want to welcome all of you to the 2003 Legislative Session. This year's session will deal with many of the most pressing issues facing our state. One thing that I have learned as a legislator is that if the legislature tries to address all of the challenges facing Iowa, it will accomplish nothing. Therefore, to be successful, the legislature must set specific goals and identify the best way to accomplish those goals.

Three of the goals that I have heard expressed most in the time leading up to the start of the legislative session are (1) creating more wealth for all Iowans, (2) developing a stable financial future for state government, and (3) boosting student achievement in Iowa's classrooms. I think it is important to stress that these are not Republican goals, they are not Democrat goals, they are the goals of all Iowans. The key is how we go about accomplishing these goals.

Let's start with creating more wealth for all Iowans. A lot of Iowans are coming to the realization that we have to change how Iowans pay taxes. Our income, sales, and property tax systems are not set up in a way that promotes growth and creates wealth for all Iowans. We need to look at the things we tax and the things we don't tax, and ask "Does our tax on this activity significantly impact our ability to grow Iowa and create wealth?" We also need to look at those things we don't tax and ask "Why don't we tax these activities—is it because the activity promotes growth and creates wealth?" If the answer to that question is no, then maybe it is time we take the tax off of those things that promote growth and create wealth and instead tax those items that don't grow Iowa or create wealth.

This is a bold concept, especially for those items that we currently don't tax and yet don't provide much economic activity. But if we want to get Iowa growing again, then we must think boldly.

Another key to creating wealth for all Iowans is reinvigorating the Iowa Department of Economic Development. State government can't create jobs, but it can create opportunities for jobs to come to Iowa. Frankly, state government is failing in its efforts to lure good-paying jobs to Iowa—a job that is the responsibility of the Iowa Department of Economic Development. The legislature needs to establish some performance standards for this department, and if these performance measures are not met, then we need to look at another entity, maybe even a private entity, to run our job creation programs in state government.

And if we want to create more good-paying jobs in Iowa, we need to conduct a comprehensive review of how we regulate business in Iowa. Those regulations that are duplicative, outdated, or violate Iowa's commonsense tradition need to be eliminated. In addition to growing the economy, we have to develop a stable financial footing for

the future of state government. That starts by returning fiscal responsibility and common sense to the state budget process. Republicans are committed to working with Democrats to balance Iowa's budget, but we are not willing to violate our commitment to sound budgeting practices in order to get there. Balancing the budget requires tough choices and it means that no sacred cow can be ignored—just as we are doing with our tax code. We have to take a long look at our state labor costs and what steps can be taken to get these costs under control.

The Program Elimination Commission has generated a great deal of discussion regarding what areas of state government can be downsized or eliminated. This group of Iowans, which included Senators Mike Connolly and Neal Schuerer, put in a lot of thought and work into this very important issue, and we should give their report very serious consideration. Two of the most important areas that the commission identified were sentencing reforms and Medicaid cost-containment measures.

And, finally, this session will see us continue to focus on boosting student achievement in the classroom. There will be strong efforts made to eliminate inequities in funding provided to our schools, and there will be efforts to enhance the accountability of our local schools.

This may sound like a long list of goals and the task may seem daunting right now, but I know we are up to the task. I look forward to working with each and every one of you to make this a very productive session for the people of Iowa.

## REMARKS BY THE MINORITY LEADER

Senator Gronstal addressed the Senate as follows:

Thank you, Madam President.

Madam President and ladies and gentlemen of the Senate.

First of all, I'd like to welcome the new members, those of you that moved from the lower chamber to the upper chamber, those who won reelection last fall on the campaign trail, and the holdover senators who were lucky enough to have NOT been on the campaign trail last fall.

It is good to see all of you.

For the past two years, we have waded through an unprecedented fiscal crisis, resulting in deep cuts in services that are critical to many Iowa families.

Unfortunately, the past two years were also highlighted by unprecedented partisan bickering and a remarkable lack of bipartisan cooperation.

What I am hoping for this year is a change of heart. And this is not just wishful thinking.

History tells us that we are at our best in the Iowa Legislature when we sit down, resolve our differences, and move ahead with confidence and boldness.

When we are together and bold, the people of Iowa—whether they are Republican or Democrat—are the winners.

When we look back over the past few years, what are we proudest of?

- We can all be proud of the landmark legislation in 1999 that has resulted in smaller class sizes and—after a decade of slipping test scores—we are finally seeing increased student achievement. Iowa’s children and educators deserve our praise and respect for their progress.
- We broke new ground by creating the Senior Living Trust, which will result in more choices and a better quality of life for older Iowans.
- We came together to approve a Clean Water Initiative that is a model for other states hoping to clean up their drinking water with buffer strips and other innovative measures.
- In an effort to keep more of our best and brightest graduates in Iowa, we created dozens of new recreational and cultural opportunities with the Vision Iowa program.
- And let’s not forget last year’s bipartisan legislation that was designed to tackle the problem of factory farms and to ensure that the quality of life in rural Iowa is better protected for our children and grandchildren.

What’s the common theme for all those initiatives: All were broadly bipartisan measures that involved negotiations and discussions with the Governor’s office and legislators of both parties.

With a new Legislature, the election behind us, and improving fiscal news, we must resist the temptation to hunker down or “play it safe.”

Instead, I call on Republicans and Democrats in the Senate and House to work together to take the bold steps necessary this year to ensure that when this session is over, we can go home and honestly say, “I have made Iowa a better place to live!!!”

Democrats stand here today committed to work with you in a bipartisan way to solve this challenge. During the last campaign, Democrats *and* Republicans promised to address several core issues—including better jobs, better schools, ensuring public safety.

Now it is time for us to sit down and work together to make sure we fulfill ALL our common promises to the people of Iowa.

What Iowans want and need now is for us to solve problems, to be bold, and to make Iowa an even better place to live, work, and raise a family.

So, let’s get to work—together.

Thank you, Madam President.

Thank you, Madam President. Thank you, Mr. Speaker, members of the General Assembly and our Supreme Court, distinguished guests, and my fellow Iowans.

We are blessed, in troubled times and in a troubled world, to live in a special place. A special place of shared values—a place where we celebrate family and community, where we cherish learning and good health, value hard work and self-reliance, and love our land, our air and our water. To remain that special place, we must nurture hope and opportunity. For if we remain content with the Iowa of today, we will surely compromise the Iowa of tomorrow.

With our strong values, no Iowan should be satisfied if bright Iowans leave believing there is no meaningful opportunity here, if Iowans can't find or afford healthcare services, or if Iowans are prevented from enjoying the outdoors because our rivers and streams are polluted. Sadly, this is happening in our state today.

But my fellow Iowans, we should and we must do better. Iowans must respond to the challenge by embracing and directing change. I am confident we are up to the challenge, but state government should not approach this challenge alone.

The primary responsibility for effecting change will rightfully be with the private and nonprofit sectors. State government's role is to act as a catalyst for change and remove barriers to progress. To fulfill that responsibility, we must act now and we must act boldly.

The state budget complicates our task. The work begun two years ago to align revenues with expenditures must continue. Our law requires a balanced budget and we will have a balanced budget. But while complicated, the task is not impossible.

I want to acknowledge the hard work of the previous legislature. Tough unpopular choices had to be made, but those choices create options today that most states do not enjoy. Few states enjoyed surpluses last year or will this year. Fewer still were able to reduce the size of government while increasing the commitment to K-12, expanding access to healthcare for children and seniors, and starting a new venture capital fund. These achievements, and many others, share more than being accomplished during tough times; they also share, more importantly, having been accomplished in a bipartisan effort.

Let me identify the four cornerstones to future progress that will preserve, nurture, and expand hope and opportunity: a transformed Iowa economy, continuous improvement to education, expanded access to healthcare services and other community services, and renewed commitment to our environment.

The economy of Iowa, grounded in the production of ever-increasing volumes of low-priced ag commodities and the creation of well-intended but still lower-paying manufacturing and service sector jobs, no longer adequately supports our values; nor will it expand hope and opportunity for the future.

For the benefit of ourselves and future generations of Iowans, we must transform our economy to one rooted in the development and growth of high-priced, value-added ag ingredients to be used to feed, fuel, and heal, and in the creation of wealth through high-paying jobs held by a highly educated Iowa work force.

This new Iowa economy will preserve and enhance our values, better support our families and communities, and allow for continued investment in quality of life.

In the Iowa economy of today, less than 30 percent of our work force has any college experience. Iowans who learn more, earn more. Our goal in the Iowa economy of tomorrow—a high tech, bio-based economy—should be to double the number of employed Iowans with college experience. Immediate progress toward this goal should be the standard by which our work here is judged.

Now, to reach that ambitious goal requires a new, focused effort on economic development—one that is key to life sciences, value-added agriculture, advanced manufacturing, insurance, and other information solutions. Vision Iowa, and its success, taught us the power of state resources leveraging private and more public investment. We must apply that important lesson to economic development.

A companion fund, the Iowa Values Fund, should be created and dedicated to partnering with private investment to transform our economy. Administered and managed as a public/private partnership, the fund's investments should promote regional economic development so no part of Iowa is left behind. The fund should work more closely with the Regents universities, community colleges, and independent colleges to double the number of college experienced workers in the work force. Over the next five years, we should commit \$500 million to this fund. It is that important.

The initial investment from the Iowa Values Fund should be dedicated to making Iowa the life sciences leader in protein development and production. Developing the necessary life sciences infrastructure with an appropriate regulatory structure should be a top economic development priority of the state, allowing us to reach a goal of starting 100 new life sciences companies in Iowa in the next five years.

Initial resources from the fund should also spur the development of more renewable fuel and energy of all kinds. The benefits to our economy and our environment from ethanol and biodiesel fuel are well known. Similar benefits will operate from an expansion of renewable energy production. Today, Iowa annually produces 200 megawatts of electricity from renewable energy sources—wind, solar, and biomass. By the end of the decade, our goal should be to annually produce a minimum of 1,000 megawatts committed to the goal of making Iowa a net exporter of energy.

Barriers to a new Iowa economy must also be removed. Regulatory approval for new business and expansion needs to be timely, for progress delayed is progress denied. A complex income tax system with loopholes places Iowa in a noncompetitive position. Simplifying the system and closing loopholes will remove a barrier to progress. No Iowan—no Iowan should have to use a form larger than a postcard to report state income and pay state taxes.

At the same time, the property tax system pays for services not related to property ownership; extends credits, exemptions, and benefits in a haphazard fashion; encourages inefficiencies in government; and discriminates among and between classes of property owners. Members of the General Assembly, the time has come. Sunset the system that doesn't work, and replace it with one that does. Remove the barrier.

Now, as our investments result in a new economy, our values demand that we not forget those struggling in the old economy. Today in our state, there are over 100,000 Iowans working at or near a minimum wage. Many support families. Most qualify for public assistance. All work hard. Let us honor their work, and all work, by raising the minimum wage.

Each generation of Iowans carries a special responsibility to support the education of all of our children. The members of the last legislature understood that value in supporting change and continued investment in Iowa's schools even in the face of tough economic times. Their commitment to lower class sizes, reading initiatives, and improving teacher quality is already paying positive results in improved test scores and better professional development.

We cannot and should not abandon those efforts—but more is needed to keep faith with our values and maximize hope and opportunity.

A transformed Iowa economy requires continuous improvement in education.

If we are to double the number of college experienced workers in the work force, more children will have to attend college. To achieve success in school, children must be ready to learn before they enter school. Bold goals precede and encourage bold action. Let us work together to challenge ourselves to create an Iowa where virtually all (over 90 percent) of our children have access to quality preschool and where virtually all (at least 90 percent) of our children complete their formal education with at least two years college experience.

I need not remind the General Assembly that achievement gaps and dropouts carry a heavy price for failure. Just a generation ago, the thought of all-day kindergarten for all of our children seemed an impossible dream. Today, over 90 percent of our children have access to all-day kindergarten. Our 90/90 goal embodies our values. This is a goal that can be reached. The goal must be reached. The goal will be reached.

The creation of the Iowa Learns Council with representatives from all levels of education and statewide leaders will help to develop strategies and policy recommendations for accomplishing the 90/90 goal.

The goal needs resources. As investments from the Iowa Values Fund are made and opportunities are expanded and benefits are realized, a portion of new revenues generated from these investments should be dedicated to achieving the 90/90 goal. In

the meantime, college tuitions continue to go up and some students may be discouraged from attending. That is why this legislature should restore funding to the important work-study program to empower students to earn their way through college.

Barriers to reaching our 90/90 goal must also be removed. Today, a disparity exists in educational opportunity in our state.

Very small school districts with high schools of less than 100 students find it increasingly difficult to provide the range of opportunities necessary for success. Now, this barrier can be removed through collaboration or consolidation. The creation of a Virtual Academy allowing access to students to online courses and Regional Academies enabling schools to combine their course opportunities will help reduce the disparity. For those districts where consolidation provides the only answer, we should provide financial incentives to encourage school consolidation.

Now some believe that a financial disparity in education exists. For more than a generation, based on a study of school finances, Iowans operated under the belief that the school funding formula promoted equity. Much has changed since that study—and the times call for a new study of school finances. If inequities exist, they must be addressed. Our values require it. Hope and opportunity will depend on it.

Iowans have a right to expect quality healthcare. We've worked hard to extend that right to all of our children. Today, we protect almost 95 percent of our youngsters by providing access to healthcare through Medicaid, HAWK-I, our children's health insurance program, or other private insurance. We take pride in knowing almost 90 percent of adults are also covered.

However, access to quality healthcare, even in Iowa, remains threatened. An unfair Medicare reimbursement system, rising costs of prescription drugs, and the exploding costs of Medicaid all will test our commitment to the value of quality healthcare.

Let me be clear. We will fight whenever, wherever, and for as long as it takes for a fair Medicare reimbursement system in this state.

We will negotiate whenever, wherever, and for as long as it takes until Iowa seniors have fair drug prices.

We will negotiate whenever, wherever, and for as long as it takes for strategies to control Medicaid costs without limiting access to quality healthcare. I want to thank Senator Kramer, in particular, for her efforts in these areas and pledge to work with the President of the Senate and the General Assembly to maintain quality healthcare.

To remain true to our values and to extend hope and opportunity to all, we must protect those vulnerable Iowans who cannot protect themselves. Thousands suffering from mental illness—vulnerable Iowans—do not have access to the treatment they need. The fact is that one out of every four Iowa families has family members touched by mental illness. Barriers exist to the quality care they need.

Let us stop the needless suffering. Iowa should lead the nation with the highest percentage of residents with mental health and substance abuse coverage. Let us make the enactment of mental health parity a landmark for which this General Assembly will be remembered and celebrated for years to come.

But people with mental illness, mental retardation, or other disabilities need more than access to quality medical care, they need access to basic community resources that most of us take for granted—like housing, transportation and job opportunities—so they, too, can participate in the American dream.

This goal has been a personal passion for Lt. Governor Sally Pederson. That is why I have asked her to lead the effort to transform our system of services to respond more effectively to the needs of those with disabilities.

Changes in the system will be directed by a commission of stakeholders created through bipartisan legislation passed last year. The Lt. Governor will continue to work with the commission and Republican and Democratic legislators to create a system that supports self-determination, self-sufficiency, and independence.

It is our goal over the next four years to substantially increase residential housing and workplace opportunities through public/private partnerships and leveraging funds in new and innovative ways. I promise you this—we will make the largest investment in housing for people with disabilities in Iowa history.

And we will ask you to give the Department of Inspections and Appeals the authority to regulate adult day care facilities for dependent adults and seniors, so that families can feel secure about the quality of care their loved one is receiving.

In a special land where stewardship is a value and virtue, knowing that we have over 150 rivers and streams, a number likely to grow, impaired by pollution should be a call to action to all of us. A new Iowa economy should support resources necessary to clean up our rivers and streams. By 2010, there should be no—I repeat no impaired waters list in Iowa. By that year, Iowans should be free to swim, fish, or use this great natural resource as God intended.

Now to those who doubt such a goal is obtainable, I ask you to stand aside. Iowans working together to achieve a common goal will succeed, but to succeed there must be consensus. One hundred years ago, Theodore Roosevelt brought interested parties together in a summit dedicated to conservation. The time is right for a statewide summit on water quality to eliminate the impaired waters list. So today I ask the Department of Natural Resources, the Iowa Farm Bureau, the Association of Business and Industry, the Iowa Environmental Council, and other groups each to designate a representative to work with me and representatives of the General Assembly, cities, and counties to plan and hold such a summit to develop a conservation plan to restore our waters.

Earlier I mentioned the role of the nonprofit sector to effect change. The vital role of nonprofit organizations in our state must be clearly understood and actively supported. Nonprofit organizations are often small and may need technical assistance and help. All of us need to help them. I asked Willard “Sandy” Boyd, President Emeritus of the University of Iowa, Director of the Iowa Nonprofit Resource Center, and a great Iowan, to chair a task force to be appointed for this purpose, to lay out strategies how we can strengthen nonprofits in our state.

My time with you is limited, so I cannot share thoughts about other important aspects of Iowa life, from public safety to support for arts and culture. Please know these are important in our effort to help build a better Iowa.

All will be needed in this effort.

Great values, great needs, great goals mandate from all of us, inside and outside state government, great action. Many may question if it all can be done.

Theodore Roosevelt said it so well so long ago. "It is not the critic who counts; not the person who points out how strong persons stumbled or where the doer of deeds could have done them better. The credit belongs to the person who is actually in the arena, whose face is marred by dust, and sweat, and blood; who strives valiantly; who errs and comes short again and again; who knows the great enthusiasms, the great devotions, and spends a life in a worthy cause, who at the best, knows in the end the triumph of high achievement and who at the worst, if he or she fails, at least fails while daring greatly, so that their place shall never be with those cold and timid souls who knew neither victory nor defeat."

Ladies and gentlemen of the General Assembly, let that be said of this generation of Iowans who risked embracing change, fought to preserve our values, and nurtured hope and opportunity for all.

God bless you. God bless our great State of Iowa, and the United States of America.

Governor Thomas J. Vilsack was escorted from the House chamber by the committee previously appointed.

Representative Gipp moved that the joint convention be dissolved, which motion prevailed by a voice vote.

The Senate returned to the Senate chamber.

Mr. Speaker, Madam President, Members of the General Assembly, Governor Vilsack, Lieutenant Governor Pederson, distinguished guests, and friends. On behalf of the Iowa Judicial Branch, thank you for the invitation to speak here today. Before I begin, I would like to invite you to join us downstairs in our courtroom for coffee and conversation following my remarks.

I would also like to extend a warm welcome to the new members of the General Assembly, and to acknowledge the newest member of the Iowa Judicial Council, Judge Michael Walsh, Chief Judge of the Third Judicial District, which encompasses most of northwest Iowa. No doubt you will encounter many challenges in your new roles, especially this year. But that's what public service is all about—finding solutions to challenges facing our society.

#### **Dr. Martin Luther King**

It's appropriate to take a moment to acknowledge the birthday of Dr. Martin Luther King, Jr., which is today. Challenges did not deter Dr. King and his followers. They encountered hostile, often violent opposition to their peaceful efforts to end racial segregation and discrimination, and yet they persevered, helping bring the promise of the Constitution to all Americans.

Dr. King once said: "The ultimate measure of man is not where he stands in moments of comfort and convenience, but where he stands at times of challenge and controversy." Although the present challenges we face in Iowa are much different from those Dr. King confronted, his example and words can serve to inspire us as we work through our present difficulties.

We are concerned, as you are, about the state's fiscal problems. I'm here to report that notwithstanding continuing financial hardships and unprecedented cuts in court operations, the Judicial Branch is managing to perform its basic responsibilities. All credit for this belongs to our judges and court staff. We're immensely proud of them.

I will discuss the condition of our day-to-day operations later in my remarks. But first, some encouraging news about progress we've made in the midst of these most trying times.

### **Termination of Parental Rights: Appellate Rules**

Like you, we regard our work with troubled families, especially children, as one of the most important things we do, and we are always searching for new strategies to address their needs. One of our most notable accomplishments this year has been our continuing effort to move children out of foster care and into permanent homes faster by speeding up the process in termination of parental rights cases.

The 1997 federal Adoption and Safe Families Act, and subsequent state action, sought to reduce the amount of time children spend in foster care and to bring permanency to their lives as quickly as possible. Immediately following the adoption of the Act, our trial courts made great strides fulfilling its spirit, but the appellate process, which the Act did not address, continued to be slow in termination of parental rights cases. We sought to correct this.

Last year we adopted new court rules that simplified appellate procedures and cut the time for appeal by more than half for these cases. A process that used to drag on for about 13 months, now takes about four months. That means children can be adopted sooner, or in some cases, families wait less time before they're reunited.

The longer a case continues, the more stress on the families and children involved. Children in these situations routinely need more therapy to cope with the uncertainty of waiting for the process to conclude. Our new rules ease the strain of families and children. As Judge Stephen Clarke so aptly said, "One of the primary goals of the new rules is to let children have a childhood." Our new procedures are helping us do this. The new rules have also helped ease the workload of juvenile judges, social workers, juvenile court officers, court-appointed attorneys, and county attorneys.

Many people deserve credit for this success. The new procedures were the brainchild of our Iowa Court Improvement Project Task Force. The General Assembly and the Governor also deserve praise for your part in this success story. A simple, but important, statutory change that you approved in 2001 helped make the expedited procedures possible. We're grateful for your assistance.

Our new appellate rules are the first of their kind and a model for other states. Now we're ready to expand the rules to child in need of assistance cases, and again, we need your help to do so. We urge you to pass legislation, which we have submitted to you, that would allow us to expedite more of these important cases.

### **[iowacourtsonline.org](http://iowacourtsonline.org)**

Perhaps our most significant advancements in the past few years have come through the use of information technology. The Internet is increasingly becoming the place where government business is conducted. According to a recent study, citizens' use of the Internet to access government services increased in the US from 24% to 43% in 2001.

Last February, we took a giant step by starting [iowacourtsonline](http://iowacourtsonline.org), a service that enables anyone with Internet access to search court records in all counties and the appellate courts. Before this, people had to travel to each clerk of court office to search

for the information. Now it's at their fingertips. A person can search the records by typing in a name or case number. And the basic service, which provides important information such as criminal charges, restitution, child support payments, and criminal sentences, is free. This site has been very popular, attracting 12,000 to 15,000 hits each day.

In September last year, we expanded the service by offering more detailed case information for a monthly subscription fee of \$25. This feature is popular with lawyers, abstractors, insurance companies, and state and local government agencies.

### **E-Pay**

Before long, we'll be adding another feature: e-pay. E-pay will allow people to pay their fines and court costs online. We hope the convenience of paying online will encourage people to pay their fines promptly.

The benefits of our online services are two-fold: they serve as convenient tools for citizens, and they ease the burden on clerks' offices. The time that clerks' offices used to spend retrieving records has been freed up for other priorities.

### **Online Access: Deferred Judgment Records**

Recently, we began a new program that provides direct online access to the state's deferred judgment docket for authorized users such as judges, clerks, and county attorneys. This program places confidential deferred judgment information into the hands of county attorneys and judges faster. With your help we can improve the process even more.

We recommend that you pass legislation authorizing access to deferred judgment records by corrections officers. These officers need this information to complete sentencing reports. Online access to the records would facilitate their work. We have submitted a bill to you to accomplish this.

### **Technology Funds**

Clearly, the public is enjoying the fruits of our advances in technology. The online services I mentioned were accomplished through planning, hard work, and the dedication of resources. Many years ago, you astutely recognized that innovations of this magnitude would require a reliable and continuous funding stream, and you wisely earmarked funds for court technology. Now your foresight is paying off. Despite our present financial crisis, we're harnessing information technology to bring court services to the people, and we can do more.

We have plans to revolutionize the way in which we gather, store, and retrieve court records through electronic filing and electronic data management. The demand for this type of service is growing. But it will take a substantial investment of resources to put this technology in place. We recommend you take two steps to ensure further advancements in public service through technology: (1) transfer our on-going technology operating budget from earmarked funds to the general fund; and (2) raise the cap on the Enhanced Court Collections Fund from \$4 million to \$6 million.

### **Court Generated Revenue**

The Enhanced Court Collections Fund is derived from court-generated revenue from fines and fees that exceed the projections of the Revenue Estimating Conference. We view the collection of fines and fees as an integral part of enforcing court orders.

The diligent efforts of our judges and staff produced a 6% increase in court-generated revenue last fiscal year. This was certainly a bright note in an otherwise gloomy revenue picture for the state.

### **New Judicial Branch Building**

I would be remiss not to mention and thank you for our most visible symbol of progress this year—the new Judicial Branch Building. Although the project has taken longer than originally anticipated, we are extremely pleased with the results, and we hope you are too. We are expecting to move into our new quarters later this spring, and that will free up most of our Capitol space for the General Assembly's use.

I must admit that, when legislative leaders approached the Court in 1998 about moving out of the Capitol, we were reluctant to even talk about the idea. After all, our three branches of government have worked together in the same building for over a century. On the other hand, the new building will allow us to house all of our offices together in one facility, and its strong, identifiable civic presence reflects the independent status of the judicial branch of government.

Not only is the building capable of meeting present day needs, it has been designed to meet future demands. It was planned to handle the anticipated growth in our workload; it is wired for extensive use of electronic technology, including audio and video communications; and it was built to last as long as the Capitol. In short, it will serve the public well, and it is a solid investment.

We're pleased to report that the building has already received two honors. The American Institute of Architects recently recognized our architects, DLR Group and Kaplan/McLaughlin/Diaz, for the building's design. In addition, the American Council of Engineering awarded its 2003 Engineering Excellence Award to Pulley & Associates for the building's mechanical, electrical, and lighting systems.

As Sir Winston Churchill wisely recognized in 1943 when debating the reconstruction of the House of Commons after it had been destroyed in the blitz: "We shape our buildings, and afterwards, our buildings shape us." Iowa's new Judicial Branch Building, designed with that principle in mind, will support the mission of the Judicial Branch for years to come.

### **Judicial Branch Mission**

Which brings me back to the primary reason we are gathered here today, to take stock of the mission of the Judicial Branch. For the benefit of the new members of the General Assembly, I would like to briefly review our mission, which is administering justice under the law equally to all people by providing independent and accessible forums for the fair and prompt resolution of disputes.

We rely on our judges and staff, who are committed to excellence, to fulfill this critical mission. Judges serve the public by using their legal skills and knowledge to impartially interpret and apply the laws you pass. Their role is crucial, but their ability to perform this role effectively in today's complicated and litigious society requires the assistance of support staff. A team of indispensable specialists—clerks of court, court attendants, court reporters, juvenile court officers, secretaries, administrators, computer programmers, law clerks, and others—work closely with our judges, helping them coordinate the disposition of hundreds of thousands of cases from beginning to end.

Iowans have many reasons to be proud of their top-rate court system. According to a national survey, Iowa is rated as one of the top five states for creating a fair and reasonable litigation environment. The survey, which was released early last year, ranked Iowa high in treatment of class actions, timeliness of summary judgments and dismissals, judges' impartiality, and judges' competence.

The fine quality of Iowa's judicial system is, in part, a result of your backing. The General Assembly and the Governor have a history of recognizing the importance of fair compensation for judges and court staff.

### **Budget Cuts and Making Ends Meet**

Our achievements over the past year, though important, are only part of the whole picture, however. We must not lose sight of the fact that these are the most difficult times we've ever faced. The cost-cutting measures we put in place last year to help address the state's fiscal problems have taken a heavy toll on every facet of court operations.

Last year, after unprecedented staff reductions, about sixty clerk of court offices cut back their public hours so that they could focus on processing court files and data entry without interruption. Many offices are sharing staff with each other to cover for vacation and sick leave, or sometimes to help with training.

Presently, we have 14 clerks who are managing more than one office. While sharing managers works better in some offices than in others, we think it is a sound policy that would help us reallocate some resources. We recommend a statutory change that would allow us to continue this practice on a permanent basis, while maintaining a clerks' office in each county.

Our judges and employees are doing all they can to make ends meet. And many people are pitching in whenever and however they can. Here are a few more examples.

Court reporters such as Brook Davis, Mark Sturgeon, and Kathy Gray are helping clerks with jury management duties, updating law libraries, and purging files. Other court reporters such as Deb Bergman, Jodi Krueger, and Cheryl Smith are performing case scheduling and court attendant duties.

When budget cuts gutted funding for juvenile services, resourceful juvenile court officers and others found ways to continue services at minimal cost to the state. For example, Juvenile Court Officers Annette Peterson and Patty Redmond started a skill-building program for troubled young people, with the support of local community organizations. The program offers classes on topics such as teen pregnancy, anger management, and victim empathy. Annette and Patty work long hours to attend the life-skills classes, not because they must, but because they care.

In the past, the state's juvenile restitution fund paid wages to juveniles doing community service work so that they would have money to pay their victim restitution obligations. After the funds were cut, a number of juvenile court offices, and state and local agencies, worked with Peggy Sullivan, our Director of Finance and Personnel, to keep the restitution program alive through a patchwork of other funding sources.

On-going education and training for judges and staff are an essential investment for a first-rate court system. Regrettably, for the time being, all of our state-funded

education programs are on hold. But we're always searching for alternative resources to fill the gap, and we've had some success with that.

Our Court Improvement Program has provided some federal funds for several juvenile law conferences. Also, thanks to the efforts of Jerry Beatty, our Director of Education, federal traffic safety funds are available to cover the cost of a judges' program. In addition, Jennifer Juhler, our Domestic Abuse Coordinator, with the help of a substantial federal grant, has developed a web-based training program for judicial magistrates. This innovative program will serve as a model for future efforts.

Unquestionably, we have a duty to the taxpayers to carefully manage the resources you provide us, and to that end, we are doing everything in our power to operate as efficiently as possible and to channel available resources to meet our most pressing needs. Certainly, we want to be part of the solution, but the quick fixes and band-aids will not sustain the courts indefinitely. We need to implement lasting solutions, and we must do so now. Otherwise we will be unable to fulfill our mission to the people.

### **Searching for Solutions**

The Judicial Branch must take full advantage of the benefits of state funding—system uniformity, economies of scale, and shifting resources to areas where they are most needed. Along that line, we have embarked on an ambitious effort to examine every component of our trial court operations to identify best practices, streamline procedures, develop or update staffing formulas, and achieve uniformity throughout the state, as much as possible.

The Supreme Court has established four committees to spearhead this effort. The committees are composed of court employees, judges, and attorneys—the people who are actually doing the work. There are two separate studies underway involving the operations of clerk of court offices: one to update the clerks' staffing formula, and another to identify management strategies and best business practices aimed at improving the operation of the clerks' offices within the current statutory framework and funding levels. Another committee is studying similar issues concerning the operation of our juvenile court offices. Shortly, a fourth committee will study the operation of district court administration. We look forward to receiving their recommendations for efficiencies and improvements.

### **Legislative Solutions: Streamlining the Courts**

Although the judicial branch is an independent and separate branch of government, we do not work in a vacuum. By constitutional design, the three branches of government, in differing roles, contribute to the administration of justice. Our role is to promptly but carefully decide cases according to law, equally to all people. But it is up to you, the legislature and the governor, to provide the tools and resources we need to carry out these enormous responsibilities.

As you can see, we are doing our part to watch expenses and operate within our budget constraints. With your help, we can do more. We have many sound ideas for statutory changes that would reduce costs, improve services, and enable us to do more with our existing resources. These include allowing one clerk of court to manage more than one office, realigning district court judges through attrition, delaying the filling of judicial vacancies for budgetary reasons, eliminating outdated statutory duties, and streamlining a multitude of procedures.

We suggested most of these changes to you last year, but you did not approve them. Clearly in times such as these we should not cling to the status quo. We urge you to reconsider these ideas, which have been submitted as prefiled bills. The benefits are too great to pass up.

### **Reorganization of Judicial Districts**

One of the statutory changes we seek would establish a process for regularly reviewing and adjusting the configuration of the judicial districts. The organization of the districts has not changed for thirty years.

The court views the general concept of redistricting as a valuable tool in any comprehensive plan to effectively manage judicial resources. It has the potential to give us greater flexibility in the equitable distribution of judicial staffing power throughout our state. Given the severe budgetary constraints facing us as an institution, we cannot afford to ignore the administrative efficiencies redistricting offers.

Last month, the Court received the report of its advisory committee on judicial branch redistricting. In response to its charge, the committee proposed alternative administrative structures to address changes in demographics and judicial workload that have affected court services since our current eight-district structure was established. We commend the committee, and especially its chairs, Chief Judge David Remley and businessman David Oman. Their thoughtful analysis, enhanced by their initiative in seeking public comment, deserves our appreciation.

As our Commission on Planning for the 21st century said in its 1996 report, the Court should periodically evaluate the administrative effectiveness of the district boundaries and suggest legislative changes when appropriate. We feel it's appropriate now. After careful consideration, the court has decided to recommend legislation for redrawing judicial district boundaries. Due to the complexity of implementing such changes, we anticipate that the new boundaries would become effective no sooner than July 1, 2004.

Moreover, we do not view redistricting as an isolated or short-term solution. To be truly effective, any redistricting plan must be complimented by other important initiatives, some of which I have mentioned.

### **Impact of Legislation on Court**

There is another way you can help. The courts are charged with the responsibility of deciding cases brought before them. We have no control over the number of cases presented. Nor should we. Though well-intentioned, legislation nearly always adds to our workload. We ask that when debating new laws, you carefully consider the impact your actions have on the court system. More responsibilities without commensurate resources sometimes make for poor results.

### **Conclusion**

I began this report talking about achievements and challenges—we have our share of both.

We are heartened by recent accomplishments that bolster our efforts to serve the people of Iowa. Our new procedures to expedite appeals of termination of parental rights cases are a huge benefit to troubled children and families, reducing the period of

uncertainty in their lives. Technology is an enormous help to us, making us more efficient and accessible, bringing the courts closer to the people. Our achievements are cause for optimism in these otherwise gloomy times.

Certainly, we face many challenges. The greatest challenge, for all of us, will be to continue performing our constitutional responsibilities to the people despite Iowa's present fiscal hardships. While the problem is serious, it is not insurmountable. We must find lasting solutions to our problems. We have offered you many ideas for sensible changes that would help us place scarce resources where we need them most, enabling us to deliver affordable and high-quality judicial services to the citizens of Iowa, now and in the future. We cannot act unilaterally; these changes require your approval. Although we as citizens know of the demands being made upon you, we trust you will respond to the needs of the justice system. It is in the public interest to do so.

And finally, we are grateful for our dedicated judges and court employees, whose collective talents, resourcefulness, and perseverance, enable the courts to make progress and to pursue our mission with vigor. The ultimate measure of these dedicated public servants is being proven over and over again in these times of great challenges.

Thank you.

Governor Vilsack, Governor Ray, Lieutenant Governor Corning, Chief Justice Lavorato, members of the Court, distinguished elected officials, family, friends and Iowans everywhere.

It is an honor to be here.

Four years ago, when I first had the privilege of taking the oath of office as Lieutenant Governor, I thought I knew Iowa. After all, I was born here, went to school here, lived her all of my life.

Boy, was I wrong.

During the past four years, I have had the privilege to work with Governor Vilsack on issues ranging from work force development to mental health to ending domestic violence and child abuse. I have appreciated the governor's commitment to making me a full partner in all the decisions of this administration, in word and deed.

This job of Lieutenant Governor also has given me an opportunity to learn about Iowa and Iowans in ways I never could have imagined. One of the most surprising experiences in this learning process was my weeklong Discover Iowa Tour in the spring of 2001.

In an effort to promote more tourism by Iowans within Iowa, I visited the arts, cultural, and historical attractions of 36 communities in every corner of our state.

I discovered a vibrant arts and cultural scene that I was only vaguely aware of, despite all my years of living here. Our ethnic heritage is celebrated with the foods and customs and arts of the Native American, English, German, Italian, Irish, Dutch, Norwegian, Czech, French, Danish, African, Asian, Pacific Islander, Mexican, Bosnian and Sudanese. All have been newcomers in their time. Each has added richness and texture to our communities—and to our state.

On this wonderful tour of the world within Iowa, I relearned the power of the arts to teach and inspire us in ways that nothing else can. And I rediscovered that, despite all the differences in our backgrounds and traditions, there are common values that unite us.

One of those Iowa values is our spirit of community, of neighbor helping neighbor, of reaching out to those in need.

Four years ago in my inaugural speech, I pledged to honor that spirit by volunteering once a week, somewhere in Iowa.

And week after week, whether for an hour or an afternoon, this has been one of the most rewarding, inspiring, and encouraging experiences of my life. I have had the opportunity to work side-by-side with hundreds of Iowans—young and old—in communities large and small as we have tried to make Iowa a better place to work and live.

Of the hundreds of projects on which I worked, some stand out—like the Saturday spent clearing brush in the Loess Hills near Council Bluffs, or the afternoon leading a sing-along at the nursing home in Ames, or helping blind students with the band saw in the industrial arts class at the Iowa Braille and Sight-Saving School, or serving a meal at a domestic violence shelter in rural Iowa, or interviewing a young student looking for a match at the Big Brother Big Sisters program in Sioux City.

But perhaps the experience that stands out most in my mind is the day that I helped with craft projects at the day center for dependent adults in Cedar Falls.

In one of those mysterious incidents that touch us in a special way, I found myself face-to-face with a woman in her late thirties or early forties whom I had known as a child. She was the daughter of my high school principal, and she had a mental disability. As a teenager growing up in Vinton, I was her baby-sitter.

Life is a circle, and somehow, in that moment, I understood how everything about my life had prepared me in some small way for my current responsibilities.

Governor Vilsack said in his inaugural address four years ago, “Iowa is great, because Iowa is good.”

I have seen that goodness in our citizens and in the shared experience of helping others. It has confirmed my belief in the importance of honoring volunteerism, and in fostering public-private partnerships to make our communities better and stronger.

There is so much to do. While we know that government can do a lot, government cannot do it alone.

And here in Iowa it doesn't have to, because all across our state there are good people making a difference in the world by making a difference in their own communities and neighborhoods.

I have met hundreds of people who have moved to Iowa from other states or countries, or who left Iowa at one time and have now returned. And when I ask them why they want to live in Iowa, they all say something that can be boiled down to the words: “quality of life.”

It is our great schools, our safe streets and communities, our caring neighbors, our good hospitals and nursing homes. It is the 15-minute “rush hour” or the ease with which you can get tickets to a ball game or the symphony or can participate in a community chorus or little theatre.

These are things native Iowans often take for granted, but that others envy. (One recent transplant from the Big Apple told me, “I love Iowa. I’ve seen more Broadway shows since I moved here than I saw in all my years in New York.”)

As we seek to strengthen Iowa in the years ahead, we must place a renewed focus on economic development—because a good job with a future is what will draw and keep people here.

But economic development is about a lot more than just economics. If we are to grow, and grow we must, we need to create an environment attractive to the next generation of dreamers, inventors, and doers.

Study after study has shown that good schools, good housing, safe neighborhoods, and amenities from parks and libraries to cultural attractions are even more important than economic factors in a company’s choice of where to locate—and a family’s choice of where to live.

We have that special quality of life here in Iowa. It is a unique ingredient that can help us attract new businesses and new residents to our state.

And we must strive to ensure that our special Iowa quality of life is available to all our residents—no matter their backgrounds or the obstacles they face in life.

Among the family of Iowans are racial, ethnic, and religious minorities, gays and lesbians, people with mental illness, the poor, the abused and neglected, and the physically or mentally challenged.

We must call upon the very best of our Iowa values—our sense of community—to remove the barriers that keep us from tapping our full pool of talents as we seek to realize the economic and human potential of our state.

In the next four years, let us work to create an environment that allows people to step out of the shadow of poverty and abuse, and out of the closet of shame and fear; an environment that closes the achievement gap in schools and the workplace; that supports people with disabilities to live and work in the mainstream of community life; that respects the spiritual practices of every faith; that showcases the best of who we are to the rest of the nation and the world.

This is what will inspire young Iowans to build their futures here, as well as, attract new residents to our state.

This is the path to a brighter future, offering hope and opportunity to all our citizens.

This is the good Iowa we are, and the even greater Iowa we can be.

Thank you.

The Des Moines Gay Men's Chorus performed "The Promise of Living" by Aaron Copeland.

The oath of office was administered to Governor Thomas J. Vilsack by Chief Justice Louis A. Lavorato, assisted by Mrs. Christie Vilsack.

President Kramer presented Governor Thomas J. Vilsack who delivered the following inaugural address:

My fellow Iowans:

I came to Iowa in August 1970.

It was because of a girl.

I was 19, in college, and in love.

This girl invited me to come here and meet her family.

I got in my car and drove for 13 hours. I crossed the Mississippi at Burlington—it was the first time I had ever been that far west—and before I left, I had fallen in love for the second time.

The first time, of course, was with the girl.

The second time was with the state.

Your state. My state. Our state.

I was, naturally, predisposed to have nice thoughts about Iowa. After all, a state that produced as smart, as pretty, as wonderful a girl as Christie Bell had to be a pretty special place.

But I was instantly taken by Iowa's beauty, by her people, and by her land. I started noticing the rivers, the trees, the fields, the prairie flowers. I noticed the colors. I thought to myself, the state is as pretty as the girl.

On my first evening in Iowa those 33 years ago, Christie and her family took me to a potluck supper in a cabin on the banks of the Skunk River in Henry County. I saw there two things—really my first two impressions of Iowans. I saw a sense of pride—pride in the quality of the pies and the stews and the dishes that folks brought to the potluck. And I saw a sense of community—a joy of being together, a wisdom shared between old and young, a caring about those things we should care about, a concern about those things we should be concerned about, and most of all, a simple gratitude of being able to be among friends and one 19-year-old stranger.

But that's the wrong word. I never felt like a stranger from the moment I crossed that bridge at Burlington. For me, that bridge spanned more than Mississippi. It brought me to a new life as well as a new land—one where small towns are more than a place to live. I've learned that they represent a lifestyle and values worth preserving—Iowa values—hard work, self-reliance, family, community.

It's a life, I've come to realize, that is bound tightly to the rich land that God handed to us and to the strong values our ancestors bred in us. From the beginning, Iowa's success has been rooted in its rich soil and natural bounty. That is still true today, and it will be tomorrow if we have the vision to seize the opportunities of the future. A parent can give a child only a few things of real worth—love, values, knowledge, and an education. And those are the things our ancestors have passed onto us. A great capacity to love this land and the people on it, the strong values of hard work and honesty and sharing, a knowledge of our land and ourselves, and one of the best educational systems in the world.

A sense of pride, and a sense of community.

All of that, we have in abundance. Those are the strengths we must build on.

Our values, our land, our schools, and, most of all, our people. Those are the resources we must marshal to build the New Iowa. For, ladies and gentlemen, we must build a new Iowa. We must build a New Iowa that encourages entrepreneurship from within and attracts development from afar. We must build a New Iowa that guarantees the best education for all, from preschool through college and beyond. We must build a New Iowa that has the resources, and the will, to take care of the needy and the ill—the physically ill and the mentally ill—as well as our natural resources—the land, air, and water. We must build a New Iowa so rich in opportunities to succeed and so varied in resources to enjoy that our sons and daughters will want to settle here and sons and daughters from elsewhere will want to move here—even if they aren't pursuing a pretty girl from Mount Pleasant.

But wishing won't make it true.

We must act.

We must change.

Whether or not we act, we will, of course, change. But without bold actions, the change that comes will be change for the worse. For if we do not manage change, change will manage us. We have already begun to act. Through the partnerships forged by Vision Iowa—partnerships involving cities and counties and schools and private interests—through those partnerships, we are committing upwards of \$2 billion to make Iowa a better place for those of us lucky enough to live here and a more attractive place for those seeking to move here. From the spectacular new waterfront in Dubuque to Music Man Square in Mason City to the canals and windmills of Pella, we are putting Iowa on the tourism map, the economic development map, and the let's-just-have-some-fun map. We are building trails and libraries and skate parks and community centers—as well as the wondrous new downtown in Des Moines and riverfronts in Davenport, Sioux City, Council Bluffs, Waterloo, and Clinton, along with Dubuque.

This is part of the New Iowa.

And it is just a start.

It shows, though, what we can do in this great state. It shows how we can build spectacularly on our values and our resources to provide good jobs and clean fun. It

shows we can work together—city with county, school with town, state with everyone—to leverage our dollars and our ideas and our energies. And it shows, most of all, that good ideas are abundant in this wonderful state, and that there are legions of good people ready to bring those ideas to life. It shows that dreams can come true.

But only if we accept change. No, we must do more than accept it. We must embrace it.

Embracing change means a new, focused economic development effort. Changing our economy from one of low-priced agricultural commodities and lower paying jobs to one of high-priced agricultural ingredients that feed, fuel, and heal; that create wealth through high-paying jobs held by highly educated workers. The state must act as a catalyst for change building on the lessons of Vision Iowa and creating a resource to transform our economy. The state must remove barriers by simplifying our income tax system and reforming our property tax system.

We must embrace the new technologies while reaffirming the old values. We must find ways to identify and encourage the Henry Wallaces and John Vincent Atanasoffs of this generation. It is not accident that the greatest agriculture scientist in American history—Henry Wallace—was an Iowan. It is no accident that the genius behind the most important technological advancement in American history—John Vincent Atanasoff—did his work in Iowa. The environment for them was there. But now we must redouble our efforts to encourage the entrepreneur, the genius, the innovator, by providing the resources and the atmosphere for innovation and invention.

Embracing change means continuously improving education. Our values require that we remain a leader in education. We must commit to better preparing our children for school by supporting early childhood education. We must encourage more of our children to attend college. If they are to earn more, they must learn more.

We cannot just tinker—we must reinvent. For example, expanding educational opportunity by giving students access to online courses, enabling schools to combine courses to widen course selections, and encouraging consolidation where it improves educational opportunity becomes important in a regional system.

By doing so, we can tell those looking to invest in Iowa: “Put your business here—it’s best for your needs.”

We’re making progress as class sizes are falling; test scores are rising. But we need to do better.

There will be risk. Some ideas may be difficult to accept or implement. It will not be easy. However, I sense an already great amount of cooperation between this legislature and our administration. We are dedicated to getting the job done.

To get the job done, we must manage the power of partnerships between governments at all levels and between the public and private sectors. We can do little alone. We can do anything together.

We must take risks—as individuals and as a state. We must not be afraid to lead, not be afraid to fail.

We must be dogged in our pursuits, as dogged as Arabella Mansfield, as dogged as Alexander Clark.

Arabella Mansfield was born in Burlington, was educated at Iowa Wesleyan in Mount Pleasant, and taught at Simpson and then at Iowa Wesleyan. Even though there were no women lawyers in America, she studied law in a law office in Mount Pleasant and then applied for admission to the bar in 1869. After reading her paper, the examiners said that her performance gave “the very best rebuke possible to the imputation that ladies cannot qualify for the practice of law.” They then certified her as the first woman to be admitted to the bar of any state in the union.

She took risks. She wrought change.

Alexander Clark Jr. was a loving father who thought his twelve-year-old daughter should attend the neighborhood school in Muscatine. The school board didn’t think so. It said it had a special school for children like her—a separate school for “colored” children. This was in 1868, and Mr. Clark sued on behalf of his daughter. The Supreme Court said of course Susan Clark could go to the neighborhood school. Whether we are African, German, Irish, French, or English, it said we are “one harmonious people” and we all should be treated alike.

He took risks. He wrought change.

We were then, and we are today, “one harmonious people.” Irish escaping famines of the 1840’s were among the first people to settle in Iowa, and they were quickly followed by Norwegians, French, Swedes, and Germans. A look at the names of our counties tells the story. Lajos Kossuth was a Hungarian patriot. Will Smith O’Brien was a leader for Irish independence. Marquis de la Fayette—for whom Fayette County was named—was a French statesman. Frederick Bremer was a Swedish author. Baron Friedrich von Humboldt was a German scientist. We must continue to be one harmonious people. We must continue to welcome anyone and everyone to this state so they enjoy the blessings of the liberties we prize, and we can gain from the skills and productivity they bring.

“The liberties we prize.” That’s one half of the Iowa motto. “Our liberties we prize and our rights we will maintain.” We must never forget that motto, for those liberties and rights define our state every bit as much as our fields and factories do. We have fought dear to preserve those freedoms. When Abraham Lincoln asked for troops in 1861, Iowa Governor Samuel Kirkwood said we would send one regiment. But we had tenfold that number of volunteers, and ultimately provided 48 regiments of infantry, nine regiments of cavalry, and four batteries of artillery—more than 75,000 men, about a tenth of the population of the entire state. Thirteen thousand of those men died—a higher percentage of loss than any other Union state sustained—and another 8800 were wounded.

But our liberties were saved, our rights were maintained.

The world had changed markedly since I stood before you four years ago. The national economy is weaker. Let us never forget the budget problems we have in state government reflect the day-to-day struggles of people from our state. We lost revenue. They’ve lost jobs and incomes. We struggle with rising health care costs. They can’t find a doctor. We cut and scrimp to pay our bills, and so do they.

We face new battles—a war on terrorism at home, and, soon perhaps, a war on terrorists abroad. Already, Iowans have lost their lives to terrorists. Already, our National Guard has been called up—we are bracing for the worst, hoping for the best. In difficult times our values get tested. We must be ever vigilant in protecting our liberties as well as our rights. We should not allow the terrorists to destroy our rights any more than our liberties. Our Iowa constitution is as precious as our Iowa soil. Both must be tended with care.

In the past four years, Christie and I have traveled this state from corner to corner, border to border, river to river. We will continue to do so in the years to come. We never cease to be impressed by the landscape and awed by the people, the young and the old. We have talked with farmers and teachers and doctors and truck drivers, and as often as not, they ask us: “What can we do for you? What can we do for Iowa?”

I’ve thought about that, and there is an answer.

You can dream of a better Iowa.

You can act by embracing change for a better Iowa.

Dream your dreams. Plan on how to turn them into reality. Then work to do it.

The next 12 months for this state are the most critical 12 months the state has faced for as long as I’ve lived here. Reforming the tax system. Redesigning the education system. Re-examining the issues involving health care. Reworking the whole theory of economic development. These all must be explored. These things are all huge undertakings.

But if all of us—farmer and factory worker, teacher and student, firefighter and chief executive, governor and legislator—if all of us dream and plan and work, if all of us are willing to take bold steps, to risk failure, to build on our strengths, to love our past and embrace our future—if we’re all willing to do that, we’ll have a New Iowa where all of us thrive and prosper, where we can have jobs and have fun, where we can learn and lead, where we can live and love.

By seizing the opportunities of a new transformed economy and by embracing change, we can preserve and maintain the values we cherish for generations to come. This is our challenge. This shall be our legacy.

You don’t always have to cross a bridge at Burlington to get to a new land.

Sometimes, you can make a new land right where you are.

God bless you, our great state, and our nation.

The Capitol View Elementary Children’s Chorus of Des Moines sang “Iowa” by Meredith Wilson.

# JOURNAL OF THE SENATE

SIXTEENTH CALENDAR DAY  
TENTH SESSION DAY

Senate Chamber  
Des Moines, Iowa, Tuesday, January 28, 2003

The Senate met in regular session at 8:31 a.m., President Pro Tempore Angelo presiding.

Prayer was offered by the Reverend Dan Witkowski, pastor of St. John's Lutheran Church in Des Moines, Iowa. He was the guest of Senator Seng.

The Journal of Monday, January 27, 2003, was approved.

Senator Tinsman offered tribute to Senator Lyle Zieman, former member of the Senate from Allamakee County, Postville, Iowa, who passed away on January 25, 2003. Senator Tinsman read the following poems written by Senator Lyle Zieman:

## **LIFE'S JOURNEY**

When we come to the end  
of life's journey's lane  
And we gaze at the sunset  
and in joy explain  
that after the sunset  
comes the bright morn  
and ask of the Lord  
that we will be reborn.  
May we meet our friends  
that have long been passed  
and thanks to the Lord  
we have held to His grasp  
Let us think of the joys  
we have to use  
and they continue  
as He shall choose.

**NO MORE CLOUDS**

I'm sure there've been times in all our lives,  
when we felt we would like to turn back.  
But this, my friends, is the impossible task  
for we all must face the facts.  
It's up to us to accept and cope  
the hardships we've endured  
and not be overcome by some fantastic lure.  
But with faith and hope in that ray of light  
that is trying to come through our door  
May we open it wide and let it shine in,  
so the clouds will be no more.

A moment of silence was observed by the Senate in memory of Senator Lyle Zieman.

**ADJOURNMENT**

On motion of Senator Veenstra, the Senate adjourned at 8:44 a.m. until 8:30 a.m. Wednesday, January 29, 2003.

Senator Drake presented Michael Blouin, Director of the Iowa Department of Economic Development, who addressed the joint convention:

This has got to be from Cal Hultman. Those who can't see this, it's a fish drawn on a piece of paper. Cal and I, years ago, used to go at it in committees and on the floor, and one time he cornered me and he said, "You know, you're making that argument so often, it's starting to smell like dead fish." And from that point on—you have to know me, I did make the arguments quite often—from that point on, Cal and I used to slip each other a fish when we got tired of listening to what the other was saying.

Cal, I haven't said a word yet, and you're already giving me a fish.

This is a very heady place to stand. I am deeply honored to be here. One of your previous speakers from a few years ago mentioned to me the other day when he heard I was going to speak that it was a great opportunity—all the old folks start stumbling back in here, limping down the aisle, and reminiscing about how great things were.

And I said to myself, you know, I'm one of those old folks. And I'm not limping yet. Although by the time this session is over, I might well be.

It is an honor, honestly, to be here—to be asked to be a speaker to this assembly. When Senator Drake invited me several weeks ago, I assumed it was just to give a few comments at the luncheon. I had no idea until later that it was an invitation to speak to this joint session. And I was first humbled, and secondly scared, because there is, frankly, nothing more petrifying than to attempt to speak to former colleagues and peers. Especially when I realize that those so many years ago, we all may have been colleagues, but I was far from a peer.

As some of you might recall, I was the ripe old age of 22 when I was first elected and 23 when I took that first oath of office. I was so wet behind the ears, I didn't even know I was wet behind the ears. To this day, it still amazes me that the people of Dubuque were so willing to take a chance on someone this young. Not only young, but Dubuque had the reputation as being somewhat provincial, and I wasn't even a native. Yet they sent me here anyway—probably to get me out of town.

I spent the six shortest years of my life in this beautiful building. Short—because the time just flew by—and this building—where the past meets up with the present and always seems to create reasons for hope for the future.

My memories of those years are too many, and for some, probably too boring to relate to you in total. I'd like to try to share some of those thoughts with you anyway, and share them in no particular order.

When I first arrived here I was so naive, I actually thought I could live well on the pay that we were given. Forty dollars a day including expenses for 100 days, not a day more, and one round trip home a year at ten cents a mile. It was the best reason that I could think of for being from Dubuque. A 400-mile round trip equaled forty dollars, and it was like receiving another day of session pay free. I soon realized how poor I was, and when the session ended, the realities became clearer.

As a Catholic schoolteacher, my job was gone as of January, and I had to find other work. We adjourned, if I remember rightly that year, May 23, 1969—the earliest exit of our years here. Two days later our twin daughters were born, and life changed again. But as tough as we thought things were then and to our own circumstances, they were nothing compared to the problems that others who came those same years faced in their own situations. People who came here with successful businesses, only to see their client base erode as the weeks of absence from home began to take a toll on their business. Some actually lost their companies in just a few years of serving the same people that they were trying to represent—and serving them, frankly, for peanuts.

1968, some of you might recall, was the year of the constitutional amendments—annual sessions were approved, annual salaries and expenses, restructuring and resizing of the legislature to 100 members of the House and 50 members of the Senate and home rule approved for our cities and towns that year. We acted quickly in those days, implemented the major changes mandated by our fellow Iowans, and became known nationally as one of the most progressive legislatures in the country. As some of you might recall, I quickly earned the well-deserved reputation as someone who would enter nearly any debate for almost any reason, single-handedly adding days to the length of each session.

In 1970, on one occasion—on the occasion actually of our daughters' birthday—we brought them to the floor for a look-see. One of them grabbed the microphone and began gabbing away, prompting the Speaker of the House Bill Harbor, at that point, to comment that they clearly were their father's daughters.

Suzanne and I developed many lasting friendships from our six years here, and we gained some valuable life lessons as well. I gained a lot of insight into the geniuses of personal beliefs and personal feelings from guys like Senator George Milligan on the abortion issues. George and I came at it from very different sides, but both of us, in talking about it, learned that our beliefs were deeply rooted in our own personal faith.

I learned about the deep-seated integrity of legislators who put their jobs here ahead of their personal businesses, their own personal wealth—most vividly taught to me by two guys in the Senate, Gene Kennedy and Chuck Laferty.

I learned to argue with Cal Hultman in committee during the day, and at night spend a lot of time playing bridge without any sign of the clash that took place just hours before.

I watched Bill Gannon and Grumpy Fisher sit across the aisle from each other and fight like two mad cats, yet wink when it was over like they were family.

I watched Dewey Good, who sat over here and was a throwback from the turn of the century—as street smart and savvy a legislator as there was—change minds in the heat of a debate with fewer words than anyone in the chamber.

I learned also what it meant to really be in the minority. As I recall, our 100 plus House members had only 24 of us who were Democrats, and we were so few that one particular day the House passed three bills while we were in caucus before they realized we were gone. Bill Harbor ruled that it was in order, and Bill Kendrick, the Clerk of the House, found a rule somewhere that backed him up.

Back in those days, neither chamber was air-conditioned and tools like funnels hadn't been invented yet. So sessions would last well into June. And things would get rather heated, both figuratively and literally. Well, the Senate had a coat rule. Members were required to wear a coat whenever the Senate was in session. I was never one to really follow rules and wasn't really good at doing what I was told. So one particular day, with the help of some misguided and almost unemployed pages, I made my own coat out of a copy of *The Des Moines Register*. Art Neu was Lieutenant Governor and was sitting in the chair when I walked in. I'd never seen him get so angry so quick. The coat disappeared, never to be seen again. The only comment I heard afterwards was from someone to the effect that it was the preferred use for that paper. I don't believe that anymore, if anybody's listening.

Those years came and went all too fast in the midst of rather extensive change of the state. They were learning years for me. They contributed greatly to my ability to find gainful employment in the years ahead, and to a great degree, those years helped me become the person that I am today, good or bad. And for that I am personally, extremely grateful. Politics is an honorable profession, an honorable calling, and let no one tell you anything different. It's filled with honorable people, men and women who clearly are not in it for the money, but who truly wish to make Iowa an ever better

place to live. We are fortunate, you and I, each one for being able to call this beautiful land our home—some by birth, some by chance, all by choice.

I've had an over forty-year-long love affair with this place. In my brief time on this earth, I've had the opportunity to visit all 50 states and over three dozen countries. Honestly, I can find some reason why I'd be able to live, even enjoy living, in every one of those places. But nothing compares to Iowa. And I often find myself asking why, what is it that makes Iowa, in at least my mind, so special? It's not the winters, which can be brutal, but at the same time, can be incredibly beautiful. It's not the summers which can be hot as an oven, yet as inviting as any place on earth I've ever been. And we don't have the mountains and oceans of a lot of states. So what is it? Why do I love this place so much? I've come to believe that it's the people. The geniuses of those who call Iowa their home. It's the concern we share for one another, for our past, our present, our future. It's the care we share for the land and for all our natural resources. And it's the way we dig in and fight for what we believe in. How we can stand touching noses, as Meredith Wilson said, for a week at a time and never see eye to eye. He had to have this place in mind when he wrote those words. While at the same time each of us will put out our hearts, our souls, our own possessions to lend a hand to anyone in need. It's no wonder why groups like United Way set records year after year all across Iowa. We're a people of faith, diverse faiths who seek guidance each in our own way and who try to live our lives in response to the guidance we receive. We're a people of hope who, while playing to the past, reach out to the future with the knowledge that somehow, some way, what lies ahead of us will be better than what has already come. We're people of love who care deeply about our country, our state, our family, our friends, our neighbors, and our God. All this is what I believe brought all of you to public service. You care about what happens in your collective careers. And in your collective caring, you care about what happens to Iowa, because Iowa is a treasure worth preserving.

All this is what brought this current legislature together this January—to deal with some of the toughest issues this state may ever face, and to do it in the most bipartisan fashion I've ever seen in my 35 years of following this process. All this is what allowed me to say, "Yes," to the Governor when he called this past winter and asked me to head up the Department of Economic Development. It wasn't sanity. It was a belief in this state. And a desire to want to make a difference.

The problems we face as a people are huge. But the spirit of Iowa, Republicans and Democrats, rural and urban, east, west, north, south, will lead us to solutions which will make life better for all of us and our children. Why do I believe this? Because we always have and we always will. It's what we do best as Iowans.

Representative Gipp moved that the joint convention be dissolved at 2:40 p.m.

The motion prevailed by a voice vote.

The Senate returned to the Senate chamber.

## ADJOURNMENT

On motion of Senator Iverson, the Senate adjourned at 2:40 p.m. until 8:30 a.m. Thursday, April 10, 2003.

By virtue of Senate Concurrent Resolution 21, duly adopted, the day of May 1, 2003, having arrived, President Kramer declared the 2003 Regular Session of the Eightieth General Assembly adjourned sine die.

## MESSAGE FROM THE GOVERNOR

May 1, 2003

The Honorable Mary Kramer  
President of the Senate  
State Capitol  
LOCAL

The Honorable Christopher Rants  
Speaker of the House  
State Capitol  
LOCAL

Dear President Kramer and Speaker Rants:

Throughout our state's history, Iowans have valued education, hard work, self-reliance, community involvement, generosity to our neighbors, and responsible stewardship of the land, air, and water. Challenging times give us an opportunity to assess our values, and to make changes that will support those values.

This, the first session of the Eightieth General Assembly, gave us the opportunity to address these shared Iowa values. Even in these difficult economic times that have most states reeling from budget cuts and shortfalls, we have a unique opportunity to make the bold changes necessary to grow Iowa, preserve our values, and strengthen the quality of life that has long sustained our state.

Developing and drafting consensus language that creates the Iowa Values Fund has been a historic achievement accomplished by both the majority and minority members of the House of Representatives during the regular session. I look forward to working with the State Senate to act on the Iowa Values Fund.

Two pieces of significant legislation that were accomplished during the regular session were to lower the level of alcohol needed in a person's blood to be presumed drunk from .10 to .08 BAC, and the proposal to reorganize and streamline state government.

This was the third consecutive legislative session that I have called for a bill to lower the blood alcohol rate to .08. The tougher standard corresponds with a projected 10-16 lives saved in Iowa per year. This has always been an issue of safety.

I had called on the legislature to create the Department of Administrative Services (DAS) last session and am pleased that this session DAS was sent to me. DAS will streamline services, improve services to customers, enhance resource flexibility, and save money.

I intend to continue to work with legislators to lay the foundation for a more prosperous future for our state. When the people of Iowa work together on a common goal, we can accomplish anything.

Sincerely,  
TOM VILSACK  
Governor

May 9, 2003

The Honorable Mary Kramer  
President of the Senate

LOCAL

The Honorable Christopher Rants  
Speaker of the House  
State Capitol  
LOCAL

I hereby submit the Proclamation setting the Extraordinary Session of the Iowa Legislature to convene at 10:00 a.m., Thursday, May 29, 2003.

Sincerely,  
THOMAS J. VILSACK  
Governor

**STATE OF IOWA**  
***Executive Department***

In The Name And By The Authority Of The State Of Iowa

**P R O C L A M A T I O N**

**Whereas**, the 2003 Regular Session of the Eightieth General Assembly adjourned pursuant to Senate Concurrent Resolution 21, and

**Whereas**, beginning with my 2003 Condition of the State speech and continuing throughout the legislative session that adjourned last week, Iowans repeatedly called on lawmakers to pass the Iowa Values Fund and approve a FY 2003 state budget that funds vital state services, and

**Whereas**, the Iowa Values Fund will transform the Iowa economy by creating 50,000 high-paying jobs, promoting industry clusters and regional economic development, improving our quality of life and school facilities, and enhancing university research and workforce development, and

**Whereas**, the Iowa House of Representatives already passed the Iowa Values Fund in a historic and strongly bi-partisan vote last week, and community and business leaders support the Iowa Values Fund as an essential step to creating a more vibrant economy, and

**Whereas**, the General Assembly failed to pass a FY 2004 budget that adequately funded vital state services and protected the health, safety, and welfare of Iowa citizens, and

**Whereas**, Iowa cannot wait to create the Iowa Values fund and cannot afford to underfund vital state services, since doing otherwise will jeopardize the future of Iowa families.

**Now, Therefore**, I, Thomas J. Vilsack, Governor of the State of Iowa, in accordance with Article IV, Section XI, of the Constitution of the State of Iowa, do hereby proclaim that the Eightieth General Assembly shall convene in extraordinary session in Des Moines, Iowa, at 10:00 a.m. on the 29th day of May, 2003, and to that end I do call up and direct the members of the House of Representatives to convene in the House chamber at the State capitol and members of the Senate to convene in the Senate chamber at the State capitol at 10:00 a.m. on the 29th day of May, 2003, for the purpose for which the General Assembly is convened, namely the matter of approving the Iowa Values Fund, a FY 2004 state budget that will protect Iowans' health, safety, and welfare, and matters properly related thereto.

(SEAL)

IN TESTIMONY WHEREOF, I have hereunto subscribed my name and caused the Great Seal of the State of Iowa to be affixed. Done at Des Moines, Iowa, this 9th day of May in the year of our Lord two thousand three.

THOMAS J. VILSACK, Governor

Attest:

CHESTER J. CULVER  
Secretary of State

## GOVERNOR'S ITEM VETO MESSAGES

May 30, 2003

The Honorable Chester Culver  
Secretary of State  
State Capitol Building  
L O C A L

Dear Mr. Secretary:

I hereby transmit Senate File 433, an act relating to and making appropriations to the Department of Economic Development, certain Board of Regents Institutions, Department of Workforce Development and the Public Employment Relations Board for the fiscal year beginning July 1, 2003.

Senate File 433 continues current levels of funding for the World Food Prize and the workforce development fund account. It maintains funding for immigration service centers and provides a small increase to fund operations of the Public Employment Relations Board.

This administration has made clear from the first day of the 2003 Session that our top priority is transforming Iowa's economy. This goal, which we share with a majority of legislators from both parties, can only be accomplished with a significant investment in Iowa's future—an investment that is provided through the Iowa Values Fund. While Senate File 433 funds some important services Iowans rely on every day, it is completely inadequate and does not provide the commitment this state needs to retain our current employers, attract new businesses, incent business expansion, and create the high-paying jobs needed to keep our children and grandchildren living here.

It is vital the Legislature take action immediately to approve an Iowa Values Fund to send a strong message that Iowa is open for business. In the meantime, we must continue to provide the services that are funded through this bill. Senate File 433 is, therefore, signed on this date with the following exceptions, which I hereby disapprove:

I am unable to approve the item designated as Section 1, subsection 3. As I indicated last year, the Accountable Government Act establishes a comprehensive, enterprise-wide process for setting program goals and establishing results measures. These measures have been developed with data currently being compiled. This section would create redundancies in the development and reporting of goals and results measurements for the Department of Economic Development.

I am unable to approve the designated portion of Section 10, subsection 2. This would require that small business development centers be located equally throughout the different regions of the state. This bill contains no instruction as to the legislative meaning or intent of "located equally throughout the different regions of the state." As such, the bill is terminally vague making compliance impossible.

I am unable to approve the items designated as Section 10, subsection 3, paragraph b.; Section 11, subsection 2, paragraph b.; and Section 12, subsection 2, paragraph b. These sections would require any business or individual receiving benefits from specified Regent programs to have a commercially viable service or product. This legislative mandate would have an unacceptable dulling effect on innovation. Iowa should be encouraging entrepreneurship. This section of Senate File 433 would have the opposite impact.

I am unable to approve the designated portion of Section 15, subsection 2. This would restrict the expenditure of additional penalty and interest revenues to accomplish the mission of the department to provide safe workplaces and steady employment. The director of the Department of Workforce Development currently has the authority to reassign unused penalty and interest funds. We must maintain that flexibility to reallocate dollars when needed to ensure the safety and employment security of working Iowans.

I am unable to approve the item designated as Section 20. Expenditure information for executive branch agencies of state government is currently available to the economic development appropriations subcommittees and the Legislative Fiscal Bureau on a daily basis through the Iowa Financial and Accounting System. The Legislative Fiscal Bureau also has the authority to request expenditure information from Regent universities. The reporting requirement in this section would duplicate existing data and place an unneeded and unprecedented requirement on limited staff resources.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 433 are hereby approved as this date.

Sincerely,  
THOMAS J. VILSACK

Dear Mr. Secretary:

I hereby transmit Senate File 452, an Act relating to and making appropriations to state departments and agencies from the Rebuild Iowa Infrastructure Fund, Environment First Fund, and Tobacco Settlement Trust Fund, relating to the Capitol complex parking structure, and authorizing fees.

Senate File 452 is, approved on this date, with the following exceptions, which I hereby disapprove.

I am unable to approve the items designated as Division IV, Sections 28, 29, and 30 in their entirety. These sections would require the establishment of a parking fee for

the Capitol complex parking structure located at Pennsylvania and Grand avenues. Iowans should be encouraged to participate in their democracy by parking free to visit their State Capitol and the state office buildings surrounding their State Capitol. Charging parking fees at the newly constructed parking structure located at Pennsylvania and Grand Avenues operates as a hidden tax for the visiting public and would discourage some from exercising their fundamental rights as citizens. Such a fee should not have been and will not be sanctioned or approved.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 452 are hereby approved as this date.

Sincerely,  
THOMAS J. VILSACK

Dear Mr. Secretary:

I hereby transmit Senate File 453, an act relating to state and local government financial and regulatory matters, making and reducing appropriations, providing a fee, increasing civil penalties, and providing applicability and effective dates.

I hereby approve Senate File 453 on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the designated portions of Section 31, subsection 1. These items deal with the allocation of the reduction in appropriations to the three Regent universities. It is important that the Board of Regents have the complete flexibility in making these reductions across their appropriations.

I am unable to approve the item designated as Section 31, subsection 2. This subsection sets up a legislative interim committee study on a policy option of levying charges for capital assets against all state agencies. I have previously stated that I do not support this idea and, therefore, do not support the study.

I am unable to approve the item designated as Section 38 in its entirety. This section requires the Department of Education to establish a task force to conduct several studies regarding the structure, funding of area education agencies and the delivery of media services, educational services, and special education services. The section also requires a study of special education, including identification and remediation procedures, the early intervention block grant program, intensive instruction and tutoring, and reading instruction.

These studies would duplicate work already completed and are unnecessary. Thanks to the cooperative efforts of area education agencies, school districts, and the department of education studies have already been undertaken and recommendations for improvement have been implemented. In addition an accreditation process has been established improving accountability and the efficient and quality services. One third of the AEAs are in the process of merging next year and this will create additional efficiencies. I agree that resources needed for special education requires special attention and thus I am recommending that the department of education establish a task force to review special education finance.

At the beginning of this legislative session, it was clear that although our fiscal difficulties were not as severe as many other states, Iowa was facing a budget shortfall. Given that the budget must be balanced, we know that those tasked with the responsibility of balancing the budget would inevitably reduce aid to local government. We worked with legislative leaders to make sure that the reforms included in Senate File 453 would give real hope to Iowans that some services can be improved even as less money is spent.

Additionally, my office worked hard to ensure that the federal stimulus package included direct fiscal relief for states and cities to help lessen the burden imposed by Senate File 453. While the federal stimulus package passed last week included \$189 million in aid to Iowa, the Legislature has indicated they will not direct any of those vital dollars to cities and counties.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 453 are hereby approved as this date.

Sincerely,  
THOMAS J. VILSACK

Dear Mr. Secretary:

I hereby transmit Senate File 458, an act relating to public expenditure and regulatory matters, compensating public employees, making and reducing appropriations, modifying sales and use taxes, modifying the investment tax credits and premium taxes on mutual insurance associations, providing for related matters, making penalties applicable, and providing effective dates.

Senate File 458 is approved on this date with the following exceptions, which I hereby disapprove:

I am unable to approve the item designated as Section 13 in its entirety. This section prohibits local governments from prorating state funded property tax credits to

taxpayers based upon the amount of the appropriations available in relation to total credit claims. I am concerned that this provision would further reduce funding for local governments, beyond the significant reductions that have already been made.

I am unable to approve the item designated as Section 23 in its entirety. This language creates a new funding stream for a single county hospital. I am sympathetic to the struggle of a hospital providing services to the poor and needy. However, creating an inequity is no way to properly help a struggling hospital. Appropriate Medicare reimbursement is a more appropriate remedy for the ills of a struggling hospital.

I am unable to approve the item designated as Section 103 in its entirety. This section places sanctions based on the performance, or lack of performance, on outcomes for young children. This appears to set the stage for increased pressure of inappropriate assessment of young children as well as unrealistic expectations on Community Empowerment Areas to show a percent of improvement. In addition, the language regarding penalties by a reduction in funds for not meeting an established percent improvement does not support the purpose or intent of Community Empowerment.

I am unable to approve the items designated as Sections 106, 107, and 153 in their entirety. This language would change the merit status of the Iowa Law Enforcement Academy's director. This change is punitive and unnecessarily would destabilize the position and the work of the director.

I am unable to approve the item designated as Section 110 in its entirety. American justice requires that those wrongly injured by the negligence of others have the right to fully recover any damages for their injuries. No system of justice can reverse the physical effects of an injury, but justice can be served when an injured party is made financially whole. Section 110 creates a privileged class of wrongdoers—those who hurt and injure attendees at a county fair. Efforts to create such a special class of wrongdoers that is immune from suit in a budget bill adds insult to injury.

I am unable to approve the item designated as Section 133 in its entirety, which will allow the sanitary landfills with an active methane collection system to accept yard waste. This action will be a major step backwards for integrated solid waste management creating a need for communities to expand existing facilities or find new property for landfills. Yard waste is best managed at a composting facility and is one of the keys in improving Iowa's water quality. Collecting methane from landfills is still relatively inefficient. As urged by numerous recycling groups who support integrated solid waste management, pollution is best prevented by not disposing of yard waste at a landfill.

I am unable to approve the item designated as Section 145 in its entirety. This proposed language undermines the existing process that already exists in Code of Iowa (904.76) authority to sell land. This process can be utilized for any possible land purchases and must be maintained to ensure the security needs and future long-term needs of the department that may arise.

I am unable to approve the item designated as Section 146 in its entirety. This language directs the Department of Revenue and Finance to pay a claim that has been

denied. An appeal was heard and a decision rendered denying the claim. The integrity of the State Appeal Board must not and will not be compromised.

I am unable to approve the item designated as Section 147 in its entirety. This language directs the State Appeal Board to pay a claim that had been denied. The Department of Education previously denied the claim. No appeal was filed and the time expired to do so. The integrity of the State claims process must not and will not be compromised. This section appears to infringe on the authority of the executive branch and State Appeal Board.

I am unable to approve the item designated as Section 151. This section provides funding from team-based variable pay moneys for a reading instruction pilot program. This proposed program would duplicate current efforts under the federally funded reading program, Reading First, and take critical funding away from the team-based variable pay program.

I am unable to approve the item designated as Division VII, Section 156, subsections 4, 7 and 8 in their entirety. These sections deal with smallpox vaccinations. Subsection 4 would require a set aside of Homeland Security federal funds for an unauthorized purpose. Subsection 7 requires vaccinations to be administered by a specific process which at this time is not approved by the FDA. Subsection 8 gives inappropriate duties and responsibilities for the coordination of vaccines and pharmaceuticals to the Emergency Management Division. Such supplies should emanate from the Center for Disease Control to the Health Department.

I am unable to approve the item designated as Division IX of SF 458, which provides a process for the privatization of the Iowa Communications Network (ICN), in its entirety. The design and implementation of the ICN does not easily support privatization. Careful study of a plan to privatize the network should be done with consideration of the network architecture, critical facilities, as well as the impact to education and homeland security.

Education has been and continues to be one of the highest priorities of this administration. I do not believe that potential adverse impacts on our State's education system were given adequate, if any, consideration. All levels of education depend upon the ICN for provision of education throughout Iowa. The ICN also plays a vital role in our state's homeland security. All homeland security functions would need to be maintained. In some cases, this would require new federal waivers and new agreements involving federal departments. These may not be easily forthcoming.

An issue of the magnitude of the State's fiber optic network should be worked through the legislative process as a separate bill, receiving full consideration by committees and adequate information for full debate. This amendment was attached during the final hours of the legislative session and left inadequate time for the public, including authorized users, the Commission or ICN staff, to provide information to policy makers in order for them to make a fully informed decision.

I am unable to approve the item designated as Section 179 in its entirety. This section limits the creation of a local government organization review committee to only counties with a population in excess of 100,000. Creating one process for large urban counties and not allowing small rural counties unnecessarily discriminates between

local governments located in urban and rural areas. We are and should always be one Iowa. This important value is compromised in Section 179.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 458 are hereby approved as of this date.

Sincerely,  
THOMAS J. VILSACK  
Governor

### GOVERNOR'S VETO MESSAGES

The Honorable Chester Culver  
Secretary of State  
State Capitol Building

Dear Mr. Secretary:

I hereby transmit Senate File 173, an Act authorizing school districts to deduct and pay fees for membership in not-for-profit professional education associations.

Iowa school districts continue to deal with increasing costs, additional burdens from the No Child Left Behind Law, and less money to accomplish necessary results. Therefore, I am unable to approve the language because this bill adds to that increased burden by requiring additional payroll deductions. Also, the definition of professional education association is too broad. This will lead to abuse and/or litigation regarding the discretion of districts to define the term "professional education association."

For the above reasons, I hereby respectfully disapprove Senate File 173.

Sincerely,  
THOMAS J. VILSACK  
Governor

Dear Mr. Secretary:

I hereby transmit Senate File 343, an Act relating to operation permits for public disposal systems and providing an effective date.

I am unable to approve Senate File 343, which would exempt publicly owned wastewater treatment facilities from obtaining or complying with National Pollution Discharge Elimination System permits in response to a change by the Environmental Protection Commission in the use designation of a cold water stream receiving the discharge of the disposal system until the Commission adopts by rule methods for the review of use designations of cold water streams.

I have several concerns with this bill. First, it states that a publicly owned treatment works does not have to obtain a permit under certain conditions. Both existing state and federal law require that these permits be issued to these treatment works. The state cannot, by statute or rule, create a situation where unauthorized discharges are allowed. To legislate in this manner would unduly jeopardize the permitting authority currently delegated to the state by an agreement with the U.S. Environmental Protection Agency.

Second, this bill is aimed at only cold water streams and not streams with other classifications. Legislation related to the operation of public disposal systems should address all public disposal systems, not just those that discharge to cold water streams.

Third, Senate File 343 is an attempt to address the problem of stream classification faced by a specific city. The legislation is now unnecessary because of steps being taken by the Department of Natural Resources (DNR). DNR is currently working on a scientifically sound system of reclassifying the use designations of streams in Iowa. The Department is doing this work using a technical advisory committee of experts, affected industries and public entities. The DNR's approach more comprehensively and appropriately addresses the problem that the bill attempts to address. Furthermore, DNR has agreed to grant the city in question a permit under the existing system, with DNR reserving the right to review the permit if classifications are changed in the future.

I have made it a priority to protect and improve the water quality of our rivers, lakes and streams. In my Condition of the State address this year, I made it part of my Leadership Agenda to eliminate the state's impaired waterways by 2010. Later this year, we will hold a Water Quality Summit to bring stakeholders together to start taking important steps to better protect our water resources. Protecting our water resources ensures that Iowans have safe drinking water as well as recreational and tourism opportunities that we cherish. This bill is unnecessary and contradicts our goal of protecting Iowa's waterways and water resources.

For the above reasons, I hereby respectfully disapprove Senate File 343.

Sincerely,

Dear Mr. Secretary:

I hereby transmit Senate File 390, an act relating to procedures for local government consolidation (charter government) and allowing the formation of local government empowerment committees.

Although I am supportive of charter governments in theory and agree that some local government mergers could reduce bureaucracy, streamline services, and save significant taxpayer dollars, I am unable to approve Senate File 390.

Current law allows for the formation of new relationships between local governments. Government at any level should adhere to the American ideal of, *for and by the people*. Senate File 390 seeks to fundamentally change the way elections may be held at the local level without securing first the consent of the governed. For this most basic respect the bill is fatally flawed.

This act also limits the creation of a local government organization review committee to only counties with a population in excess of 100,000. Creating one process for large urban counties and not allowing small rural counties to form committees unnecessarily discriminates between local governments located in urban and rural areas. We are and should always be one Iowa. This important value is compromised in Senate File 390.

For all these reasons above, I hereby disapprove Senate File 390.

Sincerely,  
THOMAS J. VILSACK

3 line 6, and inserting the following:  
4 “A Resolution to support the efforts of President  
5 George W. Bush and the United States Armed Forces  
6 to disarm Iraq.

7 WHEREAS, twelve years ago, Saddam Hussein faced the  
8 prospect of being the last casualty in a war he had  
9 started and lost; and

10 WHEREAS, to spare himself, Saddam Hussein agreed to  
11 eliminate all weapons of mass destruction from his  
12 country's arsenal, but, for the next 12 years, he  
13 instead pursued the acquisition and stockpiling of  
14 chemical, biological, and nuclear weapons, even while  
15 international weapons inspectors were in his country;  
16 and

17 WHEREAS, nothing to date has restrained Saddam  
18 Hussein from his pursuit of these weapons -- not  
19 economic sanctions, not isolation from the civilized  
20 world, and not even cruise missile strikes on his  
21 military facilities; and

22 WHEREAS, the United Nations concluded that Saddam  
23 Hussein had sufficient materials to produce more than  
24 38,000 liters of botulinum toxin, enough to cause the  
25 death of millions of people by respiratory failure,  
26 and that Saddam Hussein has never accounted for those  
27 materials and has not produced evidence that those  
28 materials have been destroyed; and

29 WHEREAS, American intelligence officials estimate  
30 that Saddam Hussein also had as much as 500 tons of  
31 sarin, mustard, and VX nerve agents that have been  
32 accounted for and have not been shown by Saddam  
33 Hussein to have been destroyed; and

34 WHEREAS, United States intelligence indicates that  
35 Saddam Hussein had upwards of 30,000 munitions capable  
36 of delivering chemical agents, 16 of which were  
37 discovered recently by inspectors, despite Iraq's  
38 declaration denying the existence of those munitions,  
39 and that Saddam Hussein has not accounted for the  
40 remaining 29,984 of those prohibited munitions, and  
41 has not produced evidence that they have been  
42 destroyed; and

43 WHEREAS, three Iraqi defectors have stated that, in  
44 the late 1990s, Iraq had several mobile biological  
45 weapons laboratories, designed to produce germ warfare  
46 agents and capable of being moved from place to place  
47 to evade inspectors, the existence of which Saddam  
48 Hussein has not disclosed and the destruction of which  
49 he has not produced any evidence; and

50 WHEREAS, the International Atomic Energy Agency

Page 2

1 confirmed in the 1990s that Saddam Hussein had an  
2 advanced nuclear weapons development program, had a  
3 design for a nuclear weapon, and was working on five  
4 different methods of enriching uranium for a bomb; the  
5 British government has learned that Saddam Hussein

6 recently sought significant quantities of uranium from  
7 Africa; and American intelligence sources report that  
8 Saddam Hussein has attempted to purchase high-strength  
9 aluminum tubes suitable for nuclear weapons  
10 production, and that Saddam Hussein has not given a  
11 credible explanation for these activities and  
12 consequently has much to conceal; and  
13 WHEREAS, intelligence sources have informed the  
14 United States that thousands of Iraqi security  
15 personnel are at work concealing documents and  
16 materials from the United Nations inspectors,  
17 sanitizing inspection sites, and monitoring the  
18 inspectors themselves, and that Iraqi officials  
19 accompany the inspectors in order to intimidate  
20 witnesses; and  
21 WHEREAS, this dictator who is assembling the  
22 world's most dangerous weapons has already used them  
23 on whole villages -- leaving thousands of his own  
24 citizens dead, blind, or disfigured; and  
25 WHEREAS, Iraqi refugees report that forced  
26 confessions are obtained by torturing children while  
27 their parents are made to watch and international  
28 human rights groups have catalogued other evil, cruel,  
29 and horrible methods used in the torture chambers of  
30 Iraq, including electric shock, burning with hot  
31 irons, dripping acid on the skin, mutilation with  
32 electric drills, cutting out tongues, and rape; and  
33 WHEREAS, almost three months ago, the United  
34 Nations Security Council unanimously adopted  
35 Resolution 1441, giving Saddam Hussein his final  
36 chance to disarm, but, instead, he has chosen to show  
37 utter contempt for the United Nations and for the  
38 opinion of the world; and  
39 WHEREAS, the United States has continuously  
40 consulted with other nations regarding the best policy  
41 for disarming Iraq and over 20 nations, including the  
42 United Kingdom, Spain, and Italy, fully support the  
43 United States policy on Iraq; and  
44 WHEREAS, the United States Armed Forces that would  
45 be engaged in any hostility in Iraq are the finest  
46 troops ever assembled and many of these troops,  
47 including thousands of lowans serving either on active  
48 duty or as part of a national guard or reserve unit  
49 that has been activated, are assembling in or near the  
50 Middle East; and

Page 3

1 WHEREAS, some crucial days and hours may lay ahead  
2 in which the success of the cause to disarm Iraq will  
3 depend on these troops, the excellent training they  
4 receive, the call to honor that guides them, their

5 belief in America and their knowledge that America  
6 supports and believes in them; and  
7 WHEREAS, sending Americans into battle is the most  
8 profound decision a President can make, for while the  
9 technologies of war have changed, the risks and  
10 suffering of war have not; and  
11 WHEREAS, for the brave Americans who bear the risk,  
12 no victory is free from sorrow, and even though this  
13 nation fights reluctantly, the nation knows the costs  
14 and dreads the days of mourning that always come; NOW  
15 THEREFORE,  
16 BE IT RESOLVED BY THE SENATE, That the Iowa Senate  
17 expresses support for President George W. Bush, the  
18 President's cabinet, and the men and women of the  
19 United States Armed Forces for their courage and  
20 commitment to disarming the nation of Iraq and  
21 removing Saddam Hussein from power; and  
22 BE IT FURTHER RESOLVED, That the Iowa Senate  
23 supports the efforts of American troops to protect and  
24 defend the nation against those who seek to harm it,  
25 but, out of concern for the safety of those who would  
26 risk their lives, respectfully urges and requests the  
27 President of the United States not to initiate a  
28 preemptive, unilateral military strike against Iraq;  
29 and  
30 BE IT FURTHER RESOLVED, That the Iowa Senate  
31 respectfully urges that if the United States does take  
32 military action against the sovereign nation of Iraq  
33 that it only be done with the official approval of the  
34 United Nations Security Council as required under  
35 international law; and  
36 BE IT FURTHER RESOLVED, That the Iowa Senate  
37 respectfully urges that the United States and United  
38 Nations Security Council have as one of their primary  
39 objectives the introduction of democratic values and a  
40 democratic form of government for the sovereign nation  
41 of Iraq and its citizens."

36 submit the proposed amendment to the voters at a  
37 general election or at a special election and, in such  
38 an event, the amendment becomes effective only upon  
39 approval of a majority of those voting within the  
40 city-county consolidated area.  
41 b. If an election is held, the governing body  
42 shall submit the question of amending the charter to

 48 2. “Malice” means either conduct which is  
 49 specifically intended by the defendant to cause  
 50 tangible or intangible serious injury to the plaintiff

Page 4

 10 actual malice. This burden of proof shall not be  
 11 satisfied by proof of any degree of negligence,  
 12 including gross negligence.  
 13 Sec. \_\_\_\_ NEW SECTION. 668A.4 PUNITIVE OR  
 14 EXEMPLARY DAMAGE LIMITATIONS.  
 15 1. Except as provided in subsection 2, an award of
